INTRODUCTION

The pages of the History of Humanity are turning at a dizzying pace. It is 13:06 on 24 February 2024 when I begin the Introduction to "SPIRITUAL REVOLUTION. Cosmic Man - The New Humanity".

On June 26, 1987, I met with a messenger of the Cosmic Forces in the service of the Light at the foot of the lamppost which was then in front of the Bar - Cafeteria "Boston", in Cordoba (Spain).

He transmitted to me that "a Middle Eastern State will disappear as a State and, after a first nuclear explosion, the magnetic axis of the Earth will be released". This was the first message I received thirty-six years ago.

Years later I have been receiving other messages from the Father in Heaven and from Jesus, the Christ, about the disappearance of Israel as a State.

The time when this would happen is not transmitted to Humanity, for this event is determined by the free will of those involved.

I was informed at various times of what would happen, of the consequences for humanity and that "not long afterwards the Great War of the Peoples of the Earth", the so-called Third World War, would begin.

It fell to me to give "information" to Intelligence Services who "listened" on certain telephone lines, of what would happen if atomic bombs were exploded. We have reported that Governments, persons involved, Intelligence Services, demons and their instruments, are permanently monitored by Us, internally and externally.

All this has been conveyed to Humanity in "Between the Ether and the Earth", in "Stepping Stones - The Intelligence Service", in "Stepping Stones - The Ether and the Earth". and in "Rungs - The Cosmic Ladder" and in Messages from the Brothers of the Stars to Humanity. Thus we have alerted and warned the inhabitants of Israel whose souls are not contaminated with the increased dense energies, similar to those which millions of Israelites have been attaching to their souls over the course of millennia and centuries during their incarnations. "Many" have gone out of Israel. We say "many" and do not express numbers followed by zeros.

The inhabitants of Israel today have created endless causes by breaking the Commandments "Thou shalt not kill" and "Thou shalt not covet thy neighbour's wife, nor desire thy neighbour's house, nor his land, nor his manservant, nor his maidservant, nor his ox, nor his ass, nor any thing that is thy neighbour's", given by God to the People of Israel through Moses, in whom the Ruler of the Plane of Order had incarnated.

Israel entered the countdown. It will reach 0. We are not against any child of the Infinite incarnated on Earth, nor against brothers and sisters in the Life of Israel. We narrate events emanating from the Inner Source of Being in a general way. And so we help. We affirm the Presence of the Infinite in each and every inhabitant of planet Earth, children of the Infinite, our brothers and sisters.

Rulers of countries of the Earth accuse Israel of genocide. Millions of citizens of the Peoples of the Earth are demonstrating in favour of their fellow Palestinians and against their genocide, which is unstoppable despite the genocide and war crimes lawsuit filed by South Africa against Israel at the International Criminal Court, a lawsuit supported by the Rulers of the Peoples of the Earth. These Rulers and citizens wonder why, despite the orders of the International Court of Justice, the Israeli army, supported by the People, taking orders from the Government, continues to kill day after day, wounding and maiming tens of thousands and thousands of Palestinians, including tens of thousands of children, women and the elderly, depriving them of food, water and electricity, preventing the arrival of humanitarian aid, bombing and destroying with missiles hospitals, schools, buildings, homes, leaving countless sick, wounded, maimed, mutilated, orphaned children, men, women, the elderly, displaced and stalked by snipers without a roof over their heads.... Children have already died of starvation.

We convey fragments of what was revealed by the Infinite on 23 August 2021, Chapter 7 of "Between the Ether and the Earth", as an answer to the questions of the Rulers and citizens of the countries of this world about the attacks of the Israeli army, and the silence and support of a crazed people. In response to the questions of the Rulers and citizens of the countries of this world about the attacks of the Israeli army, and the silence and support of a crazed people, in response also to the complicity of the United States in the crimes of genocide and war crimes by its continued provision of weapons, financial means, logistical support to Israel and vetoes of cease-fire proposals by countries within the framework of the United Nations:

< (.../... fragments. We underline in colour the sentences for your reading and reflection). >

.../...The Light of the Origin, that I Am, vibrating in the Absolute Frequency of the Infinite, radiates from the Central Sun of the Upper Worlds the Core of the planetary soul of the Earth through the Central Sun of the Galaxy, radiating in turn to its own through the Central Sun of the Galaxy, radiating in turn the Soul Core of the Earth's planetary soul through the Central Sun of the Galaxy, radiating in turn the Nuclei of the Being of the souls of billions of inhabitants of the Earth, and to all beings and existences of the mineral, plant and animal kingdoms.

.../...By raising its frequency of vibration, the Earth's core originates its expansion. The 'dormant' and 'dormant' volcanoes in the depths of the Earth will erupt in places unimaginable to man.

So too will the souls 'erupt', emerging from the dense fields of untransformed energies that were attached to them.

untransformed energies that were magnetically attached, incarnation after incarnation. They will show themselves.

.../...Nothing will remain hidden, for all is energy. Thus will emerge also from the souls the high-frequency energy fields generated by the authentic ethical values practised, as man has lived the Law of Love with his fellow man and all forms of Life harboured by Mother Earth.

With the above, we wish to bring to you that "the souls of today's soldiers, of today's rulers, and the souls of today's millions of inhabitants of Israel, have erupted", showing today's "magnet energies" attached to their souls in incarnation after incarnation, millennia and centuries ago. The magnets of each soul will attract that which is activated by the Law of cause and effect. Inexorably.

In the APPENDIX we attach: "Interrelationships between souls and genes".

We have stated what is happening in the Middle East because the bell of the Great Change has begun to ring there.

One second after the second fatality for Israel, nothing will be the same for the

Peoples of the Earth. Not long after that, the Last War will begin. There will be no victors and no vanquished. There will be no more wars on Earth. For generations and generations Peace will reign among the Peoples without borders in the Kingdom of Peace.

You have read that this civilisation is collapsing because the ethical values, which underpin the edifice of a civilisation, have not been practised by the vast majority of the inhabitants of Earth millennium after millennium, century after century.

The righteous will save themselves with Our help.

The numb of humanity sing and dance on the deck of the Titanic of this world swept by the waves. Prostrate before idols created by this civilisation they do not know who they are, nor where they are going, nor do they know if there are barges to board in case of shipwreck.

The awakened ones of goodwill have been instructed in time to board and steer the barges of Love. Let each one measure himself, and see whether or not he still has lead magnets in his soul. If he still has them attached, he will attract accordingly.

The Father in Heaven drew veils over me in "Message to Humanity - Drawing Veils". We, the Father in Heaven, Jesus, the Christ, the Star Brethren and I, are in action to save what can be saved of the present Humanity. We are laying the ethical, moral and survival foundations and pillars for the New Humanity, which will continue to populate the Earth after the collapse of the civilisation of un-Love, after the Second Coming of the Christ in Spirit into the Earth's atmosphere.

We remember: Before this Great Event the Great Battle of the Peoples of the Earth will take place. It will be the Last War. With the steel of weapons plows and ploughshares will be built to cultivate the lands that will sustain the New Humanity.

With what is written in this book we help and neutralise what has been created by the Darkness and its instruments to contaminate the consciousness of the cosmic beings who have come down on a Mission of Love to the Earth.

Out of Love for Humanity, successive waves of cosmic beings have come to the depths of matter, incarnating in families of the Peoples of the Earth.

To them we also send this book, which will help to neutralise the dense energies in cellular groups of the brain that may have been magnetised by "them", the demons. [In the APPENDIX we include the manual HOW DO "THEY", THE DEMONS, ACT].

I have been coming down to Earth century after century at the head of waves of cosmic beings. I have lived in various countries of the Earth, also among brothers and sisters of indigenous peoples, incarnating in families of different social classes, religions and beliefs, in times of peace and war.

In the "hard disk" of my cosmic Being I have recorded experiences of trades, various

techniques and skills, knowledge of arts, sciences, cultivation of the earth, means of communication, construction..., cited as examples, and painful experiences suffered, like all those sent by the Father of Heaven to the depths of matter to help the spiritual evolution of the Peoples of this World.

The experiences of centuries ago have been actualised, emerging on the conscious plane in this existence.

Aided by the Father of Heaven, by Jesus, the Christ, and Brothers of the Stars, I will be present among the sons and daughters of the Infinite and the cosmic beings who have come down to Earth on a Mission of Love, instructing and assisting wherever I am sent by the Father of Heaven during the events of the collapse of the civilisation of lovelessness.

Humanity is in a critical situation at this end of the cosmic cycle. For this we have invalidated known theories, solved enigmas and disproved certain scientific knowledge. But we have brought the real to the invalidated and disproved, and we have set it down in writing. Each person is free to accept or disregard what he or she has contributed. But whoever does not bring something real to what has been rejected, explained in writing, and brings in theories with intellectual quibbles to cloud or agitate consciences, is proving to be one of "them" incarnate, or to be an instrument of "those who" behind the curtain of the stage of this World have led Humanity, and thus every human being, to this critical situation, for which countless cosmic beings have been descending into the depths of matter to help our brothers and sisters who inhabit the Earth, knowing what awaited us in the homeland that once belonged to the demons.

We will continue to help in these times of turbulence, suffering and tribulation. Remember that "We cannot do for others what they will not do for themselves". Reflect.

SUMMARY

The so-called black holes are Communication Portals between the Infinite Universe and the Finite Universe located in the Wall of Light, the boundary between the Infinite Universe and the Finite Universe. - The Universe observed from Earth is finite. - Through the Communication Portals, the absorption by the Primary Central Sun of the cosmic entities of the Finite Universe, detached from the Infinite Universe during the event of the Fall, has been taking place. - Inside the Communication Portals there is no time or space. - Through the Communication Portals one accesses the cosmic realm of Eternity. The ethereal substance of the Communication Portals is invisible to telescopes as it vibrates in the High Frequency of vibration of the SELF. - The General Theory of Relativity and the Theory of the Big Bang lack validity.- Earth scientists located the origin of dark energy in the Communication Portals, invisible to telescopes, because it vibrates in the High Frequency of the BEING. Dark energy is radiated by the powerful Central Primary Sun of the Infinite Universe to the Universes with their Worlds and dimensions and to the cosmic Beings that populate Creation. - Duality in the cosmic being incarnated on Earth to fulfill its Mission. - Cosmic bodies – souls give form to the members of bodies. The amputation of a limb of the body denotes the existence of the "phantom organ." - Materialistic man does not know himself. - The event of death only exists on Earth. - With the "Theory of the Evolution of Species" the Darkness tried to implant in the consciousness of Humanity the existence of soulless bodies. - From the rubble of the civilization based on matter and lovelessness will emerge the Kingdom of Peace. - Parts of Suns and Planets of the Infinite Universe were detached from the Pure Worlds. - Cosmic beings and the detached parts of the Infinite Universe were taken out of the realms of the Pure Worlds. - Creation of the Wall of Light. - Eternity is not a timeless abstraction. It is a real cosmic realm of the seventh dimension where there is no time or space. - The Primary Central Sun radiates and orders all Creation.- The Finite Universe will come to an end.- The Co-Regent of the Infinite prevented the involution of ethereal forms and the dissolution of Creation in the Ether. - The Cosmic Man is the Engine

of the Spiritual Revolution. The Cosmic Man and the Cosmic Woman will be pillars of gold in the New World. The Life Essences of the Spiritual Collectives are irradiated by the Core of the Earth. The spiritual and corporeal duality exists in the beings of the Animal Kingdoms and the Plant Kingdoms. - The evolution of Natural Beings takes place in the Domains of evolution and development of the Pure Heavens, not on Earth. - The Star Brothers stabilized the orbits of the planets in the Solar System when the planet Murdok exploded. In the ancient orbit between Mars and Jupiter they placed spherical and spheroid stars brought from outside the Solar System.- The asteroids between Mars and Jupiter were part of the mass of the planet Murdok. - The astronomer Olbers was a Brother of the Stars who came down to Earth on a mission to help Humanity. - The Star Brothers will help the generations of the New Humanity to spread the Kingdom of Peace throughout the Earth. - The Star Brothers in the service of the Father in Heaven, Jesus, the Christ, and the Ruler of the Plane of Love of the Heavens invalidate the General Theory of Relativity and the Theory of the Big Bang, or "Big Bang", because of their direct involvement in the cosmic event of the Fall. - The Earth's underwater crust heats seawater. The elevation of the vibrational frequency of the Earth's Core and the expansion of the magma increase the temperature of the Earth's crust, which heats the water of the seafloor - the Elemental Force Water, and the Elemental Forces Fire, Earth and Air, cleanse the Earth's crust magnetized by beings of Darkness and their instruments. - The information received by the Core of the Earth from the inhabitants of the planet and from the beings of the Kingdoms of Nature is transmitted to the Core of the Primary Central Sun, which puts into action the spiritual Forces Fire, Water, Earth and Air, originating unforeseen "weather events" that cannot be predicted by meteorologists. - The Primary Central Sun radiates through the Central Sun of the Galaxy the Earth's Core, which raises its vibrational frequency and the temperature of the Core, producing earthquakes and volcanic eruptions the expansion and expansion of magma - Atlantis began to emerge in the last century. - Some lands sink and others emerge. Strong earthquakes will shake

1. COMMUNICATION PORTALS BETWEEN THE INFINITE UNIVERSE AND THE FINITE UNIVERSE.

We start from images of a star taken by the **Hubble** telescope that became *invisible* when it was engulfed by a *black hole*.

This star was not crushed to death, according to astrophysicists and astronomers. Stars in a Galaxy do not die when they pass into the **Infinite Universe** through a **Communication Portal**.

Black holes are not enigmas to Us, they are **Communication Portals** between the **Infinite Universe** and the **Finite Universe**.

For your understanding we present the event of the passage of a cosmic entity through a **Portal of Communication** attracted by the **Primary Central Sun** of the **Infinite Universe**. We start from the **Hubble telescope** image in which a star was absorbed by a **Communication Portal**:

1. This star passed into the seventh dimension through the **Communication Portal** located in the **Wall of Light** between the **Finite Universe** and the **Infinite Universe**. Before being absorbed **the star was visible**, and was in the **Finite Universe**.

2. The **Core** of the star was absorbed by the **Primary Central Sun of the Infinite Universe** because its substance had been raised to the **High Vibrational Frequency of the SELF**.

3. This star became **invisible** as its frequency of vibration had been raised to the High Frequency of vibration of the SELF, proper to the seventh dimension in which the **Primary Central Sun of the Infinite Universe** is.

4. The energy vibrating at the High Frequency of BEING is invisible to telescopes and the human eye.

5. A **Communication Portal** vibrates at the High Frequency of SELF.

6. The circular space of the **Portal of Communication** is perceived as *black* by the Hubble telescope, because the energy vibrating at the High Frequency of vibration of the SELF is "invisible" to telescopes.

7. Only those cosmic entities of the **Finite Universe** can pass through a **Communication Portal** into the **Infinite Universe**, absorbed by the **Primary Central Sun**, which have raised their frequency of vibration to the High Frequency of vibration of the BEING: that is, the frequency of vibration of the **Primary Central Sun**, that of the **Infinite Universe**, and that of the seventh dimension.

The Universe of which the starry firmament observed from Earth is a part is not **infinite, nor is it expanding**:

This Universe **is finite**, and is being absorbed by the **Primary Central Sun**.

All that constituted the **Finite Universe** during the event of the **Fall** began the **Return to Origin**, attracted by the **Primary Central Sun** of the **Infinite Universe**, from which they became detached, having lowered their frequency of vibration during the event of the **Fall**.

The origin of the Universe remains an **enigma** for the community of astrophysicists, astronomers and mathematicians, who have formulated theories to explain the origin of the known Universe, such as the **Big Bang Theory**, theory based on the **general theory of relativity**.

One theory has underpinned another theory, both accepted by the scientific community, which states: "*In Einstein's equations, a finite region of space called the **black hole** is described, inside which there is a high concentration of mass capable of generating a gravitational field from which no particle or radiation, including light, can escape this gravitational field*".

For the community of astrophysicists, astronomers and mathematicians, the *Origin of the Universe* and the Origin of *Black Holes* have been enigmas. **They are no longer enigmas.**

The intellect has created equations that later fail.

As an example, in an excerpt from the [\[Wikipedia\]](#) text on the **General Theory of Relativity** it is written:

"... the equations fail because mathematically it is not possible to deal with infinite numbers and the process cannot be explained. In this state, the theory of generalrelativity is invalid, and to explain the state of the universe at that time we would have to resort to an *as-yet-unknown theory of quantum gravity...*" **[press Ctrl and click on the hyperlinks] .**

The **Big Bang theory** is based on the *general theory of relativity*. It is written that the *general theory of relativity* itself is invalid, therefore the **Big Bang theory** is also invalid.

The *Big Bang theory* holds that the Universe originated in the big explosion of a point of "nothingness" of high density and temperature, which gave rise to **time** and **space**. **[The theoretical point of high-density, high-temperature "nothingness" DOES NOT EXIST.]**

This theory was followed by the *Theory of the Origin of Matter*.

Theories begat other theories. And these begat other theories to help explain theories already formulated.

These well-known theories have been included in textbooks, studied to pass exams. Theories that have become intellectual "truths", that are **enigmas** to an academically educated majority, among which is the **black hole enigma** .

These interrelated **enigmas** have generated scientific hypotheses, theories and conjectures. They have created great confusion of consciences.

With exceptions, for members of the scientific community **there is nothing outside of matter. Their god is matter.** The **creative Force**, the **Energy** that energises,

vivifies, unites and maintains all that exists in the worlds of the seventh, sixth, fifth, fourth and third dimensions, **does not exist**.

However, **Max Planck**, physicist, Nobel Prize winner in Physics, formulated that energy is radiated in separate small units called *quanta*.

Planck intuited the existence of the Creator Spirit Force. At the end of his life he admitted to believing in God, but not in the God of the Christians:

" For me, who have devoted my whole life to the most rigorous science, what I can say about the results of my research is:

There is no such thing as matter, strictly speaking! All matter has its

origin, and only exists, by virtue of a Force which makes the particles of the atom vibrate and holds atom and holds in one piece the tiny solar system that is the atom".

In **Einstein' s equations**, a finite region of space called the **black hole** is described. For the Community of astrophysicists, astronomers and mathematicians

black holes are an *enigma*. **THIS ENIGMA DOES NOT EXIST.**

Definition: "So-called **black holes** are **Communication Portals between the Infinite Universe and the Finite Universe**. They are situated in the **Wall of Light**. "For us they are not an enigma. Thus we continue to contribute to Humanity:

*-" Through the **Portals of Communication** will be passing into the **Infinite Universe** wandering planets, stars, cosmic structures and entities and planets orbiting around Suns of Solar Systems of Galaxies of the **Finite Universe**. That is to say, through the **Portals of Communication** will pass "all that has fallen out of the **Infinite Universe** and constituted the Worlds of the **Fall**".*

*-The cosmic event of the absorption by the **Primary Central Sun** of the **Infinite Universe** of the cosmic entities detached from the **Infinite Universe** during the event of the **Fall**, which came to form the **Worlds and dimensions** of the **Finite Universe**, is taking place in the **Portals of Communication** . "*

All is foreseen by the Father Creator. He placed a **Portal of Communication** in the centre of each of the infinite Galaxies. He brought together Solar Systems with stars and planets with stars and planets with planets.

Solar Systems with stars and planets with different degrees of condensation and frequencies of vibration, which will pass through the **Communication Portals** into the seventh dimension. Once they have reached the High Frequency of vibration of the SELF, they will be drawn inexorably by the mighty **PRIMARY CENTRAL SUN** of the Infinite Universe.

All cosmic entities in the **Finite Universe** receive the High Vibrational Frequency of SELF from the **Primary Central Sun** of the **Infinite Universe** through the **Central Sun** of the infinite Galaxies, which are clusters of stars distributed by the **Primary Central Sun** in the realm of each of the infinite Galaxies, for the mass balance is established by the **Primary Central Sun of the Infinite Universe** through the Law of gravitation.

Therefore, the **Portals of Communication** between the **Infinite Universe** and the **Finite Universe** situated in the **Wall of Light** are infinite, for infinite are the Galaxies in whose domains there are **Solar Systems with different degrees of condensation** and, therefore, **with different frequencies of vibration**.

As an example, the vibrational frequency and degree of condensation of a Constellation of Stars in a fifth dimensional Galaxy, close to the sixth dimension, are different from those of a Constellation of Stars in a fifth dimensional Galaxy close to the fourth dimension.

To the *Milky Way* Galaxy , so called on Earth, belongs the Solar System and the planets of the Solar System detached from the mass of the Sun.

This solar system has reached the highest degree of condensation of the ethereal substance, as has the Earth, which is why it is in the depths of matter.

The ethereal substance of the **Communication Portals**, which vibrates at the High Frequency of BEING, is the same ethereal substance of the **Infinite Universe**, which vibrates at the High Frequency of BEING. Thus we restate that the ethereal substance of the **Communication Portals** is invisible to telescopes.

To assist in the understanding of the absorption by the **PRIMARY CENTRAL SUN of the INFINITE UNIVERSE** of the cosmic entities passing through a **Communication Portal** between the **Finite Universe** and the **Infinite Universe**, we enunciate:

*"The powerful field of invisible ethereal substance of a **Communication Portal**, vibrating at the High Frequency of BEING, becomes like a powerful and gigantic magnet permanently activated by the **PRIMARY CENTRAL SUN of the INFINITE UNIVERSE**, which attracts to the seventh dimension the cosmic entities that come to vibrate at the High Vibrational Frequency of SELF, merging with the mighty field of ethereal substance of the **Infinite Universe**, in which **time and space do not exist**, as a raindrop merges with the water of the sea".*

The **Wall of Light** vibrates at the High Frequency of BEING. It becomes the *boundary* between the **Finite Universe** and the **Infinite Universe**, the seventh dimension.

The worlds of the sixth and fifth dimensions (of partially material substance), and those of the fourth and third dimensions, belong to the **Finite Universe**, and do not vibrate at the **High Frequency of SELF**. To the third dimension belongs the Solar System, with the Earth, planets and known stars, in which **time** and **space** exist.

The Solar System was the cosmic realm of the **Fall** that descended the most in its frequency of vibration. It became more and more condensed. It was the cause of the creation in this cosmic realm of the three dimensions of **space and time**.

In this realm **time** becomes relative as the subject moves away from the Earth, which is in the depths of matter.

This is why the **Corregent of Infinity** descended into the depths of matter. He incarnated on Earth. He was Jesus of Nazareth. He taught the cosmic laws by the fulfilment of which the sons and daughters of God incarnated on Earth could initiate

the **Return** to the Abodes of the Father's House, in the Worlds Beyond the Stars, which "*one distant day*" they left.

The **Wall of Light**, the **Finite Universe** and the **Portals of Communication** were not part of the Creation of the Father of Heaven.

They were the consequence of the lowering of the frequency of vibration of the cosmic beings who initiated the *Fall*, whereby parts of the realms inhabiting the Pure Worlds were magnetised over *eons*[cosmic periods] and became detached from the cosmic entities vibrating at the High Frequency of BEING. The detached parts were grouped together into what became the **Finite Universe**, to which the Earth belongs.

In the **Communication Portals**(*black holes*) scientists of the Earth placed the origin of the so-called **dark energy**, which is not dark, but **energy invisible to telescopes**. It is the ethereal energy of the **Pure Worlds** Beyond the Stars, which vibrates at the High Frequency of the **BEING**. The so-called **dark energy** is radiated by the mighty PRIMARY CENTRAL SUN to the Universes with their Worlds and dimensions, and to the infinite cosmic Beings who inhabit all Creation.

We have stated that the **Portals of Communication** between the **Infinite Universe** and the **Finite Universe** are what have been called *black holes*. We have stated that through the **Portals of Communication** the absorption of the cosmic entities of the **Finite Universe** by the **Primary Central Sun** was initiated.

All that has been stated is knowledge and realities pertaining to the Sphere of Light. They are not hypotheses or theories. This civilisation has been built upon the foundations of hypotheses and theories, upon pages of books in which was written in letters of gold the prediction that was not fulfilled.

2.

THE COSMIC MAN. THE NEW HUMANITY.

If the man inhabiting the Earth knew himself he would be aware of his duality: that of the cosmic being incarnated on Earth in a human body.

In this human envelope the cosmic being entered during the birth event to remain on Earth, a dense planet in the third dimension, where time and space exist. In the seventh dimension there is neither time nor space.

During the event called death, which exists only on Earth, your cosmic being-soul will come out of the material sheath as a hand comes out of a glove. Your cosmic being will always continue to exist. His Origin is in the seventh dimension. The human body will be buried or cremated.

As a cosmic being, he will be able to return to Earth by incarnating in the small human body engendered by his human parents. In this body he will incarnate during the birth event, when he cries and weeps as the little body comes out of the mother's womb.

Cosmic man knows that he will always exist. The materialistic man thinks that he will exist only during the time between the birth event and the death event.

The man who knows his origin and duality will not formulate theories as to the origin of the Universe. He knows that his Origin is in the Infinite Universe, in the seventh dimension, to which he will return after the death event.

Living with him is the man who does not know himself. For him there is only the human body, for he cannot prove the existence of the soul.

To those human beings who think that they are bodies without souls, many of them influenced by the theory of the evolution of the species, and by the invisible beings of Darkness who swarm among them, we say:

"The cosmic bodies-souls-which incarnate on Earth during the birth event in the bodies procreated by the parents-are those which give form to the limbs of the bodies, as a hand gives form to a glove.

It is the soul that provides the Life-energy, God, to the cells, tissues and organs of the body. When the soul leaves the body in the event of death, it decomposes into the

substances which formed the sheath in which it entered when it incarnated, or it is incinerated".

It is evident that no one can experience for another. To this and other sons and daughters of God who think that they are soulless bodies, we say that perhaps you have read or heard of the existence of the "phantom organ", not visible, but remaining where the amputated leg or arm was.

The person who has had a limb amputated for various reasons still "feels" the amputated organ. This invisible organ (because the soul vibrates at a frequency not visible to the human eye) is still part of the cosmic being-soul, which incarnated in the material body engendered by its biological parents during the birth event.

Materialistic man does not know himself. He is locked in his mental plasma bubble. He cannot access as much knowledge as he could take from the Inner Source of Being, if he frees his soul from the dense energy fields he attached to his soul by acting against the Law of Love.

Materialistic man has classified as an enigma whatever he has perceived as beyond his radius of comprehension. He began to seek explanations by formulating theories which, with few exceptions, were later refuted by other theories. Theories included over the years in textbooks, studied to pass exams. Theories that have become intellectual "truths" in this world, columns of paper written in gold-coloured letters.

Theories that have been straw foundations for leaden columns of the millenarian civilisation founded on matter and un-Love, isolated from the Universe.

This civilisation masked by hypocrisy and appearance was erected on leaden columns encased in gold leaf. But the dense energy fields created emit and receive like lead. The apparent emitted reaps lead. It does not reap golden fruit.

The edifice of this civilisation with columns of lead on a foundation of straw collapsed in slow motion. It has accelerated its fall in this time of endless un-Love.

From its rubble will emerge the Kingdom of Peace, established by the New Humanity, thus fulfilling the Word of the Infinite given through His Prophets.

The "Theory of the Evolution of the Species" is a pillar of paper written in gold-coloured letters upon which this civilisation rests.

It explains the origin of soulless man, an origin shrouded in the mists of billions of years. It was inspired by demons to their human instruments. In their brains they created magnetic bases in cell groups vibrating on the same frequency as "them".

It is the "technique" employed by "them" as set forth in Chapter 18 of "Between Ether and Earth" - How do "they", the demons, act? [In the APPENDIX we have included How do "they", the demons, act].

The "Theory of the evolution of species" has been another of the lead pillars of this materialistic civilisation. It explains how the human body has been formed from the successive evolution of animal species over billions of years up to the apes. However, the origin of this theory was forged by similarities between the body morphology of apes and the morphology of the body of man without a soul.

But this theory was shipwrecked in the intellectual swamp in which the one-eyed are the kings of the blind, who assumed it without further ado. The link between the evolution of apes and that of man was not found. Nor will it ever be found. It has not existed.

The "Theory of the evolution of the species" was created by those seduced by the beings of Darkness, who in their struggle against God tried to implant in the consciousness of mankind the theory of beings with soulless bodies.

What has been the heritage of the theory of soulless human bodies, of material animals? :

Human beings exploited as slaves. Cult of death. Cult of the body taken and used by man and woman. Herds of soulless bodies. Manipulation of the masses. Bodies to be tortured, to be bombed. Cannon fodder destined for the trenches by users of power. Weapons from the forges of death, tempered with the charcoal of fear. Biological warfare. Exploitation of human bodies as organ banks. Creation of viruses and false pandemics. Manipulation of the genetic inheritance of the human body. Creation of irreversible genetic diseases. Relocation of food sources. Billion-dollar famine. Man the guinea pig. Man in front of the pack. Demon gauntlet. Manuals of destruction by wars. Civilisation of Un-Love. Laboratory animals. Slaughterhouses multiplied by slaughterhouses. Targets of pellets. Prison farms. Transports to Hell. Birds in flight of no return. Harpoon targets. Dismembered bodies in agony. Blood factories. Sausages of corpses. Runners to death. Squares, banderillas and swords for the legal cutting off of ears and tails. Deer tears. Agonies among dry brambles. Bodies shot down in flight. Finless sharks at sea. Nets for endless agonies. Deaths by

order. Plants with poison for water. Forest-hogs. Atomic firecrackers in the womb of Mother Earth. Manipulation for truth. And so on and so forth. If you wish, continue to complete the etcetera of the list of events inherited by Humanity.

The exploitation of human bodies as organ banks is a consequence of the "Theory of the evolution of the species".

"They", the demons, have implanted in the consciousness of a large part of the earth's inhabitants the fear of death, that we must continue to live as many years as possible, replacing diseased organs with transplanted ones.

We have stated that the "theory of the evolution of the species" was created and developed by those seduced by the beings of Darkness who, in their struggle against God, tried to implant in the consciousness of Humanity the theory of beings with bodies without souls.

Earth's inhabitants have a right to be informed. From chapter 12 of "Between Ether and Earth", "The hidden purpose of 'they', the invisible to the human eye," we have taken a few excerpts:

"The soul is not visible to the human eye as it vibrates at a higher frequency than the physical body. The soul transcends the body by giving its form, for example, to the arms and hands. These material arms and hands make visible the form of the invisible arms and hands of the soul.

Without the Force radiating from the soul's Nucleus of Being, the genes could not "shape" the organs of the human body, just as a computer (PC) cannot do what it is programmed to do without electrical power. When the soul incarnates it enters the body in which its genes, by their frequency of vibration, are the primary factor for this soul to be attracted, and not another soul: No two souls are alike.

"They", the demons, inspired organ transplants: "The transplanted organ is not removed from a corpse, but from a "clinically dead", still living body. The soul feels the removal of the organs from the body in which it is still incarnated.

[Relatives of the "clinically dead" have stated that when their organs were removed, they slapped their hands or moved their legs.]

The transplanted organ carries the genetic information of the body and the magnetic remnants with the vibrational frequency of the soul that had incarnated in the "clinically dead" body from which an organ was removed. The removed organ is transplanted into the recipient body: its soul vibrates at a different frequency than that of the "clinically dead" body: The removed and transplanted organ was

rejected.

[The organ removed from a "clinically dead" body, still alive, is not a spare part - found in a junkyard, placed in a broken down car to keep it running - it belongs to the body in which the soul had incarnated.]

It is a knowledge that we pass on to the cosmic beings who have come down on a Mission of Love to Humanity, constituents of the New Humanity.

3. FORMATION OF THE FINITE UNIVERSE. THIS UNIVERSE WILL COME TO AN END.

When the event of the Fall began, the cosmic beings involved ceased to vibrate at the High frequency of SELF. They lost Light potential.

During cosmic cycles they magnetised parts of the Suns and Planets of the realms they inhabited, which ceased to vibrate at the High Vibrational Frequency of the SELF. These parts became detached from the Pure Worlds, which vibrate eternally at the High Frequency of BEING.

The cosmic beings and the detached parts that had lost their original frequency of vibration were taken out of the realms of the Pure Worlds by the Ruler of the Plane of Divine Will, Archangel Michael, known as such on Earth. The Wall of Light was then created, vibrating at the High Frequency of SELF, and they could not pass through because their frequency of vibration was lowered.

The parts of the detached cosmic entities formed over eons the Finite Universe with the tenuously condensed Worlds vibrating at the frequency of the sixth dimension, with the partially material Worlds vibrating at the frequency of the fifth dimension, and with the material Worlds with varying degrees of condensation and frequencies of vibration which gave rise to the fourth dimension.

The World with the greatest condensation of matter, and the lowest frequency of vibration, was the Solar System, with the Sun, the Earth and other planets, and all that is part of this World vibrating at the frequency of the third dimension. This is why the planet Earth is in the depths of matter.

The higher condensation of matter and lower frequency of vibration created time and space, while in the Pure Worlds of the Infinite Universe, of ethereal substance vibrating at the High Frequency of vibration of the SELF, there is no time and no space.

The frequencies of vibration of the sixth, fifth, fourth and third dimensions, in which the Worlds of the Finite Universe are located, determine their degrees of condensation.

The starting level of vibrational frequencies and degrees of condensation is in the seventh dimensional, non-condensing, ethereal substance of the Infinite Universe, which vibrates at the Absolute Frequency of BEING.

In the Infinite Universe and in the seventh dimension the eternally existing fundamental principle is Ether.

Thus we can affirm that the cosmic realm of Eternity is in the seventh dimension, in t

he Infinite Universe, where time and space do not exist.

Eternity is not a timeless abstraction. It is a real cosmic Realm, where Ether is the fundamental principle.

We can affirm that in the cosmic realm of Eternity is the Homeland of Light, with the Abodes awaiting the RETURN of the cosmic beings who departed from the Pure Worlds on a Mission of Love to the Earth, or for other circumstances, and have incarnated in families of the Peoples of the Earth.

In the Universe all is energy, which emits and receives in the High Frequency of vibration of the BEING, or in the range of the Low Frequency of Vibration.

Eternity is a reality, Ether being the eternally existing fundamental principle vibrating in the High Frequency of BEING.

For your understanding, the cosmic beings of the Pure Worlds are ethereal substance made form, created by the Universal Spirit, God. Created by the Father of Heaven in His image and likeness. "Like father, like son", the Father of Heaven being the stick, and the sons, the splinter.

Inside the Portals of Communication (black holes), located in the Wall of Light, there is no time or space. Through the Portals of Communication between the Infinite Universe and the Finite Universe, the cosmic realm of Eternity is accessed.

The detachments of the parts of suns and planets were forming during cosmic cycles the sixth, fifth, fourth and third dimensions, with cosmic structures of different degrees of condensation of the original substance, and corresponding frequencies of vibration, cosmic structures such as galaxies, for example, which came to constitute the Finite Universe, separated from the Infinite Universe by the Wall of Light, both

vibrating at the High Frequency of BEING.

During the cosmic event of the Fall, the partially material Worlds, the Worlds of matter with their degrees of condensation and the corresponding frequencies of vibration of the sixth, fifth, fourth and third dimensions were formed. In the third dimension, in which the Earth is, extreme condensation originated time and space.

Time and space do not exist in the seventh dimension, nor in the Pure Worlds of the Infinite Universe, which vibrate at the High Frequency of BEING.

We remember that the Father of Heaven placed Portals of Communication in the centre of each of the infinite Galaxies and in the Wall of Light, which is the boundary between the Infinite Universe and the Finite Universe.

The Return to the Infinite Universe of the Worlds of the Finite Universe began at the end of the Fall, the baneful experience of the Angels seduced by Satan, which has caused so much suffering since it began, and continues to be caused on Earth by the small faction of demons who did not accept defeat in the spiritual battle that Darkness began against Light.

They are now making "scorched earth" in their departure from Earth into the Abyss. Sufferings that will continue in the atonement realms of timeless no-time. Because they have willed it so.

Satana was the highest female Angel of Creation who wished to be omnipresent throughout Creation, as are omnipresent the Father of Heaven and His Son, the Corregent of the Infinite.

To achieve her purpose, Satana projected the involution of the ethereal forms, which would lead to the dissolution of Creation, to the dissolution of all Creation into the Ether, in order to initiate a new Creation in which she would be omnipresent.

They did not listen to the exhortations of the Father of Heaven and the Corregent of Infinity, nor to the Regents of the Planes of Order, Will, Wisdom, Seriousness, Patience, Love and Mercy.

The Father in Heaven let them act, for He has given the gift of Freedom to all His children. And they continued with the plan projected by Satan.

That which for eons magnetised with its vibration ceased to vibrate in the Absolute Vibrational Frequency of BEING. And it became detached from the Worlds of Origin, which eternally vibrate in the High Frequency of BEING.

Over eons the Worlds of the Fall were formed.

The parts of the cosmic entities detached from the Infinite Universe formed the Finite Universe, with the partially material Worlds, the Worlds of matter, and the World of the greatest condensation of matter, the World of the Solar System to which the Sun, the Earth and all that is part of this Solar System of the third dimension belong. Corresponding to their frequency of vibration, these worlds were part of the sixth, fifth, fourth and third dimensions.

In these pages we state again: "That which was detached from the Infinite Universe and constituted the Finite Universe during the cosmic event of the Fall must raise its frequency of vibration until it reaches the High Frequency of Vibration of the SELF to be absorbed by the Primary Central Sun of the Infinite Universe, to which it inexorably returns".

The PRIMARY CENTRAL SUN radiates and orders all Creation, including the Worlds and dimensions of the Finite Universe, through the prismatic Suns of the Planes of Order, Will, Wisdom, Seriousness, Patience, Love and Mercy, which revolve in elliptical orbits around the PRIMARY CENTRAL SUN .

In relation to the Earth and its inhabitants, the raising of the Vibrational Frequency of the Earth's Soul Core, and its consequences, was announced by INFINITY through A. D' Hertzáurea, His Channel, on 23 August 2021, Chapter 7 of "Between the Ether and the Earth" - "Entre el Éter y la Tierra" [Excerpt].

[Excerpt]

The Light of Origin, that I Am, vibrating in the Absolute Frequency of the Infinite, radiates from the Central Sun of the Higher Worlds to the Core of the planetary soul of Earth through the Central Sun of the Galaxy, radiating in turn the Soul Core of the Earth's planetary soul through the Central Sun of the Galaxy, radiating in turn the Nuclei of the Being of the souls of billions of inhabitants of the Earth, and to all beings and existences of the mineral, plant and animal kingdoms.

All is energy. Thus, the matter and all that is housed by Mother Earth started the gradual gradual elevation of frequency to become attracted to and assimilated by the Absolute Frequency of the Higher Worlds. That which is hidden will be inexorably uncovered.

For your more exact understanding, the frequency of vibration of the matter of this

condensed planet of the third dimension, the Earth, Plane of Order, will continue to be gradually raised by the Absolute Frequency of Being until it reaches its original its original vibration, prior to that of the process of the Fall. All that is condensed and partially condensed, which lowered its frequency of vibration during the Fall, thus initiated the Return to Origin.

By raising its vibrational frequency the Earth's core causes its expansion. dormant' and 'dormant' volcanoes in the depths of the Earth will erupt in places unimaginable to man.

In this way, souls will also 'erupt', and the dense fields of earth will emerge. Untransformed energies that were magnetically attached, incarnation after incarnation. They will be displayed.

Nothing will be hidden, for all is energy. Thus will emerge also from the souls the high-frequency energy fields generated by the authentic ethical values practised by ethical values practised, as man has lived the Law of Love with his fellow man and all forms of Life all the forms of Life harboured by Mother Earth.

The Elemental Forces Fire, Water, Earth and Air are in action, demagnetising and preparing the face of the Earth for the settlement of the Kingdom of Peace, the Golden Age, which will emerge from the rubble of the civilisation of dis-Love. [End of excerpt].

Beyond the Stars are the Cosmic Homes, the Homeland of Light. To these Homes return the cosmic beings who have come down to Earth on a Mission of Love, those incarnated on Earth for millennia due to various circumstances, and the cosmic beings from the Worlds of the fourth dimension, all ascending through the Cosmic Intermediate Stations (Rungs of the Cosmic Ladder) to enter the Pure Worlds through the PORTAL OF THE ROSES, being attracted by the Primary Central Sun of the Infinite Universe as these cosmic beings have reached the High Frequency of Vibration of the SELF.

If the soul of a brother of the Stars, who incarnated on Earth to help Humanity, no longer has the vibrational frequency he had before incarnating, having attached to his soul too many dense energies of low vibrational frequency, he will have to purify himself with the help of a support of the Partial Force of the Corregent of Infinity, coming from the Primary Force of the Universal Spirit.

The vibrational frequencies of the dense energies attached to the souls of those incarnated on Earth are raised by the Christ to the High Frequency of vibration of the SELF, if, in time, they are recognised and surrendered to Him by the one who created

them and attached them to His soul. If they are not recognised and surrendered to Christ, the souls pass into the realms of purification or atonement upon disincarnation. Once purified, the souls are attracted to the Primary Central Sun, penetrating into the Worlds of the souls.

Cosmic-soul beings incarnated in families of all faiths and religions of countries of the Earth must know why Christ, the Corregent of Infinity raises to the High Frequency of BEING the energies of low frequency of vibration attached to souls. The Creator Father, God, is the RULER of the Infinite Universe and the Finite Universe. His Son, the Christ of God, is the CORREGENT of the Infinite.

The Christ of God transmitted a Partial Force Support from the Primal Force of the Universal Spirit to disembodied souls and to the souls of cosmic beings incarnated on Earth who, because of their degree of condensation and low frequency of vibration, had descended during the Fall of the Angels into the depths of matter, the Earth, or descended to Earth by other circumstances.

These Partial Force supports from the inheritance of the Corregent of Infinity, Christ, which flowed after the sacrifice of Golgotha to the overshadowed souls, stabilised the divine elements of the souls, whereby Christ prevented the involution of the ethereal forms and the dissolution of Creation into Ether, devised by Satana to "she" be omnipresent in the new Creation.

4. COSMIC MAN IS A REALITY.

I Am Jesus, the Christ.

You know who I Am, Jesus, the Christ, the True One.

The Father and I Am the Life in you. We have been rehabilitated by My Soul Friend Alfonso of Adamuz. Through him the Father in Heaven and I communicate with you. You know that I am not a crucified figure. I Am the Son of the Father of Heaven, Who Is your Father also. He is a Wonderful Father, as Alphonsus has simply announced to you. I Am the Corregent of

the Infinite. The Father and I Are the Universe and the Voice of the Universe. We are Omnipresent in the Worlds of the Infinite Universe and the Finite Universe, to which the Earth belongs. The Father and I Are the All in All.

Thus I tell you that I Am the rose and its perfume. I Am the nightingale that sings in the thickets of the streams. I Am the dove and its flight. I Am the cricket and the cricket's song. You will remember Me when you listen to Me on summer nights. I Am the flowering meadow. I Am the wind that sings in the pine groves. I Am the Light in the poppy fields bathed by the golden Sun of dawn. So shall I announce Myself with My Light to you when I come in Spirit into the atmosphere of Earth.

I Am the galaxy and the star. I Am the atom, the quantum and the sub-quantum. I Am the whale and the seagull. I Am the sea and the beach. I Am the smile of a child. I Am the caress you give to the dog you love and loves you. I Am the sun that illuminates the days of your life. I Am the flight of the swallows, I Am their chicks waiting for their parents to return to the nest.

I Am the bread, the air you breathe and the water that quenches your thirst.

I Am the Comfort. I Am the Hope. I Am the strated. I Am the maimed. I Am the mercilessly slaughtered. I Am the Life in those who suffer under the rain of missiles and water, their homes destroyed. I Am the machine-gunned because I live in him.

I Am the child who dies of hunger, I Am the Life in him. I Am Love. I Am the Life in you and in all the sons and daughters of Our Beloved Father who inhabit the Earth.

I am not the infinite crucified images. I am not that Christ.

I do not dwell in any church, or temple, or stone cathedral of any so-called Christian church.

I Am the Life in the cosmic beings that inhabit the Worlds of the Infinite

Universe and the Finite Universe.

And Our Beloved Father Is all that I Am, for I Am His Son.

The Cosmic Man is a reality, visible in the sons and daughters of God who departed from the Worlds Beyond the Stars, and in those who departed also from the planets of the Worlds of the fifth dimension, who out of Love for their brothers and sisters on Earth have incarnated and will incarnate in families of the Peoples of the Earth.

And so I say to you. Cosmic Man - cosmic men and women - you will be pillars of gold to which many will cling. You will be pools of Peace in the turbulence of this World as you walk into the New Time of the Golden Age. Forget not "those" who stalk you from the corners of Darkness.

I, Christ, Am the Foundation and the Rock for the Golden Pillars of the New Humanity. I Am the Footprints I left when I was in Jesus of Nazareth. Now I say to you also: ***Follow Me!***

I have always known you, for I Am the Life in each one of you. So I ask you, who are reading this:

Do you want to be the golden pillar to which your fellowmen can cling?

If you recognize in time the dense energies attached to your soul, and surrender them to Me, I will raise the vibration of the dense energies to the High Frequency of vibration of the BEING. And I will give you gold for every ounce of lead you give Me.

You will no longer be lead magnets. Thou shalt not attract the fruits of lead from what he has sown in the field of thy soul.

Give Me the lead that you find and I will place it as gold in the chest of your soul. With me you will remain safe. And you will see from afar the tribulations of this world.

Who really loves in this World, the homeland of lovelessness?

You will become the Cosmic Man, the cosmic woman, the example of life, the shining star in the night of this World, the Engine of the Spiritual Revolution already spreading through the Peoples of the Earth.

Walk Hand in Hand. And you will kindle the Flame of Hope in your fellow men. The desire to return to the Homeland of Light will be born in them, climbing the Steps of the Cosmic Ladder. I love you. PEACE.

5. COLUMNS FOR THE NEW HUMANITY.

Duality exists in animals and plants.

The beings of the Kingdoms of Nature - animals and plants - are manifestations of the Love of the Father of Heaven made form, visible to the human being inhabiting the Earth. But the viruses and parasites that cause disease and suffering, and the animals and plants created by genetic manipulation and in test tubes are creations of the Darkness through its instruments. They are not manifestations of the Love of the Father in form.

Cosmic man is the cosmic being who consciously took on a human sheath to assist and fulfil on Earth the Mission entrusted to him.

Deep within him is activated the longing for the Worlds and the Home he left in the Homeland of Light as he observes the Love of God made form in the wondrous animals and plants of the Kingdoms of Nature.

5.1- Spiritual and material duality in beings of the Plant Kingdoms.

Starting from the incarnation of cosmic-soul beings during the birth event in the body engendered by those who will be their parents, and their exit from the body in

the death event, we share how the Life Essences of the plants of a cereal created by the Father of Heaven intervene in the birth of new cereal plants to produce seeds, which feed man on Earth and perpetuate the species, according to the Plan of the Father of Heaven.

The Life Essences of the spiritual Collective radiating from the Earth's Core are cared for by Angels.

When the germ of the cereal seeds in the earth are activated by the degree of temperature and humidity, and the irradiation of the stars of the Solar System, the Essences of Life are carried to these seeds.

And the cycle of plant growth, flowering, formation of new seeds and ripening begins. When the plants dry up in the summer the Life Essences are attracted by the spiritual Collective of the planetary Soul.

The Life Essences that vivify the various plant species vibrate at the High Frequency of the SELF, and are thus invisible to the human eye.

The various species of plants are cared for by Natural Beings through whom the Spirit of the Father radiates during the cycle that begins with the activation of the seed germ and the incorporation of the Life Essences, and ends with the maturation of the seeds and the attraction of the Life Essences of the plants by the spiritual Collectives radiating from the Soul Core of the Earth.

Also the animals of the Animal Kingdom are cared for by Natural Beings through whom radiates the Spirit of the Father of Heaven.

5.2- Spiritual and bodily duality in beings of the Animal Kingdoms.

Similar to the incarnation of a cosmic-soul being in a human sheath is the birth of children in animal couples.

There are cosmic-natural beings who "incarnate" in large and small bodies given birth to by female mammals, and in variously sized bodies of young birds before they hatch from eggs.

These green-bodied natural beings come from Realms of the Pure Heavens. In these realms they have their origin, and in these realms they evolve.

For your understanding we start with the concept of "green dwarfs" because their small bodies have heads with eyes and mouths, and arms with hands and legs with

feet, and the colour of these natural beings is green.

Thus this "dwarf" body is like the body of man, but smaller. If the "dwarf" body is very small, we could say "little green dwarf".

The only thing that differentiates them is their size. The green-coloured natural being that has "incarnated" in the body of a dog could be called a "green dwarf". And the green-coloured natural being that has "incarnated" in a mouse or a swallow could be called a "little green dwarf".

But we could not call a green natural being that has "incarnated" in a horse or a whale a "green dwarf", because it is very tall, just as we cannot call a tall man a "dwarf".

This explanation is necessary, for we are reporting on the spiritual and bodily duality in beings of the animal kingdom, be they mammals or birds.

We will call the larger ones green natural beings, and the smaller ones green dwarfs or green dwarfs. What differentiates one from the other is their size.

The features of the faces of green natural beings and green dwarfs are stony. The evolution of Natural Beings takes place in the evolutionary and developmental realms of the Pure Heavens, not on Earth.

The evolution of the bodies of the various species of animals known on Earth refers to the changes in their bodies as they have adapted to the environment in which they have lived over millions of years, information recorded in the genes of the various animal species. The genetic changes have been inherited by the descendants in those who continue to "incarnate" green dwarfs who come from the various Collectives, or green natural beings from the evolutionary and developmental realms of the Pure Heavens with partial souls.

The Angels care for the green dwarfs of the spiritual Collectives irradiated by the Soul Core of the Earth.

The Natural Beings who care for the various animal species also act in the processes of "incarnation" of green dwarfs into animal bodies. For example, when green dwarfs brought from the Spiritual Collective "incarnate" in the bodies given birth to by a cat. Because of their high vibrational frequency these green dwarfs are invisible to the human eye.

The mother cat and the kittens are manifestations of the Love of the Father of Heaven in form, thus visible to man. Reflect. In this event the Spirit of the Creator

Father is involved.

Is there any connection between this wondrous event and the theory of the evolution of species, when green dwarfs "incarnate" in the bodies of mammals and birds?

Also the Spirit of the Creator Father has intervened in the processes of evolution and adaptation to the environment in which the bodies of known animals on Earth live, as examples, whales, dolphins, bats, ostriches, swallows, and penguins, among others.

In the case of the whale and dolphin bodies the hind limbs (legs of the green dwarf) and forelimbs (arms of the green dwarf) became transformed into caudal fin and pectoral fins. However, as in the birth event, a green natural being with a partial soul "incarnated" in the body given birth to by the mother whale or the mother dolphin.

These green natural beings with partial souls are not in spiritual Collectives irradiated by the Soul Core of the Earth, but in evolutionary and developmental realms of the Pure Heavens. In the case of the whale a larger green natural being has "incarnated" than the one who has "incarnated" in a dolphin body.

Large or small green dwarfs also "incarnate" in the bodies of ostriches, penguins and swallows before hatching from eggs, whose forelimbs evolved as wings. The legs and arms of green natural beings move the feet and wings of birds, whether they fly or not, because of their adaptation to the environment in which they have lived for millions of years, such as penguins and ostriches, as examples.

The Nature Beings who care for the beings of the Animal Kingdom living on the earth's crust or in the continental or marine waters, and the Nature Beings who care for the beings of the Plant Kingdom, come from the evolutionary and developmental realms of the Pure Heavens.

The green and green dwarf natural beings "incarnated" in animal bodies are invisible to the human eye, for they vibrate at the High frequency of vibration of the BEING. What we have stated refutes the theory of the evolution of species.

We have also stated that there is spiritual-bodily duality in the beings of the animal kingdoms, and spiritual-material duality in the beings of the plant kingdoms.

In the flocks of birds and migratory species of birds that fly over the countries of the Earth, countless green dwarfs have "incarnated". Through their Nuclei of Life the Father of Heaven and Jesus, the Christ, radiate the countries of the Earth and the

dark density of this World.

The Father of Heaven and Jesus, the Christ, radiate His Light to the beings living on Earth and in the dark density of this World through the Life-Cores of green natural beings "incarnated" in whales, dolphins and other cetaceans.

In the APPENDIX we have included "***El ratoncito Nanochiquitín***", a story written in the autumn of 2016 for children. And for those who are not children.

The reason for including it is that waves of cosmic beings from the Pure Worlds and from the habitat planets of the fifth dimension have departed on a Mission of Love to Earth. They have incarnated in families from different countries, and are now children.

In "***El ratoncito Nanochiquitín***" new knowledge has been enunciated in a simple way, such as the "incarnation" of green natural beings and green dwarfs in the bodies of mammalian animals and birds. And rules of coexistence, good examples, behaviour and ethical principles that will help to educate children and make them aware of how they should live and relate to their fellow human beings and the beings of the Kingdoms of Nature. In the children there are cosmic beings who will constitute the generations of the New Humanity, who will spread the Kingdom of Peace throughout the Earth.

As an example, in one of its pages Nanochiquitín tells his parents that the Brothers of the Stars, whom he met when he was racing his crystal motorbike through the streets of the Stars while dreaming, told him by telepathy:

" - The little green dwarf you see on the side of the ship is yourself, inside an astronaut-mouse suit so that you can live on planet Earth.

Surprised by what he had heard, Nanochiquitín asked him:

- And my parents, and the cats Muna, Lisa and Lole, and the little hen Onea, and the dog Tania and the owner's dog Poli, and the swallows and the partridge I saw flying and heard singing in the field where we used to live, are also green dwarfs inside, like me, but bigger, with head and eyes, hands and feet?

- Yes, inside the astronaut suit of these brothers in life, there are also green dwarfs. *"(page 4, fragment)*

6. THE NEW HUMANITY WILL INHERIT THE EARTH.

We, the Brothers of the Stars, announce to the Peoples of the Earth through our Spokesman A. D'Hertzáurea:

From the Father of Heaven and Jesus, the Christ, we receive the Mandate to announce to those of goodwill of all faiths, cultures, religions and thought, who will form the New Humanity that will inherit the Earth. The Father and Christ are the Life in them, and we will be led to where they are.

They are:

- Cosmic beings who in successive waves have come down on a Mission of Love, and will continue to come down, incarnating in families in every country on Earth.
- Sons and daughters of the Infinite who have ennobled their souls in this and other existences by living the **Golden Ethical Rule: "*Do not do unto others as you would not have them do unto you*".**
- Sons and daughters of the Infinite who have lived the Laws of Love by loving and helping their fellow men and women and the beings and existences of the Kingdoms of Nature housed by Mother Earth, who are manifestations of the Love of the Creator Father made form.
- Those who are examples in word and deed, living as cosmic beings the principles of Unity, Equality, Freedom and Fraternity with their fellow beings.
- Those who live the Commandment of Love by being the voice of the voiceless, the voice of the weak and oppressed, the voice of those who

cannot defend their dignity, their right to food, water and air, their right to health, to preserve their lives and to live in peace.

- Those who share and live with their fellowmen the Bread of Light received, translating into their languages and dialects that given by the Father of Heaven, by Jesus, the Christ, by the Ruler of the Plane of Love incarnate on Earth, and that communicated by Us, the Brothers of the Stars, through our Spokesman, the Ruler of the Plane of Love, according to the Command of the Father of Heaven and of Jesus, the Christ.

-Those who will see the Great event of the Second Coming of the Christ in Spirit into the Golden Red atmosphere of the Earth, and spread the Kingdom of Peace over the face of the Earth.

-Those who fulfil among their fellowmen the Commandments of Life given by the Father of Heaven, being examples of life.

-Those who fulfil what the Son of God incarnate in Jesus of Nazareth taught, lived and gave an example of life, being examples of life, loving their fellowmen and the beings of the Animal and Plant Kingdoms, as He loved them.

7. COMMUNICATION FROM THE STARRY BROTHERS TO HUMANITY.

As Spokesman for the Brothers of the Stars, I, Yosué, communicate to Humanity through our Spokesman A.D'Hertzáurea.

We **Star Brothers** in the service of the Father of Heaven, of Jesus, the Christ, and of the Ruler of the Plane of Love of the Heavens, in action of service and help to the

inhabitants of Earth **for millions of years**, have stated in Messages to Humanity that we come from the habitat planets of the fifth dimension and from galaxies close to the sixth dimension of the partially material Worlds of the **Universe. Finite.**

We underline since millions of years ago, because Humanity ignores that the **Finite Universe** in which the Earth is in **was formed during eons** - cosmic

which, for your understanding, would be **hundreds of billions of years**, as an example.

The fall of the frequency of vibration of the Angels of the **Pure Worlds**, and the magnetisation contrary to the Law of the Heavens of parts of the **Infinite Universe** where the Angels lived that we stopped vibrating in the High Frequency of vibration of the SELF, originated the detachment of the **Infinite Universe** from the parts that we magnetised. **In these detachments is the Origin of what became the Finite Universe over hundreds of billions of years.**

We have stated the Origin of the Universe to which the Earth belongs.

With this statement we Star Brethren invalidate the "**Big Bang Theory**", *which* is based on the "**General Theory of Relativity**".

The "**Big Bang Theory**" holds that "*the Universe originated in the big explosion of a point of "nothingness" of high density and temperature, which gave rise to **time** and **space***".

In "**FORMATION OF THE FINITE UNIVERSE. THIS UNIVERSE WILL HAVE ITS END**" we stated that the Worlds which, by their degree of partial condensation and frequency of vibration gave rise to the sixth and fifth dimensions, were formed *eons* after the detachment of parts of Suns and Planets from the **Infinite Universe** because they ceased to vibrate at the High Vibrational Frequency of BEING when magnetised by us.

As you know, the cosmic beings who intervened lost Light potential and ceased to vibrate at the High Frequency of BEING. Together with the detached parts of the Suns and Planets we inhabited, we were taken out of the realms of the **Infinite Universe** by the Ruler of the Plane of Divine Will, Archangel Michael, so known on Earth.

You also know that the High Frequency of vibration of the **Infinite Universe** is the frequency of vibration of the seventh dimension, and the frequencies of the sixth and fifth dimensions correspond to the frequencies of the partially material Worlds.

From habitat planets of galaxies close to the sixth dimension, and other planets of the fifth dimension, we Star Brethren come in the service of the Father of Heaven, of Jesus, the Christ, and of the Ruler of the Plane of Love of the Heavens.

We gave up the plan proposed by **Satan**.

We were fully aware of what was going to happen in **Creation** if the process devised by **Satan** continued. The Father in Heaven did not prevent it, for He gave the gift of **Freedom** to all His children.

Before Us the Brothers of the sixth dimension desisted. They stopped the fall of their frequency of vibration.

Then We, the cosmic beings of the fifth dimension, desisted.

We repented for what We had caused.

We stopped the fall of our vibrational frequency.

We set out to begin the ascent to the **Pure Worlds**, from whence we had departed. Other cosmic beings continued to lower their vibrational frequencies. This caused the condensation of matter in the realms where they lived.

The **Finite Universe** Worlds of the fourth and third dimensions were formed.

Satan and his hierarchies set up their base on Earth, in the depths of matter, where **time** and **space** exist.

Many eons elapsed from the beginning of the *Fall of the Angels* until this cosmic event came to an end.

When the planet Earth crystallised we Star Brethren placed ourselves at the service of the Father in Heaven and the Corregent of Infinity to assist in the Plan envisioned by the Father in Heaven.

The Father already knew what was going to happen at this time.

Before the outburst of the planet Murdok billions of years ago, which caused the formation of the **Asteroid Belt** between Mars and Jupiter, we had already built and manned small ships, transport ships and triangular ships, the ships that circumnavigated the Earth, the great ships that hold the Earth's magnetic Axis, and the ships of the great fleets stationed in the **Kuiper Belt**, built and prepared for the salvage and rescue action foreseen by the Father of Heaven.

The earth-based Star Brethren form the contingent of the Cosmic Forces in permanent action of service and aid to the sons and daughters of God, and to the beings of the Kingdoms of Nature housed by Mother Earth.

Thanks to the ships built before the explosion of the planet Murdok, we stabilised the Solar System, so that, according to the Plan foreseen by the Father of Heaven, the Earth and the Solar System would reach the end of time and the end of the cosmic cycle in which the present Humanity lives, to be succeeded by the New Humanity.

It was necessary to stabilise the orbits of the planets of the Solar System when "they", the demons, caused the outburst of the planet Murdok.

The planetary soul of the planet Murdok was the first cosmic Entity of the **Finite Universe** to return to the **Infinite Universe** by passing through a **Communication Portal** of the Galaxy in which this Solar System is located.

In the ancient orbit of Murdok we place spherical stars and spheroids brought from outside the Solar System known to Earth astronomers - such as Ceres, Vesta, Hygieia, Pallas, Juno and Flora. The infinite asteroids of irregular shapes and varying dimensions in the **Asteroid Belt between Mars and Jupiter** were part of the mass of the planet Murdok before its outburst.

Other irregular asteroids were blasted out into space when the implosion occurred, and the planetary Soul, vibrating at the High Frequency of vibration of the SELF, was attracted to the **Primary Central Sun of the Infinite Universe**.

Earth astronomers know that **Olbers** discovered important asteroids and comets. In the early 19th century Olbers hypothesised that "**asteroids were fragments of an ancient exploded planet**".

In **Olbers** had incarnated a fifth dimensional Star Brother who came down to Earth on a mission to help Humanity.

For millennia of Earth's history, it has been and continues to be part of our mission to protect and assist the Regents and Rulers of the Planes of Order, Will, Wisdom, Seriousness, Patience, Love, Mercy, and the Ruler of Infinity, who have incarnated on Earth.

By heeding the Mandate of the Father in Heaven, we will in the future assist the generations of the New Humanity to extend the **Kingdom of Peace** throughout the Earth.

When we Star Brethren began our Mission of Love to Humanity we asked the Father in Heaven that a portion of the potential Love energy generated by our actions of service and help to Humanity, to increase the vibrational frequency of our partially material habitat planets and that of the solar system in which these planets are located.

And the other part of the potential of Love generated by our actions of service and aid to Humanity, will go on to raise the Vibrational Frequency of our cosmic bodies of partially material substance.

This was granted to us by the Father of Heaven.

Astrophysicists, astronomers and mathematicians of the Earth started from what they observed in the firmament to formulate theories which they proposed to the scientific community.

They have sought explanations for their theories, according to their consciences.

However, their consciousness has been influenced by frequencies of the third dimension, where matter is crystallised to the maximum, and they have been in the depths of matter, the Earth, in the third dimension, where **time** and **space** exist.

At this time they have known that the **Portals of Communication** are the so-called **black holes**, situated in the **Wall of Light**, between the **Finite Universe** and the **Infinite Universe**, which vibrates at the High Frequency of vibration of the SELF, which corresponds to the seventh dimension.

The scientific community has known that **Eternity is not a timeless abstraction. Eternity is a real cosmic realm, where Ether is the fundamental principle.**

It has also learnt **how the Finite Universe**, which **is not infinite, originated** from the **Infinite Universe**, which vibrates at the same frequency as the **ethereal substance**, invisible to human technique.

You have known that the **Primary Central Sun** is attracting, absorbing the **Finite Universe** through the **Portals of Communication**.

That which had a beginning has its end. The Finite Universe will have its end.

What A. D. Hertzáurea contributes in this book are neither hypotheses nor theories.

It belongs to the real. Man can access the reality of the Self if he transforms the dense energies attached to his soul.

8.

MOTHER EARTH SPEAKS TO HUMANITY.

I, Jesus, the Christ, stand beside you, dictating to you the words which Mother Earth addresses to you:

"I manifest Myself to you through Jesus, the Christ, so loved by you, and you by Him.

Thus has the Father in Heaven ordained it.

I manifest Myself from the Core of my planetary Soul nourished from the Primary Central Sun of the Pure Heavens by the Love of SELF.

It is a New Time that is inaugurated upon the face of the Earth.

I, the Cosmic Mother, for thousands of millennia have been sheltering Humanity and the Beings of the Kingdoms of Nature, whom you love so much:

Blessed are you for your Love for Me and for all beings of Creation!

You have remembered when long ago you were talking to Me, and I said to you:

Fight for Me with the weapons of Love and Peace! And you have been doing so, fighting back to back with your Soul Friend, Jesus, facing the beings of Darkness at many times.

There will come a New Time for the New Humanity which I will house and sustain until the Creator Father gives the New Mandate to the generations who have established the **Kingdom of Peace**, living upon Me as the angels of Heaven live.

As a cosmic entity I have a long History to narrate. In the millennia of my existence in the depths of matter, I have truly received little Love from the children of God whom I have sheltered and nurtured.

I am the anonymous Mother, well loved by the cosmic Beings who have come down on a Mission of Love, and by the beings of the Kingdoms of Nature whom the Father Creator gave Me to care for and sustain, sheltered by Me in the Collectives created by Him, irradiated by His Love through Me, as a mother gives to her children.

Thus I am united with all Beings in the Kingdoms of Nature. And through you I can bring to this Humanity the infinite un-Love suffered by the beings of the Animal Kingdom, even caused by those who put the Name of Christ on their lips.

But, as He is the Life in the defenceless animals, they have crucified Him in the infinite slaughterhouses of this World by killing, torturing and tearing apart their organs and limbs while infinite manifestations of the Love of the Father made form agonise, out of sight of those who then devour their corpses, also of those shot down in mid-flight by the hitmen of death who put infinite little children of God in the crosshairs of their weapons.

And this horrible war declared by Darkness against Life in the thousands of animals killed to devour them, justifying their cannibalism and deaths for hire in books and theses on eating meat and fish as sources of **protein** for the bodies. You exposed this great lie when you wrote in the Message to the Peoples of this World that horses, calves and cows, sheep and goats, raised on meadows and hills as sources of protein **are fed only on green and dry grasses to produce protein**, for which they will be mercilessly killed and torn to pieces as they agonise.

To those who have been induced to eat meat and fish as sources of protein in order to be healthy, you go on to say that, by feeding on all foods found in a supermarket, except meat, fish and seafood, their bodies will produce the necessary protein. The example is in the animals raised on hills and meadows, which feed on dry green grasses to produce protein.

Some of God's children felt compassion when they approached the deer they had shot in the hunt. And they saw tears flowing from their eyes as they lay dying. Inside were the "**green dwarf beings**" until they expired.

These tears will be drops of acid that they will experience as their souls are purified. This silent weeping of the deer in their agony has been multiplying in the History of this World.

They are examples which, in the pages of this book, will bear witness to the sons and daughters of God of the New Humanity of the un-Love suffered by countless beings.

Write now:

There was a time when the demons who ruled some Peoples of the Earth drilled hundreds of metres into my entrails in atolls and deserts to introduce atomic charges. And they blew them up.

"They" created great magnets which they attached to their souls.

"They" and their instruments will experience in the body of the soul, in the realms of atonement, what it feels like if dynamite cartridges introduced into it are blown up by themselves.

And they will continue the process of cleansing their souls for what has been caused to their fellowmen and to all that has been created by the Father in their many incarnations in which they ruled the countries of this world.

They will experience what they have caused in the wars in which they have sent children of God to kill each other, to freeze to death in the mud, or to die mortally wounded in the trenches.

They will experience in their souls, as I have felt, the suffering of countless trees, bushes, flowers and animals when they set great fires in the forests, impossible to extinguish, in their "scorched earth making", on "their" way to the Abyss. Forests

that continued to burn as long as the news disappeared from the TV screens and news agencies.

You will experience, as I have experienced, the suffering and death of billions of animals and plants linked to the magnetic currents of the dynamo of my planetary Soul, when millions of tons of bombs, also incendiary, have been mercilessly dropped, not only on cities mercilessly bombed night and day, killing, mutilating, countless sons and daughters of God, destroying everything that could serve as shelter.

Those of you who read these lines, know that the Nucleus of my Soul is united to the Nuclei of the Being of billions of souls of the inhabitants of the Peoples of this World. And so I perceive what they feel and experience, whether they are at war, at work, at home, or walking in nature.

Out of chaos will be born the Light that will guide this sleeping Humanity, away from the Spirit, oriented towards Darkness.

But the Christ of God will lead those who take His Hand through fiery lavas and thundering cannons, through storms and hurricanes.

I will also help, for the Elemental spiritual Forces, Fire, Water, Earth and Air are in continual communication with Me, and I with Them.

The Brothers of the Stars will also assist the luminous souls when communications are cut off. And they will land.

Have Hope, all is foreseen by the Father in Heaven.

The Father and Christ live within you, and they know of you. Become luminous with the help of Christ. Unite from the depths of your inner Suns, the Core of the Being of your souls, with the inner Suns of all those who dwell in the Peoples of the Earth.

Send Love to the Beings of the Kingdoms of Nature. Also to the "**green natural beings**" in the whales chopped up on the whaling ships still alive. Animals are pure, and they suffer immersed in the jungle of dense energies emitted by those bound to matter and their idols. You will have no pillars of Light to hold on to when events precipitate upon the Peoples of Earth.

Always look up to the horizon and to the Stars with your thoughts united to Jesus, the Christ. Do not walk hunched over with your gaze glued to the ground, for there are layers of my crust magnetised by the beings of Darkness, who together with **Satan** have made their stronghold in the crystallised matter that covers the Core of my Soul.

Love in **silent** love all the sons and daughters of God, and all Beings of the Kingdoms of Nature, for the Father and Christ are the **Life** in you and in all beings and existences of the Kingdoms of Nature, and they know of your prayers and your radiations of Love. And you will be led together with other cosmic beings in earthly garb who are striving to raise the frequency of vibration of their souls, with the Goal of reaching the High frequency of vibration of the SELF.

When you are in the mountains and meadows, in the streams and brooks, in the pine groves and forests where the wild animals and birds and other birds have found refuge, radiate Love intensely to all within your gaze.

And think of Me, Mother Earth. Speak to Me, and I will radiate Love and Peace to you from the Core of my planetary Soul, where the Spirit of the Father and of Christ have His Abode.

Keep writing:

Infinity is radiating the **Core** of my planetary Soul from the **Primary Central Sun** through the **Central Sun of the Galaxy**. The raising of its frequency of vibration originates the increased expansion of magma, raising my crust.

I communicate to Humanity that **Atlantis**, the sunken continent, began to emerge last century.

I will continue to raise **Atlantis**. Emerged, it will form part of the bridge that will unite the continental shelf of America with that of Southern Europe. Thus it is foreseen by the Father of Heaven.

The process of elevation of my submerged crust is producing changes in the submarine orography and in the ocean currents, which will bless the lands of the European continent with warm waters and rain.

The intense irradiation of the **Primary Central Sun of the Universe** increases the temperature of my **Nucleus**, and originates the expansion of the magma that seeks to come to the surface, produces earthquakes and causes submarine volcanoes, known volcanoes and *dormant* volcanoes to erupt. And those that are emerging in unexpected places, with magma also coming out through cracks in my crust.

There are other changes that I am making known.

The increase in the temperature of my **Core** and the expansion of the magma has caused an increase in the temperature of my crust covered by the sea waters, which **heats the water above it**, as the hearths of a cooker heat the water in the vessel put on the fire. Here the temperature of the water is equalised with that of the surface water.

When the bottom water rises to the surface it is replaced by cold, higher density water, and the heated bottom water joins the water heated by the sun. Large masses of water vapour then rise into the atmosphere in the tropics and subtropics, which meteorologists have called "*atmospheric rivers*", which are displaced by the wind and meet cold air masses as they reach the continental shelf, causing heavy rain and hailstorms in many cases.

In this case the **Elemental Force Water** is at work. Its function is to **cleanse my crust**, magnetised by the demons and their instruments for countless millennia. To the

cleansing of my crust by the **Water Element** is added the cleansing by the **Fire, Earth and Air Elements**, preparing my crust for the settlement of the New Humanity in the **Kingdom of Peace**.

These **new "weather-type" events** are called by Humanity **"effects of climate change"**, which they say must be fought.

Humanity must know that the **new "climatic" events** are produced by **the SPIRITUAL FORCES Fire, Water, Earth and Air**, brought into action by the **PRIMARY CENTRAL SUN** of the Pure Worlds to cleanse my crust of the magnetism with which it was impregnated by the beings of Darkness.

And the SPIRITUAL FORCES act. This is the reason why unexpected *"weather events"* form, which meteorologists cannot predict.

Humanity must know that the **PRIMARY CENTRAL SUN** receives from my **Nucleus** the information received from the inhabitants of the planet and from the beings of the Kingdoms of Nature, and transmits it to the spiritual Forces Fire, Water, Earth and Air.

In other words, the information I receive from the inhabitants of the planet and the beings of Nature is transmitted by my **Nucleus** to the **Primary Central Sun**. With this information it **puts into action the SPIRITUAL FORCES Fire, Water, Earth and Air** to cleanse my crust, on which will settle the Humanity of the **Kingdom of Peace**, which was intensely magnetised by demons and their instruments.

The real is not known to Humanity, masked by climatic events.

To those harboured by me I say:

I am not the photograph of the planet you know.

I am your **cosmic Mother**.

And I welcome you as a mother welcomes her children. In me you have your homes.
I am the lands that nourish you. I am the water of the springs and rivers that you need to live. I am the air of the atmosphere that you breathe.
I am the School where you experience on your Path of Return to the cosmic Homes.

Let each of you reflect on how you have been doing so with me.

We are in the time when information is being withheld by those whose duty it is to inform their Peoples.

I am Mother Earth. Infinity is raising my frequency of vibration, causing the increase in temperature and the expansion and expansion of magma, which rises, melting rock layers, causing earthquakes, volcanic eruptions and the birth of new underwater volcanoes and volcanoes on the continental shelf.

The cities of the high towers will be the graveyards of common sense.

The high tower city will fall. The earth will crack like loaves of stale bread. Not a stone will be left upon a stone. Some lands will rise and some will sink.

9. ANALOGIES, TOOLS FOR IDENTIFYING DENSE ENERGIES.

Achieving perfection is the Goal. It is necessary that no dense energies attached to the soul vibrate at low frequency. Perfection is achieved when the soul vibrates at the High frequency of vibration of the SELF.

This is why we say that **it is a priority to investigate the low frequency vibrational energies attached to the soul.**

Priority is to give these energies to the Christ to be raised by Him to the High Frequency of vibration of the SELF, which is Absolute. It is the frequency of vibration of the Higher Worlds, the frequency of the **Cosmic Realm of Eternity** where time and space do not exist.

It is a priority that the soul be cleansed of the dense energy fields attached in this or other incarnations. There are reasons for this priority.

It is necessary, therefore, for **man to investigate himself and find the dense energy fields attached to his soul - which we have also been calling "lead" energy - and give them to the Christ to be raised by Him to the High Frequency of vibration of the SELF.**

This high frequency vibrational energy - which we have also been calling "*gold*" energy - is attached to the soul, raising its Light potential. This high vibrational frequency energy in turn radiates into the body in which the soul has incarnated.

If man **does not investigate the dense "*lead*" energy fields , it continues to multiply.** The **emit-receive principle** is well known to the demons.

This means, for your understanding, that for every grain of "*lead*" energy sown, an ear of "*lead*"-grains is harvested.

In turn each ear of "lead"-grain emits and receives in low vibrational frequency.

Then, without freeing the soul from the attached dense energy fields, **the soul cannot reach the High vibrational frequency of the BEING.**

Therefore, it cannot be attracted to the **Primary Central Sun of the Pure Worlds**, nor will it pass through the **Portal of Roses** into the **Homeland of Light.**

In addition to **using any of the 3 METHODS** outlined in Chapter 19 of "*Between Ether and Earth*" to investigate the dense energy fields of low frequency vibration attached to the soul, it is also necessary to use the effective **TOOL "ANALOGIES"** for man to observe his own reactions when he sees or hears people with whom he lives, works, or comes in contact at any time or place.

[In the **Annex** we include Chapter 19 of "*Between Ether and Earth*".]

ANALOGIES" are dense energy fields attached to the soul, emitting and receiving at a certain frequency of vibration.

To understand how to discover *camouflaged* dense energies, attached like magnets to the soul, we start with an example, *the functioning of the EMITTER of a known Radio Channel, and the RECEIVER of a radio at home or in the car.*

We begin:

- **A BROADCASTER** of a known Radio Channel broadcasts on the frequency **88.2 FM**.
- **A radio RECEIVER**. The broadcasted music is heard in the **RECEIVER** because its **DIAL** is tuned to **88.2 FM band**.

Having understood this, we now **move on to explain how an "ANALOGY" shows itself to you**. We turn to you, who are reading:

- The **EMITTER** broadcasting on 88.2 FM could be the person who, as you turn a street corner, you see doing something not right: The dense energy field of the not right thing he is doing is broadcasting on the frequency 88.2 FM.

. You are the radio **RECEIVER** with the dial open at **88.2 FM**.

-If you go to this person, and gesticulating you shout: " ***This is not done, I will call the police*** " , this means that **you, the RECEIVER, have attached to your soul a dense energy field analogous to the wrong thing**. That is, you have attached to your soul dense energies that vibrate at the same frequency (88.2) as that **wrong thing** done by this person.

That energy field is an "ANALOGY". You recorded it in your soul in any previous incarnation, or in this one.

The engraving in your soul is related to the words of Jesus of Nazareth:

"He who is clean from guilt, let him cast the first stone".

He said this to those who wanted to stone the adulterous woman.

At that time Jesus of Nazareth said this to them because he saw in the souls of those who wanted to stone the adulterous woman that they had also committed adultery. *And these energies attached to their souls vibrated at the same vibrational frequency as the energies that the adulterous woman they were going to stone had engraved in her soul.*

This explains what an ANALOGY is.

If you reflect and feel that you may have engraved in your soul **dense energies** - "**lead**" analogous to the **wrong done by this person**, and you give them to Christ, then He takes these energies and raises their vibrational frequency, which would be symbolised by **Christ** transforming the "**lead**" energy you have given Him into "**gold**" energy.

If that energy field were not etched in your soul, when you saw **the wrong thing** this person was doing, you might have said to him, in your calm mood:

Do you know that it is not right what you are doing? And you would go on your way, because your soul dial was not on the same vibrational frequency as the wrong thing they were doing.

The fact that a person courageously acknowledges that dense energies **ANALOGOUS** to the wrong done by another person are engraved in his or her soul **is a litmus test to be overcome** in order to continue ascending the rungs of the **Cosmic Ladder**. It is necessary to clear the soul of dense energies of low vibrational frequency.

There are people who, when they get excited or shout at what they see or hear their fellowmen say at work, in the family, or when they drive their vehicles, do **not recognise that they have analogue energies engraved in their souls.**

ANALOGIES are sources of conflict, dense energies engraved in souls, which should be transformed in time.

In families, conflicts arise between parents and children because dense, analogous energies, which parents and children have engraved in their souls, come into vibration.

We expose:

- **Genes emit and receive.** Parents transmit their genes to their children, with positive and non-positive programmes, which they broadcast and receive, just like Radio Transmitters and Receivers.

The children react in a non-positive sense to the words, gestures or deeds of the parents. There are times when parents react with *strong* words directed at their children because of what the children have said or done.

Relationships become strained between parents and children when children do not listen to, *or do what the parents want, because* **the parents often reprove, and with "strong" words, what the children say or do.**

There are times when **children hold up a mirror to their parents:**

1. Conflicts between parents and children can arise because parents do not set an example for their children.
2. Because parents demand from their children to do what they do not do themselves.
3. Because the parents get angry with the children for what they do or say, **caused by active programmes in the genes, which the children have inherited from the parents. Then the parents have those same programmes active.**
4. There are heated arguments between them.

Who steps forward and acknowledges their share of the blame for the conflict?

Whoever always blames someone else for the conflict between them, **is because they DO NOT WANT TO ACKNOWLEDGE THEIR SHARE OF FAULT IN THE CONFLICT.**

Problems between parents and young children are largely caused by programmes passed on in the genes to the children, which the parents also have.

They vibrate on the same frequency of the "dial" on which the **transmitter** of the parents and the **transmitter** of the children broadcast.

The same frequency is received by the **Receiver** of the parents and the **Receiver** of the children.

If parents would recognise that they **have passed on in their genes to their children the programmes which they have, and received in turn from their parents, the grandparents of their children, they could give them to the Christ.** And the dense, non-positive energies would be transformed by Christ.

The family confrontation would disappear. As the genes of the parents would cease to emit, they would not vibrate or emit the genes of the children.

[In the Annex we have included "*Interrelationships between souls and genes*".]

10.

DRAWING BACK VEILS.

I am your Father in Heaven.

Thus you become aware that you, you and you, can talk to Me as I talk to you. How does a father talk to his son or daughter? How does a son or daughter talk to his or her father?

You have received knowledge that flows from the **Inner Source of the SELF.**

They have been taken by the Ruler of the Plane of Love of the Pure Heavens, My Son. We speak to each other as a father speaks to his son, and a son to his father.

He is One with Us, our Channel and Spokesman for the Brothers of the Stars. Under the name *A. D'Hertzáurea* has been making known what is enunciated in this and other books in simple words and concepts, so that it may be understood by those who come to hold it in their hands. As He is accustomed to say to those whom He instructs, and it is written, "***what is not understood is not practised***".

I, your Father in Heaven, draw yet another veil over My Son, the Ruler of the Plane of Love of the Pure Heavens, whom I created from the Chamber of My Heart.

He shall be known to Humanity as the **Prophet of Love and Peace**.

My Son, Jesus, the Christ, the Corregent of Infinity, was known on Earth as **Jesus of Nazareth**. My Son, the Ruler of the Plane of Love, will be known to Humanity as **Alphonsus of Adamuz**.

He is the initiator of the **Spiritual Revolution** yet to be made on Earth.

Out of Love for Humanity he incarnated again to instruct My sons and daughters, and to live among them the collapse of the civilisation of lovelessness and the events of the **Great War of the Peoples**.

I sent him to you, for I, your Father in Heaven, would not leave you alone in the times when you will experience the disappearance of the

materialistic Old World, and the transition of the New Humanity to the *Golden Age*, to the **Kingdom of Peace**.

As **Herald of the Heavens** He announces the **Second Coming in Spirit of Christ, My Son**, into the atmosphere of the Earth. He comes announcing also the establishment of the **Kingdom of Peace** throughout the Earth.

Souls are communicating with one another. Countless ennobled souls have been arriving in the **Zone of Light** where He is, attracted by His great radiation of Love. They long for the moment of meeting Him at the **Cosmic Intermediate Stations**, which are **steps on the Cosmic Stairway** ascending from **the Solar System** through the realms of the **Finite Universe** to the **Portal of the Roses**.

Through the Portal of **the Roses** one enters the **Homeland of Light**, the **Pure Worlds**.

The name **Homeland of Light** originates from the Symphonic Poem "**Return to the Homeland of Light**", written by Him. It is the lyrics of the song "**Return to the Homeland of Light**", composed by Him for all My sons and daughters. In the APPENDIX you will find this Symphonic Poem for those who have not received the book in which the symphonic poem and the song were included.

The fact of writing in the Symphonic Poem **“Return to the Homeland of Light, to the Crystal Dwellings Beyond the Stars”** lit the Flame of longing in souls and in My incarnated sons and daughters. And they felt the longing to return to the dwellings they left behind in **the Pure Walls**. Among themselves they say and write **“return to the Homeland of Light,”** referring to **the Pure Worlds**.

When the time comes, My Son will depart before many with the Brothers of the Stars to the **intermediate Cosmic Stations**. At these **Stations of Evolution** he will instruct and assist those ascending the Rungs of the **Cosmic Ladder** to the **Homeland of Light** in the Worlds Beyond the Stars. But it **will continue to come and go to Earth**, helping the New Humanity to establish the **Kingdom of Peace** together with the Star Brothers.

He will make himself visible to those who come on a Mission of Love to the Peoples of the Earth by matching his frequency of vibration to theirs.
PEACE

ANNEX-1

THE LITTLE MOUSE *NANOCHQUITÍN*

Once upon a time there was a little country mouse so small and tiny that when he was born his parents named him *Nanochiquitín*. Because *Nanochiquitín* was as small as a grain of wheat that had just fallen from an ear of corn.

His father had to invent a magnifying glass made of transparent resin to see which corner of the new family den he had crawled into. At the beginning of spring they moved to the garden of a house not far from the

city. They could no longer live on the land where they were born, with all the noise of machines turning up the soil, with no plants or flowers because of the chemicals that the farmers put on the soil and the plants.

Nanochiquitín liked to walk around the garden. He would run along the path made by the ants, carrying the food he had found to his anthill.

- Come running, *Nanochiquitín*, we have found a little bit of cheese on the way! - his little friends, the ants, would say to him.

.

- My father doesn't like cheese - *Nanochiquitín* told them while he was eating - but I love it. My daddy doesn't know what he's missing!

- Now I'm going up to the flowers on the grass - *Nanochiquitín* told them - Come on, get underneath, I'm going to nibble the flowers so that the seeds fall and you can take them to the larder of your anthill!

Nanochiquitín had made friends with all the little animals in the garden. Because of his good heart, and because he was affectionate and polite.

- Good morning, Mr. Snail!

- Good morning, *Nanochiquitín*, how cute you are. Whenever you like you can climb into my shell and I'll take you for a walk in the garden!

And he would stop to talk for a while with the aphid, with the baby earwig, with the little earthworm, with the little children of the grasshopper *Long-legged* and the cricket *Cricrí*, with the young of the ladybird *Sietepuntos* on a blade of grass. And he greeted everyone, and knew everyone's name.

When he spoke to those he met on the little garden paths, he looked them in the eye with his right hand on his heart. Everyone said that *Nanochiquitín* had a heart much bigger than his little mouse body, much

bigger than a bunch of queen ants before flying off to found new ant colonies elsewhere.

And the whole garden was his home. And the little animals that lived there had him for their brother.

- *Nanochiquitín*, tomorrow we are going on a trip to the cherry tree near the water lily pond! - *Pilo*, the pilot ant, reminded him. The other sister scouts say that the cherry tree has already dropped some ripe cherries.

- Hum, how good they are! See you tomorrow at the door of your anthill, *Pilo*.

- ! And in the evening we can go and see the hen house! *Piloncho* the sparrow told me that the mistress of the house has finished *Onea's* pyjamas, the sick hen, and she's wearing them so that she won't get cold at night.

- OK, suck it! I can't miss this," exclaimed *Nanochiquitín* with joy.

Early in the morning they went to eat the cherries that the cherry tree had dropped for the little animals in the garden.

- How delicious, how delicious, how delicious they are! - said *Nanochiquitín* as he bit into a cherry with his little teeth, licking his lips with pleasure.

- If I were as big as my daddy, I'd eat the whole thing!

- And if I were as big as your daddy, I'd eat the whole thing too," laughed *Pilo*, the pilot ant.

In the afternoon they waited until the sun was near the horizon to go to the chicken coop. They ran up the stem of a rose bush until they reached a white rose. From there they could see everything. And quietly, on the

edge of a petal, the little ants and *Nanochiquitín* waited for the mistress of the house to come to the henhouse.

In one hand he was carrying pyjamas for *Onea* , the sick hen, and in the other a folding chair. He brought her some shelled sunflower seeds, for he knew that *Onea* liked them very much. When she had eaten them, he took her with great affection and sat down with her on them. First he opened her beak and put some wild plant seeds on her to help her heal. Then he put *Onea's* pyjamas on and zipped them up. He opened the door of the hen house and put the little hen on the stick where she slept.

- Have a good night, dear hens and cocks! See you tomorrow, I'll come and take off your pyjamas," he said to *Onea*.

She went back to the house along the usual path, walking slowly, watching where to put her feet so as not to step on any snails, beetles, ants, or any of the many little animals that lived among the grass and wild herbs in the garden.

The frogs in the pond, the dragonflies, the butterflies, the seven-point ladybirds, the crickets and the birds that lived in the trees in the garden had been spreading the word among the animals in the surrounding area that there lived in that house people who loved animals and plants very much.

So the garden was a hive of life and joy. That is why *Nanochiquitín's* parents moved there. It was a good place for their little boy.

As *Nanochiquitín* was a friend of all the little animals, he went from place to place with them. So, after all that running here and there, climbing up and down plants and flowers, *Nanochiquitín* liked to take a little nap lying on the fluff of a flower that his mother had put in his favourite corner.

And here he slept and dreamed, always smiling. He was never sad.

When he dreamed, *Nanochiquitín* saw himself sailing on an apple tree leaf in a crystal clear stream, while golden fish swam and jumped in the water full of joy. At other times he would walk with his garden friends through meadows of transparent, wonderfully coloured flowers. At other times he would run along the silver paths that the flying snails were making among the stars. At other times he would ride his blue glass motorbike and race through the starlit streets with his little friend Pilo behind him.

- Hold on to my waist, *Pilo*! - he would say to his little friend.

At other times he would ride his friend *Piloncho* in his transparent silver plane and they would fly through the immense fields of marvellous flowers crossed by the streets of light that lead to the stars.

Nanochiquitín liked to be with his friends everywhere. Even when he was sleeping and dreaming.

On one of these cosmic journeys *Nanochiquitín* approached a ship of the stars made of round mirrors to meet those who were waving at him from their windows. When he arrived with his motorbike next to the ship he also saw a grass-green dwarf riding a blue glass motorbike.

- That's it! A little green dwarf riding a motorbike like mine," exclaimed *Nanochiquitín* in surprise as he put his hands on his head.

Nanochiquitín was surprised to see that the little green dwarf also had his hands on his head. He quickly touched a finger to the tip of his nose to see what the little green dwarf was doing, who also put the same finger on the tip of his nose. *Nanochiquitín* slowly opened his mouth, a little annoyed that the little green dwarf was doing the same thing.

- What is your name? - asked *Nanochiquitín* to see what he would say. And the little green dwarf moved his lips as if to ask the same question, but *Nanochiquín* heard nothing.

Then he felt in his mind that he looked towards the round window of the ship, and whoever was looking at him said to him by telepathy:

- The little green dwarf you see on the side of the ship is yourself, inside an astronaut-mouse suit in order to be able to live on planet Earth.

Surprised by what he had heard, *Nanochiquitín* asked him:

- And my parents, and the cats *Muna*, *Lisa* and *Lole* and the little hen *Onea*, and the dog *Tania* and *Poli* of the owner of the house, and the swallows and the partridge that I saw flying and heard singing in the field where we used to live, are they also green dwarfs inside, like me, but bigger, with heads and eyes, hands and feet?

- Yes, inside the astronaut suit of these brothers in life, there are also green dwarfs.

- Let's eat, let's eat, sleepyhead, the table is already set!!!! - *Nanochiquitín* suddenly heard.

- Jo, mum, you woke me up when I was travelling through space with my blue crystal motorbike! - he said to his mother as he sat down at the table. When I approached a spaceship from the stars, whoever was on it told me that we are little green dwarfs on the inside, and that our country mouse bodies are the astronaut suits we have to live in on this planet.

His father stood motionless, his mouth open, as if paralysed, surprised by his son's latest witticism.

- What a thing to say," he managed to say. And his mother smiled, remembering her son's other witticisms and the wonderful places that *Nanochiquitín* said he had visited while he slept.

And, as always, *Nanochiquitín* ate everything that his mother and father put on the table. He never said "I don't like this! He ate everything. And

he thanked the life in him and in all beings for the food, for the water and for having a little fluffy bed in his burrow. His parents had also taught him to send thoughts of love to beings who had no food, no water, no home to rest and shelter from the rain or the hot sun.

That night *Nanochiquitín* climbed up the stem of a dandelion to its flower. There he lay looking up at the moon. There were so many stars in the sky. And he remembered what he had seen in his last dream, travelling through the streets of light and the cosmic gardens. He thought that if he had a ship, like the one he had seen while travelling in his blue crystal motorbike through space, he could meet again the one who told him he was a little green dwarf in an astronaut-mouse suit.

He was thinking about this when he saw something like a large, luminous, emerald-green mastic leaf coming from the stars. Then it became much smaller, like a large lentil, and its emerald green colour changed to red before it landed inside the clump of marigolds next to his burrow.

- Come on, a ship from the stars! - he exclaimed with joy.

And he started down the dandelion stem, running towards the red light he could see on the ground between the marigold stems. When he reached it, he saw beside the little red ship three little blond-haired dwarves, in a tight-fitting blue suit, as big as a queen ant.

- But it's you, who were on the starship I found when I was travelling in my blue crystal motorbike through space!

- Yes, it's me and my friends, who have come to greet you, because we couldn't say goodbye. You suddenly returned to Earth. We have come to tell you that we are your friends. With the power of our thoughts we have lowered our bodies and the ship to meet you in the garden where you live.

- And then you can become big again, as when we greeted each other

travelling through the streets of starlight?

- Yes, we can do that.

Nanochiquitín thought he would like to be as big as his father and mother. And so he asked his new friends:

- Can you help me to make my mouse-astronaut suit as big as my parents'? I feel their concern because I am so small. I was born so small that my father made a magnifying glass out of transparent resin so that he could see me and take care of me. That's why my name is *Nanochiquitín*.

- We can help you, because your heart is much bigger than your small body! If you want, we can do it now. You only have to ask us from your heart, because we take into account the principle of freedom in all beings.

- I do, I do, I do, ! - said *Nanochiquín* three times.

- Now close your eyes to see the luminous heart that beats inside your green dwarf body. And think with love of your parents, and of being as big as them! We will help you with the light force of our thoughts.

And *Nanochiquitín* closed his eyes. He thought lovingly of his parents, of how they had cared for him and protected him when he was so small. He felt the waves of love with which his cosmic friends enveloped him. He saw inside him all his little friends in the garden, his parents, the loving owners of the house and their children, *Onea*, the sick little hen, and the other little hens and roosters. She listened within herself to the beautiful songs of the birds singing in the fields and forests and jungles all over the earth. And he saw many, many animals of all kinds living happily on the land, in the seas, in the rivers and lakes of the planet. He also saw within him all the plants and flowers of the mountains, forests and meadows. And all the beautiful mineral crystals, rocks, pebbles and mountains. And many, many galaxies with countless stars and planets. He also saw all the beautiful beings created by the Sun of infinity to care for life on Earth. And

he felt in himself the wonderful music of the stars and planets. And he felt that the same life that was in him was also in everything.

-Open your eyes now, his friends told him.

And when *Nanochiquitín* opened his eyes he saw his cosmic friends as big as he was. He also saw that the starship was now like a bigger luminous lentil, with an open door on its side.

- We have to leave, my friend. If you like, we'll call you Heart of Gold when we meet on your travels through the stars.

-Yes, I want you to call me that, my friends! Can I ask a favour of you? Can you create a magnifying glass for me? I want to see better the little light that shines in the eyes of my ant friends and all my little friends in the garden?

- Of course you can! And in an instant they put the magnifying glass they had created for their friend Goldheart in their hands.

- So long, green dwarf," they said, smiling at him as they entered his ship.

And the red colour of his ship became brighter and more radiant. It took off slowly. And when it was over the cherry tree in the garden, the ship became very big, it changed to a radiant emerald green, and in the blink of an eye it took off towards the sky and was lost among the stars.

Nanochiquitín wiped the tears from his eyes before entering the house.

- Good night, mummy and daddy! I'm going to bed.

When his parents looked up to wish him goodnight, they were surprised to see him as big as they were.

- But what happened, you suddenly became as big as we are!

- My friends in the stars have helped me to become as big as you, so that you will be happier and not live worrying about me. While we were eating I told you that my friends told me that inside we are little green dwarfs. They also told me, before mum woke me up, that our country mouse bodies are astronaut suits for being on planet Earth. And that cats and partridges are also green dwarfs inside. I have been given this magnifying glass, to see my little friends in the garden better, as you used to see me, because when I was born I was very small. Now I am as big as you are and I will continue to be called *Nanochiquitín*, because my little friends in the garden call me that.

His parents hugged their son, happy to have a son with such a good heart. And, remembering what *Nanochiquitín* had told them, they thought it would certainly be so.

And this is the end of the story of the little mouse,
a space traveller living in a garden.

HOW DO "THEY", THE DEMONS, ACT?

« "They", the demons, know the cosmic principle of *Emitting and Receiving*. They use it to install magnetic bases attuned to their waves in the brain cells.»

1- They know that man emits images, which "they" see on their mental screen, the aura.

2- They know that each image is the *"shell"* that envelops the *"seed"*, content that *vibrates and emits waves*. *These are received by the thought of other people, and by the one who emitted them.*

3- *They observe and know what man thinks by the images seen on his mental screen, the aura.*

4- *They project low-frequency mental waves into their brain with the same image-"shell" they have seen, but carrying "inside" the "contaminated seed", expressly elaborated by "them".*

5- They project mental waves in order to induce man to think and think about the image-shell they have sent him with their mental waves.

6- If a man thinks and thinks about the image-mask received in his thought, projected by "them", he vibrates and vibrates the *"seed contaminated"* by "them", and reinforces and reinforces what is already magnetically registered in his brain cells. This man then emits waves, and receives waves with the "seed contaminated" by "them".

7- When a man thinks and thinks, he registers and emits; And the waves he emitted are received as a boomerang.

8. By emitting waves with the *"contaminated seeds"* of "them", the demons, into the atmosphere, a man "contaminates" other human beings, who are predisposed to receive these waves by having magnetically registered in their brain cells *"seeds"* that vibrate in frequencies similar to those of the waves they receive. These other human beings, in turn emit these *"contaminated waves"* every time they think about what they receive. The man from who originally emitted these *"contaminated wave"*, which he received from "them", the demons, also receives these back in multiplication.

9- Therefore a man receives the "polluted" sent into the atmosphere, but he receives it multiplied by the number of receivers who received the *"polluted"*, and in turn emitted it again.

«Acting from the UNSEEN Plane, *the demons have been installing magnetic bases in the brain cells of people* so that they automatically attract their mental waves and execute what "they" desire.

«How to prevent "them", the demons, from forming "a magnetic base in the brain"?

1. By being aware of how "they" act: Memorise the above 9 points.
2. Be attentive to the images that "appear repeatedly. The aim of the demons is: That the person thinks and thinks of the images to vibrate and vibrate "the contaminated seed", prepared consciously by "them". Therefore, DO NOT THINK and THINK about the images received, for thus "their contaminated seed" is made to VIBRATE AND VIBRATE.
3. Control thoughts. Do not THINK AND THINK about the received shell-images.
4. Act as when receiving a file from unknown, dubious senders: Delete it quickly. Do not be curious. If the file is opened, a virus penetrates the hard disk and renders it unusable. The file becomes the shell of the image, and the virus becomes the "contaminated seed" of the demons. Do not vibrate and vibrate the "contaminated seed" by thinking and thinking about the image.
5. Eliminate the image-shell. Inside is the "contaminated-seed" by "them" who have put inside the image-shell (image well known to the receiver) to vibrate the "contaminated-seed" by thinking and thinking about the image.

"How do you remove this "malicious" energy field that you have placed inside the image-mask?

«By QUICKLY surrendering it to the Fire of the Infinite-Christ. He is attentive to you. He transforms this dense negative energy field into positive energy, raising its low vibrational frequency, into high vibrational frequency energy. For your understanding, it is like handing Him a piece of "lead" and He transforms it into "gold". For your knowledge, CHRIST, as a Being, is not a figure, image or sculpture. He is the Life in you and in every being. He is the Light. It is the Force and Love Energy of all that exists in the Universe, from the Galaxies to the atom, quantum and sub-quantum, as examples.

6. Be attentive to the insistent images "They" incite with their mental waves to vibrate again and again in the brain. The "contaminated-seed" introduced by "them" into the image-shell.

Whoever is attentive to his world of IMAGES and thoughts realises that "they" are behind certain images and thoughts. He should talk to Christ and simply say to Him, as when talking to a friend: *"Christ, I give you this image and these thoughts"*.

«**"They", the demons are cunning.** They know people's lives well. They are "invisible" around them without being seen. "They" see on the mental screen, the aura, images of the working, personal, loving, affective or domestic world.

«OTHER WAYS OF "THEM" ACTING »

They cunningly and malignantly prepare **"contaminated seeds" which they also put in the "shell" of thoughts well known to these people**, as in the **"shell" of the DREAM images!!! which they should quickly deliver to CHRIST** every time "they" project ripples to the mind, reminding the unwary of "the dream". **He or she begins to think over and over again about the "dream" (instead of quickly handing it over to Christ), the "dream" that perhaps he or she might wish would "come true".**

« "They" produce the video of the "dream" with the images they see on his or her mental, aural screen. In this video they introduce the corresponding **"contaminated seed"**.

In "dreams" "they" have one of the most highly profitable traps to create magnetic bases in the human brain. Unfortunately. »

«As a man develops a work or activity, "they" take advantage of this time to **"sneak"** into his mind thoughts or images with their corresponding "contaminated seed". **"They" do not improvise.**

While he is working or carrying out an activity, "they" take advantage of this time to project waves into his mind, so that this or that thought or image becomes conscious while he is working. **And so, inadvertently, he thinks again and again about the thought or image that "has come to his mind".**

This is why it would be good and necessary to achieve automatism, by repetition, by asking inwardly, briefly, a few times a day, even while standing up:

"What thoughts or images have 'they' 'snuck' into me?"

The "snuck" images and thoughts that come up to the conscious plane are simply surrendered to Christ, talking to Him. It is simply a matter of PRACTICING what has been explained:

«He who orders and controls his thoughts with Christ masters his life.»

ANNEX-3

«Where do I come from, where do I go back to? »

«Methods to raise the soul's vibrational frequency, to transform dense energies of low vibrational frequency into energies of high vibrational frequency.»

«The cosmic being-soul incarnated in a human body comes from the Worlds Beyond the Stars. And there he returns.»

The return or return to the Cradle Worlds of the sun, to the wondrous Homes Beyond the Stars, begins when the free-thinking human being, or of any belief or religion, began to wonder about his origin, about the meaning of his life and existence in this world. For many, the news and photographs of extraterrestrial spacecrafts, and as they read and talked with friends about visitors from the Star Worlds, began to answer questions they had been asking about. Others began to wonder about the transcendence of being and life after death. Everyone began to investigate and to investigate themselves, feeding the Flame which one day illuminated their thinking.

"Where did I start from, where do I go back to? "

When man finds answers to these two fundamental questions, and they confirm that he has found what he was looking for, he wonders:

How do I return?

The one who asked this question has found the answer in the text he is reading. His consciousness, through the question and the answer found, is telling man that he has to take action, to start walking towards the Cosmic Homes from whence he started.

"What is not UNDERSTOOD is not PRACTICED".

With words, concepts and examples understandable to all consciences, man will find out what he has to PRACTICE. Without conscious walking, one does not get where one has to go. It is an individual, personalised path which he has to tread, and so we say to the hitherto anonymous man, personally:

"You must walk your own path of Return to the Pure Worlds Beyond the Stars, to the Heart of the Father, but united with your fellow men and with every being and every existence of the Kingdoms of Nature and all that populates the Universe, manifestations of His Love made form, whose life essences, ALL, are integrated into your cosmic being-soul, for you are a child of God, and thus, "like father, like son", as the proverb says, the Father of Heaven being the Stick, and you, His child, the Splinter. Therefore, all that the Father Is, in essence, is in you as a cosmic being, in your soul, for you are His child. Be joyful, then, and always bear this in mind in your process of evolution in order to transform, with the help of Christ, His Son, all energies that are foreign to the cosmic being, the angel, that you are. It is up to you to investigate the "foreign energies", which become, for your understanding, the "paints" that cover your marvellous polished diamond body, radiating all the Light Potential of your inheritance. Remember: **"like father, like son"**.

Keep in mind, at all times, the above text, No. 18, HOW DO "THEY", THE DEMONS, ACT?

Keep an eye on "them" yourself, for you know how they act on the mental level. The "invisible to the human eye" are very cunning, and do not want you to return to the cosmic Homes, where "they" also await the house, the precious dwelling, which they will occupy when their body of polished angel-diamond is cleansed, thus said for your understanding.

We advise you to print out texts no. 18 and 19, and keep them at hand, in a dossier, to reread them at any time.

"Having said that, let's begin:

1. "Where do I come from? Your cosmic being-soul comes from the Pure Worlds Beyond the Stars. There is your Home.

2." Where do I return to? Your cosmic soul-being returns to the Pure Worlds Beyond the Stars. From there you left. There you return.

3. "How do I return: When you were in the Pure Worlds, in your Home, your cosmic soul-being was vibrating at the High Frequency of Being.

Then your cosmic soul-being has to vibrate again in the High Frequency of Being. Therefore, you should investigate your dense (non-positive) energies, give them to Christ for transformation into POSITIVE energies, which Christ will attach to the POSITIVE energies you already have attached to your soul.

4." Earlier you read "What is not understood is not practised". To help you to understand the Path to the Cosmic Homes you must know:

"As long as you are incarnated on Earth in "your human-body-astronaut suit" you will walk through the inner realms of your cosmic-soul being into the Pure Worlds, where your Home is, hand in hand with the Christ, the Life in you. You speak to Him as you speak to a friend. He listens to you and is attentive to you. You know that it will transform the dense/non-positive energies you give it.

"When your cosmic-soul being leaves your "human-body-astronaut-suit" on Earth, you will be taken, led by Brother Angels to a cosmic intermediate station in the Star Worlds, whose frequency of vibration is identical to that of your cosmic-soul being. There you will continue to be instructed by Beings of Light. You will make your Way Home by passing from one intermediate cosmic station to another, of higher vibrational frequency, until you pass through one of the Rose Portals to the Pure Worlds Beyond the Stars, because your cosmic being-soul has reached the High frequency of vibration, Absolute, of Being, the same as you had when you left the Pure Worlds, to which you have returned, having

completed the Path of Return, of return, which you began on Earth, encased, encased, in the heavy "astronaut-human-body suit".

5." As previous aids in investigating you dense/non-positive energies, receive also these other insights:

"Your cosmic-soul-being is a Microcosm, identical with the Macrocosm, the Infinite Universe.

"Your cosmic being-soul has an INNER SUN or CORE of BEING, which vibrates at the High Frequency of Being. From the INNER SUN or CORE of BEING comes Life, which enlivens, organises and energises all the components of your human body. In this INNER SUN - CORE of SELF, are in Spirit, omnipresent, the Father of Heaven and His Son, Christ, the Corregent of Infinity. The Father is the LIFE in you. And Christ is also the LIFE in you.

"The INNER SUN - CORE of your soul's BEING is surrounded by the Veils of Consciousness which have magnetically attached to them dense energy fields vibrating at Low frequency.

"These dense energies, of Low Frequency vibration, become like "clouds", more or less dense, whose vibration must be raised by the Christ in order that the INNER SUN- CORE of your soul's BEING SHINE INTENSELY, as the INNER SUN- CORE of the BEING of the brother ANGELS shine intensely.

"Your work consists - and no one can do it for you - in investigating, identifying, recognising, constantly, consciously, honestly, the dense energies of Low Frequency vibration that are attached to your soul.

Once you have identified the dense energies, you talk to CHRIST, as you talk to your friends or family. CHRIST is waiting for you, He is within you, listening to you: You give Him these dense energies so that He raises the Low Frequency of vibration into High Frequency of vibration, the same frequency at which the INNER SUN - CORE of the BEING of your soul vibrates.

"Thus the "clouds" disappear so that the Father and Christ radiate powerfully through the INNER SUN-CORE of your soul's BEING, as the true and authentic cosmic being that you are, even though you are encased in an "astronaut-human body suit".

6." As an aid in identifying the dense energies vibrating at low frequency, which are those to be raised to the High frequency of vibration of the Self, that of the Pure Worlds, remember:

"The dense energy fields attached to the soul vibrate, and emit and receive low frequency waves.

"For your understanding we will call the dense energies attached to your soul "lead" which emit "lead" waves. "Lead" is to UN-Love your fellow men, whatever you think, speak or do to them, or have thought, said or done to other fellow men in the past, and you do not want them to do to you, think or speak about you.

"It is "lead" the un-Love towards every being and existence of the mineral, plant and animal Kingdoms housed by Mother Earth. You must also investigate these "lead" energies attached to your soul.

"The untransformed "lead", which vibrates and emits waves-"lead", MULTIPLIES.

"The "lead" emits "lead" waves. If you emit a grain-"lead", you will receive a "grain-spike-"lead". The untransformed "lead" is MULTIPLIED. These "lead"-energies will attach themselves to your soul.

7." For your understanding, we will call energies that vibrate at high frequency "gold". And they emit waves-"gold".

"Gold" is the "lead" which has been transformed by Christ into "gold". This "gold" energy vibrates and emits at a High frequency. It will be attached to your "soul" by Christ. You already have "gold" energies attached to your soul in this or other incarnations.

"Your "gold", which vibrates and emits waves-"gold", is MULTIPLIED when you give Love selflessly to your fellow man and to all life forms housed by Mother Earth.

"The "gold" emits "gold" waves. If you emit a grain-"gold" selflessly, the Father and Christ will attach to your soul an Ear of grain-"gold". These "golden" energies will attach to your soul.

"Recognise the good, the "gold" in your soul. Your fellow men also have "gold" in their souls.

"The "gold" energies enrich you. They return to you when you donate them to your fellow men selflessly, and to all life forms harboured by Mother Earth.

8." For your understanding, "Lead" is transformed into "gold" by Christ when He raises its low frequency - "lead" into High frequency - "gold". That means: Christ transforms the non-positive energies into positive energies, which He attaches to your soul. Thus the Light potential of your soul increases.

9." For your understanding, the transformation of "lead" into "gold" would come to be an act of inner Alchemy in teamwork between you and Christ, which you investigate yourself and find the "lead". This "lead" you deposit in the Crucible - Philosopher's Stone - CHRIST, who transmutes it into "GOLD". It becomes the "spiritual gold coins" that Christ and the Father deposit in the Chest of your soul.

10. "THE PROCESS OF TRANSFORMATION OF "LEAD" INTO "GOLD".

"Breathe consciously" (Text No. 38) . Create the automatism of breathing consciously. Rest in Silence in the Loving Arms of the Infinite (the Father and Christ are the Infinite). Breathe consciously (harmonious inhalation/pause/exhalation). By breathing consciously you raise the vibrational frequency of your soul (also at times when its vibration is

lowered), which the soul will transmit to your brain cells, thus rejecting the low frequency mental waves of the "invisible to the human eye".

"Investigate deeply to get to know the "lead" that is attached to your soul. Think of the people you relate to, and the relationship and experiences you have had and are having with the beings of the animal and plant Kingdoms of Nature. Remember what are "lead" energies, point No. 6.

"Speak to the Christ in you. He is the Life in you. He loves and cares for you. He is attentive to you.

"Put into His Light-Fire-Christ "the lead" you have located. Christ transforms this "lead" into "gold" by raising the low frequency of "lead" to the high frequency "gold", by attaching to your soul this energy-"gold". The vibrational frequency of your cosmic being-soul will be raised, increasing your Light potential.

If what you have already surrendered appears again and again in your thoughts, words and deeds, you surrender it to Christ. Behind this mental insistence may be "they", the invisible ones to the human eye.

"Your soul will step by step raise its frequency of vibration and thus magnetically reject the low frequency, for example, in which viruses, all viruses, vibrate.

"Health and disease have their origin in the soul.

The man who investigates himself, with the help of the Christ, comes to free his soul from energies vibrating at low frequency, transforming them into energies of high frequency of vibration, which he attaches to the soul.

The soul then transmits its high vibrational frequency to the body in which it has incarnated. And it heals it.

This does not prevent man from going to his trusted physician, in whom Christ, the Life, can act through him."

11." As an aid to identify dense energies vibrating at low frequencies, here are three objects known to you:

- OBJECT 1 : A computer hard disk.

- **OBJECT 2 : An electric light bulb in a clear glass bulb.**
- **OBJECT 3 : A Photo album of your life with photographs in Black/White and Colour.**

"You can choose any of them, or use all three. You will see that they are useful tools to investigate these dense energies. Always keep in mind that : without transforming low frequency energies into energies of High frequency vibration, Absolute to the Self, you will not be attracted to the Pure Heavens.

- **OBJECT 1: "Your soul is like the hard drive of a PC, a computer, and your body the tower or box in which the hard drive is housed.**

"You must investigate for yourself what you have recorded on the hard drive which is your soul.

"The hard drive of your soul has been recording and storing all that you have been experiencing in incarnation after incarnation, during each period of the cycle between Birth and Death.

"The soul's hard drive has been recording and storing both "gold" energies and "lead" energies.

"You think in images: The mental screen of your soul-computer, of your aura, displays the images of thoughts, which are observed by the "they" the invisible to the human eye.

"They" observe the mental screens of human beings and know what they intend, what they are going to do, their desires, intentions... The images become the "contents" of what is engraved in the soul. And "they" know it. The soul records the contents of thoughts, words and actions. This is what is seen on the mental screen, in the aura. It does not record the "shell" of thoughts.

The content-"seed" of a thought vibrates. The "shell" does NOT vibrate. Example: An almond consists of shell and seed. If an almond is put into the ground, a new almond tree will grow out of the seed inside the shell.

Thus "they," the invisible to the human eye" prepare "seed-contents", contaminated and maliciously magnetised by "them", from shell-IMAGES known to you. And they project mental waves into your brain cells so that you evoke the "shell-images" registered in these cells, which carry the magnetised seed-contents, "prepared" by "them".

"They" want you to think and think again and again in "the shell-image of your thoughts", about this or that thing, issue or desire. But, really, as you think and think you are **VIBRATING AND VIBRATING THE MAGNETISED AND "PREPARED" SEED-CONTENTS MALICIOUSLY "PREPARED" BY "THEM"**, falling into this mental trap set by "them", to magnetise your brain cells and form a magnetic base of "automatic" attraction for "them". This has been done millennium after millennium, day after day, moment after moment.

And so, what you emit and emit are mental waves with the "seed-contents" prepared by "them", which you project into the atmosphere and can reach the brains of those who have registered analogous frequencies in their brain cells. Your waves will vibrate them, and they will come back to you, multiplied by the number of people they vibrated, like a boomerang, for you have emitted those waves, reinforcing what is magnetically recorded already in your brain cells. This also reinforces what is recorded on your soul's hard drive.

It is the contents of thoughts that vibrate. Positive thoughts vibrate and emit high frequency waves, negative thoughts vibrate and emit low frequency waves.

As an aid for the investigation of "lead" energies, positive (high frequency) and negative (low frequency) contents can vibrate in the same image-shell. Example:

"Image of a wide avenue, an old man leaning on his cane is crossing at the pedestrian crossing at a traffic light , with cars waiting, helped by a young man who offers him his arm to help him cross, watching for vehicles that may start before he finishes crossing the wide avenue, while talking to the old man".

"Image of a wide avenue, an old man leaning on his cane is crossing at the pedestrian crossing at a traffic light, with cars waiting, helped by a young man who offers his arm to help him cross, keeping an eye out for vehicles that may start before he finishes crossing the wide avenue, while he talks to the old man". But thinking as he looks at the drivers of the cars:

"So that they, and those who are watching us and drinking beer in the bar, know what they should do when they see an old man crossing an avenue".

"With the above explanations, and this example, you will have become aware of how important it is to CONTROL and put ORDER in your thoughts. Calibrate also the importance of asking yourself: "What THOUGHTS and what 'IMAGES' have "they", the invisible ones, "sneaked" into my thoughts, without me being aware of it?

"Do not vibrate the **"SEEDS PREPARED" MALICIOUSLY BY "THEM"** by thinking over and over again of the "contaminated" images that have appeared on your conscious plane, that "they" projected and "sneaked" into your thoughts!

"Surrender them immediately to the Light-Fire of Christ! They will be taken and transformed into energy-"gold", which will be attached to your soul.

"Keep in mind: Love by LOVING your fellow men, for the Presence of the Infinite is in them, as it is in you.

"Love by LOVING, asking forgiveness from the heart, And forgiving from the heart thy fellows with whom thou hast entered into discord by breaking the Law of Love.

"Keep in mind: Love by LOVING from the heart also every being and existence of the mineral, vegetable and animal Kingdoms created by the Father of Heaven.

- OBJECT 2: Electric bulb with its filament lit and transparent glass bulb.

For your understanding, the powerful **INNER SUN-CENTRE OF BEING** of your soul becomes like the filament of thousands of watts of power, permanently lit, radiant, enveloped by veils of consciousness, which are fields of dense energy - "lead" symbolised by dry brushstrokes of coloured paint on the glass of the bulb, with spaces free of paint, through which the lit filament radiates Light.

The paint-free spaces are the "gold" energies already attached to your soul, to which Christ is adding the "gold" energies of the transformed "lead" energies which you have investigated and surrendered to the Light-Fire of Christ. The crystal of the lamp will be clean of colour when you have surrendered to the Light-Fire of Christ all the dense - "lead" energies investigated.

When the transparent crystal has been completely cleansed, it symbolises that the Veils of Consciousness have been dissolved, and the mighty Filament-Inner Sun-Core of Being radiates and emits waves of the Absolute Frequency-"GOLD" of the Infinite, which pierce and magnetise all the components of the human body in which the soul is embodied. Radiating powerfully through you.

"Be ever mindful: Practice Loving by LOVING all your fellow men, for the Presence of the Father and of the Christ is in them, as the Father and the Christ are in you.

"Love by LOVING by sending ripples of Love to every being and existence of the mineral, plant and animal Kingdoms created by the Father, housed by Mother Earth, of the terrestrial, marine and inland water habitats.

"Ask for forgiveness from your heart, with your thoughts, if you are not with the one with whom you entered into discord by breaking the Law of Love, which originated low-frequency "lead" energies. They become the colours of the paints you painted on the glass of the light bulb. Call him or visit him as soon as you can to ask for forgiveness from your heart.

"Forgive also from your heart your fellows who did not do right by you, for they truly did not know what they were doing, blinded by lovelessness.

"Thus your soul will attain the Perfection and Purity proper to cosmic beings, even though your soul-body is within the space-suit-human body.

- OBJECT 3: A Photo album of your life with photographs in Black/White and Colour.

"In order to cleanse your soul of low frequency energies - "lead" you can use as a valuable tool the virtual album of your life, in which you keep the photographs of your current existence in Black/White and Colour.

"The Black/White photographs are the images of your thoughts, words and actions that have produced "lead" energies, which you can symbolise as "lead" coins, stored in your soul chest.

"To ennoble your soul, and step by step attain Perfection, you must investigate the "lead" energies that remain magnetically attached to your soul, and place them in the Light-Fire of Christ so that He may transform the "lead" photo-coins into "gold" energies, which He will place in the Chest of your soul.

"The photographs in Colour become the images of your thoughts, words and deeds which have produced energies-"gold". You can symbolise them as "gold coins which you also keep in your soul-chest", along with the "lead coins". The energies-"lead" and "gold"-are attached to your soul.

"Begin by evoking the pictures of remembrance with your friends, family and close acquaintances. Give the "lead"-coins of the Black/White photographs to the Light-Fire of Christ , which will transform them into "gold-Love"-coins which you can donate to your fellow men and women when the time comes.

"Take the "Photo Album of your life". Close your eyes. Raise your thought to the **INNER SUN - CORE OF BEING**, in the area of the pineal gland. Here resides the Presence of the Father and the Christ. Breathe consciously, harmoniously (in-breath - pause - out-breath) several times. Ask for their help to evoke the Black/White photographs in your Photo Album of Life.

"Start mentally opening the "Photo Album" of your life and places where you lived or studied, and people who were part of your life, for example, when you were fifteen years old. Ask yourself about what you didn't do well. Breathe consciously again and again. Be silent.

"The images that appear correspond to the B/W photo or photos. Give them to the Light-Fire of Christ. He will transform the "lead-coins" of the B/W-photographs into "gold-coins", which He will put into the Chest of your soul.

Ask also about the damage caused to animals and plants housed by Mother Earth, for example. Proceed in the same way as in the previous example with the B/W pictures. Also compensate these life forms to the best of your ability.

"Recognise the good - "gold" that you have also in your soul, the Colour pictures. It will help you not to feel sorry, sorry, in the moments of deep recognitions and reunion with the "leads" that passed some time ago "to the boot of the subconscious", energies that continue vibrating and emitting and receiving waves from the veils of consciousness that "envelop" the Core of the Being of your soul.

"If the B/W photos "have eyes, mouth, hair..." it would be necessary for you to ask for forgiveness from your heart, in person, by phone or letter/email, and to compensate the person in the photograph, if you caused him/her material damage. It is necessary to forgive from your heart those who have not done right by you. The Infinite is Present within the one who forgives, and the one who asks for forgiveness.

"The "gold" energies that are attached to the soul magnetise and raise the frequency of vibration of the billions of cells in your human body, for within their nuclei are the same billions of Nuclei of Light, which vibrate

at the frequency of the potential of the "gold" energies attached to your soul, therefore, as the cells radiated by the Nuclei of Light vibrate at a higher frequency than the low frequency at which viruses vibrate, they are magnetically rejected, for you know that viruses vibrate at a low frequency.

"If the vibration of your soul is temporarily lowered, breathe consciously, again and again. In this way you raise the vibration of your soul, and also the vibrational frequency of your brain cells. And you will hinder or prevent the penetration into your thinking of mental waves projected by "them", the invisible ones to the human eye.

"The "gold" energies which Christ is attaching to your soul will raise their frequency of vibration higher and higher, emitting accordingly. From the veils of consciousness which enveloped the INNER SUN-CENTRE OF THE BEING of the soul, the low-frequency vibrating registers have been disappearing, as these "lead" energies have been transformed by Christ into "gold" energies.

"You are a son, a daughter of the Infinite: *"Like father, like son"*. Reflect. Light the Flame of Hope, and speak from the heart to the Father and Christ.

"Be Hopeful, strive to leave the hard drive of your soul without records - "lead". Strive to make your soul's light bulb crystal clear of colour-"lead". Endeavour to clear your soul's Album of Life of Black/White photographs.

"The 3 OBJECTS are examples of the same, given for your understanding, for what is not understood is not practised.

"Be constant. Practice the investigation of the "lead" energies, the surrendering of them to the Light-Fire of Christ for their transformation into "Gold", energies of High frequency of vibration.

"Thus your cosmic being-soul will step by step raise its frequency of vibration, approaching the original High Frequency of vibration, from when you were in the Pure Worlds, whereby magnetically your soul will reject the low frequency at which the viruses and the mental waves of "them" vibrate.

"Simultaneously your soul will also be attracted to the Pure Worlds Beyond the Stars, returning, returning Home, to the solar Cradle, from whence you departed.

"If you will, practice what you have received. Thus shall you begin the Return to the Wonderful Homes Beyond the Stars. If you will. You are a free being.

No cosmic soul-being can return, return to the Pure Heavens from the depths of condensed matter, the Earth, if he walks the path of his life burdened with his sack of "leads", while countless fellow beings lie and suffer on both sides of the path.

He who feels in his heart to do for his fellow men what he would have them do for him, should start on the way to the Father's Heart with the clear goal of emptying the sack of "weights" from his soul while he is incarnated. These "leads" transformed into "GOLD" he will be able to donate to his fellow men. If you have read this far, you will know why the ship of this civilisation is sinking.

Has one loved by loving one's fellow man and every being and existence of the animal and plant kingdoms housed by Mother Earth?

ANALOGIES, TOOLS FOR IDENTIFYING DENSE ENERGIES.

Achieving perfection is the Goal. It is necessary that no dense energies attached to the soul vibrate at low frequency. Perfection is achieved when the soul vibrates at the High frequency of vibration of the SELF.

This is why we say that **it is a priority to investigate the low frequency vibrational energies attached to the soul.**

Priority is to give these energies to the Christ to be raised by Him to the High Frequency of vibration of the SELF, which is Absolute. It is the frequency of vibration of the Higher Worlds, the frequency of the **Cosmic Realm of Eternity** where time and space do not exist.

It is a priority that the soul be cleansed of the dense energy fields attached in this or other incarnations. There are reasons for this priority.

It is necessary, therefore, for **man to investigate himself and find the dense energy fields attached to his soul - which we have also been calling "lead" energy - and give them to the Christ to be raised by Him to the High Frequency of vibration of the SELF.**

This high frequency vibrational energy - which we have also been calling "*gold*" energy - is attached to the soul, raising its Light potential. This high vibrational frequency energy in turn radiates into the body in which the soul has incarnated.

If man **does not investigate the dense "*lead*" energy fields , it continues to multiply.** The **emit-receive principle** is well known to the demons.

This means, for your understanding, that for every grain of "*lead*" energy sown, an ear of "*lead*"-grains is harvested.

In turn each ear of "lead"-grain emits and receives in low vibrational frequency.

Then, without freeing the soul from the attached dense energy fields, **the soul cannot reach the High vibrational frequency of the BEING.**

Therefore, it cannot be attracted to the **Primary Central Sun of the Pure Worlds**, nor will it pass through the **Portal of Roses** into the **Homeland of Light**.

In addition to **using any of the 3 METHODS** outlined in Chapter 19 of "*Between Ether and Earth*" to investigate the dense energy fields of low frequency vibration attached to the soul, it is also necessary to use the effective **TOOL "ANALOGIES"** for man to observe his own reactions when he sees or hears people with whom he lives, works, or comes in contact at any time or place.

ANALOGIES" are dense energy fields attached to the soul, emitting and receiving at a certain frequency of vibration.

To understand how to discover *camouflaged* dense energies, attached like magnets to the soul, we start with an example, *the functioning of the EMITTER of a known Radio Channel, and the RECEIVER of a radio at home or in the car*.

We begin:

- **A BROADCASTER** of a known Radio Channel broadcasts on the frequency **88.2 FM**.
- **A radio RECEIVER**. The broadcasted music is heard in the **RECEIVER** because its **DIAL** is tuned to **88.2 FM band**.

Having understood this, we now **move on to explain how an "ANALOGY" shows itself to you**. We turn to you, who are reading:

- The **EMITTER** broadcasting on 88.2 FM could be the person who, as you turn a street corner, you see doing something not right: The dense energy field of the not right thing he is doing is broadcasting on the frequency 88.2 FM.

. You are the radio **RECEIVER** with the dial open at **88.2 FM**.

-If you go to this person, and gesticulating you shout: " ***This is not done, I will call the police*** " , this means that **you, the RECEIVER, have attached to your soul a dense energy field analogous to the wrong thing**. That is, you have attached to your soul dense energies that vibrate at the same frequency (88.2) as that wrong thing done by this person.

That energy field is an "ANALOGY". You recorded it in your soul in any previous incarnation, or in this one.

The engraving in your soul is related to the words of Jesus of Nazareth:

"He who is clean from guilt, let him cast the first stone".

He said this to those who wanted to stone the adulterous woman.

At that time Jesus of Nazareth said this to them because he saw in the souls of those who wanted to stone the adulterous woman that they had also committed adultery. *And these energies attached to their souls vibrated at the same vibrational frequency as the energies that the adulterous woman they were going to stone had engraved in her soul.*

This explains what an ANALOGY is.

If you reflect and feel that you may have engraved in your soul **dense energies - "lead"** analogous to the **wrong done by this person**, and you give them to Christ, then He takes these energies and raises their vibrational frequency, which would be symbolised by **Christ** transforming the "lead" energy you have given Him into "gold" energy.

If that energy field were not etched in your soul, when you saw **the wrong thing** this person was doing, you might have said to him, in your calm mood:

Do you know that it is not right what you are doing? And you would go on your way, because your soul dial was not on the same vibrational frequency as the wrong thing they were doing.

The fact that a person courageously acknowledges that dense energies **ANALOGOUS** to the wrong done by another person are engraved in his or her soul **is a litmus test to be overcome** in order to continue ascending the rungs of the **Cosmic Ladder**. It is necessary to clear the soul of dense energies of low vibrational frequency.

There are people who, when they get excited or shout at what they see or hear their fellowmen say at work, in the family, or when they drive their vehicles, do **not recognise that they have analogue energies engraved in their souls.**

ANALOGIES are sources of conflict, dense energies engraved in souls, which should be transformed in time.

In families, conflicts arise between parents and children because dense, analogous energies, which parents and children have engraved in their souls, come into vibration.

We expose:

- **Genes emit and receive.** Parents transmit their genes to their children, with positive and non-positive programmes, which they broadcast and receive, just like Radio Transmitters and Receivers.

The children react in a non-positive sense to the words, gestures or deeds of the parents. There are times when parents react with *strong* words directed at their children because of what the children have said or done.

Relationships become strained between parents and children when children do not listen to, *or do what the parents want, because* **the parents often reprove, and with "strong" words, what the children say or do.**

There are times when **children hold up a mirror to their parents:**

1. Conflicts between parents and children can arise because parents do not set an example for their children.
2. Because parents demand from their children to do what they do not do themselves.
3. Because the parents get angry with the children for what they do or say, **caused by active programmes in the genes, which the children have inherited from the parents. Then the parents have those same programmes active.**
4. There are heated arguments between them.

Who steps forward and acknowledges their share of the blame for the conflict?

Whoever always blames someone else for the conflict between them, **is because they DO NOT WANT TO ACKNOWLEDGE THEIR SHARE OF FAULT IN THE CONFLICT.**

Problems between parents and young children are largely caused by programmes passed on in the genes to the children, which the parents also have.

They vibrate on the same frequency of the "dial" on which the **transmitter** of the parents and the **transmitter** of the children broadcast.

The same frequency is received by the **Receiver** of the parents and the **Receiver** of the children.

If parents would recognise that they **have passed on in their genes to their children the programmes which they have, and received in turn from their parents, the grandparents of their children, they could give them to the Christ.** And the dense, non-positive energies would be transformed by Christ.

The family confrontation would disappear. As the genes of the parents would cease to emit, they would not vibrate or emit the genes of the children.

[In the Annex we have included "*Interrelationships between souls and genes*".]

ANNEX - 4

INTERRELATIONSHIPS BETWEEN SOUL AND GENES

Everything is energy. The cosmic being-soul registers energy fields while incarnated in a human body. For your understanding, the soul is like the hard drive of a computer, or PC.

There can be energy fields of *High frequency vibration* generated by practising ethical values and carrying in its heart fellow beings and existence of the mineral, plant and animal Kingdoms of Nature. Or he has registered energy fields of Low vibrational frequency generated by actions contrary to the Laws of the Heavens, to the Golden Ethical Rule of Natural Law, caused to his fellow man and to every being and existence of the Kingdoms of Nature.

Energy fields vibrating at High Frequency, and dense energies vibrating at Low Frequency programme their genes.

In the beginning of time there were no carnivorous animals. The big dinosaurs with sharp teeth were herbivores. So they were able to tear the tenderness out of the vegetation. They came to Earth when matter was not so condensed. Could big, heavy dinosaurs chase down small, fast animals to devour them?

What is radiated by the soul of man has been producing changes in the genes of animals for millennia and centuries, both by the good emitted by him, and by the not so good and less bad.

This can be seen in domestic animals that were once wild carnivores. The proverb: "*He who sees an animal sees its owner*" expresses the changes that man's radiation produces in the genes of the domestic animals that live with him.

After the Great Warlike Confrontation of the Peoples of the Earth, the announced Third World War, **will be the Second Coming of Christ in Spirit into the atmosphere of Earth. Then the Golden Age will begin, the establishment of the Kingdom of Peace on the face of the Earth.**

In the course of the future generations that will populate Earth, **the irradiation of the new man, ethical, cosmic, inhabitant of the Kingdom of Peace, will bring about changes in the genes of the animals: "*the lion will be with the lamb*", as a symbol of what the prophet Isaiah foretold, *for truly the children will play with the lions' whelps and grow up together.***

The energy fields engraved in the soul vibrate, magnetise and programme the genes of the body in which man incarnated in any century and place on Earth. For example, Europe, 15th century.

The genes emit and receive, and there is a constant interrelationship with the soul. Genes vibrate on the same frequency as the soul that programmes them for as long as the body lives.

When men and women procreate, their genes, programmed by them, are transmitted to the bodies of their children. The children in turn can think, speak and act according to the programmes now inherited from the parents, and the programmes their souls had recorded in previous incarnations. In their present incarnation, children also record in their genes that which corresponds to their own life experiences, which will vibrate at a High or Low frequency. They will in turn pass these on to their descendants, who will pass them on to their descendants from generation to generation.

The soul programmes the genes of the body through the brain. However, parents, or their descendants, can deprogram the energy fields vibrating in their genes, so that the non-positive programmes programmed in the 15th century will also disappear from the genes of their descendants, who emigrated, and in the genes of their descendants who, in the 21st century, live in Africa or in Patagonia.

The Universe is energy in its totality, which vibrates, emits and receives permanently. Everything is communication, and is in communication. The Father of Heaven, Creator and Ruler of the Infinite, is the All in all. His Son, the Christ of God, the Corregent of the Infinite, is the All in all. Thus, the Father and the Christ are the genes in the third dimensional bodies, and in all processes originating in the genes of these bodies inhabiting the Earth.

To aid your understanding, here is an example: All souls are in communication, for God is the All in all, living in every soul.

The soul that incarnated in a body in the 15th century, and disincarnated years later, left that body. But the genes it programmed are still active in its descendants, emitting and receiving in other bodies, scattered in different countries, centuries later.

However, these genes are still in communication (everything vibrates and emits in the Universe) with the energy fields that remain attached to the soul that recorded them when it incarnated in the 15th century. And they continue to vibrate at high frequency (**positive**, for your understanding) or at low frequency (**non-positive**), when it has reincarnated in another body, for example, in the year 1980 of the 20th century.

In turn, these old energy fields, magnetically attached to the soul, programme the genes of the new body in which the soul has incarnated through the brain. And they continue to give expression to the consciousness of the man living his experiences in the 21st century through his brain, which, in permanent connection with the soul, programmes the genes of the new body.

<< If in his present incarnation the person becomes conscious of:

1. A certain dense energy field of Low vibrational frequency (not positive) attached to his soul has manifested itself in thoughts, words and actions he had against a fellow human being.
2. A certain dense energy field of Low frequency of vibration (non-positive) attached to his soul has manifested in thoughts, words and deeds he has had against life forms of the animal and plant Kingdoms.
3. There surfaces in his consciousness the memory of the righteous template of the Golden Ethical Rule of Natural Law: *"Do not do unto others what you would not have them do unto you"*,
4. He reflects on what he has done against a certain fellow human being and against a form of life of the animal and plant kingdoms, and measures these thoughts, words and actions against the just template of the Golden Ethical Rule of Natural Law.
5. He repents from his heart for what he has done and feels in himself the pain, suffering and damage caused to his fellow man and to the life form of a Kingdom of Nature.
6. He apologises heartily to his fellow man, rewards him as far as possible if he has caused him any harm, and rewards the beings of the animal and plant kingdoms which, like him, are sheltered by Mother Earth.
7. He enters into inner communication with the Infinite, Christ, the Life in him and in all: he puts into His Light that field of dense non-positive energy of Low frequency of vibration,
8. Christ will raise the low frequency of vibration of that energy field until it reaches the High frequency of vibration, Absolute.
9. This dense energy, transformed into positive energy, of High frequency of vibration, Christ will attach to your soul.

And it will come to pass, that all the genes that were programmed by the dense (negative) energy of his soul during his incarnation in the 15th century, passed on by his descendants, and today these genes can be found in people living in the 21st century in Patagonia, or places in Africa, Europe or

India, will be released by Christ from the programming induced by the dense energy attached to his soul when he incarnated in the 15th century.

Also the genes of his present body, programmed by his soul, and passed on to his children, will be released from the programming induced by the once dense energy attached to his soul in the 15th century, vibrating now at a High frequency. Christ, the All in all, frees the genes from vibrations foreign to Life.

IMPORTANT: When dense energies of Low vibrational frequency are transformed into positive energies of High vibrational frequency, they leave a **MAGNETIC REMNANT**, characteristic of third dimensional matter. This **MAGNETIC REMNANT** has a certain vibration. It is like a "faded memory" that remains in the thought. "They", the demons, know this: They can then send a mental wave again and again to the thought of the one who no longer has the

dense, negative energy attached to his soul, for it has been transformed into energy of high frequency, positive vibration.

If the one who receives the mental wave with the "image" of the **ALREADY TRANSFORMED** dense energy, **thinks over and over again in that image**, that is, **vibrates and vibrates the received "image"**, then he can gradually **RECREATE** the dense, negative energy, which has already been transformed.

If this happens, then the one who receives the image is **WARNED** of what "they" intend. **SOLUTION:** Give the image received to Christ, again and again, without vibrating the image in thought.

When does a soul cut the circles that together form the spiral of successive incarnations of the soul, a spiral that links its experiences from other incarnations and centuries until its incarnation in the 21st century?

As these experiences are expressed in the energy fields attached to this soul - vibrating at High or Low frequency - these energies are also expressed in the programming of the genes of the bodies in which it has incarnated.

When the soul (*as a solar seagull that landed on the shores of the Earth*) investigates itself and with Christ cuts the circles of the spiral cage of its incarnations, it expands its consciousness.

And the soul, now free from the spiral cage of its incarnations, flies from the beaches of the Earth, flying like a solar seagull over the cosmic ocean, living new experiences in the intermediate cosmic stations, **until it reaches the golden Beaches of its solar Cradle, Beyond the Stars. The solar-soul gull succeeded in reaching the golden Beaches, the Goal of the Origin.**

ANNEX-5

MESSAGE FROM THE STAR BROTHERS TO HUMANITY.

"Origin and Formation of the Asteroid Belt between Mars and Jupiter".

The Soul Core of the planet that gave rise to the Asteroid Belt was the first crystallised planet Core of the Finite Universe absorbed by the Origin Worlds of Beyond the Stars.

The fragmented remains of the planet's matter formed the Asteroid Belt of the Solar System. They become like the remains of the human body when the soul departs.

Message from Yosúa of the Constellation of the Stars, spokesman for the Star Brethren in the service of the Father of Heaven and His Son, Jesus, the Christ.

Given through A. D'Hertzáurea. November 2022.

*

The origin and formation of the Asteroid Belt between the planets Mars and Jupiter is unknown to the terrestrial scientific world. Also to Humanity.

Because of the outburst of the crystallised planet between Mars and Jupiter we had to intervene to balance the gravitational forces and orbits of the planets of the Solar System. This is not the time to make known what our intervention consisted of as instruments of the Infinite to stabilise the Solar System and the orbits of the planets around the Sun, the most beautiful Manifestation of the Spirit of the Father of Heaven in the Solar System.

Esotericists of ancient times knew that there was a planet in the Solar System which ceased to exist as such. Murdok was one of its names, which does not matter. The evidence for the existence of the planet orbiting the Sun, located between Mars and Jupiter, is in the Asteroid Belt.

The planet self-destructed by the action of "them", belonging to Darkness. They moved to the Abyss and to Earth.

In their struggle against God they sought to create a Source of energy attuned to their low vibrational frequency. They began to create fields of irradiation. By blind actions contrary to the Law of the Heavens, layers of planetary mass were acquiring a very low frequency of vibration by the magnetising action of countless beings of Darkness.

The very low frequency of vibration of these magnetised masses was also transmitted to deep layers of crystallised matter surrounding the Core of the planetary soul, which permanently received the powerful irradiation of the Father of Heaven from the Central Sun of the Galaxy.

The Soul Core of the planet, vibrating at the high frequency of the BEING, rejected the crystallised masses of the lowest frequency of vibration.

The crystallised mass covering the planet's Nucleus exploded. The Nucleus of the planetary soul came out, as souls do when they leave human bodies, being the first crystallised planet Nucleus of the Finite Universe to be absorbed into the Pure Worlds Beyond the Stars.

The cosmic event was recorded in the souls who lived that experience, transmitted in uncertain ways in esoteric circles when they have incarnated on Earth. Since then, over millions of "time-energy" that have elapsed, the Earth has been attracting millions of asteroids and meteors.

For your understanding, we express that the Asteroid Belt originated in "energy-time" for the inhabitants of planet Earth, for time is energy.

After generations of the New Humanity inhabiting the Kingdom of Peace throughout the Earth, the time will come when, executing the Mandate of the Father of Heaven, it will be necessary to evacuate the inhabitants of the Earth. We Star Brethren will go into action. The many great ships of the fleets stationed in the Kuiper Belt will fulfil the evacuation phase, for which they were built by the Mandate of the Father of Heaven.

From Earth, man can see Venus, Mars and Jupiter. Over the centuries, countless meteorites have fallen on mankind from the Asteroid Belt. Astronomers and scientists calculate and speculate about the fall of asteroids to Earth. But they do not know about the true origin of the Asteroid Belt between Mars and Jupiter.

Scientists of materialistic training remain obsessed with finding life on other planets, without themselves knowing what life is, who they are, where they come from, or where they are to return to, even though the Son of God in Jesus of Nazareth said to all mankind: **"I am Life. Life is God. God is within man.**

But man continues to wage war against his fellow man, his brothers and sisters in Life, in whom the Father of Heaven and the Christ of God live.

As the Spokesman for all Star Brethren on a Mission of help and service to Humanity, I, Yosúa, use concepts and terms understandable to the vast majority of the inhabitants of Earth in this Message transmitted by telepathy to our Spokesman on Earth.

Peace, Peace on Earth, and to the sons and daughters of God of goodwill. PEACE.

ANNEX-6

THE KNOWN UNIVERSE IS FINITE.

To help us understand this reality, let's start with an example. Imagine a circular cardboard with infinite radius and diameter, without end.

With this example we would come to symbolise that **the INFINITE UNIVERSE is infinite, without limits, in continuous expansion. God is the Universe. God is Infinite.**

If we pierce this infinite diameter cardboard with a pin, **the small hole would symbolise the volume occupied by the planet Earth within the INFINITE UNIVERSE.**

If we centre the perforated hole with a compass and draw a circle, this line would symbolise the Wall of Light, the boundary between the FINITE UNIVERSE, in which the Earth and the Solar System are located, and the INFINITE UNIVERSE which surrounds the FINITE UNIVERSE. **The Worlds and dimensions of the FINITE UNIVERSE do not vibrate at the High Frequency, Absolute, of BEING.**

All is Energy in the INFINITE UNIVERSE, which vibrates and emits and receives. At the Wall of Light, vibrating at the High, Absolute Frequency of SELF, "begins" the Beyond the Stars, the INFINITE UNIVERSE, in which are the Pure Heavens, the Home, the Solar Cradle, the Origin, the Worlds of LIGHT, vibrating at the High, Absolute Frequency of SELF. For your

understanding we assign the digit 8 (∞ , symbol of Infinity) as the vibration and Absolute Frequency of BEING.

The small circle symbolises the FINITE UNIVERSE, which contains the Earth, the Solar System, the galaxies and stars visible to man, and all that is known of this Universe through the Hubble Space Telescope. **This finite Universe vibrates in the Low Frequency Range.**

The Low Frequency, in which dense energy fields vibrate, consists of two frequency ranges: The range of the Plane visible to the human eye, represented by the digits : 1, 2, 3, 4, 5, 6, and 7'99999999999999999999..., and the range of the Non-Visible Plane, represented by the digits: -1, -2, -3, -4, -5, -6, -7 and -8 in which vibrate the dense energy fields of the underworlds, the Abyss, the Darkness. In this range of Low Frequencies vibrate the beings invisible to the vast majority of human beings, "they", the demons, vibrate at low frequencies, invisible to the human eye.

From the PRIMARY CENTRAL SUN, which is in the INFINITE Universe, departs the Irradiation of the Infinite received by the Pure Worlds of the Infinite Universe, and to the beings who populate these Worlds.

The PRIMARY CENTRAL SUN also radiates through the seven Secondary Suns to the Central Suns of the innumerable Galaxies and to the Worlds, dimensions and inhabitants of the FINITE UNIVERSE, including the Earth and its inhabitants.

From the underworlds of the unseen Plane come "they", the demons, who for centuries have been incarnated in those who lead the governments and elites of the oligarchies of this world. The wars between the peoples of the Earth, between the inhabitants of the Peoples, the wars against Nature and all beings of the Kingdoms of Nature, the creation and use of atomic energy, the genetic manipulation of plants and fruits intended for human and animal food, and the genetic manipulation of human DNA... have been inspired by "them" and those seduced by "them". The APPARENT PEACE - i.e. peace between wars, Education without objectives aimed at helping the expansion of Consciousness and practice of ethical and moral values with all being and existence, and the creation of whatever distracts, seduces, hypnotises and produces blindness in the consciousness of materialistic man, etc. - has been inspired by the demons as formulas also to vampirise man by taking from him the energies that "they" themselves are incapable of generating.

"They" departed also from the Pure Worlds, where their solar cradle is.

And they will return as angels to their homes in the cosmic Homes Beyond the Stars when they purify their spiritual bodies, raising to the High Frequency, Absolute, the Low Frequency of vibration of the dense energy fields that cover the particles of their souls, dense energy of the lowest vibration that they have been attaching to their souls for millennia and centuries by their actions contrary to the Laws of the Heavens.

«All that exists in the FINITE Universe began to gradually raise its vibration and the frequencies of the Low Frequency range until it reached the High Frequency of vibration, the Absolute of BEING.

All that exists in the FINITE UNIVERSE will be attracted and integrated into the INFINITE UNIVERSE.

All that descended in vibration and frequency in the process of the Fall, and originated the FINITE UNIVERSE, will be reabsorbed by the PRIMARY CENTRAL SUN. The *Wall of Light and the FINITE UNIVERSE*, and all that has been constituting it, will cease to exist when the absolute vibration and Frequency of BEING is attained, and the pre-Fall Creation will be re-established.

The Fall was a great cosmic event induced by cosmic beings, who, using the Freedom granted by the Father of Heaven to all His children, began the experience that would lead them to lower their High Frequency of vibration, the Absolute Vibrational Frequency of BEING.

For your understanding, we will summarise why it came about, and its consequences for Humanity. The Peoples of Earth have been, are living and will live in the near future the consequences of the experience that should not have been initiated.

The root of the Fall was in a single thought of a cosmic being of the Zenith, of great potential of Light, with this thought he separated himself from the Unity consciousness. He wanted to be omnipresent as the Spirit of God, placing himself above the infinite sons of God, angels, in defiance of the One who created him, the Father of Heaven.

It was the first thought of the Fall, which led countless angelic cosmic beings, seduced by the being who wanted to be omnipresent as the Spirit of God, to want to be omnipresent in all Creation. They began to lower their vibrational frequency. They also lowered their Light potential. They magnetised the parts of the planets where they had their dwellings with their same vibrational frequencies.

The cosmic being that initiated the Fall and those it seduced were warned by the Father and the Regents of the Seven Basic Forces of Being, Archangels. They could not be omnipresent like the Spirit of God. Nevertheless they went ahead with their plan to achieve Omnipresence.

This process of loss of vibrational frequency occurred over two eons, which the Father left for them to decide. Each eon is a cycle, or cosmic period.

Over the course of these eons, the cosmic beings who initiated the experience gradually lowered their frequency of vibration, and also the parts of the planets on which they had their homes.

They were losing Light potential as they lowered their vibrational frequencies, thus moving away from the High, Absolute, Frequency of Vibration of the SELF.

Having lowered their frequency of vibration, the parts where they had their dwellings became detached from the planet vibrating at the Absolute frequency of the SELF. In the process of the detachment of these low-frequency vibrating parts, great turbulence arose and these masses were projected into less luminous zones.

They had to leave the Pure Worlds. They could not remain in the Pure Worlds because their low frequency of vibration was rejected by the High frequency of vibration, Absolute, of the Pure Worlds, in which the cosmic beings who populate the Infinite Universe vibrate.

They were led by the Regent of the Force of Divine Will, Archangel Michael, out of the Pure Worlds to where the detached parts had been reunited.

During this process, which lasted for eons, the WALL OF LIGHT, vibrating at the Absolute Frequency of BEING, became the "boundary" between the INFINITE UNIVERSE and the FINITE UNIVERSE, the "boundary" between the Pure Worlds and the sixth dimension, of lower frequency of vibration. Infinite cosmic beings gathered in the sixth dimension came to their senses. They did not continue the experience they had undertaken. They began the Return to the Wall Worlds by raising their frequency of vibration, transferring some of the Light potential they were regaining to their partially condensed home planets to take them back to the Pure Worlds as well.

Other cosmic beings continued the experience. Their vibrational frequency and that of the habitat planets dropped further. And the fifth dimension was formed. Countless cosmic beings reconsidered the experience they had undertaken. They did not continue. They also undertook the Return to the Pure Worlds, donating

some of them regained Light potential to their partially material habitat planets for upliftment into the Pure Worlds.

Many other cosmic beings continued the experience, lowered the vibrational frequency even further, and formed the fourth dimension with their home planets. They stopped the experience.

Others continued. They continued to lower their vibrational frequency. They magnetised the matter that was condensing, crystallising, proper to the third dimension, where the planet Earth is.

From Earth, cosmic-soul beings incarnated in human bodies begin the Return to the Pure Worlds Beyond the Stars. Many cosmic-soul beings are also ascending, returning through the intermediate cosmic Stations to the Pure Worlds to the Heart of the Father.

The subtle substance of the Pure Worlds Beyond the Stars, vibrating at the absolute, High Frequency of Being, would be the invisible, ethereal, water vapour. The dense, crystallised matter of the Earth, vibrating at the low frequency of the third dimension, would be ice. Between the subtle substance of the Pure Worlds, and the crystallised matter of the Earth, are the partially material Worlds of the sixth and fifth dimensions and the Worlds of the fourth dimension, vibrating the sixth, fifth and fourth dimensions in the Low Frequency range. It would be water at different temperatures, from the temperature of water in high mountain streams, which carry the water of the snow melted by the Fire element of the Sun's rays, to temperatures rising to 100 degrees Celsius, where the Fire element boils the water into an invisible, ethereal, High Frequency vibrational vapour.

These examples would explain the fall in the frequency of vibration of the subtle "matter" of the Pure Worlds, which gave rise to the partially material Worlds of the sixth and fifth dimensions, and to the Worlds of matter of the fourth dimension, and the dense, crystallised matter of the third dimension, in which the Earth is.

Thus, when man recognises that dense energies vibrating in the Low frequency range are attached to his soul, and consciously surrenders them to the Fire of Infinity, Christ, He raises the Low frequency of vibration of the dense energies to the absolute High frequency of vibration. This process of transformation of dense energy fields into high frequency vibrational energy is symbolised in "Christ transmutes "lead" (the dense energies attached to the soul) into "gold" (positive energies which He attaches to the soul)".

The same happens when "the Infinite is raising the frequency of the matter of the dense planet ("ice") Earth, until it reaches the High frequency of vibration, Absolute, of BEING, ("water vapour") passing into the Pure Worlds, in the Infinite Universe, where it was before the Fall, re-establishing Creation".

ANNEX-7 **RETURN TO THE HOMELAND OF LIGHT**
Symphonic poem. A. D' Hertzáurea

Return to the Homeland of Light,
to the Crystal Abodes
Beyond the Stars.
To feel the joy of returning,
To walk again at last
through meadows always in bloom.

And we will walk again
through the Gardens of gold and sunshine
where Love becomes song,
diamond and lily and blue rose.

Back to Home,
to the blue Homeland,
where the fountains radiate their song,
where the flower becomes Peace,
Silence and cradle where Light is born.

O Father, we return Home,
to the crystal worlds
with meadows always in bloom,
where Love becomes song
and the rainbow rose blue.
Where Love becomes song
and the rainbow pink blue.

And at last we shall be arcoris-Light
on the shore-less waves of Home,
and solar angels feeling at last
the firm embrace and tenderness of your Love.

O Father, we return Home,
to the crystal Worlds
with meadows always in bloom.

VOLVER A LA PATRIA DE LA LUZ

Poema sinfónico.

A. D' Hertzáurea

Volver a la Patria de la Luz,
a las Moradas de cristal
Más Allá de las Estrellas.
Sentir la alegría de volver,
de caminar de nuevo al fin
por praderas siempre en flor.

Y volveremos a pasear
por los Jardines de oro y sol,
donde el Amor se hace canción,
diamante y lirio y rosa azul.

Volver al Hogar,
a la Patria azul,
donde las fuentes irradian su canción,
donde la flor se hace Paz,
Silencio y cuna donde nace la Luz.

Oh Padre, volvemos al Hogar,
a los Mundos de cristal
con praderas siempre en flor,
donde el Amor se hace canción
y el arco iris rosa azul.
Donde el Amor se hace canción
y el arco iris rosa azul.

Y al fin seremos arcoris-Luz
sobre las olas sin playa del Hogar,
y ángeles solares sintiendo al fin
el firme abrazo y ternura de tu Amor.

Oh Padre, volvemos al Hogar,
a los Mundos de cristal
con praderas siempre en flor.
