

«WE ARE STATE »

*"I, the Infinite One, inspired My children of Earth in ancient times to create the State as a social unit of organised coexistence as long as they remain incarnated in Earth bodies as a human species".*

«We are the State. Every citizen is a State. We are the foundation of the State and its Institutions. With inescapable duties to fulfil anonymously that have repercussions for the good of each and every citizen-State, whether we know each other physically or not, for the common good of the Social Community-State.

«A territory without inhabitants is not a state. Therefore, every man and woman, citizen-State, as a political and social subject, can affirm :

"I am State."

« Those who threaten the life, health, rights and freedoms of citizens-State, the inviolable property of their bodies, threaten the State, which is Us, Natural Law and the Rule of Law.

We are the foundations of States: a territory without inhabitants is not a State.

The architects of the false pandemic have been attacking us, the foundations of the States. Thus they have attacked the Sovereignty of each State, as a unit of organised social coexistence inspired by the Infinite since ancestral times.
