

ANALOGIES, TOOLS FOR IDENTIFYING DENSE ENERGIES.

Achieving perfection is the Goal. It is necessary that no dense energies attached to the soul vibrate at low frequency. Perfection is achieved when the soul vibrates at the High frequency of vibration of the SELF.

This is why we say that **it is a priority to investigate the low frequency vibrational energies attached to the soul.**

Priority is to give these energies to the Christ to be raised by Him to the High Frequency of vibration of the SELF, which is Absolute. It is the frequency of vibration of the Higher Worlds, the frequency of the **Cosmic Realm of Eternity** where time and space do not exist.

It is a priority that the soul be cleansed of the dense energy fields attached in this or other incarnations. There are reasons for this priority.

It is necessary, therefore, for **man to investigate himself and find the dense energy fields attached to his soul - which we have also been calling "*lead*" energy - and give them to the Christ to be raised by Him to the High Frequency of vibration of the SELF.**

This high frequency vibrational energy - which we have also been calling "*gold*" energy - is attached to the soul, raising its Light potential. This high vibrational frequency energy in turn radiates into the body in which the soul has incarnated.

If man **does not investigate the dense "*lead*" energy fields , it continues to multiply.** The **emit-receive principle** is well known to the demons.

This means, for your understanding, that for every grain of "*lead*" energy sown, an ear of "*lead*"-grains is harvested.

In turn each ear of "*lead*"-grain emits and receives in low vibrational frequency.

Then, without freeing the soul from the attached dense energy fields, **the soul cannot reach the High vibrational frequency of the BEING.**

Therefore, it cannot be attracted to the **Primary Central Sun of the Pure Worlds**, nor will it pass through the **Portal of Roses** into the **Homeland of Light**.

In addition to **using any of the 3 METHODS** outlined in Chapter 19 of "*Between Ether and Earth*" to investigate the dense energy fields of low frequency vibration attached to the soul, it is also necessary to use the effective **TOOL "ANALOGIES"** for man to observe his own reactions when he sees or hears people with whom he lives, works, or comes in contact at any time or place.

[In the **Annex** we include Chapter 19 of "*Between Ether and Earth*".]

ANALOGIES" are dense energy fields attached to the soul, emitting and receiving at a certain frequency of vibration.

To understand how to discover *camouflaged* dense energies, attached like magnets to the soul, we start with an example, *the functioning of the EMITTER of a known Radio Channel, and the RECEIVER of a radio at home or in the car.*

We begin:

- **A BROADCASTER** of a known Radio Channel broadcasts on the frequency **88.2 FM**.
- **A radio RECEIVER**. The broadcasted music is heard in the **RECEIVER** because its **DIAL** is tuned to **88.2 FM band**.

Having understood this, we now **move on to explain how an "ANALOGY" shows itself to you**. We turn to you, who are reading:

- The **EMITTER** broadcasting on 88.2 FM could be the person who, as you turn a street corner, you see doing something not right: The dense energy field of the not right thing he is doing is broadcasting on the frequency 88.2 FM.

. You are the radio **RECEIVER** with the dial open at **88.2 FM.**

-If you go to this person, and gesticulating you shout: " ***This is not done, I will call the police*** " , this means that **you, the RECEIVER, have attached to your soul a dense energy field analogous to the wrong thing.** That is, you have attached to your soul dense energies that vibrate at the same frequency (88.2) as that **wrong thing** done by this person.

That energy field is an "ANALOGY". You recorded it in your soul in any previous incarnation, or in this one.

The engraving in your soul is related to the words of Jesus of Nazareth:

"He who is clean from guilt, let him cast the first stone".

He said this to those who wanted to stone the adulterous woman.

At that time Jesus of Nazareth said this to them because he ***saw in the souls of those who wanted to stone the adulterous woman that they had also committed adultery. And these energies attached to their souls vibrated at the same vibrational frequency as the energies that the adulterous woman they were going to stone had engraved in her soul.***

This explains what an ANALOGY is.

If you reflect and feel that you may have engraved in your soul **dense energies - "lead"** analogous to the **wrong done by this person,** and you give them to Christ, then He takes these energies and raises their vibrational frequency, which would be symbolised by **Christ** transforming *the "lead" energy you have given Him* into *"gold" energy.*

If that energy field were not etched in your soul, when you saw **the wrong thing** this person was doing, you might have said to him, in your calm mood:

Do you know that it is not right what you are doing? And you would go on your way, because your soul dial was not on the same vibrational frequency as the wrong thing they were doing.

The fact that a person courageously acknowledges that dense energies **ANALOGOUS** to the wrong done by another person are engraved in his or her soul **is a litmus test to be overcome** in order to continue ascending the rungs of the **Cosmic Ladder**. It is necessary to clear the soul of dense energies of low vibrational frequency.

There are people who, when they get excited or shout at what they see or hear their fellowmen say at work, in the family, or when they drive their vehicles, do **not recognise that they have analogue energies engraved in their souls**.

ANALOGIES are sources of conflict, dense energies engraved in souls, which should be transformed in time.

In families, conflicts arise between parents and children because dense, analogous energies, which parents and children have engraved in their souls, come into vibration.

We expose:

- **Genes emit and receive.** Parents transmit their genes to their children, with positive and non-positive programmes, which they broadcast and receive, just like Radio Transmitters and Receivers.

The children react in a non-positive sense to the words, gestures or deeds of the parents. There are times when parents react with *strong* words directed at their children because of what the children have said or done.

Relationships become strained between parents and children when children do not listen to, *or do what the parents want, because* **the parents often reprove, and with "strong" words, what the children say or do.**

There are times when **children hold up a mirror to their parents:**

1. Conflicts between parents and children can arise because parents do not set an example for their children.
2. Because parents demand from their children to do what they do not do themselves.
3. Because the parents get angry with the children for what they do or say, **caused by active programmes in the genes, which the children have inherited from the parents. Then the parents have those same programmes active.**
4. There are heated arguments between them.

Who steps forward and acknowledges their share of the blame for the conflict?

Whoever always blames someone else for the conflict between them, **is because they DO NOT WANT TO ACKNOWLEDGE THEIR SHARE OF FAULT IN THE CONFLICT.**

Problems between parents and young children are largely caused by programmes passed on in the genes to the children, which the parents also have.

They vibrate on the same frequency of the "dial" on which the **transmitter** of the parents and the **transmitter** of the children broadcast.

The same frequency is received by the **Receiver** of the parents and the **Receiver** of the children.

If parents would recognise that they **have passed on in their genes to their children the programmes which they have, and received in turn from their parents, the grandparents of their children, they could give them to the Christ.** And the dense, non-positive energies would be transformed by Christ.

The family confrontation would disappear. As the genes of the parents would cease to emit, they would not vibrate or emit the genes of the children.
