

[FRAGMENT OF 'MESSAGE FROM THE STAR BROTHERS TO HUMANITY.'

"JUPITER, THE NEW SUN OF THE SOLAR SYSTEM."]

I, Yosúa, spokesman for the Cosmic Forces manning the Earth-circumnavigating ships and fleets of ships stationed in the *Kuiper Belt*, and of the troops on the face of the Earth, give to Humanity this Message through our spokesman on Earth and channel of the Father of Heaven and of His Son, the Corregent of Infinity, who incarnated on Earth was Jesus of Nazareth, Whom we serve.

It is necessary to ignite the Flame of Hope in the sons and daughters of the Father of Heaven incarnated on Earth, abandoned to their fate at the end of this cosmic Cycle, the Peoples submerged in the continuous and diverse adverse events that have been happening, in the action of cleansing by the Elements of Fire, Water, Earth and Air of the magnetisation, Water, Earth and Air of the contrary magnetism that has been contaminating the face of the Earth, and by how much millions and millions of inhabitants have been suffering from what has been caused by rulers who act contrary to the Natural Law, inspired by the Infinite since ancient times. Few rulers feel the beating of the hearts of the citizens of the Peoples they govern. The complicit media hide the truth, distancing themselves more and more from the People, who are already aware that their current ills have their origin in the ethical refusal of the professionals of journalism to fight for the rights and liberties of the citizens. ***What is the sense, if not, of the institution of the free press, and not the one that 'sings', amplifies and supports the nefarious action of the rulers?*** The bread they eat today will be the hunger of tomorrow.

Un-Love has been magnetising the face and atmosphere of the Earth with infinite fields of dense energy constituting the dark density of this world, contrary in its minute frequency of vibration to the Absolute frequency of vibration of Light, turning "they" and their seduced instruments the planet Earth into the homeland of un-Love, causing the inexorable collapse of this anomalous civilisation, unique in the Finite Universe.

"They" are the ones who create wars for God's children to kill each other, destroy homes and workplaces, cause endless suffering, lie and experiment with genetic products on them, causing deaths and new diseases without possible treatments. They have wrongly educated generations after generations to be at permanent war against animals, plants and Nature in general, torpedoing Mother Earth, the cosmic ship in which they sail the Solar System.

It is necessary to sow Hope, to bring Comfort to the infinite number of human beings, shipwrecked in the oceans of pain and endless suffering, of which the mass media do not speak.
