

MESSAGE FROM THE BROTHERS OF THE STARS GIVEN TO HUMANITY DURING THE COLLAPSE OF THE CURRENT CIVILIZATION.

7. Humanity has not kept the Commandment "Thou shalt not kill".

Since ancient times mankind has been breaking the Golden Ethical Rule manifested in the Commandment "**Thou shalt not kill**". Man has killed his fellow man, not only in wars.

Killing" has been created by Darkness. Millennia and millennia ago, souls of demons incarnated in human bodies. By their continual examples they induced those who already inhabited the Earth to fight among themselves and to kill their fellowmen, to darken their souls more and more, and to create with the projection of their mental waves the dark density in the atmosphere of the Earth, negatively magnetising whatever existed in the settlements in which they lived, which were also used as magnetic bases of attraction.

In the course of millennia, with the fighting between "them" and the seduced against their fellows, killing them, and killing animals, with the emitted vibrations they caused mutations in the genes of the peaceful herbivorous animals of their surroundings, which became aggressive, killing other animals, producing the mutations of their genes changes in organs of their bodies and digestive systems.

These vibrations of fighting and killing emitted were constituting the dark density of the planet, which in turn, reinforced, emitted through the Earth's atmosphere, so that many other animals of the land, water and air began to undergo over long periods of time mutations in their genes, and thus in organs and systems of their bodies caused by the change of diet.

In the course of the generations foreseen by the Father in Heaven, the irradiation of the luminous souls of the sons and daughters of God who form the New Humanity, with their living in peace and unity with animals, plants and Nature in the course of the Kingdom of Peace, will bring about changes in the genes of the carnivorous animals.

As the prophet Isaiah 11: 6-7 announced: "*The lion shall dwell with the lamb, and the leopard shall lie down with the kid, and the calf and the lion shall eat together, and a little child shall lead them. The cow shall graze with the bear, and the young of both shall lie down together, and the lion, like the ox, shall eat straw*".

The demons knew and know that the Father of Heaven and the Corregent of Infinity can radiate His mighty Light into the dark density of the Earth through the Nuclei of Being of the souls, if these were not covered by veils of dense energies. **Into these Cores of Being the demons cannot penetrate, for they vibrate at the High Frequency of Being, and "they" at the lowest frequency of vibration.**

"They" knew and know that the animals are pure, and the Father and Christ radiate His Light into the dark density of this world through the Life-Cores of the

thousands and thousands, billions and billions of animals that fly, live on land and in the inland and sea waters.

They knew and know also that the Father in Heaven and Christ radiates His Light into the dark density of this world through the Life Essences of the small animals of various degrees of evolution and development, and through the Essences of primary development of the thousands and thousands and thousands and thousands of billions of very small beings that act within the farmlands, transforming organic matter, fixing nitrogen and all that is necessary to fertilise, sow and nourish man with his fruits and seeds.

The Nuclei of Life and the Essences of Life cannot be penetrated by demons either. They become like mirrors through which the Father and Christ radiate His mighty Light, like countless billions and billions of radiant "fireflies" piercing the dark density of the Earth created by the demons, their accomplices and seducers.

Among these radiant "*fireflies*" are the millions and millions of radiant "*fireflies*" suffering and dying in the countless Animal Experimentation Centres, and in the "production centres", radiant "*fireflies*" in caged bodies, or subjected to experimental aids. Radiant "*fireflies*" in bodies marketed and accounted for, with which they supply the Experimentation Centres scattered all over the Earth, who purchase their specialised commodities: *anonymous brothers in Life located outside the consciousness and hearts of the vast majority of Humanity, who suffer during the thousands of billions of night and day minutes of their existences. Many as "producers of experiences" with which they fill pages and pages of their brainy intellectual theses, necessary to hang their titles in offices and homes.*

Other "*fireflies*" in anonymous bodies have been used to endorse the production of medicines by multinational pharmaceutical companies, even though in certain experiments the results are different in males and females of animals of the same species.

We bring to the consciences of the sons and daughters of God all over the Earth the suffering and death of millions and millions of little brothers and sisters in Life in the Experimentation and Production Centres. In these Centres, infinite fields of dense energy have been and are being generated, containers of "lead", which "they" and their instruments have been storing in the holds and on the deck of the same ship of the civilisation of lovelessness that has been producing and is producing them, contributing to its own sinking.
