INTRODUCTION

I, Yoshua, from the Constellation of Stars close to the sixth dimension, Spokesman of the Brothers of the Stars and Aide-de-Camp of the Regent of the Plane of Love of the Pure Skies incarnated in Alfonso de Adamuz, tell you through Him: **“Behind the apparent reality, the real thing is the spiritual battle waged between the Light and the defeated Darkness, turning the demons into *scorched earth* on the way to the Abyss.”** In COSMIC INFILTRATES we will share with you what we have seen and heard from the Brothers of the Stars infiltrated in Institutions, Parliaments, Public Administrations, Armed Forces and Law Enforcement of certain States, and in International Organizations and major Media.

The cosmic infiltrators are Brothers of the Stars of the fifth dimension, exceptional witnesses of everything that is happening and plotting behind the backs of the People in dens of power and organizations of Darkness. They are not seen by those being monitored, because they adapt their vibration frequency to a frequency not perceived by the human eye, remaining invisible.

The Brothers of the Stars on a Mission of Love on Earth pilot and crew ships built millennia ago, which we can make visible or invisible by adapting their vibration frequency.

The infiltrated Star Brothers are external cosmic infiltrators, because the Father of Heaven and His Son, the Co-Regent of the Infinite Jesus, the Christ, are internal infiltrators. They are the Life in every inhabitant of the Earth, in the disembodied souls, in the demons and in the cosmic beings that populate the Worlds of the Infinite Universe, and in those that populate the Worlds of the sixth, fifth, and fourth dimensions of the Finite Universe. They see and hear everything.

Therefore, the Father and Jesus, the Christ, and the cosmic infiltrators know what the demons, their instruments, and those seduced by “them” intend to do. And so do the members of the Cosmic Forces and the Regent of the Plane of Love incarnated on Earth.

At the end of this cosmic cycle, everything that has been done in the past and in the present against the sons and daughters of the Infinite, against Mother Earth and the

Beings and existences of the Kingdoms of Nature, comes to light, because the Infinite has been raising the vibration frequency of the dense energies attached to the souls of the incarnated demons, to the souls of the demons of the invisible plane and to those of their instruments, erupting.

According to what was decreed by the Father of Heaven through the Regent of the Plane of Love incarnated in Alfonso de Adamuz, they will pay 1x1,000 of what was caused in this time and in previous existences to the sons and daughters of God and to the Kingdoms of Nature. Their enhanced magnets will attract what corresponds to what was caused. And those who now live on Earth will depart to the realms of atonement, thus ceasing the creation of dense energies and the irradiation of energies attached to their souls from millennia ago.

We transcribe what was decreed by the Father of Heaven. You have it in the Introduction of “MANUAL TO RETURN TO THE ORIGIN”:

“The Father began to irradiate with High Frequency Vibration the dense energy fields lodged in the cosmic bodies-souls of the demons incarnated in Rulers, instruments and commanders of Armed Forces and Repression. It will be an act of Love towards these sons and daughters of His, because when these fields of dense energy enter into increased vibration, the organs of their human envelopes will go into dysfunction. Thus their souls will stop being darkened, and they will have less to atone for in the Areas of Timeless Time for the pain and suffering caused to their fellow men and to the beings and existences of the Kingdoms housed by Mother Earth for millennia and centuries. At the same time, what they believed would remain hidden will erupt. And it will be known by the Peoples of this World. Amen.”

As many of you know, we are at the service of the Father of Heaven, of Jesus, the Christ, and of the Regent of the Plane of Love of the Pure Heavens incarnated on Earth, whom we protect, help and will help in the fulfillment of his Mission of Love during the events of the collapse of the civilization of dis-Love.

Many of us have also incarnated on Earth to help and serve our human brothers in the time of horror that Humanity will live, reaping what was sown by those who live on Earth at this time, or what was sown by them in previous existences.

Yoshua, Spokesman of the Cosmic Forces

1. Destruction of the States by infiltrators of the Darkness.

This civilization began to collapse. With their scorched earth actions, the incarnated demons dynamited its material pillars, necessary for man's survival on the face of the Earth.

Behind the bad things caused by the faction of the demons who did not accept their defeat by the Light, is the scorched earth action in their flight to the Abyss of everything that could help the New Humanity to survive.

We, the cosmic infiltrators, report that all the bad things that happen on Earth are caused by the small faction of demons who did not accept their defeat in the battle against the Light millennia ago.

It happened that countless cosmic beings from the ranks of Darkness recognized their defeat. Their Hierarchies handed over their scepter to the Regents of the Seven Planes of the Pure Heavens.

They recognized the error that led them to provoke the Fall, the detachments of parts of the Pure Worlds, of the Homeland of Light.

The small faction of demons who did not recognize their defeat continued their fight against the Light on Earth, its last bastion of radiation in the depths of matter. This is why the Co-Regent of the Infinite was incarnated on this planet in Jesus of Nazareth.

We, the cosmic infiltrators, have witnessed what these demons have caused in their useless battle against the Light. They will capitulate, concentrated in their base in the Abyss.

Addicted to power, they oppressed the Peoples incarnated in tyrants and kings of dynasties perpetuated by the right of succession, imposed on the Peoples of the Earth.

When the Peoples began to become States as social units of organized coexistence inspired by the Infinite, they continued to incarnate in royal families, as vassals of the Popes of the Church of Rome. Their mission has been to subvert the teaching and the example of the life of the Son of God incarnated in Jesus of Nazareth.

As kings by the grace of God [which god?] they continued to hold power as kings of parliamentary monarchies when the People began to elect at the polls representatives of popular sovereignty gathered in Parliaments.

There were and are also those embodied in certain heads of state of well-known Western republics, known for their fruits, addicted to wars, to sending hundreds of thousands of children of God to the battlefields and trenches to be massacred and mutilated. Also addicted to arms sales, to coups d'état, and to plundering the wealth of the Peoples of the Earth.

Constantly monitored by Us, the demons and their instruments abused the word Democracy, used as a decoy to infiltrate the State Institutions.

Organized in political parties, they promised in electoral campaigns what they did not fulfill when they came to power.

They even usurped the power granted by the People. Legitimized by the electoral processes, they used laws and public resources to enter the sewers of power.

“Democratic” rulers imposed the Reason of State.

They have been using the ballot box to seize the levers of power. Many were and are incarnated demons, instruments of invisible demons based in certain Parliaments, visitors to the seats and offices of parliamentary groups. Infiltrating thought, invisible demons influence wills, induce legislation and the promulgation of ‘legal’ laws to benefit those they know well, or ‘legally’ attack those who dedicate their resources, assets and efforts to the common good. Or they are publicly critical of the rulers who serve the Darkness.

We, the *cosmic infiltrators*, have already denounced that incarnated demons are violating the Social Contract signed with those who voted for them, believing that they bleated like sheep when they were wolves.

And we continue to denounce that unfulfilled Social Contracts are null and void. Therefore, the citizens-State who brought certain rulers to power with their votes do not have to comply with the laws that violate their right to health and life (false mRNA “vaccines”), their freedoms, their constitutional and human rights, and threaten their property and the common good. Or they start and fuel wars causing endless deaths, suffering and destruction of towns, cities, factories and resources provided by citizens-State. Or they lie to them and send their children and their peers to war to lose their lives in the trenches and battlefields, until they shed every last drop of their blood for the country.

These are the words of rogue rulers, while they live entrenched in mansions, offices and parliamentary headquarters. And they promulgate laws and decrees by parliamentary majority, by agreements in closed-door offices, in which we are present without being seen by them.

As *cosmic infiltrators* we see well-known demons of the Satanic Hierarchies walking through Parliaments like landowners through their fields. They are experts in mentally influencing those who claim to represent the Peoples of this World.

They remember the State-citizens and State-citizens when the time to go to the polls approaches. They are addicted to perpetuating themselves in power and living at the expense of the Peoples.

It must be said that there are just rulers in countries on Earth.

We know the *cosmic infiltrators*. And when they are stalked by the Darkness, we protect them in times of danger for them. They deserve it. God watches over the just of the Earth.

On the importance of being citizens and citizen-States, the foundations of States and true Democracy, we insert chapter 3 of the book “Between Ether and Earth”.

WE ARE THE STATE»

«In these times the State is being attacked by Darkness.»

«We are the State. Every citizen is the State.»

We are the foundation of the State and its Institutions, with unavoidable duties to be fulfilled anonymously, which have an impact on the good of each and every citizen of the State, and on the common good of the Social Community of the State.

A territory without inhabitants is not a State. Therefore, each citizen and citizen-State can affirm as a political and social subject:

”I am a State.”

Those who attack the life, health, rights and freedoms of citizens and citizen-states, and the inviolable property of their bodies, attack the State, which is Us, Natural Law and the Rule of Law.

«We are the State, the foundations of States, because a territory without inhabitants is not a State.»

The architects of the false pandemic attacked us, the foundations of the States. They attacked the sovereignty of each State as a unit of organized social coexistence inspired by the Infinite since ancient times.

2. The right to resistance, rebellion and revolution.

We, the *cosmic infiltrators*, have been on a mission to help and serve humanity since ancient times. From ships or on land, with the vibration frequency modified to one different from that of the human eye, we have witnessed rebellions and revolutions when people have suffered the oppression and tyranny of kings and rulers. The human shells of those who started the rebellions and revolutions are different, but a great majority of souls have been the same ones who incarnated in different human shells and times. And the experiences lived were and continue to be recorded in their souls.

There are many who have preferred and prefer to die with dignity rather than live without rights or freedoms, overwhelmed by camouflaged demons, who liked to be legitimized in power by the ecclesiastical hierarchies.

We *cosmic infiltrators* affirm that the right to rebellion and resistance against the oppressive ruler is justified when he violates constitutional and human rights, freedoms and the right to health and life. Thus violating the principle of equality, rooted in the Origin, right, prerogative and permanent gift of the cosmic beings incarnated on Earth.

3. You will know them by their laws, articles and votes in Parliament.

Everything that exists on the face of the Earth is unleashed and agitated in this time of increased vibration frequencies, in which the right to resistance, rebellion and revolution has been recognized to the Peoples to confront tyrants and illegitimate rulers, or who came to power by lying to those who voted for them for what they promised in the electoral campaigns, and violated their rights and freedoms.

There are politicians who knowingly lied, who later would not fulfill what they promised in the electoral campaigns if they came to power. We know

them. They are also well known by the demons who visit them and subtly penetrate the magnetic bases that they have installed in the cellular groups of their brains, taking possession of their wills.

“You will know them by their laws, articles and votes in Parliament” we say today, paraphrasing the Co-Regent of the Infinite in Jesus of Nazareth.

We, the cosmic infiltrators in the Parliaments of this World, see the theatrical behaviour of those addicted to going up on the stages of Parliament. They have been rehearsing it legislature after legislature, until it has become the norm for the actors elected by the sovereign Peoples, who live with their backs turned to those who voted for them, but like to hear themselves when they speak in front of the cameras of the television channels using expressions and words typical of political jargon.

Those who voted for them do not understand what these parliamentary actors say when they are at home in front of the TV screens.

We *cosmic infiltrators* know of laws that were mentally dictated by those who walk through Parliaments, like landowners walk through their lands.

We are exceptional witnesses of how the demons have plotted to carry out coups d'état by introducing themselves into the Institutions of the States that the sovereign Peoples had given themselves.

The destruction of the States by the demons from within their Institutions, because the States are social units of organized coexistence inspired by the Infinite, God, has been a priority objective of the demons in turning everything that could help the New Humanity and serve the establishment of the Kingdom of Peace on Earth into scorched earth in their flight to the Abyss.

“I, the Infinite, inspired My children of the Earth in ancient times to create the State as a social unit of organized coexistence while they remain incarnated in bodies on Earth as a human species.”

(From “Between Ether and Earth” <https://www.entreeleterylatierra.es>).

4. Creators of Pandora's Box.

The situation is chaotic. What is left to corrupt? 'Subversive' ethical and moral values survive like maquis in the jungle of the unethical.

[From “Between Ether and Earth” <https://www.entreeleterylatierra.es>]

From the rubble of anti-ethics and material destruction, the harvest of dis-Love, the Kingdom of Peace will flourish, as a bastion of Love and Peace erected by the Cosmic Man and the Cosmic Woman, the foundations of the foundations of the New Humanity.

We, the *cosmic infiltrators*, are exceptional witnesses of what has been caused since ancient times by demons incarnated on Earth. It is written in the pages of the History of Humanity.

They are invisible to the human eye, but not to Us, your Brothers of the Stars. “They” have been seducing human beings to act through them like gloves for their hands, creating magnetic bases in their brains, becoming possessed instruments through which they look, speak and act.

They are the ones who dynamited the foundations and the Institutions of true Democracy, the prompters of certain parliamentary actors, main protagonists on the stages of the great political theatre of this World.

They are the ones who presented the anti-ethical as an ethical value.

They are the ones who subverted the natural Order of procreation on Earth.

They are the ones who made truths out of their Lies disguised as theories.

They are the ones who presented the Good as Bad and the Bad as Good.

They are the creators of apparent peace. Of destruction. Of chaos. Of lack of Love. Of the manipulation of the DNA of the genetic inheritance of human beings. Their bodies would stop being creations of God, becoming patented bodies.

They are the creators of wars, necessary to live in “peace”. The apparent one.

They are those who proclaimed that dying for their homelands would be the seeds of living in peace for their children and future generations.

They are those who instituted dis-Love as a common norm to quickly ascend the rungs of the ladder of success by stepping on the hands of their peers.

They are those who preached constitutional rights and freedoms from the media pulpits. Their strategy to violate them.

They are those who created division by degenerating Unity. They are those who prostituted Equality to establish spiritual Death and the Slavery of souls.

They are those who, in the name of Freedom, created chains and iron boots to trample the necks of those who looked at the stars. Their names are in the pages of the History of Humanity.

They are the murderers of Fraternity, diggers of their own graves.

They are the blind who opened paths along the cliffs of dis-Love and anti-ethics to go ahead of other blind people towards the precipice. Do you know them?

They are those who measure others with the Golden Rule of Ethics, but they do not measure themselves. You will know them by the lead of their fruits, those who like to paint them gold. Seeing how they paint them, many will evoke the wonderful Jesus of Nazareth.

They are the creators of Pandora's Box, but they never managed to extinguish the Flame of Hope.

We cosmic infiltrators remind the creators of Pandora's Box that time is energy. What is created at any time, day and hour remains active, whether it is lead or gold energies. In their case, they created lead energies: The magnets of the low vibration frequencies created by the demons at all times are active.

Thus everything will be known, revealed by the Father of Heaven. He makes everything New, because what vibrates at the frequency of Darkness will not form part of the foundations of the Kingdom of Peace.

5. Pages from the History of Humanity on the demons infiltrating the Institutions of States.

We, the *cosmic infiltrators* in the structures of Power, affirm that the evils known in this World have been caused by incarnated demons, incarnated women, and by governments faithful to their slogans, legislating to promulgate laws and govern by decrees that include what benefits instruments of Darkness. Look at the Official Publications of the States.

A book could be written about the actions of those who belong to the sphere of Darkness. For you we begin pages that you can complete, if you so wish.

5-Page 1. – Getting in touch with the hidden reality.

See if there are laws that justify support policies, donations of equipment, weapons and resources to peoples at war. Investigate, in order to exempt yourselves from responsibility, where these weapons and resources really are, if they have reached the hands of arms dealers and terrorist groups of any ideology or tendency.

We *cosmic infiltrators* know where and into whose hands the weapons that kill and mutilate sons and daughters of God have reached, destroying homes, businesses, schools and hospitals, for example. Weapons donated by acts of political will behind the backs of the People, but paid for with resources contributed by the People.

Know that these same weapons will be attracted by the magnets of the souls of all those involved, without exception. Everything is energy, and each energy field vibrates with a certain frequency. Therefore they will return like a boomerang to the countries from which the donations and sales of weapons came.

Investigate the origin of everything that causes irreparable damage to the environment due to actions not supervised by specialists.

Investigate and be the voice of the beings of the Animal and Plant Kingdoms who suffer and die, being innocent.

Investigate why human communities were harmed by the diversions and contamination of aquifers that, for centuries, have led to the settlement of these human communities, harmed by the actions of corporate corporations that build infrastructure without preventive studies.

Investigate corruption and who is behind the multinationals and international or national organizations that cause deaths, threaten health, affect crops and food production, or want to privatize drinking water supplies, these waters being a public good, as examples.

Investigate how governments react to the actions stated as examples. And their participation.

5-Page 2.- In the European Union, those who sank the ship of the Economy want to refloat it.

We *cosmic infiltrators* know that among those who launch the boomerang of economic sanctions against other Peoples, which returns against the States they govern, are those who sank the ship of the European Union Economy, a bastion fixed on its scorched earth.

They are the architects of corruption, co-creators of the false pandemic and of the pandemic of the Unvaccinated invented by “them”. They are the ones who tried to legislate to forcibly inject the Unvaccinated with the synthetic mRNA genetic poison.

Ursula Von der Leyen now wants to lead the way in refloating the ship of the European Union economy that has been sunk by her and others well known to us, including Mario Draghi, who has presented to the MEPs a trial balloon report in which he estimates that some € 850.000 million will be needed to refloat the ship sunk by those who want to refloat it. We know well who Ursula von der Leyen embodied. The peoples of the European Union will search in their pockets for the euros they will need to survive. They are already suffering from the scorched earth policies planned by “them”, the devils.

Now they want to refloat the ship of the European Union Economy that they sank. Countless citizens and citizen-states know that those who sink a ship cannot refloat it. But they have already announced to the Peoples of the EU the astronomical figure that the citizens and citizen-States will have to contribute to refloat the ship that they sank.

The feat of sinking the ship of the European Union Economy is part of the scorched earth of the incarnated demons. It generated an enormous bill of lead thrown into the depths of the Ocean of the Law of Cause and Effect.

The souls of those who suffered and died from the genetic poisons of the fake vaccines injected into their bodies, purchased by Ursula von der Leyen, are helping to ensure that this lead appears on the beaches of the Peoples. She paid huge amounts of money, still unjustified. The European Court of Justice ruled against her for the lack of transparency in the purchase of vaccines against Covid-19.

he souls of those who started the rebellions and revolutions are waiting for their moment in the streets, in the seats of Parliament and in the political offices.

Their souls, incarnated in other human shells, are among those who have nothing to lose. The souls communicate with each other. They travel around the Earth.

They know that they have been deceived. Among them is the soul of David Sassoli, who knows Ursula von der Leyen well, an expert in advising others to inject themselves with what she did not inject herself with.

«The disappearance of Israel as a State will be the earthquake that will cause the tsunami that will finally sink the global economy. Not long after, the World War will begin.

We, the cosmic infiltrators, affirm what was transmitted by Joshua about Israel and the USA. It was written by A. D'Hertzáurea in chapter 13 of “**Between Ether and Earth**”, a book that began to be distributed worldwide in the spring of 2022.

«Before the so-called Third World War begins, Israel will unexpectedly disappear as a state. Israel will never be a state again. Not long after Israel disappears, the Great War will begin between all the Peoples of the Earth.

«Those who are beating the drums of war loudly do not expect that this Great War will reach the continental territory of their country, the United States of America. Once their sources of supply and storage of fossil fuels are neutralized, they will be put out of action. At the same time they will have to deal with the effects of natural disasters caused by the Elemental Forces of Fire, Water, Earth and Air, which will purify this vast territory of the magnetism “foreign” to Mother Earth.

The United States will not be able to raise its head either, with the States being divided in a “every man for himself” situation. This is what the United States has wanted, causing wars, destabilizing governments and destroying millions of lives, property and means of subsistence of many peoples of the Earth, as the gendarme of the world Order, according to them, throughout its existence as a State. They will inexorably attract what has been caused in this time of accelerated changes. This is what they have wanted, this is what they will suffer.”

5-Page 3. Making scorched earth in his flight to the Abyss, feats of incarnated demons.

We, the **cosmic infiltrators**, have long known the names and faces of incarnated demons related to what We have said.

Incarnated demons sit on the boards of directors of companies, large media outlets, Cultural Foundations used by Parliaments to produce laws that favor their interests, donating five-zero spillovers to well-known names and faces.

Incarnated demons took power “legitimized” by electoral processes. Thus they act like arsonist firefighters, pretending to put out fires caused by themselves.

They asked for large loans to meet the costs of the false Covid-19 pandemic created by “themselves” and the World Health Organization. To massively inject over and over again doses of the so-called “vaccines” including mRNA, while “they” were injected with placebos in front of the cameras.

We, the *cosmic infiltrators*, affirm that the false pandemic of Covid-19, as an episode masked by demons in their fight against God, was created by incarnated demons who took power in certain governments, by demons from the invisible plane and their instruments in the pharmaceutical companies that created the genetic product and in the World Health Organization and major media outlets, headed by television networks.

Without the support of the major television networks, the “pandemic” created by demons and their instruments would not have existed.

5.-Page 4 – The demons' actions of turning scorched earth into the Abyss confirm their defeat by the Light.

We *cosmic infiltrators* say that the so-called “pandemic” has been the greatest global attempt by the demons to turn scorched earth in their flight to the Abyss, since they already knew that they would be defeated by the Light.

The magnitude of this evil attempt attests to their great defeat, to which are added the defeats of all the actions of turning scorched earth that have been carried out by the incarnated demons, their instruments and the demons of the invisible plane.

The destruction by the Great and Last War between the Peoples of the Earth of everything they believed to be their domain, but which never was, so that it could not serve as help, survival and refuge for the New Humanity, also attests to the magnitude of their defeat by the Light.

The faction of the demons knew that the time of their defeat would come. And so they planned to make scorched earth, and to die destroying and killing like the great reptiles in their death throes.

This is what they have been doing and continue to do. You have an example of this in the actions of destruction and death of Israel, supported by the USA, and other countries of the so-called anti-Christian West.

They have confined themselves to their Base of the Abyss, as the only refuge where they can remain due to their frequency of vibration.

In the Abyss they will capitulate when their frequency of vibration is raised by the Infinite, because they will have no refuge to flee to.

From there the souls of the demons and their instruments will pass to the Realm of Timeless Timelessness. In this Realm of atonement they will suffer for eons for what they have caused for millennia to the sons and daughters of God and to the Beings of the Kingdoms of Nature on Earth. And they will suffer as atonement the millions of deaths and genetic diseases caused in their attempt to attack the genetic heritage of the Peoples of the Earth, and for the infinite pain and suffering caused during the collapse of the civilization of dis-Love. In short.

Thinking of future generations, we have inserted a sample of the scorched earth during the “pandemic invented by the demons and their instruments. We have taken it from chapter 27 of “BETWEEN ETHER AND EARTH” with the contribution of Yoshua, from the Constellation of the Stars, Spokesperson of the Brothers of the Stars integrated into the Cosmic Forces.

In **Appendix 3** you will find the complete chapter 27.

THE CONSTITUTIONAL COURT OF AUSTRIA SHINES LIKE AN ETHICAL STAR IN THE DARK NIGHT OF EUROPE.

«The Austrian Constitutional Court demanded from the Austrian Government's Ministry of Health data justifying the measures imposed against Covid-19. This led Austria and Germany to postpone mandatory vaccination due to “technical problems”. It also led the Red Cross to withdraw from the “Austria Vaccine” campaign, abandoning the vaccination ship. (February 5, 2022).

What the unvaccinated in Germany and Austria, persecuted by the rulers, undoubtedly thanked the Austrian Constitutional Court for was that the “mandatory” vaccination with the experimental genetic product synthetic mRNA was postponed due to “technical problems”.

«I, Joshua, take the floor. We have been monitoring Joe Biden and Ursula von der Leyen, who have been the promoters of the bitter persecution against the UNVACCINATED.

Ursula Von der Leyen said in the debate on the state of the European Union, on 9/15/2021:

“Let us do everything necessary so that this does not become a pandemic of the unvaccinated.”

In a press conference she said with convoluted rhetoric:

«I think it is understandable and appropriate to lead this discussion now, how we can encourage and potentially think about mandatory vaccination within the European Union.»

[We offer a video with [imágenes](#) that [muestran](#) showing residents being held and vaccinated against their will in a nursing home in Germany.]

YOUR WORDS ARE AN ATTACK AGAINST THE RULE OF LAW, WHOSE ROOTS ARE IN NATURAL LAW. WE ARE NOT GOING TO REMIND YOU OF WHAT YOU HAVE BEEN VIOLATING IN TERMS OF LAWS, AGREEMENTS AND INTERNATIONAL ETHICAL CODES.

She, and the rulers induced by her, have made it so that, by massively injecting the experimental genetic product, synthetic mRNA, which is not a vaccine, 'this has become a pandemic of the vaccinated', with deaths silenced by servile media, but known in towns, cities and hospitals, an uncontrollable pandemic of deaths of those massively vaccinated. This is the reason why governments around the world are declaring the end of the pandemic. The drums of war, which have been thundering in a mad flight forward, are like the ink of the squid.

As *cosmic infiltrators* we knew about the preparation of the “pandemic” - which did not happen - as a global action in their fight against God inspired by the Satanic hierarchies to scorched earth the genetic heritage of the peoples of the Earth, which would be followed by the Great War between the Peoples of this World, as another scorched earth of the demons destroying everything that could help the survival of the ethical remnants of the New Humanity, of which the cosmic beings of the Pure Worlds and those of the Fifth dimension - Brothers of the Stars - are part, incarnated in families of the Earth to help their human brothers in the tragic events of the collapse of the civilization of dis-Love, and the establishment on Earth of the Kingdom of Peace.

We also insert 2 paragraphs from chapter 29 of “Between Ether and Earth.”

This important chapter illustrates the magnitude of the attempt to burn the earth with the “pandemic” inspired by the Satanic hierarchies.

1- «By fraudulently using the useless RT-PCR test to combat ‘covid-19’, the rulers and their accomplices caused:

«The worst global economic crisis since World War II.

« The fall in the Gross Domestic Product (GDP) and global labor activity due to the damage caused to the productive fabric, decreasing economic resources and increasing debt levels.

« The violation of fundamental rights and freedoms. [violated by rulers of the so-called democratic countries.]

« The dismantling of the productive fabric causing the closure of hundreds of thousands of small businesses and family shops.

«The mass “vaccination” of millions of healthy people, children, young people, pregnant women, adults and the elderly with the experimental genetic product based on synthetic mRNA, without informed individual consent, without prior information about the risks and serious side effects, including death, nor reporting the irreversible modification of the DNA of millions of people using synthetic mRNA.

«The destruction of social cohesion, causing the division of the People between vaccinated and unvaccinated, with the latter suffering persecution.

[Governments borrowed heavily to meet the costs of the so-called Covid-19 “pandemic” created by “them”.

In the first quarter of 2024, global debt reached \$315 billion, more than three times the world’s Gross Domestic Product (GDP)] .[Source: Agence SAND, Paris, France, 30. August.2024]

Without the support of the big TV networks there would not have been the so-called “pandemic” created by “them” and their instruments, nor would there have been so many millions of adverse effects and deaths in which they injected the false mRNA “vaccines” to combat an unknown covid virus, according to the official document of the US Centers for Disease Control and Prevention (CDC).

The official document referred to was dated July 13, 2020, with the title “CDC 2019 Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel.”

[«Official CDC document: "There are currently no quantified virus isolates of 2019-nCoV" | TrikoobaNews.com]

«CDC 2019-Novel Coronavirus, by Tim Brown. That there were no “quantified isolates” of 2019-nCoV was to say that the Centers for Disease Control and Prevention had not isolated that virus, nor had anyone. Therefore, NO ONE HAD PROVEN THAT THIS VIRUS EXISTED. But it did exist.

The CDC also said “that they were introducing a diagnostic PCR test to detect the virus...” a virus that had not been isolated... and the test was looking for RNA that came from the virus that had not been proven to exist

But, using this [PCR] test, the CDC and every other public health agency and ministry in the world was counting COVID cases and deaths... And governments had instituted lockdowns and caused economic ruin using those case and death numbers as justification. “The CDC also did not have ‘Covid-19’ cultures, as one Ministry of Health, that of Spain, officially reported that:

“The Ministry of Health does not have SARS-COV-2 cultures for testing, and does not have a registry of laboratories with the capacity to culture and isolate for testing.” (File No. 001-059 144, September 8, 2021.)

Therefore, the Ministries of Health could not prove that the SARS CoV 2 virus was the cause of the disease ‘COVID-19’, as they did not have viral cultures from the ‘positive’ RT PCR patients.”

“This was the virus that billions feared. It could cause the death announced by the television networks if the doses of the experimental genetic product called “vaccine” were not injected. Its main ingredient was synthetic mRNA, which modified human DNA and gave information to the cells to produce the viral protein S, Spike, in addition to the graphene oxide added to the excipient. 2. *«The synthetic mRNA genetic product was inspired by the demons to biotechnology scientists so that “man would stop being God's creation”. Once his DNA was modified, he became the creation of whoever programmed him.*

[Tal Zaks, chief medical officer of Moderna: mRNA Alters DNA \(rumble.com\)](#)

The Satanic hierarchies saw their secret plan come true:

“Genetically manipulate the DNA of brain cells with synthetic mRNA to interrupt the communication of God with man through the brain, and of man with God.”

In the Core of the Being of the soul, in permanent contact with the brain, resides the Spirit of the Father and the Christ of God.

[You can find the complete chapter 29 in [Appendix 1](#)]

«We *cosmic infiltrators* see how demons invisible to the human eye send mental waves, or speak internally, to their [biotechnological, among others] instruments so that they execute the scorched earth actions planned by “them.”

Finally, we insert some fragments from chapter 28 of *“Between Ether and Earth”*:

LIFE SOFTWARE PIRATES, BIOTERRORISTS AND ACCOMPLICES

When Monsanto genetically modified the DNA of a native corn, it patented this variant of the corn seed. And it began to market it, sowing it on millions of hectares. The question is, will they dare to patent transgenic bodies?

In the Digitalized Green Passports there is all the data to “securitize” transgenic bodies that are no longer God’s creation, but are now the creation of biotechnology scientists.

However, judges and prosecutors will be able to determine whether there is a crime in hacking with the synthetic mRNA genetic software patented by Moderna, the software of Life in the original, private, genetic heritage of people, since it is irreversible that the transgenic man has gone from being a creation of God, against his will, to being a creation of the scientists at Moderna and Pfizer, which would mean that the transgenic man could be patented against his will, since his data is in the DIGITALIZED GREEN PASSPORT.

Judges and prosecutors will be able to determine whether crimes of State Bioterrorism have been committed by injecting millions of healthy people with the experimental genetic product synthetic mRNA without their consent, without having been informed before injecting it of the adverse effects that the synthetic mRNA produces in their bodies, including death. And [they will be able to determine] whether crimes of State Bioterrorism have been committed against the original genetic heritage by injecting the experimental genetic product synthetic mRNA into hundreds of millions of healthy people (who are already dying and becoming seriously ill), thus attacking the genetic heritage of millions of citizens, children, young people, adults, the elderly and pregnant women, who constitute the demographic heritage, the foundation of States, and the strategic generational changes for the continuity of human societies on Earth.

You can find the complete chapter 28 in **Appendix 2**.

We, the *cosmic infiltrators*, affirm that the secret plan of the satanic hierarchies is part of their plan to make scorched earth. The incarnated demons who took power in certain Governments were gloves for the Hand of Darkness. The magnets created by “them” will attract what corresponds. And when concentrated they capitulate in the Abyss they will go on to atone for what they have caused during eons in the Sphere of Timeless Time.

We, the *cosmic infiltrators*, affirm that the following actions that we are going to state are part of the plan of the demons to make scorched earth in their flight to the Abyss. They cannot be attributed to political errors, coincidences or negligence. They are premeditated actions carried out by their instruments. They have installed magnetic bases in their brains. The lead bills produced by the created causes will be collected by the Law of Cause and Effects, inexorably.

-Destabilise the social peace of the population.

-Decapitalise the States that they misgovern. Increase the deficits, the spiral of unpayable public debt and the astronomical accrued interests.

-Make energy more expensive. Impose sanctions on Peoples that will return like a boomerang to the States.

-Provoke and feed wars to destroy infrastructure, towns and cities. Sell weapons.

-Allocate enormous sums of capital and expensive war equipment to provoke and continue to feed wars that will send tens of thousands of citizens to death in the trenches and on the battlefields, causing destruction and endless suffering.

-Allocate enormous sums of public money behind the backs of the Peoples to finance terrorist groups, destabilise legitimate governments, cause population displacement to other countries and create social chaos and confrontations between Peoples.

-Blow up the economies of the States they misgovern, causing the closure of small family businesses, small and large companies due to the increase in energy prices.

-Contaminate lands and continental and maritime waters with radioactivity.

-Commit genetic crimes with animals, plants and seeds intended for human and animal food.

-Create false pandemics to cause deaths, suffering and new incurable diseases.

-Create irreversible genetic diseases, with no possible treatment.

-Certain rulers and bioterrorist scientists from the sphere of Darkness attempt against the genetic potential of the Peoples.

-Governing by lying to inject synthetic mRNA into the elderly, [images] children and pregnant women, causing deaths while the Rulers inject themselves with placebos.

-Massively inject genetic products with the intention of putting out of action the cosmic beings who have come down on a Mission of Love to Earth.

-Legislate to forcefully inject mRNA into the unvaccinated by refusing to allow themselves to be injected with genetic poisons.

-Modify the DNA of the human genome so that the human body is no longer God's creation and can be patented.

-Dividing and lying to the population by misinforming through the mass media.

-Making scorched earth of the resources of their countries, taking away huge sums from the contributions to the public coffers by citizens and companies to achieve their objectives.

-Causing the displacement of immigrants from one continent to another to pit brothers in Life against others of different races, cultures and religions.

-Drilling the earth's crust at great depth to detonate atomic charges, causing suffering to the beings and existences of the Kingdom of Nature housed by Mother Earth.

-Contaminating the waters and farmlands with chemical products.

-Fumigating populations, lands and waters with airplanes. We, the Brothers of the Stars, have been intervening in the airplanes that produce parallel chemical trails.

-Setting forests on fire. Millions of hectares of the great boreal forests of Canada, stretching from the Pacific Ocean to the Atlantic Ocean, have been scorched by the inextinguishable fire. And they continue to burn.

- Perverting the Law of Procreation, necessary for the survival of the human species on the face of the Earth.

The Father of Heaven created the bodies of man and woman with the substances of the condensed planet Earth. In order to inhabit the Earth, cosmic-soul beings have needed to incarnate during the event of birth in the human envelope procreated by the parents, as the fruit of the sexual union of a man and a woman.

We, the *cosmic infiltrators*, affirm that everything that vibrates in the low frequency of Darkness will not remain hidden. The Infinite has already applied 1x1,000 to the vibration frequency of the demons. Thus, they will not burden their souls any more. They will walk quickly towards the Abyss, where they are concentrating.

No dense energy field of low vibration frequency will remain active on Earth, because the Infinite is raising the vibration frequency of what is condensed on planet Earth.

We, your Brothers of the Stars, the *cosmic infiltrators*, fulfilling the Mandate of the Father of Heaven, want to help feed the Flame of Hope in you.

We insert the Chapters written at the beginning of the book “Between Ether and Earth”, in which the SPIRITUAL REVOLUTION was announced:

Chapters that describe the recent Dark times that Humanity has lived and will never return. Chapters for the evolution of human beings towards Cosmic Consciousness whilst living on Earth and the return of the Cosmic self to the Homes of Origin, to the Pure Worlds beyond the Stars. Chapters for the expansion of Consciousness of any human being regardless of their belief or religion, and their integration into the Spiritual Revolution under the Banner of the Corregent of Infinity, the Christ. Chapters to become pillars of hope to which many can cling on to during the tragic times of the civilisation of UN-Love. Chapters to support the Nuclei of Coexistence in Solidarity, necessary to survive and to help, at the beginning of the great and final War Conflict between the Peoples of the Earth. Chapters announcing the Time of Light and the Great Event of the Second Coming of Christ in Spirit, visible in the atmosphere of the Earth after the Great War Conflict. Chapters announcing the establishment of the Kingdom of Peace that will emerge from the debris of the civilisation of UN-Love, which will spread throughout the Earth, without borders between the Peoples. Chapters that announce the Golden Age in which the new Humanity, united in Love and Peace with all beings and existences of the Kingdoms of Nature, will live in the principles of Unity, Liberty, Equality and Fraternity. Chapters where the Brothers of the Stars, in service of the Father of Heaven and of Jesus, the

Christ, make public their Mission of help, their fraternal relationship with the generations of the new Humanity, with Christ as Sovereign of the Kingdom of Peace.

5-Page 5 -Hydraulic fracturing, a crime against humanity.

We, the *cosmic infiltrators*, witnessed how and why the hydraulic fracturing or fracking technique was planned to obtain solid, liquid and gaseous hydrocarbons from the deep subsoil.

-We denounce this crime of the demons against Humanity masked behind the extraction of hydrocarbons from the deep subsoil. You will know them by their inventions.

-Investigate for yourselves on the Web of Organizations that fight against hydraulic fracturing, or fracking,

-We warn about the social and environmental impact caused by hydraulic fracturing of the subsoil, which causes irreversible contamination of sources and underground water currents, a direct attack by incarnated demons against the health of millions of people.

-We denounce the use of enormous quantities of water used in the exploitation of wells drilled and in the process of drilling in this time of water scarcity. This is how the demons and their instruments burn the scarce drinking water available to the population of towns and cities.

-We warn about the air pollution caused by gases released during the extraction of hydrocarbons and their commercial exploitation.

-We warn about this burning of the earth, about the destabilization of geological faults caused by the pressure exerted by the weight of large volumes of contaminated waste water injected into wells of old oil fields, causing earthquakes, this unnecessary industrial activity, because of its action against the health of millions of people, because of its high economic cost, social and environmental impact, since there are large oil fields in full production.

PART TWO

- THE TRUE BROTHERS OF THE STARS -

1. According to the Mandate of the Father of Heaven, we are sending in the SECOND PART of COSMIC INFILTRATORS Messages given by telepathy by the Brothers of the Stars to the Co-Regent of the Plane of Wisdom of the Pure Heavens, incarnated in Gabriele de Würzburg in the spring of 1980.

2. Messages from the Brothers of the Stars given by telepathy to the Regent of the Plane of Love of the Pure Heavens, incarnated in Alfonso de Adamuz. He has been writing and signing under the pseudonym of A. D'Hertzáurea. These Messages are included in the Books and Messages published on the Web mentioned below. -We include them in COSMIC INFILTRATORS – The true Brothers of the Stars-. The Peoples of the Earth will know of the existence and the action of help from Brothers of the Stars of the fifth dimension since ancient times. Silent help, adhering to the Mandate of the Father of the Heavens.

3. Appendices. These are texts taken from books signed by A. D.'Hertzáurea to help delve deeper into what is stated in isolated paragraphs.

The complete Books and Messages can be consulted on the Web. (1)

If you can, inform yourselves through alternative means of communication. You will know that the Peoples of this World have entered the time when an unexpected Change will occur.

From the SECOND that the Change occurs, nothing on Earth will be the same as it was the SECOND BEFORE, including communications between the Peoples.

For this reason we are sending to you, who are reading these lines, everything that is reliable that we can send you about the true Brothers of the Stars, which will also help you to keep the Flame of Hope burning.

(1) Try to enter frequently <https://www.entreeleteryatierra.es>

On this website you will find COMMUNICATIONS and MESSAGES for as long as possible. PEACE.

6.- MESSAGES CONTAINING THE UPDATED TEXTS OF FIVE CONTACTS OF THE BROTHERS OF THE STARS GIVEN BY TELEPATHY TO THE CO-REGENT OF THE PLANE OF WISDOM OF THE PURE HEAVENS INCARNATED IN GABRIELE OF WÜRZBURG, IN THE SPRING OF 1980.

In 2016, the texts were adapted for Radio in “A DOOR TO THE STARS”, a series of seven programs. After the Spanish translation was revised, the content of the five contacts of the Brothers of the Stars was distributed in seven programs. Later in 2018, “A DOOR TO THE STARS” was produced for TV, a series of seven programs. These programs have continued to be broadcast on both Radio and TV. -In compliance with the Mandate of the Father in Heaven, the updated texts of the audio of the programs for Radio and TV have been incorporated into “COSMIC INFILTRATES – THE TRUE BROTERS OF THE STARS -.

6.1 – First Message.

-We come from higher worlds, where there is no night like here. There are spiritual magnetic currents, activated at all times by the flowing spiritual light, the Ether. This means that we do not have night, because our Solar System does not present terrestrial crystallization. Our planet is not subject to these alterations like the Earth. With a legitimate life we, maintain the planet in the same vibration that was offered to us by the Law of God.

Together with many brothers who live in other galaxies we have proposed the mission of caring for our brothers on planet Earth, because the great time of transformation is near. But before this transformation takes place, great wars and catastrophes will fall upon Humanity that will shake the Earth.

Because of these reactions, which are the result of the actions of humanity, there will still be many people who will find their way to higher worlds through their Redeemer, Jesus Christ, because there will be no other way out for men and souls.

The materialistic man and the soul enveloped in earthly vibrations will no longer have anything to hold on to. Neither will they have anything to hold on to, neither their goods and belongings nor a beloved object. Nor will their neighbors give them support, because each one will be frightened or helpless in seeking a way out of the coming events.

Life in God is very diverse, rich in divine power. Those who recognize this and strive for it have many possibilities, depending on their level of consciousness. The closer we get to the divine light, the more extensive our spiritual knowledge becomes. And in accordance with our life and our knowledge we can also act.

Man is so locked in because he does not open the realms of consciousness that we have all received as an inheritance from God, our Lord.

The realms of consciousness are our life. Through them we experience and learn about what we really carry within us, which is the whole of Creation.

The whole was inspired in us by Eternal Life, which we venerate and serve. Although you, men, live enslaved by your ignorance, we and you are brothers.

We recognize that we must continue to evolve. However, we have not only proposed to evolve ourselves, but we also continue to refine our planet. That is why our time of maturation and realization is longer.

We recognize that our Solar System, which exists in one of the many galaxies, belongs to the Pure Eternal Existence, and is only a part of our Eternal Planet-Home.

In addition to attending to our own evolution, we have also proposed to elevate our Solar System to legitimate spiritual refinement. God, the Father of us all, gives His power and love to all His children for this purpose. Just as our spiritual bodies are attracted by the Law of spiritual gravity, which is the primary force of all existence, so too the solar system is raised to a higher vibration, in accordance with our spiritual level.

In order to carry out our mission on planet Earth, we turn to the divine Hierarchy. In our prayer we ask that we be allowed to help our human brothers.

There are also great enlightened ones among us, who through our prayers received the affirmative response from the divine Hierarchy to serve the Master of Masters, Jesus Christ, by helping our human brothers.

Through this service to our fellow man, our Lord and God has granted us the power of mercy, because service to our fellow man also fosters our spiritual evolution. We do

not keep the forces of mercy received by our active love for our neighbor, but we share them equally with our Solar System, which we want to take with us to the Higher Self, to Eternity.

I have been allowed to speak through this channel to those who wish to listen to us. Since so many falsehoods are spread on Earth about the Brothers of the Stars, we wish to clarify some things in this Message, because false communications have been made.

For example, a man with mediumistic faculties takes parts of legitimate Manifestations from other channels, and then adds something of his own, so that the Truth becomes impure because of the ideas and opinions added by the medium.

We want to help our brothers on planet Earth, because this world is in need of real help. Despite the great action of mercy of His Redeemer, Christ, humanity has not been able to help itself with the great force of mercy given by Christ.

Since many men care only for their possessions, placing great value on them, they cannot understand that others wish to help them.

They believe that everything that comes from outside, from beyond their solar system, is hostile to the inhabitants of the Earth. But those who penetrate the depths of matter from the Higher Worlds cannot be enemies of man. They can only be friends. For those who possess the strength to leave the Earth and return to the luminous Worlds, they also know how to apply the Law of the Lord, although we cannot yet fully verify the Law of Life.

In spite of everything, we have recognized that only the Love of God and of one's neighbor, and surrender to God, advances in the level of evolution.

With these brief statements I wish to convey that our mission is to help our human brothers, and to bear witness to our true existence.

As I have already said, we act selflessly for the love of our neighbor, so that one day we can live united again in Perfection, in the eternally Pure Existence. We also transmit this message: *"Whoever yearns for purity will receive from God, the Eternal Spirit, more wisdom and spiritual strength for its realization."*

Humanity must know that outside its sphere of life there are other existences with much greater wisdom than that of the insecure man, who yearns for material goods.

We, your brothers, come with our spaceships to this solar system. We live in different vibration spheres of the various galaxies. The degrees of vibration of our bodies are also very different, according to the level of evolution, that is, according to spiritual maturity.

Just as our spaceships are built in different ways, so are the degrees of condensation of our bodies. The spaceships were built according to the knowledge of the brothers.

According to the level of evolution of the various Brothers of the Stars, so will their spaceships be. But each Brother of the Stars strives to serve the Spirit of God according to his level of consciousness, wanting to help Humanity, which is in trouble, and souls and other forms of life, for example, those of the animal Kingdom.

As soon as the immense transformations begin, which will occur especially after the Second Coming in the Spirit of Christ, we will begin our main Mission.

With telepathic force we will gather in a radiation bell not only men, but also souls from the purification planes and partial souls from the animal Kingdom. Among other things, we will take them out of this solar system to calmer worlds, whose degree of vibration corresponds to that of the collected bodies.

Unfortunately, your solar system has condensed so much that layer after layer of sediment will have to be removed, causing the entire solar system to expand.

The refinement of a system depends on the refinement of its inhabitants. In this case, you, the human beings. That is, you, the human beings, should orient yourselves towards the Laws of the Lord and obey them. Only by obeying the Laws of the Spirit will you become enlightened people, capable of acting in a positive way, which could even prevent many things.

The degrees of enlightenment are areas of consciousness. The more you penetrate into the beautiful Laws of God with the corresponding legitimate life, the more you will change yourself and your earthly structure, because the Law of the Lord acts not only on Earth, but also in you, the human beings.

With a positive way of thinking and acting, humanity would first change its own structure and then that of the Earth, so that the entire solar system could experience a positive change. Which means that, according to your degree of refinement, your solar system would also be refined and its vibration would be raised. This would result in transformation and not dissolution. As you have heard, we should all approach the eternal Goal in order to take with us our solar systems, which we have dragged into low vibrational spheres through our own fault.

Humanity does not pray as it should, with conviction and with the heart. With heartfelt prayer man reaches the Core of Being of the soul, the divine in him, which then becomes more active, so that many things could be avoided and rewarded. Only through the Core of Being of divinity can we adapt ourselves to Eternal Existence. The path to it, on the other hand, goes through the Centers of Consciousness that are within us, because they are the legitimate areas of evolution of our life. It does not

matter how they are ordered. Through the Centers of Consciousness we can receive spiritual force and distribute it according to our life.

Prayer is surrender to God. On our planet we pray a lot. We ask again and again that God, the Father of us all, continue to enlighten us so that we can help Him and His Son, our Brother, your Teacher, Christ, more and better. Thus we are in unity, united in prayer, and we ask for God's strength to enlighten us all.

We do not have churches like you. We know that confessions separate. We know that only in unity with God and all existence is altruism born, which strengthens us so that we can help others.

When we gather together to pray on our planet, in cities and towns that are not like yours, then we know that elsewhere there are brothers and sisters who also pray for strength and enlightenment to serve our brothers and sisters on planet Earth even more. If then a brother is granted enlightenment through his heartfelt prayers, we do not hesitate, but we praise God and give Him thanks, trying to gratefully carry out what the Almighty has shown us so that we can help our neighbors.

Thanks to the gifts of enlightenment and mercy of our Lord, we were able to build spaceships outside our solar system, in accordance with our conscience. The construction of these ships, which travel by magnetic waves, was revealed to us by the Spirit of God through the inner word.

Through prayer and surrender to God, our Lord, we received the enlightenment to do many things. Through inner vision we heard and saw at the same time the place where our spaceships were to be built. And we also received additional strength to reach the place we had seen with our partially material bodies. We were also granted the spiritual strength to build them. Praise has no end. Everything we do, and have promised the Lord and Master, must be a praise to God. Through praise we received more possibilities. Through the inner word and inner vision we recognized that even greater gifts of divine mercy would be revealed from our Lord. And so it happened.

Just at a time when we did not know how to continue, the Light of enlightenment came to us again. And he gave us even deeper insights into the construction of our ships.

Space ships are built on planets that are much more condensed than ours, since we have to adapt the metals and the degree of vibration to your solar system.

Many of you know from other reports that there are space ships of various types. Some are elongated, others oval, and others round. The form of construction always corresponds to the degree of consciousness of our brothers from the various galaxies, which corresponds to their degree of maturity and recognition.

As you now know, we also live in different degrees of consciousness. Yet we are friends and not enemies. We all help each other. No one is envious of another, although the degrees of consciousness are visibly different.

6.2 – Second Message.

All of us Brothers of the Stars know about our Path of evolution. We know that it is possible to speak to men, souls and the animal world through the different vibrations of consciousness.

The margins of recognition are very different among men. Recognizing this should also be your duty, so that those who have a high consciousness can help those who still struggle for it. - Our different levels of recognition unite us, even though we live according to our state of evolution on planets that correspond to our degree of vibration.

I tell those who hear my message that I do not come from your galaxy, but from distant worlds, from a source of energy of higher vibration. I am not going to give any name to our planetary system at this moment. This is of no importance to you. The important thing is that the human brothers become aware of the chaotic situation in which they are living, and that we, the Brothers of the Cosmos, come with the intention of Love. We ask you to orient yourselves towards God and to verify His Laws so that, living in accordance with them, you will have a high vibration when the great catastrophes begin and do not consider what is to come as a punishment from God, but as the effects of previous causes produced, because these events will be the harvest of Humanity.

If the remaining humanity has not yet matured spiritually after the time of the Second Coming of Christ in Spirit, we will not be able to rescue many people and souls either, because the soul must have a certain degree of spiritual maturity for telepathy. This means that it must be oriented towards the corresponding reception. Therefore we strive in many ways to enable humanity to recognize God. It would not be helpful for you if we gave you details about ourselves. What is important is that humanity knows that there are extraterrestrial existences who wish for their good. They must know that there are good forces at work in the Cosmos for God and His Son, and that we,

your brothers, also wish to achieve a faster adaptation of our System to the divine Consciousness.

The Brothers of the Cosmos live on different planes. We are all brothers and we do not look down on those who have a lower level of consciousness. In reality we are all equal and we must respect and love each other. We are all brothers on the ladder to the eternal divine Existence. As for me, I am no more or less than any of you, just a humble servant on a higher plane of consciousness, that is, a few steps higher.

My spaceship is flat, it resembles the incarnated soul that manages to leave its earthly body by a high vibration. The flat spaceship is currently the fastest and most developed, since it comes from very distant galaxies. Similar forms already existed long before Egyptian times. Men of that time had a higher state of consciousness and maintained contact with spiritually more developed brothers. Some spaceships of that time landed on this Earth. Our spaceships are more developed than those of that time.

Spaceships radiate colored lights that, among other things, have to do with the plane and the irradiation of the light of the Sun and your surrounding planets. Later I will tell more about our existence and the various processes that occur when we enter this solar system.

If mankind had not acquired the way of thinking in time and space, then the eyes of man's soul would be open and he would have a far-sighted vision. This would make it possible to recognize that we are currently standing on this place and that only I am in this room. For us, there are hardly any problems of time and space. Before man has produced a thought, we are back in the spaceship. This is not utopian thinking and acting, but a legitimate way of life that can be acquired by one who lives accordingly. I will speak later about my materialization, which extends over several vibrational ranges.

Your world, your Earth and all that lives on it are in great danger, in endless trouble. We can recognize many things by the magnetic currents. They show us this by the different degrees of vibration. We also recognize by the auras of countries, cities, people and animals that great world catastrophes are coming. As before a great storm, the auras are dark and charged with aggression. The discharge occurs like lightning and thunder.

When we penetrate this Solar System we use very special rays and magnetic waves. Often we stay within the area of attraction of a planet in the Solar System and wait for the corresponding magnetic wave. There are days when we hardly get close to the Earth, because in special events people radiate extremely negative vibrations, which greatly influence the atmosphere and magnetic waves.

As for our physical appearance, the Lord said: "I have created you in My image." Since we are all children of God, we possess His spiritual form.

So we have your form, but not the condensation, but a finer structure of matter. - As you have heard, what many men see are reproductions of the brain or opinions. There are also clairvoyant men whose spiritual eyes are only open to a small extent. The organ of light therefore reduces this spiritual image, and both the brain and the intellect deform it. Such imaginations are projected into the atmospheric chronicle, and in due time they are again captured by a man who possesses the same imagination. We are neither dwarfs nor deformed little men. We are like you, children of God, more developed than man.

If a soul has reached a high degree of development it can do nothing but serve, for this is the Commandment of Love of the spiritual body. Precisely the Love of God was what was most inspired in the spiritual body. If a soul is seized by this power of love, then it can do nothing but serve God and its neighbor, for this is the content of its life.

Many of our brothers felt pity and incarnated in an earthly body. In the physical realm they wanted and want to help with prayer and good works to alleviate and shorten the fate of humanity.

When one of us is to incarnate on Earth, his partially material body remains in his homeland at that time. That is, the spiritual force, the soul, leaves his body and enters a condensed human body. The partially material body remains connected to the soul that has gone into the depths. Therefore it enters a state of sleep. The soul of a Brother of the Cosmos should return to his partially material body after certain planned incarnations. If he fails to do so, because he has been overshadowed by worldly influences too much, he will also have to go through the painful path of purification.

The spiritual law says: Like attracts like. If the soul that has departed from us no longer has the degree of vibration, i.e. the magnetizing force and orientation to be able to be attracted to our worlds and to its partially material body, then it will have to go through the path of purification with the help of the redeeming power of Jesus Christ. And the partially material body that is asleep is destroyed.

It is legitimate that our brothers incarnated on Earth can receive help as long as they possess our degree of vibration. Therefore, according to the Law of the Lord, we take their souls to our planet when their earthly body is in deep sleep. There we give them new spiritual strength and help, but we also pass on spiritual knowledge to them.

The same happens to you, men, when during sleep a soul connected to the body by the spiritual cord goes to higher worlds according to its degree of maturity to take a look there, to take impressions and perhaps new spiritual forces. As long as you do not

make these soul journeys against the Law, you will have a spiritual companion at your side, who protects and guides the spiritual body.

On the other hand, the Brothers of the Cosmos who incarnate on Earth run a great risk. As I said, their partially material body falls apart when the soul becomes too dark in the human body. However, Love for one's neighbor compels souls. So each awakened and enlightened being has a mission of Love transmitted by the Spirit of God, which we who intuit the great Love of God fulfill with joy and gratitude.

--We too are still limited, and when we leave for an incarnation we do not know when we will be able to return. In a similar way it happens with the pure spiritual beings, the angels, who incarnate in a body of their own free will. They also do not know exactly when they will find the way from Earth to the Universal Consciousness of the Father again.

--There are men on your planet who are taken a short distance by the Brothers of the Stars. They test with them how far telepathic forces can reach. That is, they carry out experiments by testing their telepathic forces on a shadowed man. They test to what degree the soul can be charged to respond to telepathy and how long they could keep the various human bodies in spaceships under their radiation shelter. But they also see to it that they arrive home safely. This help is also provided by means of telepathy.

-- We know that some men say that we are evil and that, among other things, we force your planes to land. But this is not how men think and imagine it. Man is not free from fear and sees danger in everything that does not come from three-dimensional space. So this idea that we are evil has really been taken from the fantasy of men.

-Every being who possesses greater divine powers is spiritually more evolved. I am not speaking here of souls who have passed on to the Beyond and surround and besiege men. They possess immature soul forces and exert a great influence on you. However, you grant them this strength and power, because with your thoughts you have followed the path of selfishness, which they also follow until they find the path of altruism and service.

We do not force any pilot to land by blinding him. If an airplane approaches our guiding beam, the pilot may be blinded by our rotating metal plates, but we do not harm anyone, on the contrary, we want to help. Moreover, these phenomena can only blind the pilot as long as he is burdened with negative thoughts. You people have not yet recognized the great power and force of feelings and thoughts.

If we, the Brothers of the Cosmos, and you, people, think selflessly and legitimately, then we immediately change the structure of our body, including the physical and spiritual eyes, so that we can orient ourselves towards things, colors and shapes that

then serve us. If your pilots mastered these legitimacies, we could greet each other on a guiding beam and show ourselves to each other as friends.

Fear and dread come from ignorant and selfish people. That is why they cannot live in peace and friendship with their fellow men.

Why is man afraid when he encounters something strange, something he does not know? Only because you believe that you are the only existence in this Great Totality. As long as you fear each other and consider a brother as a danger to your goods and belongings, you are still very far from the great recognition of the totality.

The entire Universe is inhabited and full of extraterrestrial existences. No planet, except the feeder stars, is uninhabited. Everywhere there are beings who live in their vibratory range until they continue to evolve and go to Higher Worlds, or they reincarnate.

All around you there are beings of Light and Darkness. You, men, simply cannot see them because your limited thoughts do not allow you to see these vibratory ranges.

Everything happens legitimately and comes from sensation. Man will feel alone as long as he believes that he is the only existence in the Universe, in which no invisible beings live. This belief of being the only ones is only fantasy. The reality, however, is quite different! These thoughts closed humanity to the vision through matter and thus to the distant vision. Through these thoughts contrary to the Law and narrow-mindedness, time and space, the three dimensions, were also created by you, which do not really exist. They exist only in your world of ideas. These thoughts were produced by the children of the Fall, who for billions of years locked themselves in their own thoughts, as in a shell. We call this shell the highest condensation of the Spirit, man.

We would be glad to be able to get closer to our human brothers and enter into stronger and more frequent contact. But most men do not want to listen to us. They are too busy with themselves and hardly take time to think about themselves, so how can they think about their extraterrestrial brothers. Your scientists, who are very blinded, would be so bold as to treat us as objects for their experiments if we were condensed according to the material plane. We will not lend ourselves to this. We want to warn you and help you.

At the moment our duty is to orient ourselves towards your planet, to check the telepathic forces and to what extent men react to them. This means that we check the telepathic forces to recognize how great the shadows of a man's soul must be in order to no longer react to the force of telepathy.

First of all we wish to radiate Love and ask Humanity to orient itself towards God, our Lord, because only man himself and no one else could prevent even greater disasters, since everything is based on cause and effect.

We can now only warn you and prepare for the coming time, for the Rescue Action. We can only reach some of our incarnated Star Brothers by telepathy and ask them to transmit these messages, so that Humanity will pray again and try to change its statesmen and scientists with prayer and convincing words. And so that many of you will finally recognize what true multidimensional life means.

We guide our spaceships by magnetic currents and by the elliptical orbits of the planets, because everything is based on gravity. There are gravitational fields everywhere, through which we and our spaceships are recharged with energy. But I will report on this another time.

We, the three brothers of the spaceship, wish you the Power of the Lord and the Love of your Master, Jesus, the Christ, so that you may feel it, achieve the consciousness of God and one day we can all be united again.

May peace be with you. May God protect you. May it be so.

6.3 - Third Message.

May the peace of the Lord be with you! --Our partially material body is elastic. It is in a higher state of aggregation. Our spiritual development is different, according to the degree of consciousness.

The planets where human-like beings live, which are close to this terrestrial Solar System, are more condensed than the planets that are farther away.

The condensation of the bodies of our brothers corresponds to the condensation of their planets. For the structure of the planet is related to the vibration and structure of the partially material bodies. Their knowledge corresponds to their state of consciousness.

On your Earth there are very different revelations. This happens because each one of you has a different level of consciousness. That is why it is very easy for the beings from the Beyond to find an instrument that corresponds to their consciousness.

Regarding divine revelations, lower influences and telepathy, the Law says: The more purified and devoted to God a soul and a man are, the higher will be the spiritual gifts that the soul or man can receive.

Unfortunately, these spiritual gifts, just like the influences of lower vibration worlds and the force of thought, telepathy, have to be transformed by you men. This means that the language of the partially material extraterrestrial existences also has to be transformed into your words and languages so that you can understand beings who do not live in your structure.

Our forces are divine forces, which we apply with gratitude and in accordance with the Laws of God.

We do not come to frighten you, but to serve Jesus Christ, your Master and Redeemer, our Brother.

All the Brothers of the Cosmic Worlds, who have recognized the great burden that your Master has with men and souls, have united to serve him and to help you.

Your curiosity regarding extraterrestrial life is not legitimate, but human. It is based on ignorance. This human impulse is of no use to you, but rather hinders contact with us. Curiosity separates and binds. A recognized spiritual life, which is truly realized, creates thoughts of Unity and therefore of Freedom.

As soon as you recognize the divine Law of Creation as the eternal power, all shadows, fears and misfortunes will disappear from you. The Universal Spirit, which manifests true and liberating life, makes all His children happy.

As soon as the human structure is refined by increasing the flow of the divine Spirit, Humanity can make contact with all other forms of life. Each one of us possesses the precious driving force of the Eternal Divine Life. Since you too are children of God, you can make contact with God, the universal Power. The universal Power of the soul is the Universal Spirit, which activates us all. We want to become One with the Almighty in order to become One again with all Creation.

As you have heard, we have set ourselves the mission of refining our bodies and also our Worlds and of elevating them to the Eternal Spiritual Structure. Humanity was also given the possibility of this legitimate evolution by its Master Jesus Christ. However, Humanity has not recognized this great mercy of God. That is why it continues to live in darkness, and therefore in ignorance.

Man looks longingly at the stars. He breathes deeply and sighs when he hears of distances. Your limited thoughts created time, space and light-years, which do not exist for the finely structured body. The word limitation means enclosure. And what is enclosed creates other forms of existence. The light, to which you humans have set a measure, is an unlimited etheric force, which only an etheric body or a divine man can recognize and use. This etheric force flows in various orbits and creates different light spectra, which produce certain resonances in the etheric body, which is made up of spiritual atoms. This means that the light spectra reached by the etheric body produce vibrations in the atoms of creation and in our etheric bodies, which then form the contact between one planet and another, or from one celestial plane to another. By this

etheric ray that we reach, we glide from one planet to another. This happens without time or space, because the Ether supports, activates and guides.

Man still has a long way to go before he recognizes these legitimacies, based on magnetism. All pure beings are, at bottom, energetic bodies, which are one with the Cosmos. That is why time and space do not exist for them, unless they create them by thinking and acting against the Law.

Whether it is the divine language, which is the language of the inner voice, or inspiration from souls, or from the different vibratory areas of the Cosmos through telepathy, everything is carried by the Ether, and occurs through vibrations and magnetism. Every sensation, every thought, every word and every deed is magnetized and can be at the same time a luminous signal. Whatever you men do, whatever you feel, think or say, everything is immediately magnetized.

Every way of thinking and acting is an orientation and at the same time a boomerang, which returns to you both in the positive and the negative. As soon as you feel, you can receive, for in reality everything is timeless and spaceless.

Our bodies are flexible, as I said at the beginning, even though they are partially condensed. The parts that perform the functions of our body are not like the organs of man either. We have neither a skeleton nor muscle fibres, for these were created only by the enormous condensing, so that the heavy human organs could have a support. If you start an engine without it being supported, you know for yourself what can happen!

The same applies to man. Since the engine of man increased in volume in relation to the soul, a skeleton had to be formed, the substance of which is made up of the minerals of this Earth. Just as the Earth takes its solid form from stones, earth and sand, so too the human skeleton was formed so that the heavy organs could have a support and the body could be kept upright.

These processes of condensation are the results of contrary ways of thinking and acting. With these setbacks, the Eternal Spiritual Force in the children of the Fall was reduced. That is to say, the spiritual force became latent since it was not requested by the spiritual beings, who were becoming more and more condensed.

Our partially material skeleton does not consist of bones like yours, but rather of marrow, or rather of absolutely flexible bone mass. Our organs do not consist of cells, but of a kind of bubbles in which cosmic energy is stored. Our energy body, which also houses the soul, is in a continuous interaction with the cosmos. However, our soul has not shrunk as much as that of man. Only as much spiritual force flows into this kind of bubble structure as we can activate according to our consciousness. The activity and structure of our body also depend on our way of life.

Now I would like to explain our body to you in more detail: You know that a cloud consists of many droplets and in each of them there is diverse life. The cloud also depends on the currents and tensions of the air. Its discharge takes place according to the material laws.

Our body consists of partially material droplets, the aforementioned bubbles. Naturally, our body does not have an irregular shape like a cloud, but was created like the human form in the image of God. Spiritual forces continually flow into these partially material bubbles of the body. The more we orient ourselves towards the Law of God and fulfil the power of Love, the more spiritual forces we receive.

Through a life according to the will of God, our partially material body becomes more and more luminous, because it receives a greater intensity of spiritual force. As soon as these bubbles or droplets dissolve under the intense spiritual effect and pass into a higher state of aggregation, the soul body becomes more active. This leads to dematerialization. That is, we do not leave our body, as the soul does with the human body. As you have heard, our flexible bodies consist of increased spiritual force and can be transformed from one state of aggregation to another by applying the Law of God. In this way, legitimate evolution takes place in us, so that we become more luminous from one step to the next.

Our partially material bodies, similar to those of humans, are enclosed in a protective shell as soon as we enter the completely material realm. This envelope changes from one solar system to another, because these "space suits" consist of a magnetic envelope and are agglomerated rays. These are oriented towards the magnetism of a given planet. This means that we are in a radiation envelope, which is condensed or refined according to the degree of vibration, i.e. according to the condensation of a given planet or solar system. It is similar with our space ships. They also adapt to the vibration of a given planet.

You have heard that all bodies are magnetic, and attract each other according to their degree of vibration. In our field, as in the pure spiritual field, the law applies: like things attract. That is why we have also constructed our space ships in such a way that each metal that forms them can be set in rotation by the vibration of a given planet, so that a reciprocal effect is produced through the magnetic fields. With this adaptation we can then go through the corresponding magnetic orbits.

The soul of man is burdened and darkened by contrary thoughts and actions. That is why the human body is heavy and slow. But as soon as a man who lives in the Law of God purifies his soul, he becomes more agile, both spiritually and physically.

The darkening of a soul is produced by a lower vibration, which immunizes the soul and the man against the higher.

These lower degrees of vibration formed man after the Fall of the spiritual beings.

In a similar way, only consciously and legitimately, we wrap ourselves in the corresponding vibrations of the solar system into which we enter. They then form the shelter of radiation with which we can approach men.

6.4 – Fourth Message.

Spiritual laws are cosmic laws. They are valid for all eternity. These solid, eternally existing laws are valid for all creation. They should also be respected by humanity in order to achieve refinement and adaptation to the divine consciousness.

Oh, see, your souls must orient themselves towards divine life. Only then will they enter into a higher vibration.

When the soul has achieved a certain degree of maturity, it will orient itself more and more towards the eternal Law of God.

Our bodies are also made up of our spiritual life and consciousness. It can be said that our life runs according to our degree of consciousness. As you now recognize, we too still need spiritual maturity and development. You have heard that we long for the development of our solar system. That is why we transmit a large part of our developmental force to this planetary system. This is possible because everything is based on energy.

We are less dependent on time, if anything on space. When we give up our energy, we do not yet live in the absolute Universal Consciousness of the Father. That is why we are still bound to certain spheres.

We can only go to the eternally spiritual worlds in certain epochs of Light. This is possible when the Primary Central Sun transmits increased forces of Light to our solar system, and thus also to us.

This happens in the Cycle of Ages. But we can simply go to the lower layers that are below our degree of vibration. That is why we are still somewhat bound to space, but not to time like you, unless we penetrate your spheres.

You yourselves, men, have created this momentary state. It came about by thinking, seeing and acting spatially, resulting in the three dimensions, which exist only in your imagination.

Humanity is not oriented towards the Laws of God, towards the Laws of the cosmos, but towards human sensations, which are largely not based on the eternal Laws of the Lord.

To think legitimately means to accept the Love of God as true, eternally existing, and to verify it.

Many of you do not even know that all living things are subordinated to divine Laws. As long as you act against the animal and plant kingdom, killing animals and cutting down trees in the midst of life, you will continue to change the Law of radiation of this Earth, and thus the ecological balance, which in turn means that you act against the Law of the Lord.

By eating too much meat and fish you also interfere with the balance of your body and change the magnetic fields that are in you. This means that the structure of the soul and the body changes, because everything is based on vibration.

All matter consists of vibration, and therefore of a great number of atoms activated above all by cosmic radiation. That is to say, when man interferes with legitimate vibrations by thinking and acting contrary to them, the frequency of the vibration changes. This means that man transforms higher forces into lower forces, with which different forms of life appear.

There is no longer legitimate balance in the animal and plant kingdoms because man does not act according to the Laws of God.

When, for example, I think of your eating habits, I have to say that man is still very far from what the Lord makes possible for us only by His Laws.

For example, we only take food when the irradiation of the Sun, that is, our Sun, has reached a certain point. This means, on the other hand, when the first awakening rays, which are certain rays of life, reach the place where we live. We only take little food, but it is very rich in energy. This food comes from the living Source of the Spirit. We feed ourselves with the forms of life that the Law of the Lord gives us, but never with dead food, that is, meat or similar products. Killing is one of the capital sins, also for the animal kingdom.

In our spheres of life there is no dark night, nor a day as lacking in light as on this Earth. Although man speaks of his sunlight and gives the word "day" to his day, according to the recognitions of our life this day is completely grey.

The planets on which we live do not need a protective envelope like your planet. Intense rays from various sources of light penetrate our Solar System. That is to say, several suns reflect their light on our Solar System according to our vibrational sphere.

Only humanity and its planet need protection from atmospheric radiation, since humanity and its planet are at their most highly condensed state. Your planet cannot adapt to higher light sources, since its own radiation is not comparable to any higher light source.

Our planet also belongs to a Sun, towards which we orient ourselves, although rays from other Suns are reflected in our Solar System.

If humanity were content with the food that the Earth gives it through the power of the Spirit, the Sun and the nourishing planets, your bodies could be healed, as well as your souls, because the earthly and spiritual bodies receive sufficient spiritual strength. As long as a man feeds himself with dead food, with a lot of meat, fish or other animal products, he will remain spiritually backward.

The Sun is also the giver of life for material forms. If humanity were to become one with God, its Lord, it would not have to take away the riches of the subsoil from the Earth, because the Sun, in union with the planets, produces the necessary energy. Naturally, to use this Source of energy, a purified atmosphere and an absolute orientation of the planet towards the Sun and towards the spiritual are necessary. Since this does not happen, man, due to human inability and ignorance, violates the Law of Nature. He strikes brutally, and in the end he robs himself of all the strengthening energies, thus ending his earthly life much earlier.

We prepare our food from plants, especially from fruits. We select the plants very carefully. We pay attention to the time of harvest and their degree of maturity, because plants, like all forms of life, are carriers of spiritual life. In certain times of light they willingly give their substances that activate the higher forms of light, which are the children of God. Only when we see that they are mature and willing to give us what they have, do we prepare our food with them. We do not heat and cook them as you do. We do not damage the beneficial life force.

We leave the fruits on the tree until they fall like manna. We cultivate our gardens and fields according to a certain planetary radiation, because cosmic radiation from space prepares the soil and makes the seeds sprout quickly. We recognize and accept the relationship between pure spiritual cosmic radiation and that of our planets, which, as you know, are still partially condensed. Very few kinds of vegetables are grown. We try to feed ourselves mainly on fruits, which hang from the tree of life, because trees and bushes are great donors of energy. Our kinds of plants and fruits have different degrees of vibration. They have nothing in common with the structure of the plants on Earth. Everything we receive is adapted to our degree of vibration.

Humanity also lives and receives according to its created degree of vibration, which is permitted by the Creator God, because every being that is not yet free is led to

recognition and realization through the forms of life it has created. Only in this way does its consciousness expand, allowing it to rise to higher forms of existence.

We have activity and rest times. Above all, our bodies rest. There are phases in which our Sun reflects special light spectra. This is our time of sleep. During this short period of little sun, however, we receive increased light forces from the pure spiritual worlds, which we can also call etheric forces.

You measure the relationship between day and night in hours. Our period of little sun consists of about 8 to 14 light days. These days cannot be compared with your days. After this period of little light, during which we sleep, we are again fully spiritually active. Only our bodies rest in the usual rhythm, but they remain connected to the worlds of light, for rest and sleep are two different vibration levels.

Our activity is not like the hard and heavy work of humanity. Neither our bodies nor our planet are as heavy and condensed as the body of man and his Earth. The activity depends on the degree of condensation on all material and partially material planes, and therefore on our level of consciousness.

Just as your children are instructed in various subjects, we also instruct our children in cosmic schools about legitimate cosmic life. We attach special importance to this, because cosmic life is our life and, as already said, we have also set ourselves the mission of bringing our solar system to the pure spiritual planes. Our children also collaborate in this. With our work we want to serve God, our Lord, to reward the much we have caused with the Fall.

By having broken the Law, that is, by having contrary thoughts, we have caused much suffering to ourselves. And above all we have caused great concern to our Father and God-Creator. Every good father worries about his children.

Many will think about how we procreate our children. This also happens according to cosmic radiation.

Many of you know that the Moon in combination with the Sun can bring about many things. So we too turn to the Stars in procreation.

It is a completely different relationship than that of man and woman on this Earth. In this union of mercy we respect the Law of God. We strive not to sow anything impure, because we do not wish to reap anything impure either. The souls of our children come from partly material brothers who have evolved in their level of consciousness, and in the next incarnation they can move to a higher degree of vibration.

We too evolve, however, on a higher level of consciousness. Our souls do not leave their body, but it dematerializes as our condensed substance rises to another state of

aggregation. When, for example, one of these human-like beings dematerializes, because we too depend on cosmic laws, then the soul can enter an energetic body of the next higher degree of vibration.

Procreation takes place according to our level of consciousness, also with the union of the father and mother who procreate the body structure. However, a subtle body is formed which gently and finely surrounds the incoming soul. It has no difficulties in adapting like the babies on Earth.

Where we live, incarnation is a path of evolution. This means that the tenderly enclosed soul has achieved a higher level of consciousness, and has thus been able to enter an even more subtle body.

The soul of man goes along the Path of Redemption, along the Planes of Purification. We go along the Path to God-Father, without a path of Redemption, because with our finer body structure we do not need the driving force of Christ, your Teacher. However, we recognize Jesus Christ as Co-Regent of Creation and we bow before the Great Spirit who is One with the Spirit of the Father in Heaven.

Our women also take care of the houses. We do not live as crowded as on this Earth. Our housing estates are adapted to our structure and are very far apart from each other. Our houses are surrounded by gardens. We do not enclose our residences with fences, walls and railings to limit our territory. This is contrary to the Law and comes from ignorance and separation. We verify the Unity and Brotherhood that your Teacher, Jesus, teaches. Although we have many families, just like you on this Earth, we live as brothers and sisters. And with the recognitions of our life we long for universal Love and Unity, for we are all children of the Almighty Father. With the corresponding evolution we pass to the highest spiritual force of Life.

All beings are free. We would never put an animal to pull a cart, nor tie it to a rope. This too is contrary to the Law and takes away Freedom. In work we use the force and power of legitimate thoughts as a technique. Most of it is done through the force of thoughts. Of course we also work with our bodies and our hands, but, seen globally, we create many things with the power of our thoughts. This power is our life.

Man has not yet recognized the power and strength of thoughts. If he were to ask for these forces according to the Law of the Spirit, the three dimensions that limit and imprison man would not exist for humanity.

Being conditioned by time and space, which man created by wrong thoughts and actions, he believes that everything he can see, touch, smell, taste and feel is real, and is without a doubt real. This opinion is wrong, because everything that is created on Earth is destined to disintegrate during its formation. Everything that man considers real and material consists of a lower, subordinate vibration.

We think and act according to the divine laws. Therefore our activity is based above all on the power of thought. We also have to do many things with our hands, that is, with physical strength, but we do not have to do heavy work as you do in part. Our bodies are molded to the planetary structure, just as the structure of your bodies resembles that of your planet.

You men act against the laws of God, because your activity is not based on the qualities and virtues of the legitimate universe. The habits of life of men are so limited by their way of thinking. They no longer recognize their spiritual faculties, so they cannot apply them either. Therefore the divine spark remains mostly latent in the soul, because it is not put into action with the corresponding cosmic life.

6.5 – Fifth Message.

Humanity does not apply the laws of the universe. These divine forces only become active in man when he thinks and acts peacefully, when one is not a stranger to another, but recognizes his neighbor as a brother, when each one stops limiting his territory, considering as his own what he has created, when you dissolve your confessions and borders and join hands in brotherhood, when love is the driving force of your lives instead of hatred, when there is friendship instead of enmity, brotherhood instead of intellectual zeal.

Then the Law of God will rise in your souls. And your bodily structure and all creation will be transformed and refined.

When we build houses we respect the Law of radiation. If with increased cosmic radiation there is enough energy in the intended places we raise the planetary surface with the force of thoughts to create houses. With thoughts and manual work we shape the raised mass.

This makes me think of a volcano. When an excess of energy is released the earth rises. However, where we live, everything is going on quietly and legitimately. Even so, this comparison can be made. The mass that has emerged, which is still very

energetic, is then shaped by the force of thought and physical activity. As soon as the planetary constellation changes, the energetic flow normalizes, so that the raised mass cools down and remains in the shaped form.

Each of us has special abilities, just as many people do. One person tends toward the art of building, another toward gardening. Another has an aptitude for teaching or caring for the animal kingdom. Animals are God's creatures who like to be with us. They too leave the body after a long time and pass into the divine realms. And we help them in this.

There are large halls where brothers and sisters gather who have talents for making clothes, jewelry and various objects.

These are not sold for business or trade. What one needs is received from the other. Thus each of us has a special aptitude for the good of others. We do not change the cosmic laws. If we serve the cosmic law, it also serves us according to our body structure and way of existence.

We make our clothes from a substance that you could call fabric. I say that it is a spiritual fabric, a spiritual vibration. Your fabrics, your clothes have the vibration of your planet, the Earth. Our clothes, our fabrics have the vibration of our planet. We recognize our degree of vibration by our body, by the so-called bubbles or droplets, which contain spiritual energy. Our blood is spiritual substance. Just as blood flows through you, so does spiritual power flow through us, which penetrates the etheric channels of our body in accordance with our system and vibration. In you, spiritual power flows into cells and organs, and in us into droplets or bubbles.

Our spiritual organism has a completely different spiritual mechanism than that of man. In you, unless you follow the legitimate path, these spiritual currents are very enclosed, or rather, mostly latent. This is also the reason why humanity needs so much food, because it cannot feed itself with spiritual power, since with the way of life it leads it cannot fully develop this energy or make it flow.

We can go to all the planes of purification because we live outside these spheres. We are more evolved than the souls who live there. At the moment we are not going there to teach. We have set ourselves the mission above all to save our brothers and sisters on planet Earth and to show them our existence, for the Earth will be the first to be dissolved.

Terrible times are coming upon humanity, animals and souls. If humanity has not turned to God, our Lord, before this final phase arrives, woe to their souls!

We cannot go beyond what corresponds to our degree of consciousness. We can only go downwards, unless for a short time we receive higher spiritual forces through increased light. We live in the fifth realm of consciousness, but without the aforementioned increased force of light we cannot enter the sixth and seventh planes. Nor do we long for them yet, for our mission is to take back with us what we have dragged with us with our thoughts from the Fall

According to our knowledge and our strength, we could return to the Kingdom of Light. We know about the Law of God and we apply it accordingly. We are connected to the Universal Power, but our planet is connected to us. And we transmit a lot of strength to it, because we want it to ascend as well. As you have already heard, this is the Mission we have set ourselves. We long for refinement together with our planet and our solar system. And in the meantime we help our brothers and sisters on Earth. That is why the ascension for us is somewhat slower, because we transmit to our planet and solar system our verified recognitions, which are nothing but increased spiritual strength.

We are ready to envelop all that is bound with our act of Love, so that the innermost part of all existence, the Core of the Being of the soul, frees what is still bound, thus making assimilation into the Universal Force possible.

The origin of all existence was absolutely pure and of fine matter. This state will be restored again by the Universal Spirit, our Lord and Father. And we will all contribute to it.

You can help us in our Mission by passing on these transmitted Messages to others. Man immediately thinks of publishing a book. This is not for us. I even ask you to transmit these messages so that Humanity learns of our existence and comes to know the truth.

All Humanity should learn that here, on Earth and around it, there are various forms of existence.

Human-like beings, your brothers from distant worlds, come from various spheres of consciousness, also called Worlds of Consciousness, to spread love and offer help.

Beings who are not yet at a higher level of evolution also want to contribute to the rescue action. They too have their ideas. For their part, they believe they can recognize from their sphere of consciousness how the rescue could be carried out.

They believe they recognize what will soon happen on Earth and in your solar system. Their ideas, still very limited, are brought to this Earth through human channels, also by telepathy. That is why the statements known to you are based on different spiritual knowledge. Not everything corresponds to reality, because many of our brothers do not yet have the broad vision and see the great transformation from the perspective of

their consciousness. But, despite everything, and I wish to mention this especially, their efforts are good and are driven by love and the action of help.

There are beings hostile to men, but these are not beings similar to men whose structures do not need Redemption but transformation by the Universal Force. These hostile beings are souls, and above all demons, whose actions are unimaginable. Their field of action is above all on this Earth.

Humanity is so blinded by its egoism that it can no longer distinguish between good and evil. That is why these powers of darkness have such a great influence on people and a wide field of action on this Earth. These demons, whose light and spiritual recognition are reduced to a minimum, live on a planet of their own. We call these powers the diabolical hierarchy. They are still souls who do not accept Christ's act of Redemption in their soul. They come from the Source just like us and must return to it. They possess the spark of Redemption, the driving force for divine consciousness, even if they do not accept their Redeemer, Christ. However, this Redemptive Light is largely dormant.

If humanity were to turn completely towards Christ, the diabolical hierarchy would be left without a field of action on your Earth and would have to retreat to its own planet and think about itself. But as long as humanity continues to open the doors to darkness by not yearning for the path to the inner Kingdom of God, these beings will remain among humanity, because in humanity and on Earth they see the possibility of expanding their kingdom and of acting against the Absolute, God, from Earth.

Because of their ignorance they do not recognize that time and space are limited and cannot last. Their consciousness corresponds to that of many men who consider the material as reality, and God as non-existent or as a weak force. They believe that God would have to intervene with the same weapons that they have produced and that they use.

God is unlimited flowing Life. He is Love, which knows neither beginning nor end. He, the Lord, is far from human ideas and limitations. That is why the eternally existing unlimited will triumph. God leads His children through their own faults and weaknesses until they reach Him, His eternal existence, through self-recognition.

If we want to use the word "enemy," in quotation marks, these are "your enemies," in quotation marks as well. They want to draw you even further away from God, into material dependence.

If you wonder what you can call us, simply call us Brothers of the Cosmos. Our ships are built from substances of your matter. We could say that they are condensed spiritual forces, just as everything around you is condensed spiritual force.

We do not take our gliders, also called space ships, to our planets. Many space ships like ours are stored at support points outside your solar system, but very close to you. This has a deeper meaning, which I do not wish to communicate yet. This would take us too far now.

Our spaceships consist of certain metal alloys, which we radiate with the force of our thoughts and which we always direct back towards your Sun, thereby magnetizing them. I will tell you more about this at another time.

There are no paths in the Universe. Our bodies are formed like your souls. They are like divine "gliders" that encompass everything. In accordance with our consciousness we use the orbits of radiation. We glide along them. Our will leads to action. This means that with the force of our will we direct ourselves towards certain orbits of radiation, also called magnetic orbits. The entire Universe is based on spiritual attraction.

We need spaceships to enter your condensed space. And they are, practically, a protection for us.

Some people wonder if a man could enter a spaceship, if we would allow it. I report that a man can enter. However, he is first magnetized by the force of our thoughts, that is, we transmit a protective envelope to him. Through this magnetic envelope we can attract him with telepathic forces and bring him into the spaceship. However, we will not envelop with our thoughts any man who has too low a vibration that prevents him from adapting to our radiation.

We have not yet landed with our spaceship on Earth. We make our spaceship remain at a certain distance from Earth. Magnetic forces support it. When the time is ripe, we will also land on this Earth.

I know that on Earth it is said that many spaceships have already landed. This is true. They come from other spheres of consciousness.

There have been spaceships similar to our structure for a long time. In ancient times there were tribes of men who evolved spiritually with the power of their thoughts, and so did the places they inhabited. At that time we also landed and were one with our brothers. Today, however, the Earth has become so impure that we will only land when absolutely necessary, because, with respect to radiation, the Earth is at an absolutely lower vibration.

I do not wish to speak in detail yet about what our help consists of. Many of our brothers have incarnated on this Earth to prepare Humanity for the Kingdom of Peace. Therefore, there are, among other things, many spiritual inspirations based on what is received by telepathy. They come from the various degrees of consciousness of the Brothers of the Cosmos from distant worlds. We all want to remind our human

brothers to orient themselves more towards cosmic life, to warn them about upcoming events. And to transmit to them the knowledge that the entire Universe lives and is nourished by the Spirit that exists eternally.

Humanity's curiosity is great. Unfortunately, they do not listen to the most important teachings. These are:

“Turn yourselves towards the Eternal and live in the divine Law so that your souls can be elevated by the Power of the Holy Spirit.”

However, humanity does not listen to this fundamental truth. Curiosity is greater than everything else. In order to learn details about space crews, about the Brothers of the Cosmos, man must have developed divinely and spiritually. Then he will also understand the meaning of our statements.

Naturally, we will speak in more detail about our planet because humanity, mired in ignorance, must be awakened. However, the main thing is, and will remain, what Jesus of Nazareth taught and lived: “Love God, your Father, above all things, with all your soul and all your strength, with all your feeling. And love your neighbor as yourself.”

Let us be consciously brothers. We, the Brothers of the Cosmos, live according to the Law of God (1). I wish you all the infinite power of the cosmos, the current and the Love of your wonderful Master and Guide, Jesus, the Christ. I also wish you all the evolution towards the Universal Force, which activates us all and towards which we develop.

The two brothers who accompany me greet you and wish you life with God, our eternal Father, and the development of your inner spiritual Force.

Until another time.

(1) These Messages were transmitted by telepathy in 1980. Messages have since been received in which they refer to themselves as Brothers of the Stars. This name has prevailed over Brothers of the Cosmos.

6.6 – Sixth Message.

Greetings in the name of the Lord.

I come in the name and will of the Father and His Son, the omnipresent Spirit, whom we love and venerate. We must evolve in order to be united again in the Eternal Primary Current of the Spirit. It must return to how it was before. Just as Humanity and the non-incarnated must evolve towards the Primary Current, so we must do so towards absolute Divinity.

Jesus Christ, the Son of God, is your Teacher. He leads you towards the eternal Father. For us Jesus Christ is our Brother, the Son of the Almighty, the Co-Regent of Creation.

Our form of existence has not fallen as low as the soul of man. That is why we do not need to pass through the four astral realms.

Seen from your perspective, at the Fall of the angels we remained at the fifth level of development. On this imperfect spiritual plane we realized that we had acted in the wrong way and that we now needed to ascend.

We too remained in a spiritual sleep for a long time. We talked about ways of thinking and acting. We kept looking at others, watching them become darker and darker. This time was a wasted time, when we became darker, but not to such an extent that we fell further.

Now we know that the Law of God says: *“You must not think about your neighbor, nor watch him become more and more entangled in his world of lower thoughts. Think positively at all times, and help where help is needed.”*

Since we are on the fifth plane of evolution, we do not need Redemption by the Redeemer Jesus Christ, but only liberation by the Ethereal Spirit, which will not only bring our partially material bodies to the vibration of perfection, but also our planetary System.

Now we are constantly striving to recognize our wrong attitude and to act in accordance with the Law of God, so that the partial condensation will decrease and adapt to the Primary Current.

With our spiritual development we also give our planet a magnetic spiritual envelope. In it, what is still dense can be refined, taking on the vibration of purity, so that we can be attracted to the Pure Worlds, including our solar system, because, as you know, like attracts like. So we must create like.

The partial condensation of our planet corresponds to approximately 1/3 of the condensation of the Earth. That is why there is no dark night in our homeland, but in certain periods of time there is a dimmer light that is hardly distinguishable from the day, because the Sun that illuminates our planet can mostly penetrate it. Our shadows are only slight contours corresponding to the condensation.

When we enter your solar system, we do so only with a spaceship. We built and constructed these outside your solar plasma. With our spiritual bodies we can enter your solar system, but we can only approach the attraction of the Earth with our spaceships.

Outside your solar system there are various planets that have highly developed metals. These are very similar to the metals of this Earth. For example, Sirius and other similar planets have these high-vibration metals, which are good for our purposes. We recognize by these metals which vibratory areas we must go to with our spaceships in order to enter the terrestrial sphere. On a planet rich in metals, such as Sirius, there are many spaceships prepared.

Our slider is a rotating ship built in a similar way to the spiritual bodies, which man calls souls. The saucer-shaped sliders come from the areas that are outside the four planes of purification. They are the space vehicles with the highest intensity of radiation.

Each plane has its level of consciousness. So do the beings that live on them. According to their degree of knowledge, they also build spaceships. That is why they come in different shapes.

The soul is a rotating body, built like the mechanics of the heavens, and also like every solar system. The core of the being within is the source of light. The movement of everything depends on it.

The spiritual atom is also built like the soul and the mechanics of the heavens. In the greatest, the smallest is recognized. And vice versa, the greatest is seen in the small. According to this spiritual system, which is the law of God, we have built our spaceships in the form of saucers.

It is always said that the human soul is the microcosm in the macrocosm, which in turn means that the fully developed spiritual body is absolutely identical with the Universe.

Just as the Seven Basic Heavens revolve around the Primary Central Sun, and the solar systems move in these celestial spheres, so the spiritual bodies move on the same principle. The human soul is nothing but a shrunken spiritual body which, having become darkened, is no longer in complete harmony with the Infinite.

We know about the constitution of Creation and our spiritual bodies. With our spiritual power we can calculate the energies of the terrestrial planets exactly and use them for our spaceships. We can also look into the orbits of the planets and calculate the rotation of the various planets.

We only take certain metals, which are quickly magnetized and are good conductors. There are few devices in the command capsule. They are only intended for a possible take-off, in case something unexpected happens on Earth or in the solar system.

With these devices we can draw the spiritual force from our vibrational area, which allows us to get out of the danger zone as quickly as possible.

There are devices for everything in our spaceships. In addition, we work with the force of thought, also in relation to the spaceship. The spaceship must consist of the same metals, which are also present in the solar system and on Earth.

Each planet has a prescribed orbit. We call it the direction of magnetization. The metals of the planets, combined with the rotation and magnetic currents, determine the magnetic direction.

The metals of the Earth are highly charged with energy. Such metals also exist outside your solar system. We use them and arrange them in the form of scales, or rather like superimposed plates around the space capsule. As I said before, these plates are arranged like scales, similar to the spiritual body that you call the soul.

As I have already reported, spaceships are ready on certain planets. We go to these bases by the corresponding guiding ray from our planet through the force of thoughts. We respect the Law of spiritual radiation, so our spaceships remain in their determined radiation fields, or magnetic fields. With the high-energy metals and the energies that these planets possess, we are ready to take off at all times.

When we leave our base, we have a temporary energy deficit, since we use up a lot of energy during takeoff. This energy is compensated for as soon as we reach the gravitational force of the nearest planet. - Our spaceship is a magnetic wave glider. We orient ourselves towards the gravitational force of the given planets. Certain plates of the ship then rotate more strongly. When the vibration level of the existing magnetic waves is reached, the spaceship is attracted and glides along these magnetic waves.

Until mankind respects the Law of God, according to which everything is based on radiation, it will always act contrary to it. Man uses many kinds of metals for various purposes. He carries them from one place to another, thus, among other things, continually changing the weight and intensity of radiation of the planet and thus entering into a different vibration and rotation.

When we take off from our base, we pay close attention to the radiation of the Sun. We head towards the orbit of the most distant planet in the solar system, and with the power of our thoughts we set the corresponding plate of the ship into rotation. This happens very slowly at first. Then more and more quickly until the plate has been magnetized in accordance with this planet, thus presenting the magnetism of the most extreme planetary orbit. We are thus automatically attracted to this planetary plane. As soon as we slide into a certain magnetic wave orbit, we set another plate into rotation, which is magnetized with the next planetary plane.

This happens because all the plates of the spaceship have the metals of the given planets, which revolve around your Sun, for like things attract each other as long as they have the correct degree of vibration.

Like things attract, it is the Law of the Spirit. The energy for all these processes comes from the Sun. It determines the degree of magnetization of the planets. However, the magnetization is again carried out by the rotation through the corresponding metals

and rocks. For the Master of all existence, the Creator of the entire Universe, has arranged everything in harmony and in a wonderful order. We can see this order and remain in it.

The closer we come to the pull of the Earth, the more plates of the spaceship are in action.

When we approach lower vibration planes, the energy of the plates facing higher vibration planets decreases, because we move away from the pull of these planets.

The closer we come to a planetary orbit, the greater the rotation of the corresponding plate. If we stay on this plane, the rotation decreases. The pilot of the ship can demagnetize the corresponding plate with the force of thoughts. This slows down its rotation and so the spaceship can remain on the corresponding plane. When the ship has to continue gliding, the magnetic forces can be put into action through the plates, whereby the ship is catapulted into the next planetary orbit. None of the plates is in a state of rotation, because through them we are in contact with the corresponding planes or elliptical orbits of the planets. For through the planetary orbits we slide back to our base. We always pay attention to the radiation of the Sun. This is very important for the magnetization of the plates. When we want to go to certain continents on Earth, we first take a good look at the radiation of the Sun available there, because everything is based on magnetic orientation and attraction.

We have set ourselves the task of helping people and thereby practising love for our neighbours, for only with love for the Universal Spirit and for our neighbours can people, and we too, continue to evolve. --The fate of this Earth is reflected in the atmosphere. In the atmosphere we can recognise the Earth's reserves of power that are still available, for not all the forces that are released on Earth contribute to its preservation. In a large number of forces that are released we can recognise the dissolution of the world, that is, its destruction.

The spiritual power of the Primary Central Sun is also of great importance, which ultimately maintains spiritual life in all areas of Creation. Its radiant power is currently penetrating most intensely into the realm of order, to which the Earth's solar system also belongs. This highly potent spiritual energy reaches the soul of the Earth, thereby bringing it into an increased vibration. Naturally, this is also felt in the material realm of the Earth, i.e. in the mineral, plant and animal kingdoms, since the earthly, material realm is also maintained by the Primary Central Sun.

Precisely this immense radiance must be taken into account with our spaceships, because this divine power is increasing more and more in the realms of order in order to bring matter into action and gradually dissolve it. Through this cosmic radiance we recognize that the Law of Transformation is now becoming more and more effective. This legitimacy begins above all in the most condensed realm of Creation, in the Earth's solar system. From order to the last step, mercy, all the planes of the Fall will be purified and included in the spheres of Life of fine matter, purely spiritual.

As you now know, we have proposed the Mission of participating in the Plan of Redemption, although we do not need this Redemption that comes from the Son of God, since we have not been contaminated by the four astral spheres. That is why the Son of God is for us, as we said, the Co-Regent of the Heavens, not the Redeemer, but the Liberator of your souls and of the souls of the astral spheres. We have gratefully accepted the mission and now act, led directly by Him.

Humanity speaks of disappearance. Our spaceships are for you the so-called "clouds", which welcome men and souls, as long as they are of good will and react to telepathy. Our help also reaches other life forms, so that everything can be transformed by a higher light of radiation.

After the great transformation of this Earth, after the expansion, no beings of dense structure, which humans and animals possess, will inhabit the New Earth again. The New Earth will be inhabited by spiritual beings of pure fine matter, since each solar system gradually passes into absolute purity, in which only spiritual bodies of the corresponding pure vibration can live. I have already mentioned that there is a lot of information from the Brothers of space, from beings similar to humans, which is often very different. In this regard I would like to say the following:

Outside your solar system there are beings of various kinds and of different condensation. They also have space ships. The shapes of these ships are different. As I have already reported, they are built in accordance with the degree of consciousness of the Brothers of the cosmos.

I repeat: Every external form of spaceships is the expression of the consciousness of the Brothers of the Stars. They all strive to inform Humanity according to their level of consciousness or knowledge, and to lead them to their Master and Redeemer, Jesus Christ.

With the cosmic radiation many people with mediumistic faculties are incited to hear messages. If these men are not free from egoism, curiosity and desire for knowledge, that is, if they are more inclined towards the external, towards material life, and have a need for admiration, then it is possible that they attract ignorant astral souls, who may pass themselves off as beings from the stars or crew members of spaceships from Higher Worlds. Such souls, who also wish to be admired, mix their knowledge from various impure spheres and spread it over the Earth through undeveloped mediums.

Apart from this, only as much can be conveyed to humanity as it can understand at that moment, that is, according to the evolution of its consciousness. Furthermore, all authentic manifestations are only part of the great Truth, since man can never fully understand the absolute cosmic relationships. Much of what comes from supposed

inspirations comes from the realms of souls, or is the production of the brains of mediums, or it can also come from atmospheric chronicle, just as rain falls on the Earth.

Men who do not prove to be pure channels, who desire nothing, but give free rein to their worldly desires, curiosity and intellect, can also perceive such ideas, which are not pure knowledge, but mixed. In these realms of manifestation there are many possibilities that I do not wish to explain in detail, since it is not part of my mission.

In the Name and Will of the Lord, our Father, and of the Co-Regent, your Master Jesus Christ, I can manifest myself here. With what I have transmitted, I do not wish to convince anyone, but only to bring the Truth to this World.

Every spiritually developed man can perfectly distinguish where the true and the erroneous are said, as long as he is oriented towards God, his Father, and is not malicious towards his neighbor, because he who strives to reach God can be guided by the Universal Spirit.

I thank God and His Son for this Mission and for allowing us to give our Message in the name of Jesus Christ.

For today I say goodbye and I wish Humanity, the Earth and everything that moves in your solar system, recognition and spiritual maturity, with which many things could be created.

Peace in all Creation, the servants of the Lord ask. I, your brother, have spoken by telepathy.

6.7 – Seventh Message.

We, the Brothers of the Cosmos, are in the plan of Redemption of Jesus Christ, and we want to fulfill it faithfully.

As you know, we too are ready to verify all that has been recognized and to evolve towards Eternal Existence together with our brothers and our solar system.

On your planet, Earth, we see how great events are taking place. We already see the great event that awaits Earth and Humanity.

We recognize more and more clearly that we have to equip our spaceships with more equipment, because the set of planets will change greatly, as well as the planetary orbits. Gravity also changes.

We must strive to technically supply our spaceships so that they can manage to escape possible magnetic vortices when they enter your solar system.

Magnetic vortices are large dark spots. They could also be called black holes, which have large absorption effects. - If we are not careful with them, our spaceships could be damaged. It could even happen that they would become unusable and that our partially condensed bodies would burn up. Even our etheric bodies could be damaged.

Such magnetic vortices also emanate from the Earth, precisely in the equatorial area, because there are unsuspected force tensions forming there. Great catastrophes will also begin throughout the equatorial area, which will then spread to the countries that caused them. As you all know, an action creates a reaction, or in other words, what you sow, you reap.

Looking globally, we recognize that humanity is now facing the effects of its causes. These will soon be discharged, that is, produced. But we also see with joy how this plane, on which this solar system vibrates, is getting closer to the great Primary Central Sun, to the Eternal Light of the Universe. With this, increased energies penetrate this Earth and also to all men. That is, also to those who are willing to accept spiritual goods. Therefore we see great possibilities of acting in many hearts, of preparing men and souls so that they can be attracted telepathically by us after the Great Battle of the Peoples and during the time of the Second Coming of Christ in Spirit to the atmosphere of the Earth.

The soul of the Earth also begins to change with the increased radiation of the Primary Central Sun. Thus, the spiritual collectives of the planetary soul receive greater spiritual forces, which change and gradually attract the plant and animal kingdoms connected to the planetary soul. We also recognize great appearances of light outside your atmosphere. These forces of light cleanse and transform especially the planets of various condensations.

The joint action of the spiritual forces of the Primary Central Sun and the planetary soul proceeds with absolute lawfulness and therefore harmoniously.

--Only ignorant humanity produces countercurrents. Through its contradictions, both through its thoughts and its actions, tension fields are produced on Earth and in the atmosphere, which are just waiting to be discharged.

--This is the great misfortune: man is the opposite pole of events that proceed legitimately. His heart, lacking peace, creates, as we now see, dangerous and insurmountable causes, so that it can be said that the dissolution of the Earth is inevitable.

--The ensemble of planets is only partially changed by the increased light forces of the Primary Central Sun.

--The ensemble of your condensed planets is changed above all by your contrary acts, by the application of your brutal force. If the Earth and its satellites (in this case, humans) create contrary vibrations and light spectra, not only the polarization of this Earth changes, but also the magnetic currents.

- On each planet, also in the Sun and on the Earth, there is a cosmic clock, which, moreover, works in accordance with the great totality, with the mechanics of the Heavens.

- Each planet has its function in accordance with this cosmic clock with respect to the other planets by the Law of gravitation. By changing the cosmic clock of a planet, by interfering in the magnetic fields and destroying them, the precise function of the entire solar system also changes.

- Man believes that the whole of the planets changes due to greater cosmic irradiation. This, however, is only partly true. I tell you that man contributes greatly by interfering in this cosmic Law. He does this above all in his solar system. Since the Earth is subject to a change in rotation and vibration through the erroneous actions of men, it produces contrary currents and frequencies.

- The vibration level of this Earth is no longer in harmony with the other planets, which creates enormous causes.

--Humanity must be warned. This is legitimate. The Primary Light also penetrates more strongly into men and reaches above all those who in a previous life, and in the present, have oriented themselves and are oriented towards the Absolute Spirit. That is why there are also more divine spiritual manifestations. The internal divine clock is not only found in the cosmic, but also in the soul.

-Those who only orient themselves towards matter, and do not respect the cosmic clock of the soul, will have to suffer unimaginable tortures.

We too, like the pure beings of Heaven, can only warn Humanity and souls, and call man to return to the Origin, to recognize himself and penetrate into his interior.

As long as humanity does not accept these words of warning and does not intend to return, men cannot be attracted or rescued by the Spirit of Christ or by us through telepathy.

We do not have the possibility of purifying a man's body, since this depends exclusively on the purification of the soul. The purification of a soul is achieved only by surrender to the divine Spirit and by the fulfillment of its Commandments. Jesus Christ says the same in His manifestations: Only with self-recognition and surrender to God, to Jesus Christ, can the soul be purified and develop spiritually.

Near the Bermuda Triangle a sunken continent is rising. Therefore, great contrary radiations occur between this emerging continent and the atmospheric layers.

Similar whirlpools, also called magnetic whirlpools, always reappear in the Worlds of the Fall, however, they can have different causes.

The large planets that belong to your solar system have changed their orbits. To name a few: Mars and Venus. -These changes are not perceived by your scientists, because the instruments to measure them are not precise enough

Neptune also changes a lot. And Mercury adopts an increased speed and rotation. Saturn changes and increases its luminous intensity, which has as a consequence an increase in the energetic influence on the Earth. On the other hand, Saturn and its assistant planets can no longer resist the enormous changes in forces that come from the Earth due to the erroneous actions of Humanity, and therefore change their orbits. The consequences of these changes are different on the various continents of your Earth. It depends on the aura of each continent, and also on the minerals, waters and availability of Nature, that is, the forests that exist. We cannot give precise statements about this, because we do not know how everything will change.

We only see the great catastrophes that are going to come, and the changes that occur in the equatorial area. We also see the state of the seas and how the ocean currents are changing. We also see that a pole shift is being prepared. But we cannot say in detail which continent will be the most affected. We do not wish to spread panic, but only to warn and tell our human brothers to take hold of the lifeline thrown by their Redeemer, Jesus, the Christ.

These great transformations will happen very slowly. Humanity believes that these events will occur quickly. However, the first events, i.e. the first causes, will pile up and one catastrophe will follow another. But until the system has been completely transformed by expansion and a New Earth has been created, it will still take a long time. Everything will happen little by little until we reach Eternal Existence, where our true and eternal Home is.

The only thing we can do, as far as possible, is to save the willful people and souls still tied to parts of the planet from the chaos and magnetic whirlpools and take them to planets that are still safe. Many can be purified during the flight, because with the increased light and the power of the Spirit, a quick purification is possible, but only for those people and souls who have already had a corresponding spiritual education on this Earth.

We can speed up or slow down our flight, we can even float slowly and stay in one place for a long time, forming a station there. During this time, people can get rid of their bodies thanks to the Christ Force, which will be very strong at that time. This liberation from the body will take place in a similar way to death. However, it will not be associated with so many tortures, because these willful people are in a higher vibration and in a layer of radiation, so they can easily leave their bodies. It will also be possible for some men to go to a planet of the Fall, which is not yet affected by so many tremors, in order to orient themselves towards God and to be able to voluntarily and gratefully leave their bodies with the increased irradiation of the Light of Christ.

The purification of the Earth, which takes place with the dissolution of matter, will not be so rapid. It will take a long time before a New Earth and a New Heaven will arise. For the Lord said: The Sun and the Moon will be darkened and the planets will fall from Heaven. This is said figuratively and means: All matter will be united again in one mass and will be brought to refinement. From this mass will then arise the New Earth of fine and pure matter.

On the scale planets to which many men will be brought, or in the space ships assembled to form stations, a man will not be able to wait the time that the Earth needs for purification, even if he lives in a higher state of vibration or is like a sick person in an irradiation bell. The cosmic clock in man is set by the Creator of all life. Even if higher merciful forces act, the internal clock will not change much.

The “New Earth and the New Heaven” will be planets of pure fine matter that will have nothing in common with the old Earth and the old stars, that is, with the Worlds of the Fall. So the old Adam will not be able to live on the new Earth either, but only the divine man, the spiritual being who emerged from God as a pure principle.

The Earth and everything condensed will be refined and will take on the structure of the absolute. This event, which begins with the transformation and expansion of your solar system, is for all the planes of the Fall the first inhalation of God.

The idea of leading you Home already existed when the Lord granted the plans of the Fall. The will of the Lord as a manifested divine quality, the cherub Michael, led the children of the Fall out of the pure Worlds, out of existence in Paradise, since impure beings cannot exist among the pure. The impure is not sustained by the pure, but rejected. Therefore it is said:

Michael, the Will of the Lord, expelled the contrary spirits from Paradise. So when Humanity and souls are led Home, the Will of the Lord, Michael, will play an important role. His Spirit will drive the willful to orient themselves even more towards God, so that without great torture they can approach eternal Glory.

The Will of the Lord in Michael is one of the Cherubim before the Throne of the Lord, one of the four Guardians of the Law also called the four qualities of God.

The Will of God in the Law is the Water Element, the driving element. For this reason the epoch that is developing is called the Age of Aquarius.

Michael is the Cherubim of the divine Will and therefore the guardian of this divine quality. His Spirit is once again in action to awaken the contrary children of the Lord, so that they may change their lives and turn completely toward God, our Lord.

The Will of the Lord expelled the incorrigible contrary children from the pure Worlds. The same Will is now once again in action to drive all these children back Home, so that they may once again accept God, Life, and recognize Him in their souls.

The Will of the Lord warns the children of the Fall in the name of Jesus Christ to return Home. Also the angel of the Law of Order, another of the four qualities of God, will make everything new.

I wish you Love, which belongs to the Light of the Resurrection, since this alone is not enough. Whoever does not live Love cannot be resurrected, even if he possesses the Light of Mercy. Love ignites the Light, which then illuminates all the dark parts of the soul so that it enters into the vibration it needs to get closer to God and experience Him, Life, in all forms of Life.

Your brothers from distant Worlds look forward to meeting you again in purity and Eternity.

7. Messages from the Brothers of the Stars given by telepathy to the Regent of the Plane of Love of the Pure Skies, incarnated in Alfonso de Adamuz. He has been writing and signing under the pseudonym of A. D'Hertzáurea.

These Messages are included in the Books and Messages distributed on the Web <https://www.entreeleterylatierra.es>

7.1. COSMIC FORCES. SHIPS AND FLEETS. RESCUE AND SALVAGE ACTIONS. WARNINGS TO CERTAIN EARTH GOVERNMENTS.

I, Yosúa, Spokesman of the Brothers of the Stars report:

Those integrated into the Cosmic Forces come from Galaxies close to the sixth dimension. From habitat planets of the fifth dimension come the earth- based Brothers, those who man the great fleet ships stationed in the Kuiper Belt, those who man the ships that circumnavigate the Earth, and those who man the great ships of high vibrational frequency that keep in balance the magnetic axis of the planet Earth, invisible therefore.

We can all make ourselves visible or invisible by adjusting our frequency of vibration to that perceived or unperceived by the human eye. In the same way we can adjust the degree of vibrational frequency of ships, thus making them visible or invisible.

Some satanic hierarchies did not accept defeat in the Battle of Light won by Darkness. And many demons incarnated on Earth to make "scorched earth" of whatever could help the New Humanity to establish and extend the Kingdom of Peace over the face of the Earth in the Golden Age.

By their fruits you will know who are demons. Many live among you, not only occupy bastions of Power in certain Governments and known Organisations of the Earth, from which they tyrannise and go against the citizens of the State.

In the battle they lost, during the "pandemic", which was not, they tried to modify the human genome by massively injecting millions of sons and daughters of the Infinite with the known "gene product" malignantly incorporated into what they called "vaccines", which were not either. "They" discovered themselves to the Peoples of this World.

This is why I was assigned by the Father of Heaven as the Aide-de-Camp to the Regent of the Plane of Love of the Pure Heavens incarnated on Earth to assist Humanity, heretofore known as A.D.Hertzáurea.

The Father of Heaven will announce how he will be known to Humanity.

I am permanently at his side, as are the escorts of the Regent of the Plane of Love made up of ground-based Star Brethren of the fifth dimension, and those who man the ships assigned by the Father in Heaven for his permanent protection and service.

It is the Will of the Father in Heaven that veils are being drawn over the Regent of the Plane of Love following the attempted moral assassination by incarnate demons and their accomplices. All is being laid bare by the Light.

All Star Brethren of the Cosmic Forces are in service to the Father of Heaven, to Jesus, the Christ, and to the Ruler of the Plane of Love of the Pure Heavens.

We are on a Mission of permanent help and service to the sons and daughters of God, and to all beings and existences of the Kingdoms of Nature that inhabit the Earth, as visible manifestations of the Love of the Creator Father in form.

I am not a spokesman for Brothers from fourth dimensional planets. Neither is A. D'Hertzáurea their spokesman.

He is our only Spokesman, as he is also the only public Channel of the Father in Heaven and of Jesus, the Christ, at this time on Earth.

The Brothers of the fourth dimension strive to help Humanity according to their consciousness and knowledge, which corresponds to the degree of vibrational frequency of their souls. We all love and support each other.

According to their degree of consciousness and knowledge they have built small ships that cannot travel to the fifth dimensional worlds, but can travel to the Earth, a third dimensional planet.

None of their ships could lift or move warships or military aircraft into the interior of a country, for example, nor could they keep the Earth's magnetic axis in balance.

No ship of the Cosmic Forces has ever crashed to earth. None of our partially material bodies are in the dependencies of any Agency of this World.

Our ships were built to help man and the beings that have inhabited the Earth for millennia since ancient times. We have also built large transport ships for smaller ships that can move from one continent to another in seconds. Circumstantially they can land anywhere on Earth in relief actions.

Demons incarnated in certain rulers of Earth Peoples know that large ships could loosen the Earth's magnetic axis in an instant, if they exploded atomic bombs.

They intended to contaminate with radioactivity the farmlands, the waters, the

air, and Nature in general, and the beings of the Kingdoms of Nature. They were warned.

In an instant would happen what is written in "Between Ether and Earth". It was said by A. D'Hertzáurea at various times to certain rulers and Intelligence Services when we have reported through him.

If some have not read this book, which began to be disseminated internationally in the spring of 2022, and thus do not know what is related to the current situation in the Middle East, we transfer to this Message the following excerpt from chapter 13 of "Between Ether and Earth", pages 49 and 50.

«Since 2016 we have been giving "information" to Intelligence Services knowing that they were "listening" on certain telephone lines. **We have reported on what would happen if they exploded atomic bombs to contaminate farmland, rivers, lakes, water sources, and how much would serve to survive and settle the new Humanity on the face of the Earth in the Golden Age.** We have known for a long time about the plan of the Darkness to "make scorched earth" in its withdrawal from the planet towards the Abyss, its cosmic base.

"They are not going to be allowed!", was and has been pronounced repeatedly by our Spokesman when we have reported through him, well, **"if the War Conflict started they would explode nuclear bombs, the large ships that keep the planet in balance" loosen" its magnetic axis a few degrees.** The Earth would oscillate, flooding the seas and the coasts. Military satellites would go down, making it impossible to launch any more missiles with nuclear warheads.

They understood "what they heard." After the "information" received, they have prepared huge amounts of conventional weapons.

The Great Struggle of the Peoples of the Earth will be the last war, a complement to "they" making "scorched earth", through certain rulers, of everything on the face of the Earth. They are also architects of genetic and social chaos and the collapse of the economy.

Well-known instruments of "them", those invisible to the human eye, took control of the mass media by injecting capital, infiltrating and corrupting the Institutions, creating the so-called "pandemic" to threaten life, health and fundamental rights of citizens, causing damage to their productive fabric, carrying out "coups d'état", establishing dictatorships and tyrannies once they took power, committing acts of genetic bio terrorism against hundreds of millions of inhabitants of the Earth. and acts of state terrorism in known countries. **"By their fruits you will know them."** It was anticipated by the Coregent of the Infinite incarnated in Jesus of Nazareth.

"By beating the drums of war they are provoking the Great War Outburst of the Peoples of the Earth. Nothing will ever be like the second before the start of the Last Great War.

"Before the so-called Third World War starts, Israel will unexpectedly disappear as a state. Israel will never be a state again. Not long after the disappearance of Israel, the Great War Conflict between all the peoples of the Earth will begin.

"Whoever is beating the drums of war loudly does not expect this Great War to reach the continental territory of his country, the United States of America. Neutralized its sources of supply and storage of fossil fuels, he will be put out of action. At the same time they will have to deal with the effects of natural disasters caused by the Elemental Forces Fire, Water, Earth and Air, which will gradually purify this vast territory of magnetism "strange" to Mother Earth.

Nor will the US be able to raise its head, the States being divided into a man for himself. This is how the United States has wanted it, causing wars, destabilizing governments and destroying millions of lives, properties and subsistence resources of many peoples of the Earth, as a gendarme of the World Order, according to them, throughout its existence as a State. They will inexorably attract what has been caused in this time of accelerated change. That is how they wanted it, that is how they will suffer.

The new Humanity will live in Love and Peace during the Golden Age, the Kingdom of Peace, which will spread throughout the Earth, integrating the planet and the new Humanity into the Great Cosmic Family.

"They," and many of the current rulers, will no longer return to Earth. As the planet's vibrational frequency has risen, increasing its Light potential "they" have started to abandon it. What they can't resist. Hence making "scorched earth" in his retreat. Magnetic portals will prevent souls who have not raised their vibrational frequency from reincarnating on Earth.

(End of excerpt)

We Star Brethren are not physically what certain "experts" in their ignorance say, write or draw about "extraterrestrials" in magazines and television programmes. They know nothing about our ships, nor when we will become visible.

We will be closely united with the New Humanity, which will inherit the Earth after the Great War of the Peoples and the Second Coming of Christ in Spirit into the Earth's atmosphere.

We will help the New Humanity to extend the Kingdom of Peace over the face of the Earth, now without borders, without religions, without armies, living man in Peace with his fellow man and with the beings of the Kingdoms of Nature, fulfilling the Commandments given by the Father of Heaven and the Laws of Love taught by the example of the Son of God in Jesus of Nazareth.

Countless cosmic beings from the Pure Worlds Beyond the Stars and from the partially material Worlds have incarnated to help their brothers and sisters on Earth when the endless events that will devastate this World rage.

The great ships stationed in the Kuiper Belt, of dimensions unimaginable to man, were built for the salvage and rescue action of the inhabitants of Earth and of all beings and existences of the Kingdoms of Nature housed by Mother Earth, in which the Father and His Son are Life.

No man, no Life-bearing being, visible or unseen by man, will be left on planet Earth. Evacuation and rescue will precede the initiation of the great processes of transformation of the crystallised matter of the planet by the increased action of the Elemental Forces of Fire, Water, Earth and Air.

The crystallised matter will gradually attain the degree of vibrational frequency determined by the Father of Heaven.

In this Message we warn those of goodwill throughout the Earth of the "strange" news created and propagated by media and official Departments of certain countries about UFOs, locations and forms of "extraterrestrial" craft, attributing to the "extraterrestrials" malicious intentions.

Thus they try to mislead about the Mission of the authentic Star Brothers on a Mission to help Humanity since ancient times, in the service of the Father of the Heavens, His Son, and the Ruler of the Plane of Love of the Pure Heavens.

7.2. HELP FROM THE FORCES OF THE COSMOS.

On January 26, 1990, Jesus, the Christ, manifested through Gabriele of Würzburg the helping action of the Brothers of the Stars when intense natural catastrophes occur on Earth.

We give a fragment of this Manifestation of Jesus, the Christ, on the action of the Cosmic Forces.

"Verily, the earth shall open, the seas shall rise. I am the Saviour and I call you. I will keep for you some spaces of Light in which you can live and dwell, but the condition is that your souls become more and more luminous. This alone is the guarantee and not the many words about Life, about the Law.

Much has already been said about this. Many prayers were said. Peace was prayed for peace, but was there really peace in the souls? No. If there had been peace in the souls and in the hearts, then there would be peace on this Earth, and the Light would permeate the whole Earth

The waters, however, will permeate much of the surface of the Earth. And if then communications break down and in some places there are luminous souls incarnated, **then the Forces of the Cosmos will act. And your Brothers from the Stars will come.**

I tell you that these times are near. I tell you in advance.

Prepare for me the ways. However, if there is no Light in your souls, if you do not bear the sign of Love on your foreheads, then floods, catastrophes, earthquakes, misery and famine will sweep you away, will annihilate you. And more than one will disincarnate and find himself again in the realms of souls. And he will have to acknowledge that he has sinned.

And if in the realms of souls he purifies himself, if the soul repents of that which is pending, then it is possible that he can again incarnate his soul while the wheel of reincarnation is still turning in this way.

Truly I say to you: the Forces of the Cosmos are in motion.

Of unimaginable size are the actions to save the faithful, those men who strive to do My will, which is the will of God the Father-Mother.

And many throughout the Earth are learning of the Message of Love. And they will take charge. In spite of the effort they will come in vehicles and later on foot to those places of Light and of Strength.

The Brothers of the Stars will lift up that which is luminous. And where there is Light they will land. And more than one thing will happen imperceptibly in the darkest night.

I call you: Return! I warn you. Do not only contemplate the Words of Life, do not only accept them, but realise them.

Fulfil the Law of Love so that you may be filled with Strength and Light. And the inner Life, which I Am, may at last guide you directly.

Times are serious, really serious. The wheel of reincarnation is going faster and faster. Time is getting shorter. And the Eternal One is shortening material time more and more so that the faithful may stand on safe ground.

Watch therefore and pray. And if you pray, examine whether you are fulfilling that for which you pray, for only then will your prayers of life bear fruit. All else is an illusion. Be aware that the times are serious.

Make yourselves aware that the Light, I, Christ is present.

And he who aspires to the Light, that one will be in the midst of the chaos and nothing will happen to him, for he who is full of Light, that one radiates the Light of Love, and the darkness must give way. However, as long as you still affirm sin and thus still sin, the adversary attacks and will seduce you more and more into sin, for he wants to have you with him.

He who lives in Me, in him Peace awakens. And he that hath Peace in him, he also bringeth Peace, My Light, into this world.

And thus My Light comes through many. I come to you through beings of Peace. I Am the Prince of Peace, the Christ of God, your Redeemer and Ruler of the Kingdom of Peace growing and forming on this Earth.

I Am in the Eternal Father the Law of Love, Strength and Wisdom.

The Eternal Law of God is Peace. This Peace, the Peace of Heaven, I bring to you.

And if I now bring it deep into your souls, I leave you the Peace of Heaven.

My Word is Life, My Word is Strength and Substance.

Whoever can grasp it, let him grasp it. Whoever wants to leave it, let him leave it.

I am Christ, the Son of the living God, Eternal and Unique, who is Eternal from everlasting to everlasting. PEACE!"

7.3. THE NEW COSMIC REALITY. THE NEW TIME HAS BEEN ANNOUNCED.

Again I take the floor, Yosúa.

See and feel, brothers and sisters who inhabit the Earth, that the true reality is that of Spirit, the powerful and wondrous reality of that which vibrates at the High Frequency of Being, unperceivable to the human eye.

Know that all that has a beginning has an end.

After the end of Matter comes the New Cosmic Reality, illumined by the Infinite Father and Jesus, the Christ of God, the True Ones, His Names rehabilitated before Humanity, whom we serve.

So do we serve you, for the Father and Jesus, the Christ, are the LIFE in each and every one of you. And we bow before the Spirit of God in you.

The New Cosmic Reality is an unstoppable process, which will inexorably emerge from the rubble of Matter, the World vibrating on the Low Frequency of un-Love.

Brothers and sisters of the Earth, the New Time is unstoppable, and important changes are already on the horizon of this World, which are being shown in the Rulers of the countries of the Earth who have chosen to cooperate with each other for the good of the Peoples they govern, thus being living examples for the citizens and citizen-States they govern.

They are Rulers different from those who think of endless wars, weapons and plunder, different from those who have been plundering the Peoples for their own benefit, and are bad examples for Humanity.

These and those who support them will attract as magnets what they have caused to their fellow men, because they have chosen to serve the Darkness.

Brothers and sisters of Earth, the New Time has been announced.

It is the time of the Righteous Men and Women who will walk the face of the Earth victorious, victorious with the Light of their souls over the Darkness, represented by the Rulers and the seduced who have chosen to tie sacks of "lead" around their necks. They will be engulfed by the Sea of Cause and Effect.

It is a beautiful, but also a serious Time, when Justice will be done. And the tears of the weak and oppressed of this World will be wiped away.

The New Sun is coming, illuminating the lives of those faithful to the Father in Heaven and to His Son, Christ, even when the materialistic World is submerged in violence and war!

This World will have its end when millions depart for the Beyond. And only the steel of weapons will be left to make ploughshares to cultivate the Earth in Peace!

Blessed are those who love, being standard-bearers of the Light, conquerors of the Darkness, which shall never again rule the Earth!

All things are made New by the Father and His Son, Christ, the rehabilitated True Ones, not those of the religions of this World, illuminating the paths of those who begin the Path of Return to the wondrous Worlds Beyond the Stars, even while incarnated in human bodies.

Among these are those who have fought for their rights, their freedoms and their genetic integrity: They did not allow themselves to be injected with synthetic mRNA in what they called "vaccines".

While the rulers injected placebos. We know who they are.

They tried to legislate in parliaments to forcibly inject them with the genetic poison, wanting to deprive them of their freedoms and rights. And they decreed to inject the product into children and pregnant women. Others declared to the media that they should be locked up tight. As examples. They have shown by their words and deeds that they do not belong to the Light, but to the Darkness.

These, and those who have tried to reach the People's Chiefdoms, will suffer the consequences. And they will pass directly to the atonement in the realms of the Timelessness of No Time. And their accomplices and henchmen.

The dense, low-frequency vibrational energy fields they have created remain. They are leaden bells that they wear around their necks. We know them from other incarnations.

Despite millions of deaths and incurable genetic diseases, they are back to "scorched earth" with genetic poisons in children and the elderly by injecting them deceptively mixed with other "vaccines". But the bearers of the lead bells do not inject them.

Constitutional and human rights come to be spikes of golden grains and precious stones that dignify the human social being. And they safeguard his existence in Freedom while he is on Earth.

Those who wear leaden bells around their necks wanted to bury these ears of gold and precious stones in deep swamps.

Many, millions of the so-called unvaccinated rebelled against the tyranny of the instruments of Darkness. They rebelled against those who, being black wolves, seized power in the guise of gentle sheep.

Many, millions of God's sons and daughters succumbed to the demonic pressure of rulers, their accomplices and businessmen.

Deceived by rulers, their media accomplices and doctors, they allowed themselves to be injected with killer vaccines.

Many, millions, have become aware that "they are on death row". We listen to them when they talk to each other.

They are "those who have nothing left to lose". Among them are those who have taken up the torch of the revolution that is setting the Peoples on fire.

Others, millions, were "vaccinated" with placebos to make it seem that the "vaccines" worked.

Others, millions, were seduced, they allowed themselves to be injected with "vaccines" that were not vaccines. They proselytised publicly and in the media. They publicly proclaimed the responsibility to "get vaccinated" as an "act of love" for others.

Others let themselves be deprived of Freedom, and of the nourishment of grains of gold and precious stones mixed with the rotten chaff of their thoughts and the scythe-waves of the televisions.

They lost what dignified them as human beings. And yet, they proclaimed:

"We can still eat straw".

Those of good will and the simple of heart should understand the meaning of this sentence in quotation marks.

Who will be saved from the sinking ship of this civilisation?

Look in the newspaper and video libraries to see which of the above social groups you belong to. And those of you who have harmed and killed your fellow human

beings, acknowledge it and make amends, in time, to lessen the size of the leaden bells. For the unpaid and unfulfilled bills are being presented for collection.

It is harvest time for Humanity today. Recognise that the "*Titanic*" of this materialistic world is sinking.

Are the Sovereign People obliged to obey those who, in breach of the Social Contract, have made it null and void, discrediting the democratic institutions that the People themselves granted?

To whom are judges, public prosecutors, forces of law and order and armies that swore an oath before the Constitutions that the People gave themselves?

Those among them who are beholden to the illegitimate and corrupt power have shown that they are against the citizens - the state.

Nothing will remain hidden, for the Infinite makes everything new.

We, your Star Brothers, know how much the Darkness has plotted in the offices of its instruments, who came to "Power" by lying.

And by lying to the citizens and citizen-states they created a "pandemic". By means of the mass media, they have penetrated fear into the mental sphere of those who allowed themselves to be blinded in order to inject them with dose after dose of the synthetic mRNA gene product, in order to modify the human DNA.

What was advertised worldwide as "vaccines", without being vaccines, was malignantly "seeded" into human bodies.

These "seeds" began to yield harvests of dead people and untreatable genetic diseases.

7.4 - Events. Wars. Incarnated in Mission of Love in Africa.

I, Yosúa, take the floor.

The Brothers of the Stars, crew members of the ships that fly over the continents and countries of the Earth, also fly over the countries of the Sahel, attentive to all that is happening.

In the "*Message of the Brothers of the Stars given to Humanity during the collapse of the present civilisation*" - November / 2022 , we announced and warned about the creation of wars in Africa by countries of the West with the intention of making the

borders jump, provoking waves of sons and daughters of God who will abandon their villages, populations and lands of subsistence fleeing from death in Africa to find it thousands of kilometres away from where they were born.

In the Message quoted above we also say: *"We know of the agony of death they will experience, of their thirst and hunger and disease on dusty, waterlogged fields, in the rain and scorching sun, on asphalt and concrete and village streets, without a bed or a roof over their heads, where they can die with dignity".*

We made this statement because some thirty years ago the Infinite One showed the Regent of the Plane of Love the pictures in which He was helping His sons and daughters from the Sahel to die, who were dying in the streets of the population situated in the geographic area magnetically bounded by our ships.

Remember that we are in the time when the future announced by the Infinite is walking towards the present.

By the images given by the Infinite we also affirmed in the Message:

*"They will come from the countries of the Sahel and other countries of Africa where they have been training militias of fanatical Islamic fundamentalists, arming them with weapons provided by certain rulers of countries of the West behind the backs of their Peoples. They are already subverting order, destroying buildings, infrastructures and communication routes between neighbouring countries, necessary for trade and food exchanges, creating chaos and panic to provoke the abandonment of farmland, towns and villages, provoking "them" the great emigration towards countries of southern Europe, within their plan to "make scorched earth" to interfere and destroy with wars on a global level whatever helps the **Establishment of the Kingdom of Peace on Earth**".*

We, the servants of the Father of Heaven, of His Son, the Corregent of Infinity, of the Ruler of the Plane of Love of the Pure Heavens and of Humanity, are exceptional witnesses of what is happening in the Peoples of the Earth, as well as in the Peoples of the Sahel. We continually fly over them and monitor them. Thus we know what certain world leaders and oligarchies have been plotting behind the backs of their own Peoples and other Peoples of the Earth.

We know, therefore, what they have intended by waging war on free Peoples of Africa, inciting them to fight against the "enemy" created by them, whom they have instructed and armed to generate here and there pockets of war that will cause destruction and suffering to the suffering Peoples of Africa. We warn. And thus we

help to neutralise and lessen what is caused by those who are using weapons. You are free.

And we know also that waves of beings of Light have come down to Earth on a Mission of Love and Peace to help and serve their brothers and sisters on Earth. Many, many beings of Light have incarnated and will continue to incarnate in families of all the Peoples of Africa. They are of all ages.

They are part of the ethical remnants who in all the countries of Africa will help and will be helped by the Brothers of the Stars when the time comes. Also those of you who read these words.

The only condition is that each one becomes shining like burnished gold, that each one investigates the dense energies of low vibrational frequency - "lead"- attached to his soul.

If the dense "lead" energies magnetically attached to the souls are not released and transformed, they will attract like magnets the demons vibrating in the low frequencies of the "lead" energies.

Help is available to you all in chapters 18 and 19 of *"Between Ether and Earth"*, in 112 and 113 of *"STEPS - The Cosmic Ladder"*.

And in My Son, Christ, who will transform into "gold" the "lead" that you give Him by raising its low frequency of vibration to the High Frequency of vibration of the Self.

These energies - "gold" - will be placed by Christ as Love-coins in the coffer of your souls, to be given to your fellowmen and to the Beings of the Kingdoms of Nature.

It will be like sowing grains of gold. The Infinite One will give you an ear of gold for every grain of gold-Love donated.

7.5 - "Origin and Formation of the Asteroid Belt between Mars and Jupiter".

The Soul Core of the planet that gave rise to the Asteroid Belt was the first crystallised planet Core of the Finite Universe absorbed by the Origin Worlds of Beyond the Stars.

The fragmented remains of the planet's matter formed the Asteroid Belt of the Solar System. They become like the remains of the human body when the soul departs.

Message from Yosúa of the Constellation of the Stars, spokesman for the Star Brethren in the service of the Father of Heaven and His Son, Jesus, the Christ.

Given through A. D'Hertzáurea. November 2022.

*

The origin and formation of the Asteroid Belt between the planets Mars and Jupiter is unknown to the terrestrial scientific world. Also to Humanity.

Because of the outburst of the crystallised planet between Mars and Jupiter we had to intervene to balance the gravitational forces and orbits of the planets of the Solar System. This is not the time to make known what our intervention consisted of as instruments of the Infinite to stabilise the Solar System and the orbits of the planets around the Sun, the most beautiful Manifestation of the Spirit of the Father of Heaven in the Solar System.

Esotericists of ancient times knew that there was a planet in the Solar System which ceased to exist as such. Murdok was one of its names, which does not matter. The evidence for the existence of the planet orbiting the Sun, located between Mars and Jupiter, is in the Asteroid Belt.

The planet self-destructed by the action of "them", belonging to Darkness. They moved to the Abyss and to Earth.

In their struggle against God they sought to create a Source of energy attuned to their low vibrational frequency. They began to create fields of irradiation. By blind actions contrary to the Law of the Heavens, layers of planetary mass were acquiring a very low frequency of vibration by the magnetising action of countless beings of Darkness. The very low frequency of vibration of these magnetised masses was also transmitted to deep layers of crystallised matter surrounding the Core of the planetary soul, which permanently received the powerful irradiation of the Father of Heaven from the Central Sun of the Galaxy.

The Soul Core of the planet, vibrating at the high frequency of the BEING, rejected the crystallised masses of the lowest frequency of vibration.

The crystallised mass covering the planet's Nucleus exploded. The Nucleus of the planetary soul came out, as souls do when they leave human bodies, being the first

crystallised planet Nucleus of the Finite Universe to be absorbed into the Pure Worlds Beyond the Stars.

The cosmic event was recorded in the souls who lived that experience, transmitted in uncertain ways in esoteric circles when they have incarnated on Earth. Since then, over millions of "time-energy" that have elapsed, the Earth has been attracting millions of asteroids and meteors.

For your understanding, we express that the Asteroid Belt originated in "energy-time" for the inhabitants of planet Earth, for time is energy.

After generations of the New Humanity inhabiting the Kingdom of Peace throughout the Earth, the time will come when, executing the Mandate of the Father of Heaven, it will be necessary to evacuate the inhabitants of the Earth. We Star Brethren will go into action. The many great ships of the fleets stationed in the Kuiper Belt will fulfil the evacuation phase, for which they were built by the Mandate of the Father of Heaven.

From Earth, man can see Venus, Mars and Jupiter. Over the centuries, countless meteorites have fallen on mankind from the Asteroid Belt. Astronomers and scientists calculate and speculate about the fall of asteroids to Earth. But they do not know about the true origin of the Asteroid Belt between Mars and Jupiter.

Scientists of materialistic training remain obsessed with finding life on other planets, without themselves knowing what life is, who they are, where they come from, or where they are to return to, even though the Son of God in Jesus of Nazareth said to all mankind: **"I am Life. Life is God. God is within man.**

But man continues to wage war against his fellow man, his brothers and sisters in Life, in whom the Father of Heaven and the Christ of God live.

As the Spokesman for all Star Brethren on a Mission of help and service to Humanity, I, Yosúa, use concepts and terms understandable to the vast majority of the inhabitants of Earth in this Message transmitted by telepathy to our Spokesman on Earth.

Peace, Peace on Earth, and to the sons and daughters of God of goodwill. PEACE.

7.6 "JUPITER, THE NEW SUN OF THE SOLAR SYSTEM."

THE INCREASE IN THE HIGH FREQUENCY VIBRATION OF THE CORE OF JUPITER BY THE IRRADIATION RECEIVED FROM THE PRIMARY CENTRAL SUN THROUGH THE CENTRAL SUN OF THE GALAXY WILL IGNITE THE GASEOUS ATMOSPHERE OF THE PLANET, GIVING BIRTH TO A NEW SUN.

MESSAGE GIVEN BY TELEPATHY THROUGH A. D.' HERTZÁUREA. December 2022.

[We have used an online translator to translate this text. If it changes the meaning of what you read, please refer to the original Spanish text. Thank you.]

I, Yosúa, spokesman for the Cosmic Forces manning the Earth-circumnavigating ships and fleets of ships stationed in the *Kuiper Belt*, and of the troops on the face of the Earth, give to Humanity this Message through our spokesman on Earth and channel of the Father of Heaven and of His Son, the Corregent of Infinity, who incarnated on Earth was Jesus of Nazareth, Whom we serve.

It is necessary to ignite the Flame of Hope in the sons and daughters of the Father of Heaven incarnated on Earth, abandoned to their fate at the end of this cosmic Cycle, the Peoples submerged in the continuous and diverse adverse events that have been happening, in the action of cleansing by the Elements of Fire, Water, Earth and Air of the magnetisation, Water, Earth and Air of the contrary magnetism that has been contaminating the face of the Earth, and by how much millions and millions of inhabitants have been suffering from what has been caused by rulers who act contrary to the Natural Law, inspired by the Infinite since ancient times. Few rulers feel the beating of the hearts of the citizens of the Peoples they govern.

The complicit media hide the truth, distancing themselves more and more from the People, who are already aware that their current ills have their origin in the ethical refusal of the professionals of journalism to fight for the rights and liberties of the citizens. ***What is the sense, if not, of the institution of the free press, and not the one that 'sings', amplifies and supports the nefarious action of the rulers?***

The bread they eat today will be the hunger of tomorrow.

Un-Love has been magnetising the face and atmosphere of the Earth with infinite fields of dense energy constituting the dark density of this world, contrary in its minute frequency of vibration to the Absolute frequency of vibration of Light, turning "they" and their seduced instruments the planet Earth into the homeland of un-Love, causing the inexorable collapse of this anomalous civilisation, unique in the Finite Universe.

"They" are the ones who create wars for God's children to kill each other, destroy homes and workplaces, cause endless suffering, lie and experiment with genetic products on them, causing deaths and new diseases without possible treatments. They have wrongly educated generations after generations to be at permanent war against animals, plants and Nature in general, torpedoing Mother Earth, the cosmic ship in which they sail the Solar System.

It is necessary to sow Hope, to bring Comfort to the infinite number of human beings, shipwrecked in the oceans of pain and endless suffering, of which the mass media do not speak.

Thus the Father of Heaven and His Son, Jesus, the Christ, address His Word to all the sons and daughters of God on Earth, and to the cosmic beings of the Pure Heavens and Brothers of the Stars who have come down on a Mission of Love to Earth:

"I Am the All in all, the Creator. My Son and I announce that Jupiter will be transformed into a Sun. The potential of My irradiance and High frequency of vibration that its planetary Core is receiving from the Central Sun of the Upper Worlds through the Central Sun of the Galaxy, will ignite the gaseous atmosphere of the planet looking like a New Sun in the Solar System.

I Am, and My Son, the Eternal Fire in the New Sun. As a warm torch in the night it will become visible to the New Humanity in the Golden Age during the Reign of Peace. The New Sun will be the symbol of Our radiant Presence for the glory of those faithful to Spirit, who truly love Us more than this world. It is Our gift of Love which will become visible to the human eye when the time comes.

Many, infinite ones, have come to know of the true Brothers of the Stars, in Our service and of the Ruler of the Plane of Love, present among you to assist during the tragic events of the collapse of this civilisation along with the cosmic beings who in successive Waves have come down to Earth on a Mission of Love. They kindle the Flame of Hope in My sons and daughters who yearn for the Return to the Cosmic Homes Beyond the Stars.

Know that you are not alone or abandoned. PEACE.

In *Message from the Infinite*, 23 August 2021, chapter 7 of the book **"BETWEEN THE ETHER AND THE EARTH"**, the **Infinite** says (excerpt):

"The Light of the Origin, that I Am, vibrates in the Absolute Frequency of the Infinite, which radiates from the Central Sun of the Upper Worlds to the Nucleus of the planetary soul of the Earth through the Central Sun of the Galaxy.../....

Likewise, the Nucleus of Jupiter and the Nuclei of the planets of this Solar System are also being radiated, raising their frequency of vibration through the Central Sun of the Galaxy.

....By raising its frequency of vibration the Earth's core causes its expansion. The 'asleep' and 'lethargic' volcanoes in the depths of the Earth will erupt in places unimaginable to man.

This is also happening in the cores of other planets in the solar system, expanding as their frequency of vibration rises, and the molten magma comes to the surface, just as it does in the erupting volcanoes of the Earth.

The planets of this solar system radiate and exert a certain influence on man and the beings and existences harboured by the Earth, just as is exerted by the moon. The luminous irradiation of the sun Jupiter will exert a different irradiation and influence from that of the planet Jupiter, received from the new heaven by the inhabitants and all beings and existences of the new Earth.

This gradual change in the frequency of vibration of the planetary nuclei determines changes in radiation and in the gravitational forces undetected by man, which also cause changes on Earth.

The inhabitants of the Earth are becoming aware of the accentuated changes in the climate and the action of the Elements Fire, Water, Earth and Air.

So too will souls 'erupt', emerging the dense fields of untransformed energies that were magnetically attached, incarnation after incarnation.

It is necessary for the inhabitant of Earth to know that **time is energy**, which "consumes" every moment of his existence in the course of the continuous, successive present, different for each inhabitant of the planet. Every second is important for the evolution of the cosmic being-soul. **And it must be consciously used.**

It is necessary for the inhabitants of Earth to know and be aware that the energy-time consumed is manifested in the energy fields of High frequency vibration, or of energies of the range of frequencies within the Low frequency vibration, which they create by their thoughts, words and deeds, energies that attach themselves to their souls.

The time consumed has passed and is passing. But the energies created in previous incarnations remain in the soul of the one who created them. If they are dense energies of low frequency of vibration, it is necessary that they be transformed into energies of High frequency of vibration, as taught in the higher instructions given in chapter 19 of "**BETWEEN THE ETHER AND THE EARTH**".

I, Yosué, also bring to Humanity through me the Word of all the non-incarnated Star Brothers on a Mission of Love, transmitted by telepathy to our Spokesman, a Message that will give tranquillity, Peace and Hope to many, infinite, but will also make "them" and those seduced by "them" tremble internally, for they know that moment by moment the announced end is coming to them. PEACE.

7.7- "MESSAGE FROM THE STARRY BROTHERS GIVEN TO HUMANITY DURING THE COLLAPSE OF THE PRESENT CIVILISATION."

GIVEN BY YOSUÁ, SPOKESMAN FOR THE STARRY BROTHERS ON EARTH-
CIRCUMNAVIGATING SHIPS, THOSE STATIONED ON LAND BASES AND IN THE FLEETS
AND SHIPS STATIONED IN THE KUIPER BELT.

MESSAGE GIVEN BY TELEPATHY THROUGH A. D'HERTZÁUREA. November / 2022.

[We have used an online translator to translate this text. If it changes the meaning of what you read, please refer to the original Spanish text. Thank you.]

To help and serve the sons and daughters of the Infinite of all the Peoples of the Earth, and to save all that can be saved is burned into our cosmic bodies. It is the Mandate of the Father in Heaven and of His Son, the Corregent of Infinity, who incarnate on Earth was Jesus of Nazareth, whom we serve. The Father and Christ are the Life in us and in the sons and daughters of God who inhabit the Earth.

Religions exist only on Earth. They do not exist on any other planet or civilisation in the Finite Universe. The sons and daughters of the Infinite One who inhabit the Earth expand their consciousness if they fulfil the excerpts of the Cosmic Laws and the Commandments taught and exemplified by the Son of God in Jesus of Nazareth, living with their fellow beings and with the beings and existences of the animal and plant Kingdoms housed by Mother Earth, as is man.

Those who expand their consciousness become cosmic Christians, even if they belong to any external religion, define themselves as agnostics, atheists or non-believers, and do not pronounce the Name of Christ. But they observe the Laws and Commandments given by God, the teachings of Jesus of Nazareth and the Golden Rule of Ethics that underlies Natural Law, "Do not do unto others what you would not have them do unto you".

However, those who call themselves Christians because they belong to one of the many Christian religions, but live in appearance and do not abide by the excerpts of

the Cosmic Laws and Commandments taught by Jesus of Nazareth, nor follow His example of life, are truly not Christians. They will have a rude awakening when they die and pass into the Hereafter.

7.7.1. Rulers who do not fulfil their promises to the People, and go against the People.

In this world there are rulers who go one way and their People go the other, left to their own devices. They were deceived. Certain rulers presented themselves in sheep's clothing in electoral contests. They showed who they are when they took their seats in parliaments and seized power. The masks fell and they showed what lies beneath the sheep's clothing. They no longer bleat. They howl.

In the hour of this world, certain rulers continue to follow the road map set in their offices behind the backs of their Peoples, whom they want to lead into the abyss.

The blind lead the blind into the abyss. This is happening. We are exceptional witnesses, for we are able to see and hear without being perceived by them, by adjusting the vibration of our cosmic bodies to the frequency unperceived by the eye of the great majority of the inhabitants of the Earth. We know what they have been up to and what is behind their governmental decisions, or voted for by a majority in Parliaments. It will be known.

The Father in Heaven and Jesus, the Christ, the Life in those who rule and legislate in the Parliaments, know what they are up to, for they reside in Spirit in the inner Abodes, in the Core Being of their souls.

Nothing is hidden from the Light. It will be uncovered as the Father of Heaven raises the vibrational frequency of the dense energy fields created by the rulers and legislators who do not represent the citizen-states who elected them to represent them in Parliaments.

Democratic values are lived, not represented on the stages of the theatres that have been turned into parliaments by those who have presented themselves in the guise of lambs at the polls.

It will be known how much has been plotted and executed against those who elected them at the ballot box, betraying them. Betrayal was created by those who serve the Darkness. And they are.

The loss of democratic legitimacy originated in the offices of Governments and seats of Parliaments. The Institutions of Democracy and the resources of the Peoples have been used to come to power. The energy fields created by certain rulers and legislators will inexorably attract what corresponds to their vibrational frequencies. Gold or lead. Even if they have lined the lead with gold leaf.

7.7.2. It is harvest time for Humanity. Manipulation of genes.

Humanity has entered harvest time. Individually and collectively the fruits of what has been created by each and every inhabitant of Earth over the millennia and centuries in their incarnations will be harvested.

At this end of the cosmic cycle, both the good, the gold, and the less good and the not good, the lead, will be harvested: the amount of lead that has not been raised in time in its vibrational frequency will be harvested. All is energy. No energy is lost. It is attracted by the one who emitted it.

We return in this Message given to Humanity to the manipulation of genes, contrary to the Law of Love, because of the enormous fields of dense energy created, reinforced, fed back by the thoughts of more than seven billion inhabitants of the Earth, have contributed to and accelerated the collapse of this civilisation.

Those who belong to the Darkness devised genetic warfare and genetic weapons to be used against the Peoples. They created the so-called pandemic. "They" did not inject the synthetic mRNA that modifies the DNA of the gene pool, nor did they inform the millions of healthy people they forced to be vaccinated of the content of the gene product. They lied by calling the gene projectiles "vaccines". They also injected the gene product into the elderly, children and pregnant women. They changed the will of millions of people using advertising techniques. They introduced panic and fear into the mental sphere so that they would accept and ask to be "vaccinated". With repeated injections, up to four in millions of people, they have been proving that vaccines were and are ineffective, as they do not prevent infection and transmission of the covid 19 virus, the central star of what they called pandemic.

The unexpected happened: the representative sent by the vaccine manufacturer Pfizer admitted to the European Parliament on 10 October 2022 that there was no data that mRNA vaccines could prevent infection, nor that their vaccine was tested to stop transmission of the virus.

(FREE WEST MEDIA, SUNDAY 16 OCTOBER, 2022, 6:26 am .BRUSSELS. www.freewestmedia.com)

<https://diario16.com/escandalo-pfizer-reconoce-ante-el-parlamento-europeo-que-la-vacuna-nunca-fue-testada-para-frenar-la-transmision-del-virus-antes-de-salir-al-mercado/>

The statement of the Pfizer representative to the European parliamentarians showed that presidents of governments, health ministers, politicians, "experts" and journalists have been complicit in spreading lies, responsible before the law for the deaths and diseases caused by the genetic product based on synthetic mRNA, responsible, therefore, for bioterrorist actions on the demographic potential of the Peoples, since synthetic mRNA modifies the DNA of citizens, children, young people, adults, pregnant women and the elderly.

The rule of law is characterised by equality before the law. Has this fundamental legal principle been abolished?

The Father of Heaven, in **Message from the Infinite**, 23 August 2021, chapter 7 of the book *"Between Ether and Earth"*, said: (excerpt)

"The delta variant and other variants have been produced when the DNA of the virus has been genetically modified by synthetic mRNA in vaccinees.

Those vaccinated who have received the full regimen have been infected with the delta variant, whose DNA may in turn be modified by the synthetic mRNA, producing another new variant, which in turn will produce another variant. And so on and so forth.

This is the reason why those "vaccinated" with the full pattern become infected with variants of the coronavirus, and a high percentage of them die. But this is not reported by the rulers of this world, nor by the mainstream media.

The more synthetic mRNA doses are injected into the bodies, the worse it gets, because the process of genetic manipulation is accelerated in all genes with which the synthetic mRNA comes into contact.

The mass gene vaccinations of the peoples of the Earth will multiply the carriers and propagators of the variants to proportions unimaginable by human thought, accelerating along with the rebellion of the Elemental Forces Fire, Water, Earth and Air, the destruction of the economies of the countries of the so-called First World, of the global economy, and the collapse of the civilisation of un-Love on planet Earth. It will bring down the Economy and drag down the rulers, who accelerated its decline with the "pandemic" closures and confinements.

At this cosmic cycle's end, the enormous fields of dense low-frequency energy originated by the mass "vaccinations" with the synthetic mRNA technique, and the mental projections of billions of inhabitants of planet Earth, have accelerated the debacle of the collapse of the present civilisation.

In chapter 34 of "Between Ether and Earth": "DEATHS CAUSED BY PHIZER'S EXPERIMENTAL GENE INJECTION", it is written:

«In December 2021, what the FDA intended to keep absolutely confidential for 75 years was exposed.

Judge Mark T. Pittman demanded that the Food and Drug Administration (FDA) hand over seven documents. These are in Document 5.3.6 postmarketing experience.pdf.

«This internal document, prepared by Pfizer itself, reports:

*«Its experimental gene injections, using synthetic mRNA technology, **killed 1,223 people and caused 158,000 'adverse effects'**. Such devastating effects Pfizer defines as 'post marketing experience', and the terrible serious damage **in the first 90 days of mass vaccination alone** it defines as '**adverse effects of special interest**'.*

And yet Pfizer continued to manufacture the experimental product BNT162b2 , and the rulers continued to inject this lethal experimental gene product into children, young people, pregnant women, adults and the elderly. Healthy people before "vaccinating" them.

«In Europe, and in the countries of the European Union, those in charge of the European Commission, of the central governments and those in charge of the governments of the Länder, autonomous regions, departments and provinces, knowingly continued to vaccinate with the '**killer vaccine**', so called by the aforementioned **Dr. Heinrich Fiechtner**, German parliamentarian, member of the state parliament of Baden-Württemberg, haematologist and oncologist (*).

[**Sources - Hyperlinks A&Z-W**].

They continued to inject the experimental synthetic mRNA product despite tens of thousands of deaths and millions of injuries/adverse effects produced by this experimental gene product, knowingly, and with full knowledge, disregarding the truth of the data provided by EUDRA VIGILANCE (27 countries of the European Union), the UK HEALTH AGENCY (formerly PUBLIC HEALTH ENGLAND) and VAERS of the USA,

«Although the Food and Drug Administration (FDA) had asked for 75 years to release the data, the judge rejected the FDA's request to release the data for 75 years. There is something serious they are trying to hide.

Because the request filed by the non-profit Public Health and Medical Professionals for Transparency Group "is of the utmost public importance," Judge Mark T. Pittman, in the Order he signed on January 6, 2022, granted just over eight months for the Food and Drug Administration (FDA) to release all safety data on Pfizer's Covid vaccine."

«The many years it would take for the data on what has been happening with the experimental synthetic mRNA "vaccines" to be made public denotes that there is indeed much, much of "high interest to Law Enforcement", for *'he who hides, owes something'*. This has already put the Judicial Police Forces on notice".

[In this chapter of "Between Ether and Earth" I intervene]

Yosuá, from the Constellation of the Stars, now intervenes:

«We will also be giving telepathic impulses to many of our camouflaged people, who will faithfully carry out their duty. Nothing goes unnoticed by them, including why they have not let scientists and virologists speak in the mainstream media.

The rulers are getting tangled in their own spider's web, and are falling into their own traps. They will be inexorably hit by the boomerang of what they have caused.

They are not counting on this when the reality of what they have done behind the backs of the People begins to loom on the horizon, and the consequences that the "vaccinated" will suffer when what is already a "transgenic" reality in the bodies of many begins to come to public light. It has been a multiple crime that they have committed, and continue to commit with millions of children].

Although it has been known since December 2021 by Pfizer itself [thanks to Judge Mark T. Pittman] that genetic mRNA injections caused deaths and numerous adverse effects, Pfizer Pharmaceuticals continued to manufacture the "vaccines". And governments have continued to inject this lethal gene product. Certain governments, health authorities and "experts" have continued to use the media to proclaim that the "vaccines" have saved millions of lives, when the reality is that countless human beings, who were healthy people before being injected with the gene product, have died. And they will continue to die, suffering from irreversible genetic diseases for which there is no treatment.

The real saviours of their lives are the politicians and millions of citizens who received placebos to prove that the "vaccines worked". Their lives have also been saved by the millions of people who received a high percentage of defective mRNA in the injections, as an industrially produced synthetic product, and the millions who did not allow themselves to be injected with the genetic product, because they knew they could die and become seriously ill: the Unvaccinated.

UPDATE - October 2023.

Up to 4 doses have been given to millions of people on Earth. Which proves that what they called "vaccines" were not vaccines. What they intended was to inject synthetic mRNA to genetically modify human DNA.

This genetic modification will be passed on to their descendants by those who received synthetic mRNA injections. They were not informed beforehand, nor were they given a written leaflet with the components of the so-called "vaccines".

Recently the Darkness and its instruments are still trying to "scorched earth" by injecting older people with the mRNA product Comirnaty against COVID-19 associated with the flu vaccine. The fathers of the Lie and their instruments continue to attach low vibrational frequency energies to their souls, which they will painfully atone for over the course of eons in the Timeless No-time Realms, equivalent, in the human sense of the expression, to "for ever and ever".

It is already written in "Between the Ether and the Earth":

Every person has the right to know the risks and benefits of the medical treatment he or she will receive, and not to consent to medical acts, nor to receive treatment if the risks are concealed from them. But certain rulers ignore the laws that protect the rights of the citizen-state.

If the parents had been informed, the children would not have been "vaccinated" with the experimental gene product synthetic mRNA. And they are going against them.

It is also written in "Between the Ether and the Earth": The Corregent of Infinity, Christ, warned in the last decade of the 20th century in a "MESSAGE GIVEN FROM INFINITY" given through Gabriele von Würzburg in 1992. (We include a few lines from his extensive Message):

"I Am that I Am, Christ in God, yours and My Father (.../.../...).

(.../...) The last rung on the ladder of apparent human success is the manipulation of human hereditary substance, the manipulation of so-called genes. I warn you against being in favour of these manipulations, in whatever form they are presented to you. I tell you, they lead to chaos for each individual person. (.../...)

Infinity is energy in its totality. Everything, every component of infinity, emits and receives. Also a so-called gene possesses programmes. It is a component that emits and receives. If you take in foreign genes, genes that do not correspond to your natural body, you take in foreign sending and receiving potential. This means that in time you will be directed by forces foreign to you. (.../...) This means that entire organs can be directed by others. (.../...) This means that man no longer has access to his sensations and his consciousness. This means, figuratively speaking, that he is a so-called robot, who is directed by intellectuals and thus by demons and their accomplices. He who has no more access to his sensations and his conscience is a man without conscience, who carries out everything that is introduced into him. PEACE. "

The genetic contamination of the DNA of fertile men and women, children, pregnant women, young and old, and the resulting irreversible genetic deaths and diseases is part of the plan devised by the demons to make "scorched earth" on their way out of the Earth into the Abyss in order to interfere with the establishment of the Kingdom of Peace on Earth.

And so also by massively injecting synthetic mRNA into healthy people they have intended that man should no longer have access to his sensations and consciousness, and thus be directed by "them", the demons, and their accomplices, as Jesus, the Christ, says, to carry out what they have introduced into him.

The **Non-Vaccinated** have been suffering persecution, loss of jobs and salaries, social ostracism, discrimination and humiliation through the media, and the violation of their constitutional and human rights, with the masses being incited by certain rulers who have betrayed their Peoples by becoming tyrants. The newspaper archives can be consulted. They will be brought to account before just judges when the time comes. **Nothing will remain hidden.**

It is up to the citizens of the Peoples who elected rulers who lost their democratic legitimacy when they became tyrants to denounce their crimes and the violation of their rights and liberties before the Justice and Public Order Forces. If they want to, they are free. No one can do it for them. But the law of cause and effect will inexorably unload the effects of the causes created on all those involved: rulers and accomplices, boards of directors and media journalists who lost credibility and respect for betraying truthfulness and ethics.

7.7.3. On the death of Democracy.

Lived ethical values are the golden pillars that support the edifice of a civilisation. Without living ethical values, the driving force of human and constitutional rights, civilisation collapses. By violating the right to freedom of expression and communication, both the right to communicate and the right to receive objective and truthful information, the rulers are digging the grave of Democracy, the beautiful lady born in Greece.

Certain countries and rulers are using the propaganda media to deceive their own citizens and manipulate their will. What a just ruler, defender of the Rights and Freedoms of his fellow citizens, would never do.

Certain rulers who deceive their own citizens are those who abuse the power granted by the citizens-State and citizens-State at the ballot box, thus undermining the fundamental pillars of Democracy.

Aren't the "theatrically democratic" rulers the ones who have created and justified the Raison d'État?

We know who they are. Those who have fled from exposing and making clear to their fellow citizens their projects and concerns as rulers, in the street in broad daylight, and in Parliaments in front of cameras and fair journalists defending the veracity and ethics of the information to be received by the Sovereign People.

We know who are those who are scheming in official caverns where Darkness reigns against the People and their constitutional Rights and Freedoms.

They are easily identified by the fruits shown when they speak, by their abuses of power when they legislate on seemingly democratic laws against their fellow citizens and Humanity, outside the spotlights of authentically democratic Parliaments, outside the cameras and microphones of the independent media, servants of Democracy.

Seeing the kind of laws emanating from certain "democratic" Parliaments, promoted by presidents and ministers of Governments, are not these same rulers the ones who want to control "legally" what the governed say, write or earn with effort, arguing as a weighty excuse the fight against terrorism and money laundering, as examples?

We, your Star Brothers, have come down on a Mission of Love to Earth. We fly over cities and countries where the victims are always the weak sons and daughters of God, the humble of heart, those deceived and taken as cannon fodder to the fronts and trenches by the same rulers who knowingly provoked the war in Ukraine - which we flew over, where the first victims are the citizens deceived by their own rulers through propaganda produced by specialists in lies, feeding the flames of this war and the flames of the war they have ignited in silence in Africa, with weapons and millions of dollars contributed to the public coffers of the States by the citizens deceived by their rulers.

Certain rulers must know that Light overcomes Darkness, that there will be no caves in which to hide from the Law of Cause and Effect, equal to the Principle of Action and Reaction, Law and Principle created by Darkness on Earth, which do not exist in any civilisation or planets in the Finite Universe. Only on Earth.

We, your Star Brothers on a Mission of Love, see and hear unseen what certain rulers are up to, and the maliciousness of the media in not informing the citizens truthfully and in a timely manner, as in the case of the mass "vaccination" of millions of healthy people with genetic products, who have ruined their genetic heritage, having lost confidence in their rulers.

What is the next step of the enemies of Democracy, who instead of safeguarding its foundations, such as the right to freedom of expression, are violating them in order to bury Democracy alive?

The Infinite, God, the Light, inspired the creation of States as organised units of coexistence. The Darkness destroyed through its instruments the societies with fledgling States, whose inhabitants longed to live in peace and cooperation and friendship with their territorial neighbours.

Acting from the invisible plane unseen, "they" have been mentally influencing the citizen-states and simple inhabitants of the Peoples of the Earth to create war, division and chaos, destroying the hard-won gains.

Neither such rogue states, nor the citizens of these states who have supported their rulers, will stand up.

Democracy died because man put this beautiful word on his lips, but its principles were not deeply rooted in his heart. The Darkness took advantage of this through its instruments to destroy certain renowned States from within the Institutions, using elections to come to Power disguised as lambs. Then they dropped the disguises and masks of the theatre.

The Just Idea: *"Every son and daughter of God contributes with his or her voice and vote to the establishment of States as organised units of coexistence"* was buried by the very ones who dug its grave, "they" and their instruments and servants who live by the apparent energy of Power.

They buried it in life. But they have continued to name it in their speeches as a seductive magnet for the blind who do not know who they are as they are led to the precipice. "They" are falling ahead of the blind, because, alienated from the Light, they think they see. But they are blind. Thus is fulfilled that *"the blind will lead the blind to the precipice"*.

The New Humanity will give life to the just Idea of Democracy by living its Principles in the Kingdom of Peace, established in all the countries of the Earth.

There will be no borders, no armies, no weapons, no judges, no police, for the sons and daughters of the Infinite will live in Peace among themselves and with all forms of Life, visible manifestations on Earth of the Love of the Infinite, God.

Nothing will remain hidden for the Infinite, God, makes everything new: the frequency of vibration of the dense energy fields is being raised by the Primary Light

radiating from the Central Sun of the Galaxy, until it reaches the Absolute Frequency of Being. All that comprises and is housed by the Finite Universe, originated during the event of the Fall, will be integrated into the Pure Worlds of Origin when the Absolute Frequency of Being is reached.

This is known to the small faction of those invisible to the human eye - the demons - and the incarnated among "them" on Earth, who, though they lost the battle against the Light, in their retreat into the Abyss chose to make "scorched earth" of whatever exists on the face of the Earth that can assist in the establishment of the Kingdom of Peace after the Second Coming of Christ in Spirit, in His Light and Force manifested in the Earth's atmosphere.

The planet Earth, the last stronghold of the demons, continues to raise its frequency of vibration, and thus its Light potential, which "they" can no longer resist. This is why they began their retreat into the Abyss, which they will also leave, as the Infinite will raise their vibrational frequency.

They will capitulate, passing their spiritual bodies into the realms of timeless No-time. During cosmic periods unimaginable to human thought they will atone for all that they have been causing contrary to the Law of Love to infinite children of God during the process of the Fall and to the visible manifestations of the Father's Love in the animal and plant Kingdoms since the matter of the planet Earth reached crystallisation until their arrival in the Abyss.

Also all those who bear responsibility for the death and suffering of millions of people through the genetic diseases produced by the experimental gene product will experience in their souls as much pain and suffering as each of the souls experienced in the bodies in which they had incarnated, in their deaths and illnesses.

Each of the souls of millions of people will present themselves in the realms of the Beyond to each person responsible for their death and suffering, for in the soul of each ruler, health authority, "expert" and accomplice is the essence of each soul of the millions who died and suffered in their human sheaths.

The spiritual Element Fire will release each of the infinite soul particles of the rulers, of those responsible for the deaths and sufferings caused to millions of their fellowmen during the genetic war, and for whatever in other incarnations they have caused to their fellowmen and to the beings and existences of the animal and plant Kingdoms. Having attained purity by atonement, their cosmic bodies will be drawn into the Pure Worlds, back into the Homes they should never have left.

Their cosmic bodies began to lose the Purity proper to the sons and daughters of the Father of Heaven when they began to disdain the exhortations and warnings of the Father, of His Son, the Corregent of Infinity, and of the Princes of Heaven, Rulers of the Planes of Order, Will, Wisdom, Seriousness, Patience, Love and Mercy.

They continued with the fall of vibration and loss of their Light potential during the events of the *Fall*, and the infinite experiences contrary to the Law of Love, which have been causing so much pain and suffering to billions upon billions of cosmic beings.

The Father in Heaven awaits the Homecoming of all those who have departed, who, by one circumstance or another, have cast a shadow over their souls, which they are to ennoble with the help of the **Christ**, or by atonement, if they so freely choose.

7.7.4-All that is expressed in this Message pertains to the reality lived by an infinite number of cosmic beings.

In this *"Message given to Humanity by the Brothers of the Stars"* there are no hypotheses. Nor are there any in *"Between Ether and Earth"*. What is expressed and has been given to Humanity through A. D' Hertzáurea belongs to the lived reality of countless cosmic beings of the Pure Worlds, and those who populate the Worlds of the fourth, fifth and sixth dimensions. It belongs to the Truth that is the Father and the Son United.

In this Message given to Humanity we use words, images and terms that can be understood by the sons and daughters of God in all the peoples of the Earth. However, for some, failure to understand what is expressed in both texts may make them feel that they are written *"in Chinese"*, to use the expression found in some of the languages of the Earth. But every son or daughter of God has the freedom to express his or her thoughts in accordance with his or her lived experiences. However, the fact that some people "do not understand Chinese" at the time of reading does not mean that this language does not exist. They will undoubtedly come to understand what they did not understand at the time.

< In the hour of this world it is necessary to know: The situation is serious, very serious.

Humanity, represented by millions of sons and daughters of God, is going to end up in its mad flight forward in a dead end, because that is what each and every one of the inhabitants of this world has wanted, freely chosen. They will experience tragic moments because of what they will inexorably and magnetically attract, unleashed turbulence that Humanity has never experienced before, announced on the horizon of time. **It is harvest time.**

The Earth is the cosmic entity vibrating in the frequency of the third dimension, which is gradually being elevated, immersed also in the processes of demagnetisation and actions of the spiritual Elements Fire, Water, Earth and Air, *which the inhabitants of the continents and countries of the Earth see as accentuated changes of climate and natural catastrophes* to what is happening in and on the face of the planet and in its atmosphere, processes framed in the elevation of frequency of vibration that the core of the Earth has been experiencing by the Light of the Father of the Heavens radiating from the Central Sun of the Galaxy, which irradiates the Nuclei of Being of the souls of the inhabitants of the Earth, and to the beings and existences of the animal, vegetable and mineral Kingdoms housed by Mother Earth.

This was said by the Father of Heaven in *Message from the Infinite*, August 23, 2021, chapter 7 of the book *"Between the Ether and the Earth"*: (excerpt)

... /... The Light of the Origin, that I Am, vibrating in the Absolute Frequency of the Infinite, radiates the Core of the planetary soul of the Earth from the Central Sun of the Upper Worlds through the Central Sun of the Galaxy, in turn radiating the Cores of the Self of the souls of billions of inhabitants of the Earth, and to all beings and existences of the mineral, plant and animal Kingdoms.

All is energy. Thus, matter and all that is housed by Mother Earth began the gradual raising of frequency to become attracted to and assimilated by the Absolute Frequency of the Higher Worlds. The hidden will inexorably be uncovered.

.../...By raising its frequency of vibration the Earth's core causes its expansion. The 'asleep' and 'lethargic' volcanoes in the depths of the Earth will erupt in places unimaginable to man.

So too will souls 'erupt', emerging the dense fields of untransformed energies that were magnetically attached, incarnation after incarnation. They will show themselves.

Humanity finds itself in a situation of non-return to the previous point of a certain stability, that of so-called apparent peace, which has been created by the Darkness.

This apparent peace disappears unexpectedly, as an autumn leaf disappears down the spout of an English garden on rainy days when Darkness causes fratricidal wars to break out, resulting in loss of life, mutilations, crises in the vectors of production and economy, destruction of hard-earned and hard-built homes, food and health crises, chaos and division among Peoples and souls.

Brothers and sisters, the materialistic world is on the way to the abyss, and nothing can be done for "sleeping" Humanity. Only those who are awake, or in time awaken and walk into the Light of the Hand of the Christ, the Redeemer of all souls in the sons and daughters of God who inhabit the Earth, no matter what their religions or beliefs may be, will be able to receive high instructions. These exist only on Earth.

Awaken in time to the Light! Breathe consciously to enter into Harmony and raise the vibration of your souls! Speak in Silence, collected within you, thoughts towards the Light, and from the Light you shall receive! You are always heard, always listened to, always heard. The Father in Heaven and Christ await your coming! Let the Father and Christ be able to help you, for you are free!

What is happening on Earth? Observe and weigh everything with the scales of common sense: Where will you go, unleashed by the great events?

If you will, brothers and sisters, start on the Path of Return to the wondrous worlds Beyond the Stars, where your Solar Cradle, your Origin, is! If you will, for Freedom is a gift of your spiritual inheritance, given by the Father to all His sons, to all His daughters.

Return. The world situation has become increasingly hostile as we are not in favour of each other, not in favour of every being and every existence housed by Mother Earth, coming from the Loving Hands of the Father Creator. Who can live where Love does not reign?

Remember that the Father is Love, and you, His sons, His daughters, are Love.

Remember: *"like father, like son"*. The Beloved Father is the stick, and all of us are the splinters.

This world is on the way to the precipice. Many, not only fathers and mothers, are horrified when they hear certain news about the laws that those in power want to impose. They see pictures in the digital media of what certain political leaders want to do to children and young people. And they force other countries to educate their

children as they legislate. If they do not yield they apply sanctions. This is contrary to Freedom. You are children of Freedom, choose freely!

It is said, and we repeat once again:

<< The situation is chaotic. What remains to be corrupted? The 'subversive' ethical and subversive' ethical and moral values survive as maquis in the jungle of the unethical. >>

It is one more sign that this civilisation is irremediably sinking, like a rotten ship, without sails or rudder, battered by the storms of the unethical created. But step by step the time is approaching when everything will begin to become clear in this world, for nothing will remain covered, hidden, by the dense energies produced by those oriented towards Darkness and their accomplices. The more social chaos certain rulers produce, and lie about, the worse it will be for them, for it will be used against them, as all will be exposed by the Light of the Father of Heaven as the vibrational frequency of these dense energies is raised.

Certain rulers of this world - who by certainty know we are naming them - believe they can act with impunity against the People by gambling with their lives and health, fraudulently and corruptly using the already scarce economic resources of the State coffers contributed by the social majority of the citizen-States.

Thus they embark on the whimsical adventure of acquiring expensive military equipment and state-of-the-art aeroplanes to show them off presumptuously and as a sign of compliance with those who are under their subjugation.

Certain rulers must know that nothing on earth belongs to them. They neither master nor know how to use three-dimensional matter. In seconds we can turn such glittering flying artefacts into scrap metal. They will never fly. What we will let the People know.

What would they answer to the media, what would happen if a warship were to appear one day at dawn, deposited in a valley inland, what explanation would these rulers and the court of experts maintained by the citizen-state give to the people and the media about this event?

As certain rulers know that their days of glory and power on Earth are past, they continue to do what they have long since undertaken in secret: the "scorched earth" of the *cosmic domain* which was never theirs, and which they must definitely abandon. We know who they are and what their plans are.

They have created the energy crisis, not by mistake, but premeditatedly. And with each new initiative they do not intervene to remedy in time the chaos in the productive fabric of big and small business, but accentuate it to bring endless pain, suffering, hunger and deprivation to the Peoples who elected them to be ethically governed and cared for, while they work with silent, anonymous hands to keep the social machinery running, besieged by "them", ready to destroy everything.

It is happening. They have been doing "scorched earth" of the Welfare State created by the Peoples working tirelessly, not by the rulers, who hang medals on themselves, fatten their wallets and make plans to perpetuate themselves in power, with internal battles within their own parties, fighting to continue occupying the seats of power, or to get some. We see it all.

"Everything was going acceptably well until they created the pandemic". This is rightly said by the sons and daughters of God who swell the ranks of **"those who no longer have anything to lose"** at family and friends' gatherings.

In which families are there not sick people created by the "vaccines", or do they not make ends meet after the politicians have created the energy crisis, high inflation, rising energy tariffs to keep their homes and businesses running, and the consequent rise in food prices?

They say and write that the health, economic and social crises were caused by the covid-19 pandemic, which is not true.

The economic, educational, ethical and moral crises, and the ruin of the genetic heritage of millions of healthy people by injected genetic products, thus affecting the future demographic potential of human societies, were created by certain rulers of this world who are far from the Light.

By taking control of the mass media, they devised the "pandemic" to mask the premeditated "scorched earth" withdrawal to their cosmic base, the Abyss, of whatever resources are necessary for the development of the New Humanity and the establishment of the Kingdom of Peace on Earth.

Through their instruments as pyromaniac-firemen, the Darkness planned the destruction of States from within their Institutions, the wars and crises, economic, educational, ethical and moral, and the ruin of the gene pool of millions of healthy people.

In their haste they made mistakes. The huge dense energy fields of low vibrational frequency created accelerated the collapse of the civilisation they had been building for millennia and centuries. The titanic of their civilisation is sinking.

"They", the creators of chaos, sufferings, needs, hunger, diseases, wars..., go on one side and the Peoples on the other.

With some exceptions, where are the rulers who work honestly, look out for the good of the weak and the common good of their people, and are ethical examples to follow?

Where are the just rulers who, before a single one of their fellow citizens under their rule dies, before the war destroys their homes and workshops and what they have contributed to the common good through collective effort, summon, inform and explain to their fellow citizens that it is not necessary to enter into the war that the drums announce, nor for a single one of them to lose their lives, because if they lose their lives, they have nothing, and everything is submerged in the dark pit of destruction and suffering?

The rulers who have been beating the drums of war through the mass media, providing weapons, feeding the flames of war, creating new ones and warring, sending young people to the trenches, where they will lose their lives, kill others, or come out maimed and sick, are reminded that ***"he who kills with iron, dies with iron"***.

To the rulers whom we know, and see the treachery they plot behind the backs of their Peoples in their acclimatised offices, and to the foolish citizens who allow themselves to be seduced and cry war! against their fellow men, we say that ***"the stone that is thrown in hatred returns to the head of the one who threw it, and not to another"***. Can they look into the eyes of the **One** who said ***"Let him who is blameless cast the first stone"***?

To the blind rulers in luxurious offices, who by their warlike ardour and purchases and sales of arms bring about loss of life, suffering, destruction of Nature, crops, energy resources, housing, necessary for rest and privacy and shelter from the rains, winds and scorching sun, we remind them that what is sown is what is reaped. The law of cause and effect comes to tell them that it will present them with the bills for their debts to Life, inexorably, unless they rectify in time, ask forgiveness and compensate for the damage done. Have the so-called Christian peoples, and other peoples of the Earth, forgotten this? Have the rulers forgotten ***the Ethical Law that underlies Natural Law, "Do not do unto others what you would not have them do unto you?"***

Those who set fire to the souls of their fellowmen with hatred cannot comprehend that millions of Brothers of the Pure Heavens and Brothers of the Stars left the Peace of the Heavens and their Homes on the habitat planets in the Galaxies of the Finite Universe to come down on a Mission of Love to Earth, the homeland of lovelessness. Here they went incarnating in families of the countries of this world to help their brothers and sisters on Earth, knowing what could happen to them, but not when.

They could return to their cosmic Homes, where Peace reigns and the Laws of Love are lived.

Nor will the rulers of this world, or the demons who on the invisible plane assist them in committing unimaginable acts of un-Love, understand why the Ruler of the Plane of Love of the Pure Heavens has been coming down to Earth century after century leading Waves of cosmic gulls, who came down with him on a Mission of Love to the shores of the Earth. Nor why the Ruler of the Plane of Love (and by his side, on the invisible plane, his dual feminine, the Corregent of the Plane of Love of the Pure Heavens) has come down to Earth again, leading the Great Wave of beings from the Pure Worlds and the Brothers of the Stars to be with the sons and daughters of God on Earth during the tragic events of the collapse of this civilisation.

He is the initiator of the pending Spiritual Revolution on Earth, already begun, preparing the way in all countries for the Establishment of the Kingdom of Peace on Earth.

Never has so much help been given, never have so many beings of Light come down on a Mission of Love and help to Humanity!

The Regent of the Plane of Love of the Pure Heavens has been born among his brothers and sisters on Earth, accompanying them, radiating the Father of Heaven and Christ His Love and Peace through him to the sons and daughters of God on Earth. He continues to instruct them to begin the Path to the Heart of the Father and the Christ and the Return to the Cosmic Homes Beyond the Stars. He came down to Earth to fulfil the Plan foreseen by the Father and to announce at this time to the inhabitants of Earth the Second Coming of Christ in Spirit in the atmosphere of Earth and the Establishment of the Kingdom of Peace.

The sons and daughters of God throughout the Earth will know that they are not alone or abandoned at this end of the Cosmic Cycle during the collapse of the Civilisation of un-Love, they will know that the Father and the Christ are fulfilling His promise to be with them at the end of the materialistic world at the beginning of the Golden Age.

Darkness knew of this Great Wave of Light beings. This is why it inspired scientists to create the synthetic mRNA-based gene product and to invent the false pandemic to indiscriminately put out of action those who descended on this Great Wave by injecting this gene product, which they deceptively called a "vaccine", into millions of healthy people. Hence the fierce persecution of the Unvaccinated by certain governments and complicit media, trying to pass laws in certain Parliaments to forcibly inject them with the genetic poison. They also injected it into small children,

young people and pregnant women, because the Darkness knows that many other beings of the Light had incarnated in waves, and would continue to incarnate in order to incarnate in the future, to help their brethren on Earth and to be among them during the Great event of the Second Coming of Christ in Spirit, assisting in the Establishment of the Kingdom of Peace on the face of the Earth in the Golden Age.

The rulers not only continue to inject genetic products, even though they know that they cause death and numerous untreatable diseases. They also continue to create wars, as part of their "scorched earth" plan, which we expose.

7.7.5 - Wars foretold. On their duration.

And now they are creating war in Africa in order to push the borders and provoke numerous waves of sons and daughters of God, who will leave their villages, towns and lands of subsistence fleeing from certain death to meet an uncertain death thousands of kilometres away from the lands where they were born. To where they will not return.

We know of the agonies of death they will have, of their thirst and hunger and sickness on dusty, waterlogged fields, in the rain and scorching sun, on asphalt and concrete and village streets, without a bed or a roof over their heads, where they can die with dignity.

Who loves in this world? Who loves in this world?

Who loves in this world ! Even the stones will cry out.

They will come from the countries of the Sahel and other African countries where they have been training militias of fanatical Islamic fundamentalists, arming them with weapons provided by certain rulers of Western countries behind the backs of their Peoples. They are already subverting order, destroying buildings, infrastructures and communication routes between neighbouring countries, necessary for trade and food exchanges, creating chaos and panic in order to provoke the abandonment of farmland, towns and villages, provoking "them" to emigrate to countries in southern Europe, as part of their plan to "scorch the earth", to interfere and destroy with wars on a global scale whatever helps **the establishment of the Kingdom of Peace on Earth.**

We are continually flying with our ships over the territories and countries where armaments and troops are and will be concentrated. We announce in this Message to Humanity what is already happening and will happen in Africa.

We know then what the warring countries of the so-called Christian West, the incarnated demons, intend, for, like waves of beings of Light, they have come down to Earth on a Mission of Love and Peace to help and serve their brothers and sisters on Earth at the high and tragic moments of the collapse of the civilisation of lovelessness, ***Dark beings have also incarnated in bodies to create a hell where they set their feet.***

It would have been better if they had not come down and had not been born, for they will suffer many times as much pain, suffering and death as they cause in their path.

Woe to those who call themselves *Christians* and crucify Jesus, the Christ, in every son and every daughter of God who dies agonising in solitude day and night without a sip of water, without a caressing hand, without a glance, without a word of comfort, under the sun and the rain!

When the so-called Christians leave their bodies, who will receive their souls?

UPDATE -October 2023.

We have announced the disappearance of Israel as a State in the books "ENTRE EL ÉTER Y LA TIERRA", "BETWEEN THE ETHER AND THE EARTH", "PELDAÑOS- LA ESCALERA CÓSMICA-", "STEPS -THE COSMIC LADDER-", "MENSAJE A LA HUMANIDAD - DESCORRIENDO VELOS-" "MESSAGES TO HUMANITY - DRAWING BACK THE VEILS - ", "MESSAGES FROM THE STAR BROTHERS GIVEN TO HUMANITY DURING THE SINKING OF THE PRESENT CIVILISATION", in English, French, Spanish, Italian, French and German.

We have also announced that the United States will not stand on its own feet and will fragment into states in an every man for himself.

We have said that not long after the disappearance of Israel as a State, the Great War between the Peoples of the Earth, which many call World War III, will begin.

These are not hypotheses, it will happen as foretold. This end of the Cosmic Cycle is also harvest time for the Peoples and the inhabitants of planet Earth.

The auras of the Peoples of Earth are darkened, ready to discharge at any moment. The auras of countless inhabitants of Earth have also darkened. Incarnation after incarnation, century after century, they have attached to their souls fields of dense **energy generated by un-Love.**

What they have caused to their fellows and to the beings of the Kingdoms of Nature

are powerful magnets that will inexorably attract the fruits created by un-Love.

Israel and Palestine have been present in the Earth's media because of what Israel has been causing to those who inhabit the great prison it has built out of part of ancient Palestine. The silence of those who govern the so-called Christian West has helped to build it.

We do not describe the suffering of the thousands of bodies wounded and destroyed by the bombing. Nor the thousands of dead children, women and mothers and fathers. Nor the explosions of bombs and missiles reducing homes and buildings to rubble, leaving thousands and thousands of God's sons and daughters out in the open, deprived also by Israel of water, food, fuel and energy for the hospitals that remain undestroyed. We are not talking about the endless flames of hatred lit by Israel, not only in Palestine. It has also lit them in millions of inhabitants of the countries of West Asia, which are encircling Israel.

"What you sow you shall reap", taught the Son of God incarnate in Jesus of Nazareth.

What has Israel sown in the more than seventy years that it has existed as a state, violently driving millions of Palestinians from their homes, villages and lands?

From the ships we see what is happening, and so do the Star Brethren on the ground. With their radiations of Love they comfort those immersed in the pits of pain and suffering in the tragic moments of the deaths of family, friends and acquaintances. Israel is the sum of the cosmic soul-beings who also departed from the Homes of the Pure Heavens. These brothers in Life have been incarnating in bodies for millennia and centuries, causing to their fellows what they now show before the world. Plus what they have been causing for more than seventy years to the brothers and sisters of the Palestinian People, brothers and sisters in Life.

How many millions of Israelis have come out in mass demonstrations in the streets of Israel's cities and towns, asking their rulers and soldiers not to bomb and kill other sons and daughters of God, not to destroy their homes, not to deny them the water and food they and their children need to survive?

Have they raised and united their voices in pleading for mercy for them?
Have they supported by their silence the actions of their rulers and army against their Palestinian brothers and sisters?

Lovelessness blinds. Israel exists for the souls of those who now wave the black flags of un-Love. It exists because of the states of the West that sacrificed millions of inhabitants of Palestine, driving them out of their homes, farmlands and villages, making them refugees for as long as they live.

The dense energies created by those who are Israel have multiplied since then. The bills are being presented for collection by the Law of Cause and Effect. Inexorably.

The Great Cosmic Ordainer began to pour out, and continues to pour out, the "gold" and the "lead" weighed in the scales of Justice, written down in the soul book of every inhabitant of the earth, and of Israel.

Israel today is a ship with a leaden hull, with millions of sons and daughters of God with leaden hearts on board. The ship "Israel" sails on the rough Ocean of Causes and Effects, with its holds and deck overloaded with lead.

Raging waves permanently sweep its deck, with millions of Israelis dancing to the sound of bombardment and the clamour rising from the ruins of Gaza. The ship "Israel" has accelerated its sinking with the dense energies created in the last years and days.

And it advances unstoppably towards the grave dug by millions of lead-hearted Israelis. Into it they will fall with the black flags of un-Love. The rain of fire will fall unexpectedly. America will lose its land carrier.

Millions of eyes in West Asia have their ships in their sights, for their blatant support of Israel. If any of them are sunk, it will be a resounding victory. Others will follow.

Nor will the US get off the hook. They will pay for their crimes those related to the barbarism continuously carried out by "them" through their rulers. Not long after Israel's demise as a state, World War III will begin.

There will be no victors. We have been reminded of what has already been announced through our Spokesman and Channel of the Father in Heaven and His Son, Jesus, the Christ.

Wars will disappear from planet Earth. The remnants of weapons will be made into ploughshares to cultivate the earth in Peace. It is said. Peace.

The Brothers of the Stars and the Brothers who have come down from the Pure Heavens never give dates as to the beginning and ending time of conflicts, events and other announced events, for this depends on the free will of those involved.

As to the duration of the Great Warlike Confrontation between the Peoples of the Earth, we have informed those who have come down on Mission to Earth of the time

frame in years that this Great Warlike Conflict will last, as a way of letting them know that it will not last a few years, so that they can prepare themselves mentally and also prepare what is necessary. Likewise, as a help to all the sons and daughters of God who inhabit the Earth, we say in this Message given to Humanity, **that the so-called Third World War will last for a few more years than a decade, and there will be no victors.**

It will be the last war that there will be on Earth, with the New Humanity living in Peace, ethically and united with the Brothers of the Stars during the generations of the Reign of Peace, foreseen by the Father in Heaven. Then, as His Mandate is expressed, the Great Evacuation of the Earth will take place. It is then that the fleets of ships, composed of countless great vessels of size and technique unimaginable to human thought, which remain stationed in the so-called *Kuiper Belt*, will come into action.

7.7.6 - Message to those who left on a Mission of Love to the Earth.

I, Yosuá, address all those who departed on a Mission of Love and have come down to Earth in Waves, having incarnated in Earth families:

"You, beings of Light, coming from the Pure Heavens and from the habitat-planets of the Galaxies and Constellations of the Stars, have come forth in families of the Earth in accordance with the Plan of the Father of Heaven to accompany and assist the brothers and sisters of the Earth during the events of the collapse of the present civilisation.

Know also that the Star Brothers who have not incarnated make up the contingent of the Cosmic Forces in the service of the Father of Heaven, of Jesus, the Christ, and of the Regent of the Plane of Love of the Pure Heavens. Some, stationed in bases on Earth, others, circling the Earth with ships on a permanent Mission of aid, others, stationed in the great ships and fleets of ships stationed in the Kuiper Belt, so called on Earth, all of Us attentive to the Command of the Father of Heaven and of His Son, Jesus, the Christ, in fulfilment of the Mission of Love to the sons and daughters of God on Earth at this end of the Cosmic Cycle.

This Message given to Humanity will transcend as a Chronicle of why ancient Humanity went down with the civilisation they had created. It will serve for man's walk on the face of the Earth, so that many may cross the River of Life while in this inhospitable world, on the way Home."

I, Yosuá, of the Constellation of the Stars near the sixth dimension, as Spokesman for the Brothers of the Stars who make up the contingent of Cosmic Forces in the service of the Father of Heaven, His son and the Ruler of the Plane

of Love, also address in this Message given to Humanity the sons and daughters of God of goodwill throughout the Earth. PEACE, PEACE, PEACE.

7.8 - THE NEW HUMANITY WILL INHERIT THE EARTH.

We, the Brothers of the Stars, announce to the Peoples of the Earth through our Spokesman A. D'Hertzáurea:

From the Father of Heaven and Jesus, the Christ, we receive the Mandate to announce to those of goodwill of all faiths, cultures, religions and thought, who will form the New Humanity that will inherit the Earth. The Father and Christ are the Life in them, and we will be led to where they are.

They are:

- Cosmic beings who in successive waves have come down on a Mission of Love, and will continue to come down, incarnating in families in every country on Earth.
- Sons and daughters of the Infinite who have ennobled their souls in this and other existences by living the Golden Ethical Rule: *"Do not do unto others as you would not have them do unto you"*.

- Sons and daughters of the Infinite who have lived the Laws of Love by loving and helping their fellow men and women and the beings and existences of the Kingdoms of Nature housed by Mother Earth, who are manifestations of the Love of the Creator Father made form.

- Those who are examples in word and deed, living as cosmic beings the principles of Unity, Equality, Freedom and Fraternity with their fellow beings.

- Those who live the Commandment of Love by being the voice of the voiceless, the voice of the weak and oppressed, the voice of those who cannot defend their dignity, their right to food, water and air, their right to health, to preserve their lives and to live in peace.

- Those who share and live with their fellowmen the Bread of Light received, translating into their languages and dialects that given by the Father of Heaven, by Jesus, the Christ, by the Ruler of the Plane of Love incarnate on Earth, and that communicated by Us, the Brothers of the Stars, through our Spokesman, the Ruler of the Plane of Love, according to the Command of the Father of Heaven and of Jesus, the

Christ.

-Those who will see the Great event of the Second Coming of the Christ in Spirit into the Golden Red atmosphere of the Earth, and spread the Kingdom of Peace over the face of the Earth.

-Those who fulfil among their fellowmen the Commandments of Life given by the Father of Heaven, being examples of life.

-Those who fulfil what the Son of God incarnate in Jesus of Nazareth taught, lived and gave an example of life, being examples of life, loving their fellowmen and the beings of the Animal and Plant Kingdoms, as He loved them.

7.8.1- COMMUNICATION FROM THE STARRY BROTHERS TO HUMANITY.

As Spokesman for the Brothers of the Stars, I, Yosúa, communicate to Humanity through our Spokesman A.D'Hertzáurea.

We **Star Brothers** in the service of the Father of Heaven, of Jesus, the Christ, and of the Ruler of the Plane of Love of the Heavens, in action of service and help to the inhabitants of Earth **for millions of years**, have stated in Messages to Humanity that we come from the habitat planets of the fifth dimension and from galaxies close to the sixth dimension of the partially material Worlds of the **Universe. Finite.**

We underline since millions of years ago, because Humanity ignores that the **Finite Universe** in which the Earth is in **was formed during eons** - cosmic

which, for your understanding, would be **hundreds of billions of years**, as an example.

The fall of the frequency of vibration of the Angels of the **Pure Worlds**, and the magnetisation contrary to the Law of the Heavens of parts of the **Infinite Universe** where the Angels lived that we stopped vibrating in the High Frequency of vibration of the SELF, originated the detachment of the **Infinite Universe** from the parts that we magnetised. **In these detachments is the Origin of what became the Finite Universe over hundreds of billions of years.**

We have stated the Origin of the Universe to which the Earth belongs.

With this statement we Star Brethren invalidate the " *Big Bang Theory* ", which is based on the "*General Theory of Relativity*".

The " *Big Bang Theory* " holds that " *the Universe originated in the big explosion of a point of "nothingness" of high density and temperature, which gave rise to **time** and **space***".

In "FORMATION OF THE FINITE UNIVERSE. THIS UNIVERSE WILL HAVE ITS END" we stated that the Worlds which, by their degree of partial condensation and frequency of vibration gave rise to the sixth and fifth dimensions, were formed *eons* after the detachment of parts of Suns and Planets from the **Infinite Universe** because they ceased to vibrate at the High Vibrational Frequency of BEING when magnetised by us.

As you know, the cosmic beings who intervened lost Light potential and ceased to vibrate at the High Frequency of BEING. Together with the detached parts of the Suns and Planets we inhabited, we were taken out of the realms of the **Infinite Universe** by the Ruler of the Plane of Divine Will, Archangel Michael, so known on Earth.

You also know that the High Frequency of vibration of the **Infinite Universe** is the frequency of vibration of the seventh dimension, and the frequencies of the sixth and fifth dimensions correspond to the frequencies of the partially material Worlds.

From habitat planets of galaxies close to the sixth dimension, and other planets of the fifth dimension, we Star Brethren come in the service of the Father of Heaven, of Jesus, the Christ, and of the Ruler of the Plane of Love of the Heavens.

We gave up the plan proposed by **Satan**.

We were fully aware of what was going to happen in **Creation** if the process devised by **Satan** continued. The Father in Heaven did not prevent it, for He gave the gift of **Freedom** to all His children.

Before Us the Brothers of the sixth dimension desisted. They stopped the fall of their frequency of vibration.

Then We, the cosmic beings of the fifth dimension, desisted.

We repented for what We had caused.

We stopped the fall of our vibrational frequency.

We set out to begin the ascent to the **Pure Worlds**, from whence we had departed. Other cosmic beings continued to lower their vibrational frequencies. This caused the condensation of matter in the realms where they lived.

The **Finite Universe** Worlds of the fourth and third dimensions were formed.

Satan and his hierarchies set up their base on Earth, in the depths of matter, where **time** and **space** exist.

Many eons elapsed from the beginning of the *Fall of the Angels* until this cosmic event came to an end.

When the planet Earth crystallised we Star Brethren placed ourselves at the service of the Father in Heaven and the Corregent of Infinity to assist in the Plan envisioned by the Father in Heaven.

The Father already knew what was going to happen at this time.

Before the outburst of the planet Murdok billions of years ago, which caused the formation of the **Asteroid Belt** between Mars and Jupiter, we had already built and manned small ships, transport ships and triangular ships, the ships that circumnavigated the Earth, the great ships that hold the Earth's magnetic Axis, and the ships of the great fleets stationed in the **Kuiper Belt**, built and prepared for the salvage and rescue action foreseen by the Father of Heaven.

The earth-based Star Brethren form the contingent of the Cosmic Forces in permanent action of service and aid to the sons and daughters of God, and to the beings of the Kingdoms of Nature housed by Mother Earth.

Thanks to the ships built before the explosion of the planet Murdok, we stabilised the Solar System, so that, according to the Plan foreseen by the Father of Heaven, the

Earth and the Solar System would reach the end of time and the end of the cosmic cycle in which the present Humanity lives, to be succeeded by the New Humanity.

It was necessary to stabilise the orbits of the planets of the Solar System when "they", the demons, caused the outburst of the planet Murdok.

The planetary soul of the planet Murdok was the first cosmic Entity of the **Finite Universe** to return to the **Infinite Universe** by passing through a **Communication Portal** of the Galaxy in which this Solar System is located.

In the ancient orbit of Murdok we place spherical stars and spheroids brought from outside the Solar System known to Earth astronomers - such as Ceres, Vesta, Hygieia, Pallas, Juno and Flora. The infinite asteroids of irregular shapes and varying dimensions in the **Asteroid Belt between Mars and Jupiter** were part of the mass of the planet Murdok before its outburst.

Other irregular asteroids were blasted out into space when the implosion occurred, and the planetary Soul, vibrating at the High Frequency of vibration of the SELF, was attracted to the **Primary Central Sun of the Infinite Universe**.

Earth astronomers know that **Olbers** discovered important asteroids and comets. In the early 19th century Olbers hypothesised that "**asteroids were fragments of an ancient exploded planet**".

In **Olbers** had incarnated a fifth dimensional Star Brother who came down to Earth on a mission to help Humanity.

For millennia of Earth's history, it has been and continues to be part of our mission to protect and assist the Regents and Rulers of the Planes of Order, Will, Wisdom, Seriousness, Patience, Love, Mercy, and the Ruler of Infinity, who have incarnated on Earth.

By heeding the Mandate of the Father in Heaven, we will in the future assist the generations of the New Humanity to extend the **Kingdom of Peace** throughout the Earth.

When we Star Brethren began our Mission of Love to Humanity we asked the Father in Heaven that a portion of the potential Love energy generated by our actions of service and help to Humanity, to increase the vibrational frequency of our partially material habitat planets and that of the solar system in which these planets are located.

And the other part of the potential of Love generated by our actions of service and aid to Humanity, will go on to raise the Vibrational Frequency of our cosmic bodies of partially material substance.

This was granted to us by the Father of Heaven.

Astrophysicists, astronomers and mathematicians of the Earth started from what they observed in the firmament to formulate theories which they proposed to the scientific community.

They have sought explanations for their theories, according to their consciences.

However, their consciousness has been influenced by frequencies of the third dimension, where matter is crystallised to the maximum, and they have been in the depths of matter, the Earth, in the third dimension, where **time** and **space** exist.

At this time they have known that the **Portals of Communication** are the so-called ***black holes***, situated in the **Wall of Light**, between the **Finite Universe** and the **Infinite Universe**, which vibrates at the High Frequency of vibration of the SELF, which corresponds to the seventh dimension.

The scientific community has known that **Eternity is not a timeless abstraction. Eternity is a real cosmic realm, where Ether is the fundamental principle.**

It has also learnt **how the Finite Universe, which is not infinite, originated from the Infinite Universe**, which vibrates at the same frequency as the **ethereal substance**, invisible to human technique.

You have known that the **Primary Central Sun** is attracting, absorbing the **Finite Universe** through the **Portals of Communication**.

That which had a beginning has its end. The Finite Universe will have its end.

What A. D. Hertzáurea contributes in this book are neither hypotheses nor theories.

It belongs to the real. Man can access the reality of the Self if he transforms the dense energies attached to his soul.

7-9 - «Mission of the Brothers of the Stars »
«Certain rulers of this world are being monitored.»

«Message to the sons and daughters of the Infinite of the Peoples of the Earth, as it is your right to be informed. We are attentive to those of Goodwill throughout the Earth. In their auras, we see what is engraved in their souls. Message to certain rulers of this world.

I, Yosuá, left on a mission of service and help to Humanity from the Constellation of the Stars, in one of the Galaxies of the fifth dimension close to the sixth. Together with other brothers, who also departed from their homes in the Star Worlds to help and serve the children of God on Earth, we address all the sons and daughters of Infinity who inhabit the Earth through our Speaker. A new era is announced.

As instruments of Light we are on Earth on a mission of service and help to Humanity. Some have been born among you. Others of us are in the Invisible Plane. When the time comes, we will make ourselves visible, when it is the Will of the Beloved Heavenly Father. By his Mandate, on behalf of those of us who depart from the Worlds of the Stars, I, Yosuá, take the floor:

“Humanity does not know that the Darkness lost the battle it waged against the Light. Now, in its death throes, the Serpent lashed out. She waged the genetic battle against the sons and daughters of God on Earth, a battle they have also lost.

Scientists who have modified human DNA with synthetic mRNA will suffer untold suffering. The elites of the financial oligarchies will suffer unspeakably. And the rulers, authorities and representatives of the Peoples who are in the ranks of the Darkness.

Health and media professionals who have joined their ranks will suffer untold suffering, betraying themselves by serving Darkness, the Hydra with the Seven Heads, whose seventh and last head was crushed by Christ, the Life.

They will receive in their soul 30 lead coins for each betrayed child of God, child, youth, adult, elderly and pregnant women, in whom Christ lives, the Life, another sold for 30 coins when Jesus of Nazareth was incarnated on Earth.

Drop your masks before this aching world! They are the cause of the pain and suffering inflicted on millions of others in their 'genetic adventure', within their plan to "make scorched earth" of all that is valuable on Earth, granted as a habitat to the children of Darkness, not in property, because the Earth belongs to the Father, and now, due to the increase in their frequency of vibration and potential of Light, they leave the planet retreating to their satanic base, the Abyss, created by "them", the demons, with infinitude of very low vibration frequency dense energies.

In the Abyss, they will remain 'secluded' by "themselves" until the moment of their final capitulation. Everything is rushing for "them" and the satanic hierarchies. Every moment the potential of Light on the Earth and its atmosphere is increasing, vibrating intensely. What many demons can no longer resist. What is narrated is real, it is not science fiction, although it is not perceived by the atrophied senses of the soul in man. Everyone is free to take it or to leave it.

The madness that they have committed has always been known by the Infinite, who granted them Freedom as a dowry, free will, as His children that they are. But each son has to face his own judgment for what has been caused, consequently, because the Heavenly Father does not punish or condemn. In this way they will suffer unspeakably for eons, in the spheres of no-time without time, all that they have caused for millennia and centuries. That's how they wanted it.

Those invisible to the human eye, and those visible embodied in known human shells of the political sphere and financial oligarchies, believe they are safe in their strongholds of power. Wherever they are, they are observed and heard by countless "camouflaged" scattered throughout the Earth, who will never be able to discover, protected by Us. They departed on a mission of Love from the Pure Heavens and the partially material Worlds. Inexorably, each one will fulfill the mission entrusted within the Plan foreseen by the Father of Heaven and Christ, known by this Name on Earth.

We know how much is emitted and received by "them", monitored internally and externally, night and day, by the Father, Jesus, the Christ, and Us. We are present without being seen by them, nor detected by any technical system, adapting our vibration to the frequency not perceived by the human eye. So we know how much they plot behind people's back in their offices: nothing good can be expected from them.

Nor do they see with them the souls of those killed by the experimental genetic products injected into their bodies, dosed poisons, the synthetic mRNA mutating the genome of their bodies, putting the organs into dysfunction. Millions of sons and daughters of God were injected with what "they" were not injected with. Fortunately, those "vaccinated" with placebos are still alive to demonstrate that the "vaccines" work, or due to manufacturing failures of thousands of synthetic mRNA millionaires, thus inciting to receive the punctures. The rulers know that synthetic mRNA "vaccines" kill and cause serious secondary effects in the short, medium and long term. For this they have been vaccinated with placebos.

Here is the proof that, knowing that the vaccines killed, they "have vaccinated" hundreds of millions of healthy people with injections of synthetic mRNA and graphene oxide in the excipients, with different doses, according to the thousands of Batches of "vaccines" of Pfizer and Moderna while the rulers were "vaccinated" with placebos!

If the vaccination method had consisted of injecting doses extracted from the same bottles, labeled with the same code number, name, color and font, the same numbers, points, commas and bars, the pandemic would not have been invented! Traditional vaccines inoculated into healthy people have never caused the death of hundreds of thousands, nor caused painful irreversible organic damage to millions of human beings.

Souls communicate with each other. They travel the Earth. They know they have been deceived. Also the soul of David Sassoli. He is horrified. They follow them wherever they go, staying day and night in their homes and offices, as traveling companions. They wish they had not been born, due to the fatal fate they have imposed on millions of healthy people.

And they will continue to die, in the short, medium and long term, except for those "vaccinated" with placebo, sentenced by the experimental gene product synthetic mRNA and other toxic components added to the excipient of the so-called "vaccines". Millions of people have been victims, hypnotized by psychological propaganda techniques used by the big media, taken to the planetary experimental laboratory.

"They were not informed about the risks of such experimental products. It was hidden from them that they could die, get sick, without known medical treatment. Each person has the right to know the risks and benefits of the medical treatment they are going to receive, and not to consent to medical acts, or receive treatment if the risks are hidden from them. If parents had been informed, their children would not have been "vaccinated" with the experimental gene product synthetic messenger RNA.

The Coregent of the Infinite alerted about the genetic catastrophe suffered by Humanity in the third decade of the 21st century in the last decade of the 20th century in a "MESSAGE GIVEN FROM INFINITY" given through G. von W. (1992). Fulfilling the Mandate of Jesus, the Christ, we insert only a few lines of the extensive Message:

"I am who I am, Christ in God, yours and My Father. Listen, men, wherever you may be: My Spirit is in each one of you, for each one is the temple of the Holy Spirit. Materialism sinks because many men surrender to materialism and do not comply with the Laws of Life.

Listen to the voice of your Redeemer and Brother, who gives you clarifications and warns you!

You see: Humanity is heading towards a catastrophe such as has never been before, as your intellectual guides mistreat the Earth, the atmosphere, and ultimately the Humanity subject to them.

The last rung on the ladder of apparent human success is the manipulation of the human hereditary substance, the manipulation of so-called genes. I warn you to be in favor of these manipulations, in any way they present it to you. I tell you, these lead to chaos for each individual person.

Infinity is energy in its entirety. Everything, each component of infinity, emits and receives. Also a so-called gene has programs. It is a component that emits and receives. If you welcome foreign genes, genes that do not correspond to your natural body, you welcome foreign emission and reception potential. This means that in time you will be directed by forces outside of you.

If a gene is incorporated into the cell, into the body, the cell divides and then the emission potential also increases. This means that entire organs can be directed by others. This foreign command is often no longer accepted by the organism, unless more and more organs are directed by foreign forces. This means that the man no longer has access to his sensations or to his awareness. This means, figuratively speaking, that he is a so-called robot that is run by the intellectuals, and thus by the demons and their accomplices. Who does not have more access to his sensations and to his awareness is a man without a conscience, who carries out everything that is introduced to him inside of him. PEACE. "

« By monitoring certain governments, we learned, for example, why the Meeting of the leaders of Asian and European countries was held in Ulan Bator, Mongolia, in mid-July 2016, when the current president of the European Commission was Federal Defense Minister of Germany.

The vibration of the place affected the particles of the souls of those gathered: from the beginning of the 1980s the irradiation fields located under the subsoil of Mongolia began to activate.

«Our cosmic troops in service to Humanity were there, invisible to the human eye modified its vibration frequency. They also monitored from the ships parked over the place.

We can also modify the vibration frequency of the ships while we circumnavigate the Earth, or remain parked over Nature and cities, making them visible or invisible to the human eye, remaining in the same place.

« **All people are internally monitored.** So were the current leaders of Europe and Asia, monitored by the Creator Father and his Son, the Coregent of the Infinite, present in the Profound Realms of the Core of Being of their souls.

Likewise, members of the governments of central and federated states, land, departments, provinces and autonomies are being monitored internally and externally.

«Since 2016 we have been giving "information" to Intelligence Services knowing that they were "listening" on certain telephone lines. **We have reported on what would happen if they exploded atomic bombs to contaminate farmland, rivers, lakes, water sources, and how much would serve to survive and settle the new Humanity on the face of the Earth in the Golden Age.** We have known for a long time about the plan of the Darkness to "make scorched earth" in its withdrawal from the planet towards the Abyss, its cosmic base.

"They are not going to be allowed!", was and has been pronounced repeatedly by our Spokesman when we have reported through him, well, **"if the War Conflict started they would explode nuclear bombs, the large ships that keep the planet in balance" loosen" its magnetic axis a few degrees.** The Earth would oscillate, flooding the seas and the coasts. Military satellites would go down, making it impossible to launch any more missiles with nuclear warheads.

They understood "what they heard." After the "information" received, they have prepared huge amounts of conventional weapons.

The Great Struggle of the Peoples of the Earth will be the last war, a complement to "they" making "scorched earth", through certain rulers, of everything on the face of the Earth. They are also architects of genetic and social chaos and the collapse of the economy.

Well-known instruments of "them", those invisible to the human eye, took control of the mass media by injecting capital, infiltrating and corrupting the Institutions, creating the so-called "pandemic" to threaten life, health and fundamental rights of citizens, causing damage to their productive fabric, carrying out "coups d'état", establishing dictatorships and tyrannies once they took power, committing acts of genetic bio terrorism against hundreds of millions of inhabitants of the Earth. And

acts of state terrorism in known countries. **“By their fruits you will know them.”** It was anticipated by the Coregent of the Infinite incarnated in Jesus of Nazareth.

“By beating the drums of war they are provoking the Great War Outburst of the Peoples of the Earth. Nothing will ever be like the second before the start of the Last Great War.

"Before the so-called Third World War starts, Israel will unexpectedly disappear as a state. Israel will never be a state again. Not long after the disappearance of Israel, the Great War Conflict between all the peoples of the Earth will begin.

“Whoever is beating the drums of war loudly does not expect this Great War to reach the continental territory of his country, the United States of America. Neutralized its sources of supply and storage of fossil fuels, he will be put out of action. At the same time they will have to deal with the effects of natural disasters caused by the Elemental Forces Fire, Water, Earth and Air, which will gradually purify this vast territory of magnetism "strange" to Mother Earth.

Nor will the US be able to raise its head, the States being divided into a man for himself. This is how the United States has wanted it, causing wars, destabilizing governments and destroying millions of lives, properties and subsistence resources of many peoples of the Earth, as a gendarme of the World Order, according to them, throughout its existence as a State. They will inexorably attract what has been caused in this time of accelerated change. That is how they wanted it, that is how they will suffer.

The new Humanity will live in Love and Peace during the Golden Age, the Kingdom of Peace, which will spread throughout the Earth, integrating the planet and the new Humanity into the Great Cosmic Family.

"They," and many of the current rulers, will no longer return to Earth. As the planet's vibrational frequency has risen, increasing its Light potential "they" have started to abandon it. What they can't resist. Hence making "scorched earth" in his retreat. Magnetic portals will prevent souls who have not raised their vibrational frequency from reincarnating on Earth.

« Governors mentally influenced by "them" have embezzled public funds to build concentration centers, some as camouflaged projects in states, land, departments, autonomies and provinces, where to take the unvaccinated. They have not allowed themselves to be injected with the experimental product based on the synthetic mRNA because they knew that they were going to die and become irreversibly ill. If the rulers knew that neither the World Health Organization nor the Ministries of Health had

sequenced or isolated the coronavirus, why did they build or enable concentration centers for the unvaccinated?

If certain rulers were vaccinated with placebos, why did they want to legislate to make “vaccination” with the experimental synthetic mRNA gene product mandatory, and force “legal” vaccination on the unvaccinated?

«European rulers, manipulating public opinion through the media, have wanted to legislate contrary to the Rule of Law and Natural Law to forcefully inject the unvaccinated with the experimental genetic product, based on synthetic mRNA.

“We have the rulers monitored inside and outside their dens of power. The "shell" of the words of some do not correspond to the images displayed on the mental screen of their auras.

“They, the adversaries of the Light, the demons, know that among the unvaccinated are those who have come down to Earth on a Mission of Love to serve and help their fellow men in the tragic moments of the collapse of civilization and the Great War that will devastate the Earth. And they have mobilized their puppet-rulers to “knock out” the unvaccinated by injecting them with synthetic mRNA, which modifies the DNA in their genomes.

«Truly, the judges and the scientific and judicial police should investigate certain rulers, on time.

“LEGALIZED THEFT”

We continue to monitor delegitimized rulers for their unethical actions against the citizens they govern. They lie.

We are exceptional witnesses of the "legislative" process initiated by the President of the Government of Spain. In the summer of 2021 he made public the Draft of the Draft Modification of the National Security Law of 2015. In February 2022 the Council of Ministers approved it, and it was sent to Parliament.

We began to monitor the rulers of Spain at the beginning of January 2021 for the propaganda techniques applied through television networks. They penetrated the mental sphere, sowing fear and panic with false data on deaths from covid, images of healthy people being "vaccinated", and queues in front of vaccination centers. Propaganda techniques incite to be vaccinated. No information was given about the components of the "vaccines", such as the experimental products they are and the irreversible effects they cause. They have not been given the option to freely decide whether or not to be vaccinated.

Again we report that we can monitor without being visible, adapting our vibration frequency so as not to be visible to the human eye. We listen to what is said in parliaments and offices. We see the souls that swarm around politicians and rulers. We also see the demons, who influence them by projecting mental waves. And to the souls of the dead.

In this case, we see them surrounding the President of the Government of Spain. They influence him with his thinking, as they do with other presidents and the president of the European Commission.

The Amendment of the National Security Law of 2015 is related to Air Force's circular flights of helicopters around a small piece of land owned by our Speaker, base of the project for the common good. For this purpose he purchased it. He gave it a name: ***"Land of the Stars"***.

In the month of July 2021, the newspaper *El Economista (Spain)* commented on the Draft of the Draft Modification of the National Security Law to which it had had access.

«On the afternoon of November 4, 2021, a Spanish Air Force helicopter circled over the high-voltage line that diagonally crosses the "Land of the

Stars". Due to the internal and external monitoring that we have been doing, we learned that "this small piece of land is the "game piece" offered on a platter by the President of the Government to the Darkness." A well-known demon accompanies this ruler.

"This happened THREE MONTHS before the approval of the Draft Modification of the National Security Law by the Government of Spain on February 15, 2022. We know that there is a close relationship between the powers that the President of the Government of Spain has attributed to himself in this Law and the *"Land of the Stars"*.

« WEEKS BEFORE the approval of this Draft Modification of the National Security Law in February 2022, another helicopter from the Air Force circled the "Land of the Stars", overflying the power line.

«Some time ago, a warplane (flight direction «southwest/northeast» flew over, with noise and at a very low altitude, the house of our Speaker, 120 m. from the *"Land of the Stars"*. We know where they take off from and who orders the flights. We also know that they tap into your phone line. And we act on the teams that spy on your phone line, *correspondingly*.

« WE DENOUNCE BEFORE THE PEOPLE OF THE EARTH»

1. MONTHS BEFORE the transformation of the DRAFT into the DRAFT of the MODIFICATION of the National Security Law of 2015, MONTHS BEFORE the DRAFT was approved in the Council of Ministers on February 15, 2022, and submitted to Parliament, MANY MONTHS BEFORE the AMENDMENT of the National Security Law of 2015 became LAW, MILITARY HELICOPTERS GATHERED DATA ON THE "LAND OF THE STARS". A PREMEDITATED ACTION, ORDERED FROM HIGHER INSTANCES.

2. PERSECUTION AND VIOLATION OF CONSTITUTIONAL RIGHTS by flying a warplane at very low altitude over the family home with the intention of terrorizing those who live in that home. The flight pilot needed

a target lock coordinate to fly exactly above the house at a predetermined height.

3. VIOLATION of constitutional rights, due to wiretapping on the telephone line and penetration into their PC. Which lead them to the filing of a complaint for crimes against privacy and crime for discovery and disclosure of secrets in January 2020, filed with the Local Office of the General Directorate of the Civil Guard, No. Proceedings 2020-001 674-00 000 019, and sent to the Court of Instruction of the Guard of the Judicial District.

When the time comes, our Spokesperson's lawyer will file a complaint with the Court of First Instance narrating the alleged crimes committed to make the complaint public by whatever means it is considered to make it known.

<<He will base the complaint under the protection of Natural Law, protected by the right of resistance to oppression against the ruler who, having a legitimate origin, has become illegitimate due to his dictatorial actions, to favor hidden interests.>>

<<Our cosmic troops on the ground, those who man the ships and our Spokesman come from the Worlds of Light. We are on a mission of Love to Humanity to help the Peoples of Earth.>>

We, the crew of the ships circumnavigating the Earth, monitor those who rule and act against the children of God throughout the Earth.

We see and hear what goes on in the offices of the rulers of this world.

We see how the demons influence them mentally, how they divide the Peoples, cause them to go to war with one another, use them to sow genetic chaos, cause death and disease.

We see how "they", those of the Unseen Plane, mentally influence man to pollute the lands and waters, burn the forests, kill and cause animals to suffer unspeakably, pollute minds through the media, destroy economies, pollute the air... Sadly it is so.

"We have been helping and serving God's children in this world since time immemorial. We thus execute the Mandate of the Father in Heaven and of Jesus, the Christ, whom we serve, and our Spokesman, with whom we communicate by telepathy, also serves faithfully. He is a faithful servant of the Light. This is why he is being attacked by the Darkness.

He will never be harmed by demons, nor by their accomplices. He is protected by his powerful radiation of Love, by the Father, by the Christ and by Us, placed by the Father at his side night and day, protected also in his movements by the Brothers of the Stars from the ships. Many know that we can make them visible or invisible.

<<We are witnesses of exception to how the demons attack the Light by attacking our Spokesman. They know what he is on Earth for, what his mission is. And so they try to interfere by using their instruments. It has always been so with those sent by God to help Humanity.

The masks have fallen:

<<One of the demons accompanying the President of the Government has plotted the destruction of the project for the common good by expropriating the small piece of land, "Tierra de las Estrellas". What we will not allow!

It is public knowledge that such a Prime Minister, contrary to what is published in the electoral program of his political party, and the feelings of the vast majority of the Spanish people, writes a simple letter to the King of Morocco, without informing the Ministers of his Government, nor the Parliament, nor the European Union, nor the United Nations, nor the Authorities and the population of the Saharawi Arab Republic of Western Sahara, in which he communicates, in simple words, understandable to all the People of the Earth, that "it seems that the people of the Saharawi Arab Republic of Western Sahara do not have to hold a referendum, according to the Resolutions of the United Nations, and that, without further ado, he

considers that it can be an autonomous Region of Morocco, which it illegally, according to International Law, occupies militarily.

And in the same erratic line of action, without informing Parliament, he decides and makes public the shipment of arms to Ukraine, adding fire to the war, like other peoples of Europe and North America. These weapons will come back against him - as a seller of weapons too - and against those whose souls have supported the sending of the weapons. The U.S.A. and some of its People will experience war. The principle of "action and reaction" will set in motion the corresponding dense energy fields. It will weigh on them.

They have not been fair, for when two people, or two parties come into dispute, blame is consequently laid in both parts in different percentages. Proportionally, blame is then bared more by one part, and less by the other. Which of the two parties has made a serious effort to comply with the Law of Peoples, international law, based on Natural Law?

Whoever lives, regardless of where, and has blamed any of the parties involved in the conflict, by taking other brothers in Life out of his heart, is attacking himself, for the essences of the souls of those he has taken out of his heart are part of his own soul, as children of the same Father in Heaven who are, therefore, Brothers in Life. Was it not said and taught by the Son of God in Jesus of Nazareth: <<"*He who is without blame, let him cast the first stone*"?>>

<<Thus we report and make public what is happening to the children of God in all the Peoples of the Earth We do not recognise borders drawn by rulers of this world, where there never were any. In the Kingdom of Peace there will be no borders.

"The inspection flights of Air Force helicopters over this land demonstrate the premeditated intention to DESTROY this Project for the common good by EXPROPRIATION.

EXPROPRIATED the small piece of land by DECREE, the destruction and "larceny" of the private land would be "legalised" and it would become

public patrimony. Before the public opinion the "larceny" promoted by the Darkness, mentally influencing whoever signs the Decree, would have been "legally" executed.

"After the flight of the helicopter over the land on the afternoon of the 4th of November 2021, by internal monitoring of the Father and Jesus, the Christ, we knew that "this land was the "hunting piece" offered on a platter to the Darkness by the President of the Government".

An action that would allegedly be "legalised" by the Modification of the National Security Law of 2015, promoted by the President of the Government of Spain.

What is the material and strategic value of this small piece of land described? :

1. "The land is accessed by a dirt road crossing two properties, one of which is between olive trees.
2. "Elongated plot of land, with an irregular layout: One part is 25 metres wide and 72 metres long. It is separated by a service road from another part of 49 m. wide and 80 m. long. Adding the two lengths together, the land is 152 m. long.
3. "The land is located between 5 private properties, the perimeter of which is delimited by metal fences of 2 m. and 1.50 m. in height, and a fence of construction material of 2 m. in height and 25 m. in length, of an adjoining house.
- 4." The part of the land 25 m. wide and 70 m. long is crossed diagonally by a high voltage power line.

This part has: Service road. Ten young olive trees. Six old olive trees. Small fig trees recently planted. Vegetable garden. Irrigation water tank. Metallic structure with photovoltaic panels to extract irrigation water from a well. Wild autochthonous shrubs: large mastic trees, durillos, hawthorn, medicinal plants, wild roses, wild wild olive trees. Approx. 500 m² (approx. 500 m²) are left free for the cultivation of sorghum, lupin and alfalfa.

- 5." The other part of the land, 49 m wide and 80 m long, has three service roads. 17 young olive trees in a row. 3 old olive trees. 13 young olive trees in another row. 3 almond trees. Newly planted pomegranate trees, small fig trees. Cherry trees, orange

trees, apple trees, loquat trees and young vines. Mimosas. Native shrubs: mastic trees, honeysuckle, wild olive trees, asparagus, various medicinal and wild plants, vegetable garden, tubers, onions, garlic, etc. About 800 m² are left free for cultivation of sorghum, lupin and alfalfa.

<<We have made the details of this small piece of land public because:

How is it possible that it can be expropriated to contribute as a resource to the national security of Spain, when two governments of this country have written off € 60,600 million! of those lent to private Banking in the year 2012 (2008 crisis) when all the countries of Europe recovered the money lent then to their Banks?

(Sources: *"El Economista"* 16/6/2017 [Spain] - *"El País"*, 21 May, 2021)

<<Fulfilling the Mandate of the Father of Heaven, we make public, for the knowledge of the Peoples of the Earth, a sample of the modifications to the National Security Law of 2015, collected in the Draft made public in the summer of 2021, published by the newspaper *El Economista* (Spain) (9/7/2021). Anyone can access this information:

1. Headline : <<*This is the Security Law: Closures and expropriations at the whim of Sánchez*<<.
2. *"This law grants absolute power to the President of the Government who will be able to issue decrees without having to go to Parliament.*
- 3." *The granting of full powers to the president of the government will allow the "requisitioning of all kinds of goods".*
- 4." *It allows for the temporary intervention or occupation of such property as may be necessary and, where appropriate, the suspension of activities.*
- 5." *The law does not provide for accountability of the Government before Congress and the Senate.*

6." The modification of Law 36/2015, of 28 September, on National Security allows the actions undertaken not to be subject to the Law on Transparency and Public Information of Good Governance.

[The suspension of the Transparency Law poses a regression in the rule of law that no emergency can justify].

7. "Those who suffer damage to their goods and services shall have the right to compensation in accordance with the provisions of the law".

<<The internal monitoring of the Father and Jesus, the Christ, by which we learned that "the *"Land of the Stars"* was the "hunting piece" offered on a platter to the Darkness by the President of the Government [Spain], was expressed by the Father of Heaven on the 4th of November, 2021, through A. D'Hertzaúrea, after the circular flights of the helicopter over the *"Land of the Stars"*, within the following context:

"This earth is Mine. They will pay dearly for such audacity, and for continually attacking the Matrix Project of the pending Spiritual Revolution, for which countless children of Mine have departed from the Pure Heavens and from the partially material worlds.

I am making everything new, and the old in all the insides will begin to vibrate increasingly. We will also neutralise the computer systems and whatever data they have taken and stored about the "Land of the Stars", the 'hunting-piece' of larceny that the president of this Government offers on a platter to the Darkness.

It will weigh heavily on him, as his political miseries will be exposed and his involvement with the Vatican in the attacks on millions of My children using mRNA as a weapon. So many deaths, so much pain and suffering will not go unpunished! Their involvement in the greatest genocide in the history of mankind will make the news.

It will be known. And he will never set foot on a political podium again. His fields of dense energies, like those of demons, will be activated and he will remember the harm he has done to millions of My children. He will have to endure the infinite suffering caused here on Earth. The same will be

suffered by all those involved in this gene genocide, causing hopeless disease, with pain and suffering accompanying those "vaccinated" with the experimental gene product.

This will happen to those who attack the "Land of the Stars". They have lost democratic legitimacy by abusing power to 'legalise' crimes. PEACE.

«Man cannot see the activity of the beings of the Non-visible Plane. Neither can the human eye perceive radio waves, television waves, infrared rays, nor hear ultrasound, as examples, but they are real. They exist even though man cannot perceive them with his senses.

People do not know what is going on around them. What I have said, Yosué, does not belong in a science fiction film. Everyone is free to accept or not what is offered.

It is only Right that at this crucial time for Humanity the Light should give explanations, knowledge and nourish the Flame of Hope to those of goodwill in all Peoples of the Earth. They are ethical leaven for the new Humanity.

Fulfilling the Mandate of the Father in Heaven we transmit in His Name:

"The inhabitants of the Earth are neither alone nor forsaken. The not-good that man experiences is because he has attracted that which corresponds to what his soul caused in embodiment in this and other existences: «What a man sows, that shall he reap," said Jesus of Nazareth. It does not belong to the Truth that "the Father punishes and condemns His children."»

«In the Universe there are no secrets. Creation is in permanent communication, so disposed by the Father Creator.

The ethical remnants of the civilisation of un-Love constitute the pillars of the new Humanity, which will populate the Kingdom of Peace spread over generations throughout the Earth.

Thus we, the Brothers of the Stars, communicate to the Brothers and Sisters of all the Peoples of the Earth what has been decreed by the Infinite to neutralise the "legalised" destruction, if necessary, of the terrain of the

parent Project driving the pending **Spiritual Revolution** announced by the **Father on 23rd August 2021**.

It is located in the geographical area that was the crossroads of the Peoples of Africa and America. It will be the meeting place and departure point for the Caravans from Africa and America on their way to the *New Jerusalem* in the heart of Central Europe.

«In the recent past, governmental authorities have crossed red lines which have been met with a corresponding response. Because of the "competences" that the president of the Spanish government has attributed to himself, we make public the actions decreed.

If they attempt against this parent Project, the crime committed will be made public. The Infinite has decreed the following actions that will be executed by Us, the Brothers of the Stars, if they cross the red line indicated:

1. *"The broadcasts of television and radio channels, accomplices of the rulers in the commission of crimes against humanity, will be neutralised". [Spain]*
2. *"We will intervene massively with squadrons of ships located over the parent Project and the urban nucleus" [Spain].*
3. *"We will create permanent interference in the airspace. Civilian and military aircraft will have to deviate a radius of 20 km. from the vertical of the urban nucleus of the population and the "Land of the Stars". [Spain] .*
4. *"We will alter the navigation systems of military aircraft and helicopters." [Spain] .*

Chapter 29 of "Between the Ether and the Earth"

CHRONICLE FOR ALL TIMES:

«PCR WAS THE WEAPON, SYNTHETIC mRNA THE PROJECTILE.»

They were introduced into the mainstream media. The same shareholders of the big pharmaceutical companies, producers of the so-called synthetic mRNA "vaccines", were also shareholders of the media.

[Sources - [Hyperlinks A&Z-W](#)]

By means of the audio-visual media, they inoculated the mental sphere of millions of people with panic and terror. They emitted billions of low-frequency waves into the atmosphere. **Continuously feeding back, they vibrated the DNA of the genes of the innumerable coronaviruses present in the atmosphere of the planet. The continuous bombardment of mind waves gave rise to external variants of the coronavirus.**

As a projectile they used synthetic mRNA against people, and as a weapon they used the PCR test, which did not detect the virus. **Biochemist and Nobel laureate in chemistry Dr Kary Banks Mullis, inventor of PCR, had already warned that the test «could not detect any infection or disease accurately». He said PCR could not detect coronavirus.**

The PCR tests were poorly designed, any flu, and the vaccine itself, would give false positives, more than 90% **false positives**, which by the art of the birlibirlogue, TV networks made them reach frightened citizens converted into **contagions**, accompanied by repeated images of needle sticks and vaccination queues accompanied by figures of deaths with covid and by covid, without AUTOPSIES.

Both the US Food and Drug Administration and the Centers for Disease Control and Prevention admitted that PCR was not developed with actual virus isolates, but with genetic material from a common cold and flu virus: what it detected was not coronavirus.

Therefore, they did not develop the PCR test on real samples, so it did not detect Covid-19, which was not isolated and sequenced by the Centers for Disease Control and Prevention or the World Health Organisation, PCR tests were experimental products licensed by the US Food and Drug Administration. The package inserts stated that PCR tests should not be used to diagnose COVID.

And yet it was the weapon of mass destruction by firing synthetic mRNA projectiles into millions of HEALTHY people who were actually killed and seriously injured in the Covid World War, because the synthetic mRNA acted when it penetrated the body.

[\[Sources - Hyperlinks A&Z-W\].](#)

The virus worked because what was injected was not a vaccine: A vaccine provides immunity, whereas these experimental gene products required incessant injections, up to four doses in some countries including booster, with billions of synthetic mRNA inoculated. And it was still active.

If the vaccines had produced immunity, a single dose would have sufficed. But these "vaccines" did not eliminate infection, nor did they prevent contagion, nor did they prevent transmission of the virus.

To put it in words familiar to all, this is what happened:

1- They injected into the deltoid muscle the dose of synthetic mRNA with its software, the information designed by the biotech engineer.

2-The messenger RNA (billions of synthetic mRNA molecules injected) began to deliver its 'information' to the DNA of the muscle cells, 'telling' them to produce protein S, Spike. The developers of the experimental gene vaccines claimed that the synthetic mRNA and S, Spike proteins would remain in and around the deltoid muscle" (**point of inoculation**), which is amply supplied by branching blood vessels near the heart, lung and brain. **But they were wrong. Data from Pfizer's Vaccine Bio-distribution Study showed that the synthetic mRNA and Spike proteins were widely distributed by blood circulation throughout the body within hours, including the brain, lungs and heart, liver, ovaries.... The mRNA continued to tell cells to produce S (Spike) proteins, beginning to cause cardiovascular and neurological damage.**

3- The messenger RNA took control of the cells to produce the viral protein S, Spike. *[The more doses of synthetic mRNA injected into bodies, the worse it gets, as the process of genetic manipulation is accelerated in all genes with which the synthetic mRNA comes into contact.]* No. 7].

The synthetic mRNA delivered to the DNA of the cells its software's "information". As the synthetic mRNA was distributed through the bloodstream, it also delivered its "information" to the DNA of the phagocytic T and B lymphocytes with which it came into contact, altering

the original programme of these lymphocytes, putting them "out of action". **In this way, the synthetic messenger RNA was suppressing the immune system which God had endowed the human body with** (No. 17).

Datos oficiales sugieren que las 'vacunas Covid' causan una grave degradación del sistema inmunológico: cada 'dosis de refuerzo' parece empeorar la situación | TrikoobaNews.com

4- But the messenger RNA was also penetrating inside the cells, delivering its 'information' to the DNA of the genes in their nuclei, inducing the production of S proteins, Spike, "foreign" to the organism. Organs became inflamed.

As the cells and organs vibrated at a "foreign" frequency passed by the messenger RNA, their waves were picked up by B lymphocytes, passing the "information" to phagocytic T lymphocytes, which massively attacked the organ "producing viral protein S, Spike. This "viral protein" was foreign to the body. was producing a foreign protein for the immune system to attack. **What was happening then was an "autoimmune response" or "autoimmune disease", caused by the organism itself fighting against what it was producing.**

5- At the same time, the proteins S, Spike, bound to the ACE2 receptors of the blood platelets and to the cells that cover the blood vessels, and could cause the platelets to clump together, causing the blood to clot, leading to thrombosis, or to internal haemorrhages. **[Sources - Hyperlinks A&Z-W].**

6- **Synthetic messenger RNA that had been distributed through the bloodstream met 'covid-19' inside the organism. It delivered its "message-information" to the DNA of these 'covid-19,' producing INTERNAL VARIANTS, inside the organism** (No. 8).

[The delta variant and other variants have been produced when the DNA of the virus has been genetically modified by synthetic mRNA in vaccinees.] [No. 7]

There were organs whose cells, having been 'visited' by the mRNA, produced viral proteins S, Spike, and their DNAs were already vibrating at the same frequency as the mRNA, identical to the frequency at which they were already emitting and receiving the DNAs of the 'covid-19' INTERNAL VARIANTS.

These internal variants were then attracted by the "magnet-organs" vibrating at the same frequency, transmitted by the synthetic mRNA. They were introduced inside the organs and began to multiply, infecting the organs. Alerted by B-lymphocytes, the phagocytic T-lymphocytes would then come in en masse. The organs gradually went into dysfunction, leading to death.

7- For this reason, the INFINITE in His Message of 23/8/2021 said to Humanity:

"The delta variant and other variants have been produced when the DNA of the virus was genetically modified by synthetic mRNA in those vaccinated.

Those vaccinated who have received the full regimen have been infected with the delta variant, whose DNA may in turn be modified by the synthetic mRNA, producing another new variant, which in turn will produce another variant. And so on and so forth.

This is the reason why those "vaccinated" with the full pattern become infected with variants of the coronavirus, and a high percentage of them die.

But this is not reported by the rulers of this world, nor by the mainstream media.

The more synthetic mRNA doses are injected into the bodies, the worse it gets, because the process of genetic manipulation is accelerated in all genes with which the synthetic mRNA comes into contact.

Mass gene vaccinations of the peoples of the Earth will multiply the carriers and propagators of the variants to proportions unimaginable by human thought...(Excerpt from paragraph. FULL MESSAGE in No. 7)

Bill Gates, in his latest statement, said: «*mRNA vaccines don't stop transmission, we need a new way to deliver them*». He also said: «*We didn't have vaccines that block transmission*».

« Numerous scientific studies attested that that synthetic mRNA "vaccines" did not stop transmission. Even Centers for Disease Control and Prevention said so.

What had been happening was that those "vaccinated" with the full synthetic mRNA dosing regimens transmitted the mutated coronavirus and became contagious. They died and hospitals collapsed in many countries.

« Según un reciente informe del gobierno británico, las personas totalmente vacunadas ahora representan 9 de cada 10 muertes 'por Covid-19' en Inglaterra | TrikoobaNews.com.

Information that contradicted the existence of the rationale for the creation of the pandemic began to be published. An official document from the Centers for Disease Control and Prevention stated that "there were no quantified isolated 2019-nCoV viruses.

[NOTE: "Reference is made to a virus, unknown, of which its promoters do not know where it is found. OFFICIALLY THEY DO NOT KNOW IT. Thus We write: 'Covid-19'].

[«[Documento oficial de los CDC: "actualmente no se dispone de aislamientos de virus cuantificados del 2019-nCoV" | TrikoobaNews.com](#)]

The document referenced was dated **July 13, 2020**, with the title "*CDC 2019-Novel Coronavirus 2019 Real-Time RT-PCR Diagnostic Panel (2019-nCoV)*".

"CDC 2019-Novel Coronavirus , by **Tim Brown**. That there were no "quantified virus isolates" of 2019-nCoV , meant that the Centers for Disease Control and Prevention had not isolated that virus, nor had anyone else. Therefore, NO ONE HAD PROVEN THAT THIS VIRUS EXISTED. But it did exist.

The Centers for Disease Control and Prevention also said "*they were introducing a diagnostic PCR test to detect the virus ...*" a virus that had not been isolated ... and the test was looking for RNA that came from the virus that had not been proven to exist.

But, using this [**PCR**] test, Centers for Disease Control and Prevention and every other public health agency and ministry in the world was counting cases and deaths from 'COVID' ... And

governments had instituted shutdowns and caused economic ruin using those numbers of cases and deaths as justification.

"The Centers for Disease Control and Prevention also did not have 'Covid-19' cultures, as one Ministry of Health, Spain, officially reported that: *"The Ministry of Health does not have SARS-COV-2 culture for testing, and does not have a registry of laboratories with culture and isolation capacity for testing"*. (File No. 001-059144, 8 September 2021.) Therefore, the Ministry of Health could not prove that SARS CoV 2 virus was the cause of the disease 'COVID-19', as it did not have viral cultures from the *'positive'* RT PCR patients.

«This was the virus that billions feared. It could cause death, as announced by TV networks, if doses of the experimental genetically engineered product called "vaccine" were not injected. Its main ingredient was synthetic mRNA, which modified human DNA and gave cells information to produce the viral protein S, Spike, as well as graphene oxide added to the excipient. [[Sources - Hyperlinks A&Z-W](#)].

Without Television there would have been no pandemic, nor so many tens of millions of adverse effects and deaths.

Millions of healthy people, hypnotised by psychological propaganda techniques used by the mass media, were led to the planetary laboratory. Masses of numb blind people, prostrated before the lead calves of technology, were the first to succumb like laboratory animals. Others were terrified by the nefarious propaganda spread by the mass media. The media

that betrayed freedom of information had their bread at that time, as a foretaste of tomorrow's starvation of the media.

They experimented massively on healthy people, men and women, young and old, children and pregnant women of the peoples of the earth. They deceitfully injected them with the well-known experimental genetic product they called "vaccine", with the synthetic mRNA that modified the DNA of their bodies. They were not informed that it could cause death and unknown, irreversible genetic diseases for which there was no treatment.

«The synthetic mRNA gene product was inspired by demons to biotechnological scientists so that "man would cease to be God's creation". Modified, his DNA became the creation of the one who programmed him. In the words of Dr. Tal Zaks, Medical Director of Moderna, when the DNA is modified, the individual or subject that has changed its genome was no longer a creation of God, but a creation of man, so that the individual or subject could be the object of a "patent".

Tal Zaks, chief medical officer of Moderna: mRNA Alters DNA (rumble.com)

The satanic hierarchies saw their secret plan come true: "To genetically manipulate the DNA of the brain cells with synthetic mRNA in order to interrupt the communication of God with man through the brain, and of man with God".

In the Nucleus of Being of the soul, in permanent contact with the brain, dwells the Spirit of the Father and the Christ of God.

This happened during the death rattle of the Seven-headed Hydra, whose last head had been crushed by the Light. Its final throes were in the time of the Great Lie.

The Darkness had long ago lost the Battle against the Light. Its incarnated servants on Earth continued to do "scorched earth", destroying whatever could help the incarnated beings of Light on Earth and the ethical remnants of Humanity to establish the Kingdom of Peace in the Golden Age, which

began to spread the new Humanity throughout the Earth after the tragic collapse of the civilisation of un-Love.

The Last War between the Peoples of the Earth took place before the Second Coming of Christ in Spirit in the atmosphere of the Earth.

The instruments of Darkness had taken over much of the mass media, infiltrated their boards of directors, never gave voice to those who denounced the "vaccines" as experimental genetic products, and the adverse effects they produced, including death. Aided by the mainstream media, they created the bizarre pandemic.

They" ran for election in masks and sheepskins. They staged fake fights among themselves on the stage of the great theatre of the World. Once in power they used the Institutions of the People to achieve their ends. They carried out coups d'état. They attacked life, health, rights and liberties of the inhabitants of nations, the foundations of States. They abolished the right of citizens to be informed and to inform, the cornerstone of Democracy. Once in power they dropped their masks and sheepskins. They murdered Democracy.

Those who refused to be "vaccinated" with synthetic mRNA, the basis of the experimental genetic products, knew that they would suffer the irreversible modification of their DNA and the lethal effects on their organs, tissues and brains. They were viciously persecuted by some rulers, threatening them with the loss of their jobs and salaries, stigmatising them socially, confining them to their homes, prohibiting companies from selling them food and basic necessities, sanctioning companies with unvaccinated workers, accusing them of infecting vaccinated people! Some tyrannical rulers and like-minded parliamentarians tried to pass laws to force and make injections with the experimental genetic product compulsory for the unvaccinated. **[Sources - Hyperlinks A&Z-W]**

These rulers violated their constitutional and human rights and freedoms, violating laws, international Conventions, Resolutions, doctrines of Constitutional Courts, the Nuremberg Code of Ethics, the IV Geneva Convention (Art.32 and 147) and the **Golden Ethical Rule of Natural Law, inspired by the Infinite to the peoples of the Earth since time immemorial:**

"Do not do unto others, what you do not want others to do unto you".

It was their plan, but they did not reckon the great offensive of the beings of Light, which laid it all bare. Nor did they reckon the law of cause and effect, created by "them", the Darkness, nor the Plan of Infinity which had been increasing the frequency of vibration of the planet and of the dense energy fields, of all that on the face of the Earth, that had been magnetised for millennia and centuries by the incarnated demons, those of the Non-visible Plane, and their seduced instruments.

The contrary induced by "them" from the Non-visible Plane showed its effects on the Non-visible Plane. The incarnates of "them", the demons, fell into the trap of that which was created by "them".

That which was created by Darkness and its incarnated instruments on Earth had been ephemeral. The Infinite makes new all that exists within and without the Earth, raising its frequency of vibration to be attracted and absorbed by the Pure Worlds, the Origin, vibrating at the High Frequency of Being. Thus it is being absorbed into the Infinite Universe as it reaches the High Frequency of vibration of the Worlds of Origin from the Finite Universe.

«As a projectile they used synthetic mRNA, and as a weapon they used the PCR test. For you who are living in another age, we include this information from the time when *the genetic battle* took place:

The false pandemic was created by Darkness and its instruments to genetically modify human DNA with synthetic mRNA, an experimental product as the main ingredient, and toxic components, such as graphene oxide, added to the excipient, which they injected into healthy people and also caused serious effects, including death, and irreversible injury and disease to millions of healthy inhabitants of the Earth. [\[Sources - Hyperlinks A&Z-W\]](#)

What they called a pandemic had nothing to do with health because:

1. The rulers, not being doctors, were ordering tens of thousands of tests to be taken from healthy people with a test, the RT- PCR, which did not detect 'covid-19'.

They intended to deceitfully inject tens of thousands of healthy people with the well-known experimental gene product based on the synthetic mRNA technique, which modified human DNA. [Sources - [Hyperlinks A&Z-W](#)].

2. They ordered laboratories to increase up to 35, 40 or more cycles of CT amplification of the samples, giving false positives knowing that :

«The RT-PCR test did not detect 'covid-19'.

«By taking tens of thousands of tests, they were getting 97% false positives.

3. They committed the following offences:

«Crime of deceiving citizens by calling tens of thousands of FALSE POSITIVES, obtained with the RT-PCR which did not detect 'covid-19' CONTAGES of Covid-19. Nor could this test detect internal infections.

« TV stations called the tens of thousands of false positives 'covid-19' CONTAGES, propagating false data, provided by the rulers.

«They created panic and terror in HEALTHY citizens by giving figures of hundreds of thousands of FALSE CONTAGES (being false positives) through TV channels, while projecting images of injecting the experimental mRNA gene product into people, and queues in front of vaccination centres.

They had not been told of the irreversible genetic modification their gene pool would undergo, the short, medium or long term organ dysfunction their bodies would suffer, and the numerous adverse effects, including death, new diseases produced by the viral Spike protein that they would have to endure until they died, having their life cycle been shortened.

They gave FALSE figures for COVID deaths in Hospitals:

If patients entered a Hospital with SERIOUS CARDIOPATHY, for example, and died in the Hospital, they were counted as DEAD BY CORONAVIRUS, without PERFORMING AUTOPSIES, only because they did the PCR test on admission, they used a high threshold of CT amplification cycles for the sample that gave "positive (FALSE)", when the PCR does not detect covid-19, nor any infection.

«They committed this chain of fraud to deceitfully inject millions of HEALTHY people with the experimental synthetic mRNA gene product.

But the antibodies induced by the synthetic mRNA suppressed natural immunity, not replaced it. [Sources - [Hyperlinks A&Z-W](#)] .

4. After mass vaccination they ordered new PCR tests by lowering the threshold of amplification cycles. The PCR tests gave thousands of false NEGATIVES. And they publicised that the vaccines worked and protected against infections, inducing vaccination with experimental gene products based on the synthetic mRNA technique.

But the vaccines did not work and did not protect against the virus. Countless people vaccinated with the full guidelines went into hospitals and a high percentage died. [Sources - [Hyperlinks A&Z-W](#)].

Governments knew officially as of 21 July 2021 that the RT-PCR test did not detect covid-19, which it never did. Yet they continued to use it to encourage and justify "vaccinating" with the experimental product based on the synthetic mRNA technique.

Governments also knew that the US Centers for Disease Control and Prevention would revoke the authorisation for emergency use of the PCR test after 31 December 2021. Yet some governments continued to use it [Sources - [Hyperlinks A&Z-W](#)]

«By fraudulently using the useless RT-PCR test to combat 'covid-19' the rulers and their accomplices caused:

«The worst global economic crisis since World War II.

«The fall of the Gross Domestic Product (GDP) and the world labour activity due to the damage caused to the productive fabric, decreasing economic resources and increasing levels of indebtedness.

«The violation of fundamental rights and freedoms.

«The dismantling of the productive fabric, causing the closure of hundreds of thousands of small businesses and family businesses.

«The mass "vaccination" of millions of healthy people, children, young people, pregnant women, adults and the elderly with the experimental genetic product based on synthetic mRNA, without individual informed consent, without informing them of the risks and serious side effects, including death, nor informing them of the irreversible modification of the DNA of millions of people using synthetic mRNA.

«The destruction of social cohesion, causing the division of the People into vaccinated and unvaccinated, with the latter suffering persecution.

Scientists, virologists, biologists, people with academic background and common sense released studies and thousands of publications all over the world demonstrating the uselessness of such a test, and the irreversible damage that experimental gene products were causing in millions of people. But they could not exercise their right to inform their fellow human beings through the mainstream media, dominated by the politicians and financial oligarchies that carried out the coups d'état and usurped the functions of doctors.

They thus demonstrated that the crisis caused by the pandemic invented by the members of the secret society that took power was not a health crisis, but part of the overall plan of the Darkness to continue to make "scorched earth" of whatever could help the ethical remnants of the new Humanity to survive, and to extend the Kingdom of Peace throughout the Earth after the tragic collapse of the civilisation of un-Love, and the Great Warlike Confrontation of the Peoples of the Earth. As the Father raised the vibrational frequency of the Earth, his Light potential increased, which was not resisted by 'them'. And they began to leave the Earth. They concentrated in the Abyss.

«The crisis caused by the pandemic was not a health crisis.

If it had been a health crisis, the rulers would have called in doctors, virologists, scientists and specialised health professionals. Together they would have analysed and studied the plan of action needed to resolve the crisis. Together, they would have informed the people in the media of the health emergency and the measures they considered necessary to apply.

But they did not act like that. They spurned the help offered by world-renowned doctors, virologists and scientists. Had they accepted it, they would not have been able to carry out the diabolical plan prepared by the elites of the secret society.

They violated written international laws and codes. They subverted ethical values, the golden pillars of civilisations based on natural law. They violated *the Nuremberg Code of Medical Ethics*, point 1:

«The voluntary consent of the human subject is absolutely essential. This means that the person concerned must have the legal capacity to give consent; his situation must be such that he is capable of exercising a free choice, without the intervention of any element of force, fraud, deceit, coercion, duress or other form of constraint or coercion; he must have sufficient knowledge and understanding of the elements involved to enable him to make a reasonable and enlightened decision. This last element requires that before the experimental subject

accepts an affirmative decision, he or she should know the nature, duration and purpose of the experiment, the method and means by which it will be conducted, all the inconveniences and risks that may reasonably be expected, and the effects on his or her health and person that may possibly result from participation in the experiment. The duty and responsibility for assuring the quality of consent resides with each individual who initiates, conducts, or is involved in the experiment. It is a personal duty and responsibility that cannot be delegated with impunity."

"The infinite dense energy fields produced accelerated the collapse of civilisation. The law of cause and effect kicked in. Population masses rose up in revolt. A great ethical and legal offensive brought to justice those who designed and executed the diabolical plan and their accomplices. It was necessary to retake the ethical and democratic pulse.

The causes generated by Humanity during millennia and centuries, registered as sowings in the Great Cosmic Ordainer of the Finite Universe, unloaded storms of events and tragic events, harvests of what was sown at the individual and collective level by the souls in successive incarnations on Earth.

The fruits of the lived ethical values proclaimed by Natural Law, the Commandments given by the Infinite One, God, and that taught and lived by Jesus of Nazareth, also fell as a gentle rain of peace and good upon the inhabitants of Earth. In this human sheath had incarnated the Corregent of the Infinite, the Christ of God.

The mistakes made by the instruments of Darkness in attacking the productive fabric during the "pandemic" dynamited the pillars of the global economy. The law of cause and effect finished laying the charges for what was caused when the Great World War of the Peoples of the Earth broke out, not long after the sudden disappearance of Israel as a state. This last War among the Peoples of the Earth had been foreseen centuries before by the satanic hierarchies of the Unseen Plane, and carried out on the Visible Plane by the same of "them" incarnated in human bodies. **"By**

their fruits ye shall know them," warned **Jesus, the Christ**, incarnated in Jesus of Nazareth.

Chapter 28 of "Between the Ether and the Earth"

LIFE SOFTWARE PIRATES, BIOTERRORISTS AND ACCOMPLICES.

In the linked video, Dr. Tal Zaks says that the experimental mRNA vaccine modifies the genetic code (DNA) of people vaccinated with this experimental gene product. Their original genome has been changed by what the scientists have coded.

The individual or subject whose DNA is modified by the mRNA has changed his genome. **He is no longer a creation of God, but a creation of man.** And it could be the subject of a "patent". Tal Zaks calls this "**hacking the software of life**". Moderna sees this as an operating system. On their website they call it "**Our Operating System**".

Zaks goes on to say that "the mRNA will tell the cells to "code" the "virus" protein (Spike), This "viral protein" is foreign to the body. The individual's body is producing a foreign protein that the immune system must attack. The body then produces a protein, and the immune system in turn attacks the protein that your body produces. **What happens in an "autoimmune response" or "autoimmune disease". [Zaks is saying that the body will fight its own cells when it is "vaccinated" against COVID-19 with synthetic mRNA.]**

Zaks talks about turning this system on, yet there is no way to turn it off.

When do cells know to stop producing this "viral protein"? **The cells don't, so they continue to produce S (Spike) proteins.**

(Tal Zaks, chief medical officer of Moderna: mRNA Alters DNA (rumble.com))

When Monsanto genetically modified the DNA of an indigenous maize, it patented this variant of the maize seed. And it began to commercialise it, being planted on millions of hectares. The question is, will they dare to patent GM bodies? **Digitised**

Green Passports have all the data to **"title"** the transgenic bodies that are no longer God's creation, **but the creation of biotechnological scientists.**

However, **judges and prosecutors will be able to determine if there is a crime in the piracy with the genetic software synthetic mRNA patented by Moderna, the software of Life in the original genetic patrimony, private, of the people, because it is irreversible that the transgenic man has passed from being God's creation, against his will, to being the creation of the scientists of Moderna and Pfizer, which would mean that the transgenic man could be patented against his will, because his data are in the DIGITALISED GREEN PASSPORT.**

Judges and prosecutors will be able to determine whether crimes of State Bioterrorism have been committed by injecting millions of healthy people with the experimental gene product synthetic mRNA without their consent, without having been informed before injection of the adverse effects of the synthetic mRNA on their bodies, including death. And if crimes of State Bioterrorism have been committed against the original genetic heritage by injecting the experimental genetic product synthetic mRNA into hundreds of millions of healthy people (who are already dying and becoming seriously ill), thus attacking the genetic heritage of millions of citizens, children, young people, adults, the elderly and pregnant women, who constitute the demographic heritage, the foundation of States, and the strategic generational replacements for the continuity of human societies on Earth.

There are laws that criminalise pirating original patents. In this case, pirating the genetic heritage of each person using synthetic mRNA software without their consent should be criminalised, as a crime, because it has been done:

- 1- Without the prior knowledge and consent of the legitimate owners of their genetic heritage and their bodies.**
- 2- Without informing them in writing of the irreversible effects - including death - that the experimental genetic product, maliciously called "vaccine" without being so, could produce in their original genome, God's creation, Life.**
- 3- These people, once God's creation, had the DNA of their genome hacked by deception, frightened by the intense propaganda on TV, and**

were injected with 1 to 4 doses of synthetic mRNA, produced by Pfizer and Moderna.

4 - In such actions of bioterrorism, with irreversible effects, the subject was deprived of the freedom to decide on the ownership of his original body, condemned to be a transgenic subject for as long as he breathes, without hope of recovering the genome of his original body and brain, which would gradually lose consciousness and the connection with his soul, in whose Nucleus of Being reside in Spirit and Force, the Father of Heaven and His Son, the Christ of God.

«Such ethical abuses are being committed in disregard of the Nuremberg Code, articles 32 and 147 of the IV Geneva Convention, Human and Constitutional Rights, doctrines of Constitutional Courts..., by those who should ensure their compliance and observance.

Chapter 27 of “Between the Ether and the Earth”

AUSTRIA'S CONSTITUTIONAL COURT SHINES AS AN ETHICAL STAR IN EUROPE'S DARK NIGHT.

The Austrian Constitutional Court demanded data from the Austrian Government's Ministry of Health to justify the measures imposed against covid-19. This led Austria and Germany to postpone compulsory vaccination due to "technical problems". It also led the Red Cross to withdraw from the "Austria vaccinates" campaign, abandoning the vaccination ship.

(5 February, 2022).

The Austrian Constitutional Court sent a list of questions on the Covid-19 pandemic to the Ministry of Health at the beginning of February. The background is an ordinance review procedure regarding the Coronavirus measures taken by the government in Vienna. The catalogue of questions can only be described as explosive, due to the political narrative of the government of the Alpine republic. The Constitutional Court sent the Austrian Minister of Health, Wolfgang Mückstein, some questions about the alleged "burden on the health system".

The court wanted to know :

1- Whether the figures for deaths and hospitalisations during the pandemic cover all infected people. The question pointed to the well-known manipulation of data by EU governments on deaths and hospitalisations "with Covid" or "by Covid", which has also been used in Austria. Why was this method of counting chosen?" The judges demanded.

«The Constitutional Court wanted the breakdown of deaths and hospitalisations by Covid, specified by age.

«Was Covid the cause of the hospitalisations?

«Had healthy people been hospitalised unnecessarily, due to a positive test alone?

«Another set of questions was devoted to the effectiveness of the use of so-called protective masks. In the context of the Omicron variant, Austria tightened restrictions in early January, including the use of the FFP2 mask outdoors, if the distance that has long been mandatory could not be maintained.

"The constitutional judges asked the health minister:

«By what factor does wearing an FFP2 mask indoors or outdoors reduce the risk of infection or transmission?"

«The Constitutional Court had calculated the risk of mortality "by Covid" to be 0.15 per cent.

«It demanded to know how the absolute and relative risk reduction of vaccines should be understood.

«The court wanted to know what the absolute risk reduction was after one, two or three injections.

«These questions underlined the judges' doubt about the official propaganda that the vaccines had been 95 per cent effective. What does a specific vaccination effectiveness of, for example, 95 per cent refer to?

«What does absolute and relative risk reduction mean in this context?"

The Ministry of Health should also answer to what extent vaccination reduced the risk of transmission of the virus, since vaccinated people also transmit the virus, however much official propaganda insists on claiming otherwise.

«What is the risk of transmission in a person infected with SARS-CoV-2 with a second vaccination three, six or eight months ago compared to an unvaccinated person whose PCR test was negative 24 hours ago?

«The Court wanted to know the risk of hospitalisation after becoming ill and after vaccination, broken down by age group and number of doses to highlight the side effects of the vaccines, which until now had also been ignored in Austria.

«The Court raised another question about excess mortality in 2020 and 2021: Have there been fewer deaths in 2021 than in the previous year? Was there still excess mortality despite vaccination?

«In short, the Austrian Constitutional Court asked the questions that anyone capable of thinking for themselves would have wanted the

rulers to answer. The coronavirus crisis has lasted almost two years, and Austria has distinguished itself by demanding the most extreme measures from the population. It justified the measures on the grounds that they would be the only way to avoid an excessive burden on the health system, and especially on hospitals that cared for "coronavirus patients".

«Dissenting voices and questions about real data had not been taken into consideration. They amounted to inappropriate and reprehensible

objections by "Coronavirus deniers" to suffering and death. Politicians had to abide by the advice of "science". Open discussion of critical questions or opposing positions, struggling for a more appropriate policy, was simply forbidden. Therefore, many were astonished to read such relevant questions from the Austrian Constitutional Court almost two years after the start of the massive health crisis.

«Austrian Health Minister Wolfgang Mückstein, 47, had until 18 February to adequately answer the Constitutional Court's 10 questions. Weeks earlier, politicians, media and government officials insisted on the "pandemic of the unvaccinated". They imposed a "confinement for the unvaccinated" on 15 November 2021.

From that day, residents over the age of twelve were only allowed to leave the four walls of their homes to go to work or educational institutions, shop for daily necessities, visit the doctor, or engage in physical sports activities.

According to a media report dated 15 January, Mückenstein was certain that "an early relaxation for the unvaccinated could quickly lead to an uncontrolled spread of the virus and an overloading of health care facilities".

For the judges, however, some questions remained unanswered in this context: By how many percentage points did the confinement to which

the NON-VACCINATED were subjected reduce "the risk of infection of an unvaccinated person"?

«What the unvaccinated in Germany and Austria, persecuted by the rulers, undoubtedly thanked the Austrian Constitutional Court for was that the "compulsory" vaccination with the experimental synthetic mRNA gene product was postponed due to "technical problems".

«I, Josuá, take the floor.

We have been monitoring Joe Biden and Ursula von der Leyen, who have been the promoters of the fierce persecution against the NON-VACCINATED. Ursula Von der Leyen, said in the debate on the state of the European Union, on 15/9/2021:

"Let's do whatever is necessary so that this does not turn into a pandemic of the unvaccinated. "

And, at a press conference, he said with convoluted rhetoric:

"I think it is understandable and appropriate to lead this discussion now, how we can encourage and potentially think about compulsory vaccination within the European Union."

YOUR WORDS ARE AN ATTACK ON THE RULE OF LAW, WHICH IS ROOTED IN NATURAL LAW. WE ARE NOT GOING TO REMIND HER OF WHAT SHE HAS BEEN VIOLATING IN TERMS OF LAWS, CONVENTIONS AND INTERNATIONAL ETHICAL CODES.

She, and rulers induced by her, have caused that, by massively injecting the experimental genetic product, synthetic mRNA, which is

not a vaccine, "*this has become a pandemic of vaccinated people*", with deaths silenced by servile media, but known in towns, cities and hospitals, an uncontrollable pandemic of deaths of massively vaccinated people.

This is why governments around the world are declaring an end to the pandemic. The war drums, which have been beating in a mad rush forward, have become the ink of the squid.
