

«FORCED VACCINATION, DELIBERATE BODILY HARM.»

In an interview with Radio München Professor Dr. Stefan Hockertz criticised the mass vaccination scheme apparently planned by the German government. He describes it as intentional bodily harm. Hockertz, like many other experts, also pointed out that the experimental genetic synthetic mRNA vaccine against the coronavirus alters the human genome. Here we agree with Stefan Hockertz. We support his ethical courage.

Professor Dr. Stefan Hockertz is an immunologist and toxicologist. He is managing partner of Tpi Consult GmbH, one of Europe's leading toxicological and pharmacological technology consultancies. Dr. Stefan Hockertz was director and professor at the Institute of Experimental and Clinical Toxicology at the University Medical Center Hamburg Eppendorf from 2003 until the end of 2004. Prior to that, he was a member of the board of the Fraunhofer Institute for Toxicology and Environmental Medicine in Hamburg from 1995 to 2002. From 1986 to 2001 he was a research fellow at the Fraunhofer Society in Hannover. Hockertz completed his first training as a biologist in 1985. He is also Dr. rer. nat. in biology at the University of Hannover, qualified as professor of toxicology and pharmacology at the University of Hamburg, and professor of molecular immunotoxicology at the University Medical Center Hamburg Eppendorf.

In the Radio München interview Hockertz also talks about the concrete effects of mass vaccination against the coronavirus on the population of Germany, with more than 80 million people. This could be extrapolated to the population of other countries.

«The video of the interview with Professor Hockertz has been removed from YouTube, as it has been done with many of the videos which criticise vaccination. This exposes that the so-called pandemic was not a health crisis.»

The crisis originated by the secret society elites and their accomplices was not a health crisis. If there had been such a crisis, governments would have set up

Health Crisis Cabinets comprising doctors, virologists, scientists and specialised health professionals.

The Health Crisis Cabinets would have analysed and studied the action plan needed to resolve the crisis. They would have informed mass media of the measures they considered necessary to apply. They would have requested the collaboration of the inhabitants of towns and cities with the government and health authorities.

This did not happen. The crisis was not a health crisis, which is why the governments disdained the help of renowned and accredited scientists, virologists, doctors and professors from prestigious and world-renowned universities, including the inventor of mRNA technology himself, **Robert Mallone**.

Supported by scientific studies, they called for the suspension of the mass vaccination of millions of children, the elderly, adults, young people and pregnant women with the "*killer vaccine*", as defined by the parliamentarian **Dr. Heinrich Fiechtner**, an experienced haematologist and oncologist, on leave from his seat in the State Parliament of Baden-Württemberg, Germany. World-renowned jurists and lawyers, such as **Reiner Füelmich**, tried to help the Peoples by bringing cases before the **International Criminal Court**.

The rulers, mentally influenced by "them", those of the secret society on the Unseen Plane, disdained this valuable help. Had they accepted them, the secret society elites would not have been able to carry out the diabolical plan they had prepared.

This reality, and the valuable aids offered, were not made public by the governments informing the hundreds of millions of citizens who only get information through the big television networks, because the elites of the secret society infiltrated the boards of directors of the big mass media by the 'injections' of capital provided.

Thus they carried out coups d'état. They acted against constitutional and human rights and freedoms. They used propaganda techniques and clinical psychology through television to create fear and panic in the mental sphere of the population, creating the false pandemic to "legally" inoculate the experimental genetic product synthetic mRNA, which modifies human DNA, to billions of inhabitants, without their informed consent, a product they called "vaccines" so as not to provoke their rejection, which they would have rejected if the citizens had been informed of the ingredients of the genetic "vaccines" and the serious irreversible side effects they would produce, including death. They persecuted scientists and virologists who warned about the dangers of the synthetic messenger RNA gene product, and of the proteins S, Spike, produced by the cells with the "information" of the software designed by the biotech scientists in the Pfizer and Moderna Laboratories. They persecuted and coerced - in violation of the Law and the Nuremberg Code of Ethics - the Non-vaccinated, who did not allow themselves to be "vaccinated" with such an experimental genetic product, knowing the genetic modification that its software would produce in their personal and family genetic heritage, and the serious irreversible side effects, including death, that they would suffer.

In April 2021, Covid's Doctors for Ethics addressed a letter to the European Medicines Agency, in which they earnestly warn: "***We hereby put the European Medicines Agency on notice that it is complicit in medical experimentation in violation of the Nuremberg Code, which therefore constitutes the commission of crimes against humanity***".

A copy of this letter was sent to lawyer Reiner Füllmich, to Charles Michel, President of the Council of Europe, and to Ursula von der Leyen, President of the European Commission.

When this letter was sent, neither in Europe nor in the US was the seriousness of the message considered. Rulers and genetic crusaders went along with their plan, the prearranged roadmap. The major television channels helped to lavish synthetic mRNA punctures left and right, treacherously, without prior informed consent on the parents of children, the elderly, the young, the old, the elderly and pregnant women, at the behest of Joe Biden and Ursula von der Leyen. **Meanwhile, by irreversibly, criminally modifying their DNA - genetic heritage, hundreds of millions of individuals all over the Earth, in the words of Tal Zaks of Moderna, ceased to be God's creation and became the creation of the scientist-programmer, susceptible of being "patented",** causing also the experimental genetic "vaccines" hundreds of millions of serious adverse effects, including deaths, even though we already know that "vaccines" do not work, nor do they save lives - quite the contrary - nor do they prevent infections, nor do they prevent the transmission of covid, an unknown virus, as it has not been isolated or sequenced by the World Health Organisation, the Centers for Disease Control and Prevention, or the Ministries of Health of the countries. Without these official organisations having neither sequenced nor isolated SARS-COV-2, nor having databases of cultures of this virus, it was not and is not possible to certify that the virus found in a sample was the cause of the Covid-19 disease. And yet, high numbers of deaths from covid have been reported without **AUTOPSY**.

In the interview, Hockertz talks about the specific effects of mass vaccination against the coronavirus on Germany's population of more than 80 million people.

«Under no circumstances should these carrier systems ["VACCINES"] pose a danger to people - I deliberately do not say 'to the patient', because it is not the patient, it is the healthy person who receives it - they should not pose a danger to humans.

«We now know from our deliberations that a vaccine that has not been tested according to the rules of the discipline - state of the art, as we say - and therefore has not been tested for a period of 5-8 years and, in particular, has not been adequately preclinically tested. We should therefore expect harm from vaccination. We have to take into account the fact that, regardless of the effects which they can cause on the

DNA or the RNA, due to the impurities, they can cause cancer. These are long-term effects. I would like to talk about the short-term effects. How, for example, these impurities can cause vaccine damage in about 5 per cent of the population or 5 per cent of the people who are vaccinated.

«And this is a figure that I did not invent, but it is a realistic estimate, that we know from statistical areas, of how often side effects can occur. Five percent now seems low, and 'vaccination harm' means that there can be an overreaction of the immune system, the so-called cytokine storm, that there can be false reactions, cross-reactivities, whatever.

But if we now take into account that 80 million vaccinations are going to be carried out in a very short period of time," he said. The Federal Ministry of the Interior, Mr Spahn, has ordered 80 million doses of vaccine, a vaccine that has not yet been approved. And, if we have only 5 percent vaccine damage, then that makes - and I hope the audience can calculate - that is 4 million people with vaccine damage. That is 4 million times bodily harm. That is 4 million times knowing that a vaccine has not been properly tested after three months of deliberate bodily harm. This is a criminal offence.

«If we can now assume and accept that, in the case of these vaccine injuries, in the case of these 4 million people who have been deliberately injured, we can expect an extrapolation of 0.1 percent of deaths. Then we will have to reckon with the fact that the vaccine will be used to prevent the death of a person who has been intentionally injured. [i.e., mRNA VACCINES ARE USED TO "PREVENT" THE DEATH OF HEALTHY PEOPLE, WHO WILL THEN GET SICK AND DIE]. Forcing 83 million people to be vaccinated through the emergency laws - and this is what is being talked about - means that if only 0.1 percent of them die from this vaccination, and this is quite realistic, [...] then we have 80,000 deaths.

«Eighty thousand deaths is the extermination of a city like Constance [83,789] or Bamberg [77,592 inhabitants. And here I must say: If I do this knowing that such a vaccine is poorly tested, insufficiently approved and I agree to wipe out a small town like Constance or Bamberg, then there is not a single reason in this world that justifies this."
